# A Look Back

FROM the beginning of our lives, we have always taken steps forward. Our Academy career is a journey to carry us forward. The disciplines of the austere regulations and rigorous schedules aid our movement toward graduation and well beyond. All the events we share in the classroom, on the drill field or in the hall are the steps we take. As we look around us, even at our own uniforms we can see the footsteps of those who have walked ahead of us. Rarely we stop to take the time to appreciate their gifts. We, as midshipmen, only try to live for the next day. Now is the time we should look at ourselves and what we have become by taking

A Look Back.

# A Look Back

THINK of all the buildings that we live and work in. How many midshipmen passed through those doors? Bancroft and Mahan Halls are two of the oldest edifices still used on the yard. We see the architecture that Flagg designed, functional even to the present day. Since the early 1900's the Academy took on the distinctive look of higher learning with its granite walls and ornate eaves. Through these walls traditions and lifestyles have evolved making an impact on the shape of the midshipman's life.

# A Look Back

WE are engineers and scientists always striving to learn more about the technical world that surrounds us. Our core curriculum includes calculus, chemistry, physics, naval science, history, and english, all to produce a well rounded naval officer. From the long hours of chemistry and electrical engineering, to the not so long hours of navigation and shiphandling; midshipmen understand the meaning of hard work. Dedicated to excellence, we understand our role to achieve our very best.

# A Look Back

MIDSHIPMEN are not just students but poets, musicians, athletes and comedians. Within the halls of Bancroft, we take in our individual personalities, our own dreams and hopes, and share them with our circle of friends. From Friday night pizza parties and splash drives, to X-week exam all-nighters, this little eco-system nurtures the right of passage that all midshipmen must travel. In our travels, our friends become our family, people you will always have for support.

# A Look Back

EACH day begins before the sun rises and does not end until well after dark. It is during these hours we learn to expand our horizons, especially our souls. From running around the yard to running around the hall, mid-staymen use every minute wisely. Through extra curricular activities and athletics we manage to appease our thirst for a full schedule. Working together becomes the norm. Instilled from day one, teamwork has become the foundation of our lives to carry us through today and every tomorrow.

# A Look Back

PROFESSIONAL development is a large part of our life at the Academy. It is this kind of development that prepares us for the rigors of what lies ahead. The struggle between the academics and the training have always been present in our daily lives. On the drill field and in the classroom we learn from the experts the meaning of leadership. The Academy provides us the classroom needed to make decisions, make mistakes, and then learn from the past not to repeat in the future. We, the leaders of tomorrow, shape the future that lies in our hands today.

# A Look Back

MEMORIES live deep within our hearts and minds. From the good times to the bad times, we all shared a part of our lives with someone special. It may be a close friend, family, or sponsor, but in every case, memories were made. The Lucky Bag tries to capture these important moments of our lives at the Academy. Although we can not capture every moment, we wish to paint a picture of this year using the colors of the Brigade. As we take a look back into the past we see what others have left behind to guide us into the future.

## *A History of The Academy*

# FROM THE GROUND UP

The history of the Naval Academy extends as far back as the 1800, when President John Adams made the first recommendation to Congress for the founding of a naval school. Unfortunately for Adams, as well as his successors, there was too much opposition to the founding of a naval school, similar to the Military Academy established at West Point in 1802. Until the establishment of the Naval Academy, midshipmen were supposed to be educated by a school master, one of which was embarked on every frigate. Needless to say, the quality of education and attendance was poor.

Progress was made when, in 1839, a Naval School was established at the Philadelphia Naval Asylum. The course of instruction was to last one year and to be mainly a means for the Midshipmen to pass his Commissioning exam as a Lieutenant. The famed mathematician William Chauvenet was named head of the Naval School on 1 April 1842. In the following years, Professor Chauvenet proposed a two-year program instead of a one year program, and attendance was mandatory. This proposal, while originally approved, never made it beyond the development stages.

It was not until the appointment of George Bancroft as Secretary of the Navy that the Naval Academy came into existence. Secretary Bancroft heard of the hanging of Midshipman Spencer, young son of the Secretary of War in 1842, for planning a mutiny on board the Navy School ship Somers, he determined that a shore school should replace the school ship.

Secretary Bancroft wrote to the secretary of War, William L. Marcy, requesting the transfer of Fort Severn in Annapolis, Maryland, to the Navy Department on 6 June 1845. The favorable reaction by Marcy, who was the father of Passed Midshipman Samuel Marcy, an instructor at the Naval School, gave Bancroft the go-ahead to approach President James K. Polk, who gave his approval of the idea on 16 June 1845. The next step in the process of establishing the Naval Academy was selling the idea to the Naval Board of Examiners, the senior ranking officers in the Navy.

# THE EARLY YEARS

Bancroft "sold" them the idea by presenting the school as an established fact and consulting the Board to establish the location and nature of the school.

After a twelve-day consideration, the Board decided that the location of the school would be at Fort Severn. This was mainly due to the lobbying of CAPT Issac Mayo, an Annapolitan. The Board also set the following provisions to be met by the Naval School:

- i) that at the age grade of naval cadet be between the ages of 13 to 15 and the appointment of the naval cadets resemble that of the Military Academy
- ii) a practice frigate and small steamer shall be located at the school for practical instruction
- iii) the program be a total of six years, two years of study, followed by three years at sea, followed by a year at school aboard the practice frigate before taking the Lieutenant's exam
- iv) with the exception of calculus, the course of instruction will be identical to the Military Academy's
- v) and lastly, that an Academic Board be established consisting of three persons appointed by the Secretary of the Navy to conduct an annual examination of the Naval Cadets

On 5 August 1845 the Secretary of War consented to the transfer of Fort Severn to the Navy Department, which was officially executed on 15 August 1845. Bancroft was able to obtain the necessary funds to establish the school by discharging half of the Navy's twenty-two mathematics instructors and using their salaries as the monetary basis of the school.

Commander Franklin Buchanan was charged with the duty of establishing the Naval School at Annapolis. On 3 September 1845 Buchanan assumed command. Of the instructors assigned to the school, the most important were the Executive Officer, Lieutenant James H. Ward, who was also to instruct the midshipmen seamanship and naval gunnery, Passed Midshipman Samuel Marcy,

## *A History of The Academy*

Professor William Chauvenet, and H.H. Harwood. Assembling the staff and the student body on 10 October 1845, Buchanan established the Naval School.

The following years were hard times for both the faculty and the student body. One of the problems was determining where a midshipman should be placed. The midshipmen ranged from in age from 13 to 28. The problem was resolved by placing the midshipmen by "dates of entrance" as a midshipman, with date of 1840 being the first to graduate in 1846. Richmond Aulick was ranked first in 1846, thus becoming the first "official" graduate of the Naval Academy.

On 1 July 1850, as part of a reorganization by the Naval Board of Examiners, the Naval School was officially designated the United States Naval Academy. Other changes were made which affected the course of study and the organization of the Academy. The course of instruction was lengthened to a two-year term at school, followed by three years in the fleet, followed by another two years at school. Entrance examinations for admission were established in October to be administered once a year. The Academy was also placed under the jurisdiction of the Bureau of Ordinance and Hydrography, though the Superintendent still reported to the Secretary of the Navy on discipline. The Superintendent was also made president of the Academic Board. The Executive Officer became the Commandant of Midshipmen with the responsibility of instructing the midshipmen in naval tactics and seamanship. At this time came the "striper" organization for the midshipmen. Rank among midshipmen was determined according to their date of appointment to the Academy. The midshipmen were organized into gun crews and companies for infantry drill. The gun crews were led by a first captain. They marched in battalion formation. Mandatory formations began as well as the ICOR (in charge of room) system for maintaining the cleanliness and uniformity of the rooms. A new ranking system

# AS FAITH GROWS

was established with grades from 0.0 to 4.0 with a minimum of 2.5 needed to pass. A Board of Visitors was created. Composed of senior line officers and the chief of the Bureau of Ordinance, the Board was established to conduct a yearly inspection and make appropriate statements to the Superintendent and the Secretary of the Navy.

The year 1851 saw the course of instruction change once again, this time to a four-year course with a summer cruise. It was also established that only those who graduated from the Academy could get Midshipmen Warrants. The Naval Academy became the sole source for naval officers until 1917. Another change came from Congress. Congress gave itself the privilege of appointing midshipmen to the Academy, taking the power away from the President and the Secretary of the Navy.

During the late 1840's and 1850, the midshipmen found it increasingly difficult to get past the rank of Passed Midshipman to that of Lieutenant. This was due to fact that the ranks were filled already with officers who had often been at the same rank for up to ten years. The Navy was not known for rapidity in promotions. Thus, in 1850, no midshipmen could be appointed at the Academy or in the Navy. It was not until the Civil War that the problem went away.

During the Civil War, the Academy moved temporarily to Fort Adams at Newport, Rhode Island. The first midshipmen to resign because of the conflict was W.E. Yancey of Alabama on 15 January 1861. By April 25 the Academy had finished preparations to move and, by May 13, the Academy was once again operating. There were improvements made during this period. LT, later RADM Stephen, B Luce wrote an instruction on seamanship which was used for many years by the Academy. The Academy returned to Annapolis on 11 September 1865 under the superintendency of RADM David Dixon Porter.

Due to the war, many repairs had to be effected, and many new

buildings were also erected. Under Porter's directorship, the Academy once again saw a period of reformation. Porter established the honor concept and encouraged athletics. The organization of midshipmen was changed to four divisions of five gun crews each. The battalion commander's rank was that of cadet-lieutenant, that of the division cadet-lieutenant, cadet-ensign, and cadet-midshipmen, the rank of the gun crew commanders that of first captain and second captain. In 1865 a Marine detachment was permanently assigned to the Academy. Porter also made graduation week a season of festivities with dances, parades, and athletic events.

The class of 1867 was the first class to be designated by its graduation year as well as adopt a class badge and class colors. In 1869 class rings were first introduced. In 1870 Congress changed the title of the academy students to cadet midshipmen.

The year 1873 was an interesting one for the Academy. Albert A. Michelson graduated from the Academy and following a two year sea tour returned to the Academy where he made his initial experiments on the speed of light. He was the first American to receive a Nobel Prize. A number of officers met to establish a society where a discussion could be held on important naval matters. The result of this meeting was a record of their meetings transcribed for those members not present.

In February 1874, Congress abolished the two year engineering program established under RADM Porter and established a four year course for twenty five cadet engineers. To provide the curriculum for this programs, a Department of Mechanics and Applied Mathematics provided the first mechanical engineering course in the United States.

The Paris Exposition of 1878 presented the Naval Academy with a certificate for "having the best system of education in the United States."

Congress passed the Personnel Act in August 1882. This act

## *A History of The Academy*

# THROUGH THE WORLD WARS

was established to reduce the number of officers or passed midshipmen due the glacial promotion following the Civil War. The act stated that commissions in the line, engineer corps, and the Marine Corps were limited to the number of vacancies in the preceding year. Those to be commissioned would be determined by class standing. Those who were not commissioned would receive their diplomas and a year's severance pay (\$950). The act also abolished the titles of cadet-midshipmen and cadet-engineer and made everyone a naval cadet.

Under the superintendency of CDR W. T. Sampson, engineering studies were reestablished. No distinction was made between the engineers and the "normal" cadet until first class year. This policy was in effect until 1899 when the Navy abolished the distinction between line and engineer corps. Sampson also created the aptitude for service grade. There was also a renewed interest in athletics. 1890 saw the creation of the Navy Athletic Association by Robert Thompson. This was also the year of the first Army-Navy game which Navy won 20-0 on November 29. By 1891, the Naval Academy Athletic Association was formed under the directorship of CDR Colby Chester. 1892 saw the introduction of the present school colors of blue and gold.

In 1895, Robert Thompson directed Ernest Flagg to develop a master plan for the buildings and grounds of the Academy. Thompson then prodded the Secretary of the Navy to appoint a Board of Survey which, in 1896, endorsed Flagg's plans for the most part.

1898 was the year that Benjamin Park designed the Academy's seal and introduced its motto-Ex Scientia, Tridens.

The early years of the twentieth century were ones of change of the Academy. On 1 July 1902, Congress reestablished the title of midshipman to students of the Naval Academy. 1903 was a year of expansion: the battalion with four companies was enlarged to eight companies. On 12 May 1912 Congress eliminated the

requirement for midshipmen to perform two years probationary sea duty and provided the midshipmen that their diplomas and commissions would be given at the same time. There was also an increase in varsity sports. Basketball became a varsity sport in 1907, and swimming in 1911. Extracurricular activities also gained popularity. In 1907 the Academy's theatrical productions came under the auspices of the Masqueraders. The Musical Clubs was also formed. This was an all encompassing club

In terms of professional development, the Academy was up to date. The Navy's first submarine was stationed at the Academy from 1900-1915. Aviation came in 1911 with the establishment of an aerodome at Greenbury Point.

From 1914 through the end of World War I, the size of the Academy's student population, increased significantly. In 1914, the organization of the midshipmen was restructured into a regiment of four battalions with three companies per battalion. In February 1916, the size increased from 1094 to 1746. With American entry into World War I, there was an urgent need for naval officers. To meet the demand Captain Elberle started a ten week course for reserve line officers in May 1917. Upon the successful completion of that course, it was extended for 16 weeks for the duration of the war. This program allowed the Navy to meet its need for an officer corps. But it was the Academy graduates who formed the nucleus of the officers in the fleet, though they were a minority.

When RADM Henry B. Wilson was Superintendent, a number of reforms were undertaken. Christmas leave was reinstated, something not done since 1848. He also instituted Easter leave. The first class were extended various liberty privileges and all classes were allowed to smoke, play cards and subscribe to newspapers. A radio club and Trident Society were organized. The service coat of the midshipmen became the same as the double breasted service coat worn by the officers, reducing the midship-

men expenses by letting him wear the coat after graduation.

In 1923, the Department of Physical Training was established. In 1925, the Hellcats were the forerunners of the Drum and Bugle Corps. They marched at formations and parades. This was also the year that the hymn "Navy Blue and Gold" was adopted as the Naval Academy's alma mater.

The Naval Academy became accredited by the Association of American Universities in 1930. Thus, the degree of Bachelor of Science was bestowed upon Naval Academy graduates. In 1939, Congress bestowed the degree of B.S. upon all living graduates retroactively.

The Naval Academy went back to a wartime schedule with the start of World War II. Beginning with the class of 1941, graduation was accelerated with 1941 graduation in February 1941, the class of 1942 graduated in December 1941. A three year curriculum was established for the Classes of 1943 to 1945. The reserve officer program of World War I was reconstructed to have 100 percent participation.

Of the Naval Academy graduates who participated in World War II, 27 won the Congressional Medal of Honor, 18 of whom received the medal posthumously.

The post-World War II era to the present saw the Academy change to its present form. 1947 was the year that the Academy was Accredited by the Middle States Association of Colleges and Secondary Schools. While RADM Holloway was Superintendent, midshipmen were allowed, as first class, to own cars and it out side the seven mile radius of the state house, drink alcoholic beverages. In 1949, the first black, Wesley A Brown, graduated from the Academy. In 1959, the Superintendent, VADM Hill, established the custom of designating Medal of Honor rooms in Bancroft Hall. The first Open House for parents of fourth class was held and there was an addition to the mess hall, such that it could now accommodate 4000 people. Operation Information was started to

try to counter the lack of interest in the Academy during the Superintendency of RADM Walter Boone. In the 1958, the Academy stopped using its own entrance exams and started using those of the College Education Examination Board. RADM Davidson stopped the lockstep curriculum during the period of his superintendency. In August 1963, an Academic Dean was established at the Academy, the first being A Bernard Drought.

The graduating system was changed more in 1964-65 to letter grades to give the graduates more competitiveness in getting into graduate school. The Class of 1964 had the first Trident Scholar program. 1965 was the year in which the Dean of Admissions position was created. The number of companies increased from 24 to 36, reducing the size from 175 to 115. The majors program was put into effect in September 1969 to bring order and continuity to the minors program and the engineering program.

The seventies saw the Academy become a co-educational institution when the first females were inducted to the Class of 1980 on 9 July 1976.

With the introduction of women to the Academy, there have been many changes. From room assignments to athletics, the presence of women refined the grounds. After the initial transition, women have been appointed to high leadership positions within the Brigade. In the fall of 1991, Julianne Gallina became the first woman Brigade Commander. The landmark of women at the Academy continues through today as more women get the opportunity to command. With the ever changing world around us, the Academy continues to change, keeping up as history is being made.

This briefly is the story of an institution which through six major wars has continued to furnish the core of line officers to the naval service so essential to the defense of our way of life. She is a proud school, the mother of a proud service. The responsibilities to retain this pride rests with YOU; remember this whenever you appear in the uniform of a midshipman of the United States Naval Academy.

# Plebe Year

Plebe year started on July 3, 1989. From there times went by fast. From high school, prep school or the fleet, the class of 1993 entered a new era of military life. We chopped, knees high, braced up, chin all the way in, making sure we were good little Plebers. To relieve the stress of plebe life we rumbled and wildmaned our upperclass. Finally we flamed on our firsties and climbed herndon, all ready for youngster year.

# Youngster Year

Youngster summer found exciting cruises, from Norfolk to the Mediterranean, surface training to sub-surface training. From cruise the academic year came too soon. Back with friends and company-mates, we took full advantage of our new found freedom. From long rack sessions to having the 3/C come-arounds, youngster year made history. Preping up for the next year, learning rates all over again, but of course we never forgot them to begin with, or did we?

# 2/C Year

Second class summer ended after ACRAMID and PROTRAMID, returning gung pups to a newly organized Brigade. Changing companies and changing leadership style was on the agenda for the new year. Beating Army to beating EE, we knew we could do it. Flame sessions ended in positive repremand as Two for Seven celebration continued to dipping our rings.

# Firstie Year

Firstie year brought intersessionals and more lectures than Alumni Hall could schedule. From Service Selection on a SATURDAY to ciinderella libs all year, we knew how to manage our time wisely: from afternoon out in town to weekends on the slopes or waves. Finally in May the last finals were taken, Blue Angles canceled, Color Parade went outside and we threw our hats after four hard years.

First class summer gives mids the chance to experience the options open to them after graduation. These experiences include Aviation cruises, grey hull cruises, Baltops, Bulldog, and CSTS. Here, James Fritsch demonstrates that CSTS cruises are as much fun as they are work, while I/C at Bulldog learn that their summer may be more work than fun.

# I/C Summer

Cyndi Viernes and Lillian Villemetz had the opportunity to learn what it is like to be members of the Norwegian Navy on their Baltops cruise during I/C summer. At the same time, I/C Erik Eldridge experienced Marine Corps life in the Fleet Marine Force.

## 2/C Summer

Second class mids have many opportunities during their summer to experience the different branches of the Navy. During Protramid 2/C learn about submariners, pilots, and marines. Julie Rosati spent part of her summer with the Swedish Navy while 2/C Ahmed Williamson tried life at Pensacola..

During their summer, 2/C spend a lot of time discovering the excitement of travel in the Navy. This travel may be between training evolutions, from Pensacola to Kings Bay, Quantico to relaxation.

# 3/C Summer

While 3/C Carl Cox demonstrates his sailing ability on a CSTS cruise, his classmates show their abilities at living the Marine Corps way of life.

# Inaugural Parade

**T**welth company was given the unique opportunity of representing the Naval Academy at the Inaugural Parade of President Bill Clinton.

O n the day of the Inaugural Parade all of Washington D.C. was dressed up to honor the new Commander in Chief.

This day usually begins with a haircut the new plebes won't soon forget. After an endless whirl of activities, the plebes will get one last chance to say good-bye to their families and friends. It is a touching moment especially since the plebes know that they have a long summer before them and Parent's Weekend.

# Induction Day

A proud plebe mother adjusts her son's dixie cup after a long Induction Day. It's been a tiring day for these plebes, one which starts with basic plebe issue and continues until the administering of the Oath of Office.

# Plebe Summer

Plebes start out every "Great Navy Day" on the turf field at PEP, the Naval Academy's physical education program. No day is complete without it. As their day progresses, they learn such valuable skills as damage control and drill. On this page a plebe demonstrates the fireman's carry on a classmate.

Plebe summer is a lesson in discipline and endurance. Plebe summer parades are an integral part to mastering military discipline. Companies, like 27th company, work together to clear the hurdles they experience daily. There is even time to learn the basics of sailing.

First and second class detailers are as important to plebe summer as the plebes themselves. Without them the summer would never run smoothly. Here, 1/C Schnelle joins his plebes in PT. 1/C Zallnick keeps a close eye on her plebes. 2/C Jasso and his classmates help plebes get their issue on I-Day.

# Plebe Detail

Detailers are in charge of making sure that each new plebe is prepared for the return of the brigade and the academic year. Included in their duties is the instruction of plebes in drill. Not only must these upperclass oversee drill, but also every evolution in which the plebes participate, from formation to PT sessions, and everything inbetween.

**P**arents' Weekend gives plebes a chance to show Mom and Dad how well they have adapted to the Naval Academy way of life. Plebes demonstrate a new found pride and professionalism to proud parents. It's been hard work for the plebes to get to this point and they are eager to share their experiences with loved ones.

# Plebe Parents' Weekend

# Return of the Brigade

With the return of the brigade the plebes get their first opportunity to impress their upperclass not only at drill, with their last plebe summer parade, but also in the hall with their knowledge of pro material and rates.

The event also means moving into rooms again-as 2/C Eric Naranjo demonstrates. Today, the return of the brigade is a lot different than if you look back to 1982 and see this plebe's first look at his new second class.

# 1/C Parents' Weekend

**F**irst Class Parents' Weekend means everything from football games and tailgaters to taking parents to classes and meals in King Hall. Parents get a chance to experience what their mid goes through on a daily basis and gain an appreciation for life at the Naval Academy.

Parents checked in at Dahlgren Hall prior to meeting their son or daughter for the weekend. 1/C Dan Houting with his roommate 1/C James Fritsch enjoy tailgating with family and friends. 1/C Kelly Eubanks and company-mate 1/C Melanie McGee toast their parents for the love and support during the years at the Academy.

Tailgating is not only a time to celebrate a Navy victory, but more for the company of friends and family. Many 'gaters welcome all midshipmen even when designated by class or company.

Friends get together to share the good times after football games at Navy-Marine Corps Memorial Stadium. Many travel far to see their friends and many are found locally, either way, tailgaters are a time for all to enjoy.

# Tailgaters

The fine art of cooking has been mastered by many midshipmen, especially the wardroom reps who double as the tailgater reps also. Parents join their midshipman at the tailgaters, here a proud mother displays the class crests of her three midshipmen.

Autumn means the beginning of a new school year. There are football games to attend, tailgaters, and Homecoming Weekend. Autumn also means that the Dark Ages are not far away, this makes mids appreciate the season all the more.

# Autumn

# March-Ons

Midshipmen smile in eager anticipation of yet another exciting Navy Football game. D&B still marches over keeping a beat for the Brigade.

A
 here are many traditions here at USNA. One of the many traditions that midshipmen try to continue is the distribution of candy to the younger spectators of march-overs. Throwing dog bones to the canine of Annapolis has become a recent addition to Navy march-over traditions.

After a long, hard day of classes is over sometimes the only relief for a full brain is a quick nap. Any mid knows that. Mids, like 3/C Mark Neff and Jim Gillis, know the value of studying out of the hall. And to whom does one go with questions? The mate of course!

# Study Hour

A tired 2/C hopes that closing his eyes might help him to retain Tactics. Another 2/C knows that just getting an answer to EE problems is an accomplishment, never mind that it might not be the right answer! And sometimes when studying doesn't work, a little Calvin and Hobbs might.

# Air Force

**B**ill the Goat cruises along in USAFA's mock F-4 as the zoomies look on not realizing what Bill has done. N<sup>o</sup> 1 stands proud on the US Air Force hills.

Now captures the midshipmen as they try to leave Colorado Springs to return to good ol' USNA.

Beating Air Force is not only the objective of Navy Football, their supporters (the Brigade), but especially for the Drum and Bugle Corps. Defending their third year title as Inter-Academy Champions, the Corps once again held strong. CDR Connell joins his Color Guard for a victory picture.

Even the King, himself, was able to participate in the Naval Academy's annual Halloween dinner in King Hall. Midn 2/C Dave Dermody, Dave Philippi, Bryce Whiting, and Ed O'Neill kept the Brigade spirited with their portrayal of the Navy cheerleaders.

# Halloween

Midshipmen enjoy Halloween as a time to relax and cut loose from the stress of academic life. 3/C Megan Hines, Mark Neff, Jim Gillis, and Michelle Bennett embrace while posing for a candid.

# Plebe Mixer

Plebes today pretty much know how to dance, but in the past, the rigors of Plebe Year included dancing lessons.

The Plebe Mixer is a great chance for 4/C to meet new civilians, get to know a classmate, or renew a relationship with an old sweetheart. Some plebes, however, seem to have more fun than others at the mixer. While many are dancing and doing their first socializing since plebe summer started, others find it a great opportunity to catch up on lost sleep.

Drill gives midshipmen a chance to demonstrate their pride and discipline to visiting dignitaries. This page shows not only how mids drill, but also how they celebrate once drill is over. 1/C Howard Link gets baptized in the fountain in Radford Terrace after his last seasonal parade.

# Drill

Inspections are nothing new to mids, from rooms, to uniforms, looking good is an important part of being a Naval officer. Here an inspection occurs prior to the Platoon Drill Competition. Grey smoke from the cannon at drill-back in the 1800s complement the Army grey of an exchange cadet.

# In The Line of Fire

Rene Russo willingly gives autographs to eager fans during a break from filming.

Guarding the stars can be a big job, especially for Rene Russo. A little muscle never stopped midshipmen from getting what they want. Stealing a photo opportunity with the co-star, this midshipman shows no fear.

First class Ron Piret knows how to be in the right place at the right time, pictured here with Clint Eastwood, the movie "In the Line of Fire" Premieres on 9 July 93. Many midshipmen went to see the filming in Washington. 2/C Leon Hsi with his friends enjoy the food vendors in historic Washington.

**B**onfires have become a tradition at Army-Navy pep rallies. While crates burn, midshipmen cheer in the spirit of competition.

**R**ocking the night away, midshipmen move to the tunes of our own band, composed of midshipmen. As mids get in gear for the "Main Event" that weekend, the Supe walks around cheering spirit on.

# Army Pep Rally

Tecumseh Court is always packed for cheering on Navy Football. Friends, family, and sponsors all come out to watch the Supe send off the Team.

Spirit starts a week before the Game, up to the Game, during the Game and if we win or lose, after the Game! Waving their "Go Navy"s the mids are psyched for the 102nd Army-Navy Game.

# Army Week

Steve Delazaro and a friend work hard in building the fully automated battleship complete with firing guns for the Army-Navy Game. 2/C Jimmy Parker helps redecorates his company officer's office in the spirit of Army-Navy competition.

Army Week is always full of mischievous pranks to get everyone spirited for the Army/Navy game in Philadelphia. These pranks include everything from filling company officer's offices with hangars and reconning weapons from Maury.

# Army/Navy Game

**B**raving the bitter cold, 3/C Gene Cran and classmate Brian McPheeters get excited about the Army-Navy game in Philadelphia. The spirit of competition is in the air and as in the past, the competition is not only for football, but for the affections of a girlfriend as well!

**N**avy Blue and Gold charge the field to form their starting line-up with kick-off minutes away.

**S**hivering in the cold, 3/C Casey McGarity, Dave Law, and Doug Ross cheer on Navy in their own way to conserve as much heat as possible.

Mids have the opportunity to be a part of many different theatrical groups at the Naval Academy, everything from Glee Club to Masqueraders. Each year there are several concerts, plays and musicals performed for the Academy and the Annapolis public. This year's production of *Cabaret* was a great success.

# Performances

Singing groups are the most popular of our musical/theatrical activities. *The Stowaways* are a part of the Women's Glee Club.

As times change, the productions reflect them. In the past, a fellow mid would have to don the dress and shoe. A production like *Cabaret* would have been real interesting to produce in the early years!

# Winter

**T**he Dark Ages dawn upon midshipman as the snow steadily falls. The Yard covered in a white blanket, too many midshipmen to stay indoors and sleep the winter away.

**D**arryl Wilson and a friend bundle up to brave the cold weather that hit the Annapolis area. "The uniform for classes are: Reefers and Grey Gloves."

**B**oth midshipmen then and now can attest to the severity and harshness of Old Man Winter during the Dark Ages.

Christmas at the Naval Academy is never complete without The Giving Tree to help children in the Annapolis area. This time of year is also characterized by door decorating. Here, I/C Ara Barton displays a Christmas door that reflects the joy of the season.

# Christmas in the Hall

Christmas dinner is always celebrated in King Hall. The 2/C of 4th company show their Christmas cheer at this traditional dinner. The doors in and around Bancroft Hall reflect this spirit, too.

# Concerts

Ce Ce Peniston and Najee brought their individual talents to the stage covering all the mids tastes in music. From contemporary Jazz to down-home country, concerts this year fulfilled everyone's needs.

The United States Naval Academy  
presents

*Najee*

Contemporary Jazz  
Instrumentalist

Penn and Teller entertained the midshipmen and their guests with their unorthodox magic. From blood rushing gags to intentional drowning, Penn and Teller gave a performance no one will soon forget.

As the opening act for the Moody Blues, Chicago performed many of their old hits as well as introduced some of their newer songs. Mary-Chapin Carpenter performed as the guest of Vince Gill, late in November.

The Moody Blues rocked the Brigade with their old hits and tantalized the audiences with their new material. What was once considered a classic is now once again a big hit! Another popular musician that performed was Bryan Adams. Rocking through the years, he gave the most dynamic concert Alumni Hall has seen so far.

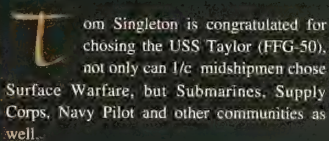

**A**ll the hard work for four years at the Naval Academy climaxes at Service Selection. We have come a long way from a desk to computer automation. I/C David Ismay gets congratulated as he selects first, choosing Surface Warfare.

**F**irst class Dan Houting and Erik Eldridge pose with Chuck Smith, the last Marine Corps billet recipient. These Marine Corps selectees proudly display their new haircuts.

The Year 93

# Forrestal Lectures

Many great speakers are invited to speak at the Naval Academy and the most prestigious of them all is the Forrestal series. This year the distinction went well beyond the expected norm.

General Colin Powell spoke dynamically about his perspective on the military and world issues. As the floor was open to questions at the end, midshipmen were allowed to ask to clarify some untouched topics.

Former Prime Minister Margaret Thatcher spoke to the Brigade about the role the United States played in the world and shared with us her views on how we should maintain the same standards we have been setting in the past. The crowd received her with open arms and graciously thanked her at the end.

America's Cup winner and well renowned professional sailing champion Dennis Connor gave to the Brigade a sense of pride and distinction as he relayed his story of losing and then regaining the America's Cup. The thoughts of moral courage and dedication and determination inspired us all as future officers.

# Dinings In

The twenty-seventh company holds its annual dining in at Alumni Hall. Looking back to the late 1800's one can see that many of the traditions of dining ins have survived until the present.

Company dining ins allow midshipmen to honor distinguished guests as well as to gather together to strengthen company unity. One must always be careful to follow the rules of the mess lest he or she be forced to drink the grog due to their misconduct.

# Halftime

Halftime shows make the games more fun to watch. From traditional Navy Cheerleaders to Haze Grey, cannoneers to D & B, and fly-by to parachuting all bring something special to the Brigade.

Special events include Eighth & I performances, Silent Drill performances, D & B performances, and various other guests. Go Navy!!

Although fashion changes as well as the uniforms, midshipmen of yesteryear enjoy the company of their dates as midshipmen do today.

# Hops

Hops at the Naval Academy give midships the chance to invite friends and loved ones to socialize and dance. There is also the opportunity to meet new people from local colleges in the area. *l/c Greg Sakryd with RADM Lynch and his wife form a receiving line in Dahlgren Hall, the home of most of Navy's dances.*

Hundreds Night means that there are merely 100 days until the 1/C are graduated. 4/C in 4th Company enjoy harrassing their firsties. While most of the fun is for the plebes, the first class relish the excitement knowing graduation is right around the corner!

# 100's Night

Trying to remember what Plebe year was like, freshmen throughout the Brigade mimic their favorite people adding humor to the evening.

# NAFAC

Naval Academy Foreign Affairs Conference is held annually where foreign dignitaries and members of political clubs of surrounding colleges gather to discuss policies of the world.

Through lectures and small discussions, NAFAC tries to deliver its message to the young and up-coming members of our political society. RADM Lynch and his wife welcome the distinguished guests as they get ready for the conference.

# Spring

Spring brings about the end of the Dark Ages. The sun begins to shine again, the flowers are in bloom, and the end of another year is finally in sight. Seen here are various shots of spring, a mid's favorite time of year.

**M**idshipmen take advantage of the warm weather Spring sends. From the 1800's to today, not very much has changed. Mids today savor the smell of freshly cut grass on their way to class in any century.

# Croquet Match

Croquet has become an annual sport between St. Johns College and the Academy. This is the only event that the two colleges have. Here CAPT Fabry enjoys the company of two lovely ladies at the festivities.

After the match the mids got together to talk about next year's strategy. It is not if you win or lose, but how you play the game.

RADM Lynch introduces the distinguished speakers at all the lectures in and out of Alumni Hall.

Midshipmen of all the three underclasses listen intently to the lectures. These inter-sessional periods are designed to better inform mids about the Navy and their part in it.

# Inter-Sessional

Second class Vique Caro takes a break during smaller group discussions. Topics include Naval Leadership and other professional development.

# Morally...

**S**econd class Ed O'Neill blows off some steam as he impersonates a mentally derranged person. Watch out!

**P**ranks help relieve the pressures of Academy life. Frankie Delgado, Doug Ross and Kevin Queen impersonate our rival sister Academy at our annual Halloween celebration.

# Mentally...

First class Ben White and Jason Wathen take time out to mentally relax and enjoy the festivities. Midshipmen always know how to make the best of any situation, from sing-alongs to just palin' with friends.

# ...And Physically

Midshipman take the opportunity to travel and take part in many physical activities. Skiing is a very popular sport that many mids take advantage of.

Second class Chris Kidd, Brad Ligo, and Mike Odriscoll gather with I/C Samantha Saxton to pose for a picture. Camouflage uniforms have become the uniform of choice for spirit related activities.

First class Tanya Wallace and Colleen Salonga hit the slopes for some physical activity

**D**edication Parade is presented in honor of the faculty and their efforts to the development of higher education and striving of excellence.

**K**risten Culler, first Semester Brigade Commander, proudly presents her Brigade to the members of the reviewing party.

# Herndon

Climbing the Herndon monument marks the end of the long and strenuous Plebe year. Everyone in the Class of 1996 participates in the struggle to get to the top. Julie Maynard celebrates the end of plebehood with her classmates.

**K**evin Pickard turned out to be the guy on top! Replacing the Dixi Cup for a combination cover completed the climb of Herndon. The midshipman to reach the top is legened to be the first Admiral out of that class.

**A**lthough Herndon stayed the same, the methods of climbing changed. From Service Dress Whites to PT Gear, the addition of lard made the climb much more challenging!

# Ring Dance

Since the 1960's Ring Dance was held mostly indoors. Class of 1994 once again held their dance on Radford Terrace.

Second class and their dates get professional portraits taken under the moonlit skies. Ring Dance starts early on Saturday, 22 May 1993.

Maria Pallotta gets her ring dipped by her date while they struggle to get the knot out of the velvet string. The ring is worn around the neck of the midshipman's date until it is dipped in the water of the seven seas, after which the midshipman can wear the ring.

# N Dance

**M**istic view from the terrace of Hubbard Hall where many gathered to celebrate their accomplishment achieving the Varsity "N".

Casual elegance was the atmosphere at the N Dance where many 3/C and 4/C gathered to socialize with their teammates.

Dancing the night away is nothing new for the midshipmen. Many members of the Brigade who earned a Varsity "N" gathered to have a bit of fun.

# Graduation Ball

Chris Catlin and his date enjoy the warm summer night dancing the night away in Dahlgren Hall.

Graduation Ball is not only for the Graduates, but a couple of special Plebes who usher the dance can also enjoy the festivities.

First Class enjoy the company of their families and friends sharing the honor and happiness of Graduation.

Mark Sedwick takes a break to get some refreshments for his family and friends. The Dance is catered by our own King Hall, serving our famous "special" punch.

Finding his permanent spot at the table, I/C Ted Dicklocker feasts on the hors d'oeuvres while his family mingles in the Garden.

James Polickoski gathers with friends and family to meet various members of the Superintendent's Staff. Cindy Schowe picks up some nuts at the buffet and Wayne Mihailov poses for a picture with family.

# Garden Party

Fourth Company commander Brian Burke relaxes with family and friends while enjoying the beautiful weather.

Nora Connelly munches on some sweet rolls while she helps her sister carry some to the rest of her family.

# Baccalaureate

On the last Sunday before Graduation, first class midshipmen bring their friends and family to the Chapel for their final service as midshipmen.

Geoffrey Royal takes part in the Baccalaureate Services as he looks back on the years as a midshipman.

Today is an opportunity for all to thank God for all His blessings He has bestowed as well as a time to ask for guidance and support for the graduates future in the Navy and Marine Corps.

Music filled the air by Electric Brigade, as the guests of midshipmen enjoy the fly-by and parachuting in place of the Blue Angels.

Guiding the F-18 Phantoms in over Farragut Field can be a "hairly" experience, but with the professional expertise of their squadron communication, it was a breeze.

# ATU/FLY-BY

**S**kip Vincenzo treats his family to a fly-by by F-18's from a near-by squadron. The Airborne Training Unit also put on a spectacular display.

**A**irborne midshipmen demonstrated their talents jumping out of perfectly good airplanes as they land on Farragut Field next to the academic buildings.

# Color Parade

**B**ettina Haymann of Verona, NJ is this years Color Girl. The Color Company commander gets to pick who his color girl would be, she is usually his girlfriend.

**T**odd Chavanne proudly presents 31st Company as the Color Company for the 1992-1993 academic year. 31st company has proven itself to have the highest standards of any company in the Brigade.

The Color Parade is the last formal dress parade of the year and of a first class midshipman's Naval Academy career. Second semester Brigade Commander, Geoffrey Royal, solemnly takes his post for his last formal parade.

Number one David Ismay expresses himself to Adam Plumpton during the Graduation exercises. For many first class, graduation will be last time they will see each other for a long time.

Symbolizing friendship, the handshake immortalizes the four years the graduates have spent together celebrating the end of one career and the beginning of another.

# Graduation II

May 26, 1993

Senator John McCain of Arizona spoke words of wisdom to the class of 1993. As he related his experiences as a public servant he bid the graduating class good luck and a heart felt congratulations. As soon as everyone was seated, the ceremony got underway with a spectacular fly-over.

# Graduation II

## Awarding the Diplomas

Crossing the stage, first class midshipmen received their long-awaited diplomas. The distinguished graduates marked the first 111 to be presented their diploma by the Honorable McCain. The rest of the graduating class received theirs by company. First class Julie Stophia proudly holds her degree high above her head for all to see.

The Superintendent and the Commandant of Midshipmen help distribute the diplomas. RADM Lynch happily presents Shogo Cotrell his diploma.

While others are in line waiting for their diploma, others gaze at the document that begins a whole new life.

**M**arines selectees were sworn in by General Mundy. Grunting their "I do's", the newly commissioned 2nd Lieutenants will proudly wear their eagle, globe and anchor. Three cheers to those we leave behind, hats off!

**N**ewly commissioned Ensign Samantha Saxton enjoys a hug after being sworn in by her father. Many graduates elected to have a private ceremonial swearing in so they could have a loved one or some other special person, celebrate their new chosen career.

# Graduation III

*Swearing In*

Once the 2nd Lieutenants have been sworn in, ADM Kelso gave the oath of office to all the Navy selectees. Caught up in the happiness of the moment, many gave their classmates a congratulatory hug.

# Graduation IV

For  
Mom and Dad

**P**roud parents eagerly take pictures of their graduates, taking up most if not all the camera space available. Volodja Tymoschenko proudly displays his diploma with friends and family after the ceremonies.

From the 1920's to the present day, many things have changed at the Academy. One thing that remained the same is the exchanging of midshipman shoulderboards for Officer ones. Moms, dads, brothers and sisters all take part in this happy moment.

The members of the class of 1993 are not the only ones who graduated this day, all the parents of the graduates graduate today as well. This day marks the end of one type of love and support and the beginning of a new kind of support. Although they say it was nothing, we know it was a lot. Thank you Mom and Dad for all your love and support over these years.

Weddings mark the beginning of a new life together. 2Lt Kevin Harris and his bride, Saranae gather with friends and family for this happy occasion. The gazebo and lawn outside the Chapel doors are beautiful places for memorable shots.

Gathering at the historic Chart House Restaurant right on the waters edge, bring the happy couple together as they cut the cake. May and June are the two popular months for Naval Academy weddings, and this year was no exception.

# Weddings

**T**raditional weddings held in the Chapel are a beautiful sight to behold. John Sahlin chose to marry his bride, Janis in the Chapel with all the fancy trimmings.

**S**word arches have become a Naval Wedding tradition and to this day friends of the military member proudly salute the newlyweds. Thanking their friends for the memories, all bids their good wishes to the bride and welcomes her into the Navy family.

# Mids Then...

Uniforms change as the times go on, but many things at the Academy do not. Entertainment has changed from the pool tables in Memorial Hall to Bowling and TV in the wardrooms.

Study habits and classroom etiquette have dramatically changed, but the midshipmen still get the best out of it. The Obstacle course and standard PE classes and tests still have their place in a mid's life. The obstacles may have changed, but the fun is still there.

# Mids Now...

**B**ell Ringing Ceremony signifies victory over Army. Navy continually beats Army in most Army-Navy athletic competitions.

**P**lebes use every minute of their day wisely. A new candidate reviews his rates while his classmates take a break to let off some smoke later in the year during the Brigade Christmas Dinner.

*Damian Sennen Blosssey  
Mount Carmel, Pennsylvania  
General Unrestricted Line*

CTO3 Blosssey came to dirty thirty and fun one by way of NAPS. We met that great summer of '89. Your reputation was established immediately with A.F. I didn't really believe it until I roomed with you. I soon realized I was living with a legend in the making. (remember Michelson 117?) The stories about you on YP group 6 clinched it. The stories of the "squadron" live in infamy. Lightweight football? Too bad the weigh-ins weren't at 185, instead of 158 - we both would have stayed a little healthier in the fall. Undeclared and the National Championship is what counts though. Thanks again for taking care of me on my bad nights...I'll always keep a trash can close, you taught me that. Who gets to keep the bo peep outfit, and the "roach on 'roids?" Thanks to the greatest roommate I could have asked for -- Croc

*Michael T. Braswell, Jr.  
Drybranch, Georgia  
Nuclear Power - Submarines*

In July of 1989, Michael T. Braswell, Jr., decided to leave his ranch in Drybranch, Georgia to become a member of the Brigade of Midshipmen. Mike had an outstanding academic career majoring in ways to make money while earning a 3.4 in Mechanical Engineering on the side. He was a member of at least 7 varsity sports, 8 club sports, including Fencing, and earned three brigade championships in company basketball. If Mike wasn't in the hall studying or on the phone talking to Corinth or Precious, who knows which one, he could be found "stepping" with the brothers of TAU BETA PI. Mike would do anything for a friend and two billion dollars. Mike was very fun to be around and he would always make you laugh, usually at the expense of others. Conversations with Mike were interesting and challenging, and would usually end with the phrase, "What did he say Ernest?"

*Ara Edward Barton  
Faribault, Minnesota  
Marine Corps Naval Flight Officer*

Croc (short for crocodile) came to USNA from the wild outback of Minnesota with a quick stop in the bubble world. Croc was quick to establish his military prowess...good thing the upperclass never took a drink from your canteen. Croc (or Biner if you participated in his sport...not) became Sailing team captain, even after his huge collision at sea. Our sailing stud was a key factor in the big win (Newport to Bermuda), and was the pride of fun one. Youngster year was the start of USNA's version of the odd couple...Mr. Halo and Dirtbag, but we know the real story. Croc surprised the world with his Marine selection, but he already owned the equipment to survive in any climate or terrain (just look in every corner of the room). Croc wasn't only a wild game killer (the skunk), but also a lady killer. Never forget C.C., H.G., P.C. and K.V. Thanks for being there through everything (weight loss). Your a true friend and the best roommate.....DSB P.S. Thanks for the gift in the sink

*Bret Ryan Bruchock  
Center Valley, Pennsylvania  
General Unrestricted Line*

Bret is a Bruce Springsteen cultist. Hit by a car at a young age, the first thing Bret saw when he became conscious in the hospital was Bruce Springsteen moaning through his teeth to fans on MTV. Besides his terminal obsession with Bruce, Bret has an obsession for money and women. At a jacuzzi party the drunk and confused "Snake" couldn't decide between his date and his roommate's date, so he chose both (what happened under them bubbles?). Bret has a problem when his friends don't pay back that nickel plus interest within 24 hours, but he has no problem writing a rather large check to help out his girlfriend in financial trouble so that she'll continue to love him (after all it's true love for the 22nd time isn't it, Bret?). Hopefully Zombie Twin #2 will have better sense as a Harrison Ford (Patriot Games) wanna be in his future career with NIS. RAB

*Richard Alan Butler  
Orofino, Idaho  
Navy Pilot*

Old Rick, when he's not polishing his sharkskin boots, tries to be a naval officer. It's either that or be a lumberjack back home in Orifice, Idaho. He spent half of his time here practically married. The other half he's spent chasing tail. Rick and that sexy spacey smile are sure to break hearts around the world. When he's not chasing it, he's kicking it in the Karate ring. Rick used his car loan to buy a red Toyota truck, but it's not as red as his neck (ha!) As soon as he pays off his credit cards, hopefully by the time he makes Admiral, he'll buy a shotgun rack for it. This Zombie twin has gone on many a weekend escapade with his roommate, stumbling into the hall as the sun was coming up. Rick has caught up on sleep for the next ten years, though. Spudhead's gonna fly planes for the Navy but it won't be long before he's back in the Land of the Potato.BRB

*Kyle Richard Campbell  
Madisonville, Texas  
Naval Flight Officer*

Kyle came to us from Texas, the land of Waco and snipers. We all know what comes from Texas, and Kyle don't have no horns. During Plebe summer he had a little trouble getting his parade rest and attention positions coordinated. But soon after he blossomed into a genius, scoring three 4.0 semesters and Co. Cdr firstie year. 3/C year was spent feeding birds and flying paper airplanes from 4-2, not to mention the rubber band fights with Cruiser. K.C. was a hard charger, and the words "better get on it" were quick from his lips. His second most frequent phrase was "It's a great day for flying!". Unfortunately, reading too many issues of Aviation Week forced him to go NFO. Sorry you couldn't fly, bud. You wanted it more than anyone. You're smart though, just keep your count below 200 and you'll achieve your dreams. We'll miss ya. KJG.

*Robert Scott Carnevale  
Albany, New York  
Marine Corps*

His Story--Coming to the Naval Academy a small and puny West Point reject, Scott quickly found a home at USNA. Disliked by all his peers (he failed to shower on several occasions and excelled at the "knife in the back" game), Scott's only friend soon became Dave the Janitor. Scott was crushed, however, when he discovered that Dave had no liking for him at all and found invisible friends much more appealing on both a cosmetic as well as intellectual level. Feeling sorry for Scott, he was accepted back into the company, but only after accepting a name change to Bob (which in Latin means "He who is a winner"). Never feeling completely accepted, Bob turned to the Corps, where he knew he at least could get a bad hair cut and a full frontal labotomy. Bob's only achievement at USNA, besides frying himself, was being voted most likely to be shot in the back by his own men. PAC

This small wonder came here wanting to be a SEAL, but such a regimented life would not fit her style: Piezanos at least twice a week, shopping after a bad grade, and running in at 11:30. Nora became obsessed with NATS at a very young age (till 2am?) and made it her ambition to learn everyone else's password. She never really thought of herself as a plebe (driving a 2/c and his date to ring dance) except when the cowboy insisted on two hour come-arounds. But, things never got that bad with the Maj around. She learned to manipulate the weak - the bug to OC - need we say more? Academics were not a strong point, but how could they be when you never study? Your only A in PE? 14 pull ups is quite an accomplishment that any Halsey boy would envy (especially your plebe Chem partner). What a catch he got - a woman with unbelievable care packages and FM candy. BN, JH, JP

*Nacim Robert Figge  
Oxnard, California  
Naval Flight Officer*

The Figster, came to us straight from the dense jungle of Brazil, making a quick stop at the oh so hard school in Newport, RI only to run into bullfrog. Peanut butter chow calls, no one will forget, as it made the upperclassman very happy-- NOT! Youngster year, Fig received the bone with us all, at the almighty school in Fort Benning, GA. From there, he then wanted to distribute the bone and became a head honcho in the Airborne Corps. Along the way, Fig finally found his niche, by leaving a trail of waffle-stompie in racquetball (do you ever move?). Firstie year rolled around, and where the heck is Fig? Oh, that's right, someone is dragging him out in town by the leash around his neck, say Julie? Well, Figge surprised us all at service selection, as he dodged the Gun Club and selected Navy NFO. Four years brings alot of memories bud, especially hooking us guys up. Fig, you're a good man with exceptional integrity. Best of luck in P-cola! MAF

*Michael Aaron Fox  
Ocala, Florida  
Navy Pilot*

Mike Fox -- a quiet, out of shape, fat guy -- NOT!!! Through our four years by the bay, Mike turned out to be our funniest and wildest Floridian presence. From a stealthy plebe year with a long lost unknown love in Florida, to a burrito driving firstie, Mike Fox has plenty of adventures to share with all of us. Unfortunately, he chooses to talk to himself instead of telling us what's up; if we didn't know him, we would think he was crazy. His Navy Air service selection surprised us all, we thought he would be a SEAL but the 5 A.M. morning P.T. showed him the light, and now he will be returning to his home state but his girly is gone. Probably Mike's most unforgettable moment is when we took him out for his 21st birthday, what an animal. His adventures go on -- Key West Taco Bell, his encounter in Georgetown, his flying through a tree on his 10th jump, etc, etc. We all wish him the best of luck in Pensacola where he will be able to get a real tan instead of going to Fake and Bake.

*Christopher Taussig Graves  
Annapolis, Maryland  
Marine Corps*

As I think about Chris Graves, I'm not sure whether to feel sorry for him or to respect him. Chris is a hard worker, and he is more than willing to lend a helping hand to anyone in need. He's got the doodads to say or write anything, which has gotten him into trouble more than once. Plebe year Proceedings article about technocrats, Youngster cruise eval slamming his CO, hazing Bern, article about core value training. He epitomizes the phrase 'the pen is mightier than the mouth'. He also epitomizes the phrase 'the mouth is faster than the brain'. The rumor in Fun One is that Chris has no civvies. Why else would he wear Plebe issue socks on liberty... with shorts! At least they weren't hiked up. A jarhead from day one, Chris is rarely seen without some piece of military equipment. In a strange way, we love ya Chris, but don't get any ideas. We hope you don't get shot too soon after graduation. KJG

Kenny, Kincaid, Kenny-G, Old Man, Tweety-bird, Grandpa, G-pa, Greaseball, **GBALL**. What are the twelve varieties of Salmon? Foot-fungi: never seems to go away. Who's Molly? She's whose daughter? What a lady-killer was the old man, left us newborns behind. **Say**, who always stopped by youngster year? G-ball, always hung with us when you were "of legal age" but we were nowhere near. What a pal. The loves of Ken's life here at USNA: G-string, strummin the old guitar, doing a little diving (scuba of course!). 2/ c trials: caught at the Johnsons', the speech impediment and the mugging in DC. Summer: your supposed to turn the gun when you run through the door! Its easier on the eyes. "We ain't open yet!" "That's not good enough Ken. I want you to use your head for this one." Chemical warfare. Get in your Northwestern clothes and buy Steve a latte? **Sheeure!!!** Good times, bad times, our times! Sorry you got the Whamzee, fly anyway. KRC

Chris left the Paradise State in '89 to come to a fun-filled summer at Camp Tecumseh. However, he took a wrong turn somewhere on the back-nine and ended up just another plebe at I-day. Existence began 3/C year, when Eddie met the Cruiser and started doin' time as a physics major. Deciding he was too good for drill, Eddie started down that road to SWO-dom by becoming a YP-god. Small craft pin was followed by enlisted surface quals during 1/C summer; but after watching Top Gun about 90 times, he selected...subs? 2/C year was filled with Atoms, Black Magic, a rice rocket, and one unforgettable Mess Night: "Son, I'm your boss." 1/C year saw elevation to stripderm, finding his one and only, the subsequent uttering of the M-word, and little of Eddie. (Fiance and finance took priority over Mother-B.) Chris, the bonds of friendship can't be broken. Good luck, may your bridges be warm and your bilges dry. You did sleep more youngster year. **BER**

*Cory Richard Howes*  
*Cedar Rapids, Iowa*  
*Naval Flight Officer*

Cory joined Fun One half way through our second class year. Cory was anything but stealthy, and soon found himself well integrated into the company. His work with the plebes and general professionalism earned him a platoon commander billet the first semester. He obviously handled his responsibility well, as he was given the role of company commander for our last semester. Consequently, Cory ended his stay at Canoe U working his buns off, juggling the rigorous academic requirements of Systems Engineering, and the day to day inundation of company heartaches. A racquetball player and avid runner, Cory always maintained peak shape, and toyed with the idea of joining the SEALs. After an aviation cruise, however, his mind was made to wear the brown shoes and leather jacket of an airedale (ruff, ruff). Regardless of the community he serves, Cory will assuredly succeed.

*David William Kiemann*  
*Wind Lake, Wisconsin*  
*Naval Flight Officer*

"This place is great! We love it here!" Famous words from one of the louder mouths in the company. The reason why Dave loved his stay at the Academy so much was because he spent at least half of it in the rack. Ask anyone. The worst part of it is he was on the Commandant's List the semesters he screwed off the most. Ah, the life of a genius at Canoe U. Dave overall had a great time at the Boat School. The only exception being possibly his brief membership in the infamous fraternity known as Mu Pi Sigma. Dave stayed his same ol' self giving his academically struggling roommate nightly encouragement as he was frantically studying into the wee hours of the morning: "Blow it off Steve. The rack calls you. If it's not done by 9:00 it's not worth doing." Thanks Dave, I'll remember that most. I have to admit though, sometimes you were right. Thanks for being a good roomie; your stuff still fits me good. We had the best room in the brigade! Take care, we'll miss ya buddy. **SP**

*Ernest Edward Haynes*  
*Cambridge, Maryland*  
*Surface Warfare*

Double E Haynes came to us from the mecca of the east coast, Cambridge, Maryland. Even though he had moved to USNA for his four year adventure, Bancroft Hall was only a place where Ernest could lay his head. On the weekends, he could always be found at UMBC with his girlfriend Andrea, and if a person didn't know any better they would have thought he was doing VGEP there. But Ernest and I had a lot of things in common. We both were lightweights after plebe summer, but one difference between us was that my clothes fit me while his didn't. For some reason, his pants fit like spandex, while he could hardly button up his SDB jackets without breaking a button. The problem only got worse with time until now, Ernest weighs a big 200 something and just cuts his uniform pants and uses them for biker shorts. Ernest was an invaluable friend for my years by the Severn, but since he'll probably never leave Norfolk, due to the UMBC honey, I'll see ya when I see ya. **MTB**

*James Andrew Knoll*  
Fullerton, California

The first time I met Big Jim was when he chopped into what would be our room during Plebe Summer. Since Jim was something of a slob, there were some drawbacks to being his roommate plebe year. Like the time that there was shoe polish on Jim's desk. Our upperclass wrote, in pencil, on the desk "What the hell is this?" Instead of cleaning it off, Jimbo just wrote right next to it "It's shoe polish sir!" Needless to say, our upperclass were not pleased. I also never understood how you could cram so much stuff into the con-locker. When the locker was opened, it spilled out onto the floor and covered half the room. But the usual way that the Buddha (as his crew teammates called him when they rubbed his tummy for good luck) will be remembered is at the Jim Knoll Memorial shrine at Fran O'Briens. That was Jim's second home. He knew everyone in the bar. Franny O's is declaring a day of mourning when we graduate in May. Have fun in P-Cola! DWK

*Tyson Christopher Lewis*  
Vienna, Virginia  
Marine Corps

Plebe summer J.H.(remember that stain, during underwear EI?) told Tyson he could never skate through this place on team tables. She was wrong. T.C.(Team Captain) Lewis has never sat in company area. Second semester plebe year, you, me, C.C., M.S. and "G.- I will always be more successful than you Lewis!" Although he was told that athletes that came to the Academy consistently get worse over their four years, he won the Eastern Championships in the 50 free youngster year--but then the trend came true. Second class Company Commander? Firstie XO? Finally someone figured him out, and made him an MIR. -Croc

◆ Joe entered Kilo Company from the vicinity of Chicago, IL. He soon became a Super and continued working out to the point of not being able to pass a mirror. Then came Yo and he barely had enough time to tell us of Sicily. Bo Jackson and what a crime against society the tearing down of Comiskey park was. White Sox and Oreo ice cream. Way too smart for his own good, Joe picked medical corps and is able to look forward to various finger exercises with his future roommates. All of us here at Fun One are really not looking forward to being under his knife. Besides being well known for his shoulder grabs, Tonto has a great sense of humor and a huge heart.

◆ Bernie, remember reading 9 articles by morning quarters? "big, bad, bert..." Left, Right, Left. What about those LOUD scissors?! Morning swim practice 3X a week for 4 years. "Quick, get out of the shower, I gotta go!" Hope you can sit down where that dog bit you! Memories of youngster and sailing cruises from hell. Got anymore Peeps? "Where is the dishwasher on this YP?" I could always pick her out in a crowd by just watching her gossip mode! Hey, Bern, can you help me shave...what else is a roomie for? SWO? Marines? Pilot? Supply?...How many general billets are left? Its either new uniforms or pearls. Bern. Just how much money did you make on your Sundays? Watch out for those drunken midnight trips, you never know where you might go (no more SoCo for you). Forget those yearly exams, who needs them anyway? Who's your favorite roomie?? Beware those dems. love, nc

*Francis Peter Notz  
Jacksonville, Fla.  
Naval Flight Officer*

F. P. came to Canoe U. from all over the globe. Plebe Ac. year brought Knotzes billing as the "Pro-Quiz boy". Youngster year brought many fun times with Dave P. Don't ever forget whose "King of the room". Oh, remember the all-nighter before the Calc. III final and the pyramid of 36 Pepsi cans. When the Prime Minister wasn't kicking over newspaper stands and standing in front of the 'Dant, good 'ole Petus was a model midshipman. Second class year you could find this Astro whiz racking in his chair on occasion. Fun One '93 still wonders how the Debate team never got a hold of Pete's talents. Always in a sarcastic way, he could argue a point with the best of 'em. By golly, if Pete said the sun set in the east then you'd better believe him. He was NEVER wrong! On the b-ball court he was a joy to watch, he might have only shot 2 times during a game, but he was in double figures in pump-fakes. Sher! SER P.S. You hate to hold out on me!

*Stephen Aron Parra  
Portland, Oregon  
Surface Warfare Officer*

When I started rooming with the Mad Mexican youngster year, I noticed that everything tended to "migrate" to his side of the room. Since he grew out of his own uniforms and clothes, Steve thought that he would just wear mine and conveniently forget to return them. It was amazing how many times I ran out of clean shirts, only to go to his locker and find several shirts with my alpha code on them. Whenever someone in the company was missing something, our room was the first place they would stop. Usually Steve had it. We all thought that it was quite interesting that he became the company security officer 1st class year. Then there was Spring Break youngster year in Florida. After ingesting a "moderate" amount of alcohol, we went and saw the "Doors". Steve tried to convince us that he was the reincarnation of Jim Morrison. It made that Blazers shrine above your rack seem a little silly. Vaya con Dios, Señor. DWK

*Chad Byron Reed  
Spring, Texas  
Naval Flight Officer*

Chad claimed he was from the great state of Texas, although he's really from New Jersey. He brought with him a true lone-star ego, stocking the medicine cabinet with aloe, tan enhancer, dynamic muscle builder, and a hair dryer which he used plebe year when he had no hair. All of these quality hygienic practices helped out, though--he had all kinds of babes calling him, but of course "They are only FRIENDS!!" It's amazing how you can talk to "friends" (who had priority over the rack!) for hours on the phone. Chad went from soccer to crew to soccer to steak football, where he found his niche. With 150s Slash got to play with and against his brother Matt, who converted from Army to Navy, rooming with Chad 2/c year. Co-chair of the Fun One God Squad, Chad showed that he truly has friends in high places. Congrats, 3060 rack champ, and remember "denile is not just a river in Africa"--Scrith/Tonto.

Many questions surround this mysterious character, Tom. Why does he smell so funky, why is it that he can put away more cheeseburgers than any other man alive, and why in the world does he waste his time with those darn trains? I dream of far away places with a beautiful beach and warm sunshine with a cool quiet breeze, lost somewhere in the South Pacific. Tom dreams of being trackside in Clinton, Iowa with five rolls of Kodachrome 64, shooting 250 at 8, a fully charged scanner, a cooler full ice cold 7up, and a gut full of quarter pounders. Extra ketchup. And those magazines, those evil magazines. From whence did they come? I didn't even know that they published material like that. PRN, Railpace, Trains. He preached to me of the goodness of the trains. He preached to everyone about the goodness of the trains. But now he's going SWO. I guess I get the last laugh. "B"

*Brian Edward Ries  
Hillsboro, Oregon  
Nuclear Power - Submarines*

Brian left the wetlands of Hillsboro and his fossils to become just another bald guy for a summer. He is known to people who need academic help as "Brain," while others refer to him as "The Cruiser." I, "Eddie," just call him "roomie." Brian majors in physics, which has broadened his vocabulary of foul words. He still believes that everything in the world can be described with  $F=ma$ . Most people think Brian is a quiet and shy guy. Anyone who dressed up as a wolf-man for Halloween or has played lacrosse and soccer has got to be a manly man. The only corps for him is a reactor core. He returned from Third-Class cruise with dolphins and a deterrence pin, not forgetting the Battle "E". On First-Class cruise Brian was finally able to fulfill his dream of spending a month aboard a YP and then on a gray-hull. Service selection night determined that the his only sight of a surface ship would be from a periscope. Although he would never jump out the window to give me a 4.0, his friendship means a great deal to me. "Dive, dive." CG

*Steven E. Roodzant

Surface Warfare*

Roadzant, don't call me Rudezant, came from LA to Annapolis on a full intramurals scholarship. While not searching for the land of Goohey, Steve could be found leading his team on the Road to MacDonough. Steve quickly distinguished himself on the court by making 1st team MacDonough all-star and becoming known by all as the "Brigade Shootout Champion". Youngster year brought on new experiences. Laps around the Chauvenet track, sneaking peeks at someone's cheese face through a sealed envelope, mouse LAX, and stimulating conversation about rug burns and knee pads. Second class year brought the daily battle about who was holding out more. As a firstie, Steve caught a small dose of the Tennessee Twang but spent much of his time making erroneous picks on various sporting events. With a long deployment to look forward to, Steve is giving up his crib in the 1-0 projects and heading back to Callee. Good luck "PENNus"! FPN

*Richard Irvin Scritchfield Jr.  
Akron, Ohio  
Navy Pilot*

Scritch had no idea what he was getting into when he left his cozy abode near the "Zips". Plebe year he became the 4/c Rep. to NATO, which would push any NORMAL human being to the brink of killing himself. He pressed on, however, enduring disease, ravioli in the sink, hair dryers at oh-dark-thirty, and "the Gurdak". Youngster Cruise taught him to lighten up only a little as he travelled to far away lands. As a 3/c, he continued to log more sick days than Graves. 2/c summer school finally taught Scritch the art of procrastination. He still was a smack with the profs, especially Mario. Over the years he managed to survive mono, pneumonia, a torn ACL, a broken finger, an atheist, a Sox fan and his fiancée, and two Reeds. Thanks to Mom Smith, his roommates never went hungry. We are proud of his progress in learning to relax and a job well done as the Co-Chair of the Fun One God Squad-Slash/Joe

Grandpa Stanley took many a grunion before coming to this stinkin' hole. He and his mondo clothes felt right at home. Throughout his four years he made many friends including Debbie, still known to be in hiding from Dave the Janitor. His roommate always let the presence of his size ten-and-a-halves be known. Mr. Man talked big about buying a blazer, but wimped out with a little red clunker and a stereo system worth twice as much as the car. How anyone could mix up the words Amphib and Aegis, I'll never know - but he did. I can just imagine you two years from now, Bruce sitting in his stateroom blaming the Fart Bunny. Or 10 years, attending all the home football games. Or 20 years, clearing two fiddy a year. You ben heya fo howa! No moh food fo you! You eet salad! Pop, Pop. Killer Bees on the Beach. Saw The Man today (Steve). T Hip. Whitney next door. Peace. "T"

*Julie Ann Stopha  
Bolivar, New York  
Navy Pilot*

Smalltown, NY sent Jules to Navy University in the summer of '89, when she first stumbled into "The Dultzer". Plebe summer taught her the sense of urgency, proven by her readiness to drop those books and head over to Griffin's. After memorizing the football team roster as she ran all of 4th wing and pyromania with Pete M., she decided to move on: Georgetown bar owners (um, yeah..we're 21!), the haunting PCR, Glee Club, "Frat-master", Marine Corps Marathon, two-steppin', "3 stripes for me?!", and finding what else she could possibly store in the room! Always on the go, Jules maxed out the mileage on her running shoes, probably cuz she was out getting fellow classmates lost on freezing, wet days (nights?!)-"uh, just around the bend and we'll be out!" But really, Jules is a great friend ready to give to others and put smiles on our faces! Good luck in the sky, roomie-I love ya! Take care and God Bless, ACC

*Michael David Stull  
Fremont, California  
Special Warfare*

Mike is living testament to the old adage that great things come in small packages. From the first day of PEP when he was recognized as a *super*, and all through his career on the banks of the Severn, Mike has been the prime physical example for Dirty Thirty and Fun One. Pushups, pullups, flutter-kicks and all could not phase "Iron-Mike." Come service selection night it was no surprise to see Mike committing to our nation's most elite collection of studs, the SEALs. "Skull," as the Bulldog Instructors called him (with respect, I might add), also doubled as the company computer wonder, readily giving aid to those of us who could no more figure out Windows, let alone run Turbo Pascal. When not beating on "Bob," or the "Steaks," Mike spent his spare time rock climbing, scuba diving, and squirrel feeding. But perhaps his greatest contribution was an indomitable sense of humor that helped to define the very unique character of Fun One.

Rappin' Willie B. hails from Scottsdale, AZ or is it Phoenix, who knows it's all a desert anyway. We suffered three years of misery but the fruits of firstie year made it all worthwhile. Will realized his life long dreams, his own 5.0 Mustang conv. LX, the Suns with the best record in the NBA, the Hoosiers to #1 in the polls, NFO, Frank in RCMH, NYC, and, yes, two MORE roommates. At least these two had impeccable hygiene standards and phenomenal work habits. Don't forget though Will that it was you who brought us down for the room (despite that half-eaten sandwich on the desk.) Don't forget the good times: Hockey in AZ, summer school (improving our golf game anyway), Busch Gardens-free beer, the NW posse, Oriole games, midsummers, and a few legendary Georgetown nights. You've been an awesome friend and I wish you well....RJB.

For most of us, one plebe year was enough, but not so for this bull rider. Bob did his share of time here in the Big House. Mother B. This native Gopher arrived from the Lone Star state with football in hand, but soon exercised his right to win and traded his cleats for skates. Known for his grace, sportsmanship, and friendly demeanor, Big Bad #18 spent more time in the penalty box than on the ice. It's been an uphill road from the get-go (did you clean this coffin?), but being a firstie (even if for just four months) has helped heal the wounds. Friday night libs, summer school golf, the three of us in Norfolk (c'mon, one more rollercoaster ride). Xmas in Arizona, and that fateful day in February will forever mark our Academy Experience. You will be a fine officer and a great friend always. WAB & TJP

Whether binding with an eager pack women ready to ruck with him, or co-starring in a "Romeo & Juliet" love affair with his favorite sweet "T" pie, Teddy was ready, willing and able to handle it all! World traveler, french speaker, romancer, rack monster, scholar (cough, cough!) are all accurate terms to fit the man known the world over as ... Ted! Though we had the last real plebe summer, Dab'la won the favor of a few female detailers who made his life easier. Later, his talents changed his life from being a "screen" to being "My Buddy" of the second class. By year's end, his dry wit and sarcasm gave him many opportunities to slam on our socially inept upperclass. Youngster year began poorly when one last home meal meant 15 days restriction. Once he got his weekends back, Dab'la became quite the movie critic, but was he the tall guy or the fat one? Not until firstie year would we know for sure. Changes in plebe training suited his lighter, witty style fine and he soon devoted his skills to being brigade gossip central. Though honor boards and plaque designing took most of his time, he was still a devoted running partner when he could be dragged from the rack. Even if he does get a SWO-belly, there will only be more to like about Brendon. LDP

Tug a.k.a. Harley, came to USNA from the wonderfully (in his eyes) warm land of Minnesota. He survived his first year rooming with the "Matti", with no help from a certain walkman and the sexual harassment patrol. Upon graduating from plebedom, Tug took to perfecting wrestling and his gift-of-gab. Youngster year was a very productive year; one change of major and one advisory board thanks to the USS Annapolis. Who won the Panama bet? "No, Tug you're the stud." Amazing is the only word to describe valentine cards from 12 girls. By second-class year, Tug had the bar pick up lines down. Then came the transition from air to corps. How can a guy rack through so much and go marines? Well at least you have the high and tight. First-class year gave you your own seat in the wardroom and membership in debtors anonymous. Girls, rack, and girls. Good Luck to a great friend. Cool.

Kelly arrived plebe yr. a little older (and wiser) than the rest of us. The Capt.'s daughter survived our female firsties to move on to youngsterhood. From the "no singing zone" came country music, VH, and the sound of ZZ's at 1530 (youngster rack competition). Rescued from her golden bubble 2/C yr., a hometown boy captured her heart (Princess L.) 2/C yr. also brought the hard-charging unexpected professional side of Kel. (also UNSAT) Firstie year and second company's new XO became R.L.'s consultant, until accompanying A.S. to 7-2. And finally, after much soul searching she picked SWO (carrying on the tradition?). Her roomie to be at SWOS and on AE-34 is none other than company-mate MCM. Thanks for watching over us and being such a big sis! Dont' forget-Daytona (T-shirt!), MTV backstage, NL night, dining outs (pizza anyone?), roomies S.S. & B.D., Nellie, P.C. (are you still up there?), RSF, Love, ALS, MCM, TLW

"God we give you Pops; try not to get him mad." Hard-charging out of the Marine Corps and arriving at USNA at age 60, old man Mike was aptly called Pops. Blessed with great patience and understanding, Pops is known for his tolerance of poor D on the lax field- "Play some D-it ain't that hard" and broken sticks. Partying with Nuts and Onion- Duke '91 (What a scam, bro!), Iron Curtain, the Bear's Boys (Right Hand!), UVA '93 "This jacket don't say Virginia punk!" learning rap from Onion "I'm down with you" Pops Two-Step and Eastern Shore, Humpin' to Vail. Always had time for the ladies- Pops sure became an avid Navy swim fan (Yeah MB). TAD o' justice with JT and Onion. Thru it all you were fired up, Now you can go home to your Marine Corps. Always willing to take time out to help out, although his sense of humor was a little unusual. Ryan's four years at the boat school have consisted of hours studying very important subjects such as: the Simpson's, Cheers, and various movies in the company wardroom. He holds the world record for the most hours spent in front of the television. If you don't believe it, call Guinness! Oh yeah, he even studied academic subjects between commercials. Ryan's favorite hobby was sleeping. Ryan's weekend nightlife usually consisted of a six pack and "Pretty Woman" at his sponsor's but he could occasionally be found at a bar in Annapolis or Baltimore listening to heavy metal or acoustic guitar. He also, ranked #2 behind the company gossip hound. Romance for Ryan was few and far between, if existent, but over 1/C summer a woman in Santa Fe inspired new life for him. One day the right woman will come along and sweep him off his feet. It probably will have a hull number SSN.... TTT and LDP

◆ Wayne came to us from lovely Seabrook MD. As a plebe, he got to watch a lot of TV on Saturday mornings. Cool managed to dominate oceanography with a little help from his friend Mr Goo-hay. He has had more experience finding a parking spot on the yard longer than anyone else (Ricketts). Surviving the Mattioli experience, Marlboro finally hooked up with Harley for two great years. With two scratches on the door, he was the terror of '95, causing them to find a new way to formation. Leading us to an impressive finish, Wayne's world's strongest asset was not color points. All of his early mornings (glad I could send you off laughing) have helped him defeat Army two times and finish strong in the Easterns. I have never seen anyone as devoted to one woman as he is to Kim (Lord knows I tried to help). You've done a great job keeping the economy going, Anheiser-Busch and Griffin's thanks you. --Tug

◆ This "Calif" chick joined us straight from high school and a "moving home." This proud plebe made it through one of the hardest years, using her eloquent word choices (sealawyer?) as well as her knack for putting cadences to song, and went on to do things her way. Making a name for herself in the musicals, D&B, and Glee CLub, (destined for stardom). A roomie who operated like clockwork, her MOTTO: "If homeworks not done by 2300, I'll dream about it." Her new and permanent boyfriend appeared in a cloud in a smoke by 2/C year. Although she didn't get to Broadway, she got her 2nd best choice, AE-34 with her partner in crime company cohort, KAE. Remember: "I'm a geek, sir" (calculator), 8-4 hell, door? flying down, friendly on the dance floor, the mini-van, driving back from Everly's party (T & K we have to leave now!), beedle-dee-dee girl, Bahamas, \$99 tips (want change?!) Lots of laughs, a true friend who always made things brighter, thanks! Love you, sis. TLW. KAE. ALS

Known as "Jim" by the upperclass ourplebe year, he was always "Scooter" to us. Although his home was in Kansas City, he came here from Southern California, leaving the good life at USC in hopes of better things. Rugby, beer, and chewing tobacco dominated his time here when not getting in trouble for blurting out comments that a select few found to be offensive. He later gave up rugby because it was found to be the most detrimental to his health. With the coming of his Ford Bronco, he pursued his other passions by packing his shark-skin suit and driving to New York to get work done on his tattoo and listening to bands with names that nobody else ever seemed to have heard of. He has definitely left an impression on all those who knew him and I, personally, am eager to leave this East coast behind with him in a quest for better times in Southern California. This Guinness is for you, Rich! SUL

Chad has had an illustrious career at Canoe U. From the brawls of the Bahamas to the police of Daytona Beach, BA has worn his blue rim proudly through them all. Winner of the triple crown, Mental knew how to beat the system. He survived the semester from hell by taking on the USMC, the Lulu's bouncers, A.A., the parking attendant, and of course the House steps. Need a fight? X was always there: battle of justice. Was he in Laos '68, interficimus puellam, has seen it all; house parties at 429 were sick, TB, AA, JH, SS, CS, PE, and KM. How many times can you total a brand new jeep: bullet holes, guard rails, and bar parking lots; it didn't prevent you from leaving CS behind. Nav class didn't beat you but you did beat Nav: winner of all of us CS, and SS. Doberman, thanks for all the laughs, slay on. Don't drink anymore Clorox: S.S., C.S., J.R., and C.S.

Unfortunately, Lee's aviation destiny was never fulfilled. He did not grow rotund, assume the call sign "TWINKIE," and try to sneak Hostess snack cakes aboard fighter aircraft. Instead, Lee is a nuke with glasses. Nevertheless, "TOP GUT" was a success and Lee went on to act in the now-famous, "PUDGY PLEBES LOST IN BAGHDAD." Aside from Lee's freshman acting career, he also specialized in being smarter than anyone else in the company, waking me up on a daily basis to go running, and telling me off whenever convenient. However, describing Lee's good points would be dull. Saving beaten-up women in Baltimore and making sexual harassment collages were his more popular hobbies. Thank god I am writing your biography because I know you are writing mine. Best of luck and take care, Lee. You are a loyal friend whose fairness and dedication were always admired. BTD

How can a soft-spoken and serious Mountain Boy from STEVENSVILLE, Montana share a room with a loud and loquacious lad from America's Ampit while keeping sane? P-A-T-I-E-N-C-E. After 3 semesters of training, this Fruit of the Spirit has become Jughead's greatest attribute. I did, however, manage to get him to speak an avg. 6.5 words per sentence and 3 sentences per thought (I think he did it just to shut me up). Sports, lots and lots of sports. Sorry J.D., but there just wasn't enough time to try them all. At least you managed to experience all the ones that would saturate your body with adrenaline. No wonder you decided to go Spec Ops instead of Pilot. Being on a P-3 just wouldn't cut it. Since the day we sang "Amazing Grace" during an SIP, I've seen much spiritual growth and I look up to your extraordinary faithfulness to the LORD. JDS

T.J. came to us from the Cuban suburb of Miami, and leaves quite a legacy here at the boat school. He impressed everyone plebe summer with his memory skills, and is the only person we know who, after failing English plebe year, chose it as a major. Known for fighting Seals, dancing with the spirits, and hot tub exhibitions, T.J. never let anything stand in the way of a good time. Did you really think you could walk back to Annapolis? From Georgetown? Walnut has seen all the ins and outs of USNA, but it took a fellow group 3 to bring out the best in you in your last semester. All the steerage runs, midnight inners 3/C year with Matti, the debacle of Lake Anna, one crazy spring break, long nights in Ocean City, and the CULT have been a blast. You've been a great roommate. Plebe year brought Derby Day and a bruised heart (aren't men rats?). Youngster year- Wait! Where's Anne? Can you say stealth? Second class year and Anne's back. While the rest of '93 is perfecting the art of flaming, Annie has fond memories of Hot Tubs, Philly, Jamaica (Hey DAPA), belly buttons, memorable (do you remember?) dining outs, and wrestlemania on 1-2. As a firstie, true love hit the fitness T.Capt. and visitor in Bancroft (Eastport apt.). Now this little brown bear is off to NAS Bermuda for two years. Is this for real? We hope so. Steve came to us in the summer of 89 with high ambitions and a life wrapped around Shannon's finger. But after two lost years of wearing her blinders he finally came around. Now with two, thin, sleek, diagonal lines on his shoulders and a new outlook on life, the world had to watch out for this flat topped, stubbled goatee, mean looking S.O.B. The street girls of Cancun are one necklace richer and the knowledge that the international language can prevail was one more lesson learned. From the shores of Key West to the Heads of West Virginia our man sat draped atop his throne, with Betty in the lead and Maxine following all the trips were eventually successful. Oh, and Shannon, you couldn't hold a candle to Bambi and Alex will always hold his heart! Pete and San Diego you better watch out.

John came with a preconceived notion that this place was hard, and when he found out different he was crushed with disappointment. He soon recovered and began having fun, way ahead of the systems schedule. After curdling our blood as well as the staffs' with "LOOKOUT, I HAVE A KNIFE!" John became somewhat of a scary enigma. With much relief we slowly discovered the great personality behind the sarcasm and acting ability. A walking jukebox, our LA DJ regularly regaled us with vocal selections ranging from hymns to rap. Extra time spent around the boat school after plebe year was made up for by the many four-day weekends John spent making a name for Navy on the National Debate Circuit. Two relationships and many philosophy classes caused much soul-searching 1/ C year, but we know he'll pull through! What kind of car did you have? Thanks Bill for all the stuff. UofP, boyfriend?, taking care of business, sleeping in every class, hypochondria (which knee was it?), Dental did it all. Mange, the perfect squad leader, what?, he always had tips for table manners and he always knew all their names. Ma sprinted from 14 Southgate and travelled the world in thirty days, dropped the hammer outside gate 8 and wrestled Frosty. He doesn't know that much about staples, but he does know how to appal. Tool, X, the Great Samtini (or so he thought) could always be found apeing down the hall, bellowing a Klingon War Cry in full battledress, or showing his prized possessions to the public. Flying off jeeps at 40 MPH, conducting inverted keg stands at lax tailgaters, breaking windows with his head and piece, Smitty was the originator of the bell ringing ceremony. From kissing Ed the Talking Horse of UofM to slamming port and becoming the Exorcist it was always "unbelievable". At 14 Southgate he "needed to go to the bathroom?" Thank goodness CS was there to clean it up. X always was up for a party at 429 with TB, AA, JH, CN, CS, PE, and KM. Tool never quite could find out who was the tougher opponent--CN or Frosty. If he hadn't picked such a time consuming major he have could lettered in any of a half dozen sports (the only man in the company to get an "A" in 'spastics'), but we were glad to have his raw athletic ability on our intramural teams. Michael was clearly a product of his strict plebe background. Even as an upperclass, he always kept his room clean, enforced the necessary standards, and kept the plebes on their toes. Needless to say, as XO, he also kept his classmates on their toes. However, Sully has had his moments. There was that time he created his own liberty and went out 2/c year only to discover he had created his own restriction instead. No doubt he had a better uniform than the head restrictee. Nevertheless, most of Sully's moments were spent thinking about baseball (it's his life). Often, he could be seen playing JV baseball although his name was not on the roster.... Poking fun at Sully is essential because he always was such a straight arrow. The real Sull deserves to be remembered for his hard work. Kental is always ringing the bell, turning up the volume, and taking care of business; and yes, he might kill you. Awarded the N star as well as the black N star, he's truly made his hometown proud. While most would consider Billy Dee Williams the smoothest person to walk the earth, the many that know Art would beg to differ. Once at a plebe mixer a classmate tried to cut in while Art and a lady friend were dancing. Without any effort or change of facial expression, Art informed him that "Things like that only happen in movies." "The Perfect Ten" proved to be a no-nonsense type of guy his second-class year. At a club in D.C. another unknowing man tried to interrupt Art and another lady friend. This resulted in an all-out brawl, and Art walked out in the midst of it, untouched! Art was devoted to the 150's cause all of his years at the academy. Despite the opinions of several coaches and fearful running backs, Art was the best athlete that ever performed on the turf field. "Hey Vin, that 'Clue Bouy' was seen floating by recently." Wine not beer; preferably in Pearl Harbor or Fran's. "Hey Dave, I've got a story for you..." Many a plebe owe their passing chem grade to Vin. As a Chem Dork, Vin invented an elixir that helped him to strengthen his will power, keep such a studly physique, and revitalize his damaged brain cells. "Hey Dave, how do you spell 'ILLITERATE'?" Vince's true athletic ability was never recognized at USNA as he was traded from three intramural teams. "Hey Dave, I got a question for you." Vince had a fetish for women with attitudes. Papa Cajun hailed from the land of the "Boss" leaving many heartbroken creole mudstomper's behind. Arriving in the stifling heat of July, his brain suffered from amnesia, and Paul spent most of his time in "jail." However, redemption came in the form of the Saturday Night M.D. and pitchers of ice water. As a meager village idiot, you spent the rest of the year chasing the goblin, making sweat cards, and cautiously perusing Crown Books. You're Doped! Then came a year of changing majors, latelights, heel-bashing, loincloths, Newsweek testimony, te-pe's, and more trips to the bookstore. Reunited, the Hooya Twins wrecked havoc on 3, under the influence of Capt Arse. You also slipped in a lot of olive oil and went a few rounds with Mike Tyson. Coming to USNA after a few years underwater and a year in San Diego, Dave was obviously older and WISER!!! than the rest of us. I still think that all those days submerged left water on his brain. One thing's for sure, though, the silent Don Juan did know a bit more about us when it came to certain subjects. CJ was just one example, and hardly the last. Immediately recognized for his leadership, or was it his height, he took the lead plebe summer. That summer was a breeze, too bad Marine Engineering was not. Did you ever sleep? His "four years by the bay," could have been more aptly called four years on the Severn. Too bad you couldn't row over all your leave periods. Oh well, it did give you that HULKING physique. From GA to NAPS (2-1) to Company Commander plebe year? We still wonder what this Redneck did to deserve that. Soon after baseball, Darrell tried real hard at intramurals, and then set the standard for racking. A true sport fanatic, D cried after the Braves choked two years in a row (maybe in '93, HA), but 'Bama gave him hope in '92. Ketchup made everything taste better, and what about those black stars youngster year, and then the dark side (JS) of 1/c summer? Ofcourse, the few unfortunate girls. Dielle succumbed to his Southern drawl, he maxed out his midstore card with Andrea, the piece of junk 2-wheel drive Ford "truck" reeled in Cindy, and it must have been the growing baldness that finally hooked Terri. #### *Special Warfare*

Viet Konkoly arrived at USNA from Munster, Indiana, leaving behind a small town of coal miners, flannel, broken windshields, and die hard USNA Parents' Club members. He was the ultimate Stealth Plebe, suffering the hell of having to call his second class "Uncle" instead of "sir". This began four years of jimmy rigging the system: a task that Steve has truly mastered. After a doping Plebe year, Konk began his long line of warfare training schools: eating rabbit bile and smashed turtles at SERE, harrassing students as a survival instructor, Bulldog, then mini-BUDs, where Steve found his destiny to be wet, cold and socially stagnated for five more years. Projectile vomiting in restaurants, an insatiable thirst, a bottomless stomach, disheveled hair, entropy, mastery of pushups, and an innate ability to make people laugh made you an unforgettable friend. Good luck with SEALS, you ARSE! PGB

George came from no name town, baby faced, skinny and quiet. By end he was a man, whose sarcasm was matched only by his shooting. A walk-on as a plebe he left a 2X First team All-American and capt. of the Posse. After dreaming of Comp-sci he settled for general, Wane's World was not for him, nor were most classes. G-town was great, the supe never knew, wrong pants though. Loyola beach parties, Easter restriction (Wte Works Baggit). The letter, king of the teens, she's how old? How can we fit something so large into just 14 lines. "Say it again Sam." A regular walking stenographer. From Blodie to "Can I have your number?" Jim was larger than life. His illnesses affected us all or should I say "infected". Jim came to us as a piece of wet clay and we all did the molding. Credit must be given to the supreme diety...RRR. From finger snapping to Paul Mitchell, Jim came a long way. There is one area where Jim set himself apart- no not that- GRADES. Let us just say we owe Jim our diplomas. Kong deserves a medal for the abuse he endured. His character is almost as big as...well you get the picture. Mike certainly knew how to enjoy himself! Wine, Women, and Song accurately depict his lifestyle and he really lived it up! He holds the distinction of receiving a Dear John via E-mail, but not to let that deter his efforts he tried again with TG only to receive heartache and headache as Smoke Hall became his second home. Like superman Mike could leap high walls in a single bound, to bad he couldn't turn invisible from the armed guards. Another trip to Smoke Hall! Mike's reputation as a dancer was well earned (especially when he was tight for cash during break, all \$1 bills). Want to find Mike?, look at Fran's. Normal girls weren't good enough for Mike as he occupied his time 1st Class year with MA (did the scratches heal?) & when once wasn't enough with an older woman he met TS at Fran's. How old is she? He was always willing to talk and I'll miss our midnight philosophy discourses. Good Luck! MSS

*Mark W. Peters*

The Shark came to USNA from a barrier reef off the coast of Camp Pendleton, bringing with him old age, a permanent high and tight, and a trail of broken hearts in his chum trail. Upon his arrival, Corporal Peters was glad to find his own spot in the Midstore lot. Mark's adoration for the Navy was intensified during his stay at USNA, and it showed in his cheery attitude. The shark soon found consolation through a few fellow great whites at the Academy. These new contacts were elemental in his obtaining the "Peters Exemption." Chemistry added to his bitterness, but Mark found refuge in Fran's, Cluck-U (savage), and the Debutante's Ball (LIZ?) He avoided the Emperor's clutches until his eventual conversion first year. Though we lived in fear of your Al Mar and many rows of teeth, we're glad that we could finally cruise the reef with you. Semper Fi! PGB STK

Coming from near the sailing capital of the East Coast, Poly was naturally drawn to the salty academy lifestyle. Plebe year was filled with come-arounds by Mr. Little, fights with certain roommates, and M.O.'s with the sailing types. For excitement he invited his friends to a retirement village during spring break. Youngster year brought many changes like stable roommates, friendship with Dave Little, Marine Corp spirit, and the exciting ski club. All the while Poly was trying to find his love, but friends such as Laverne McCall were to desperate to respect another man's property. Of course, Poly was famous for his beer goggling abilities. Many friends were made during plebe detail such as the army week room trashers. With senior year came the awesome responsibilities of being king of the ski club and an entire platoon. In the future, the Marines will have to handle him. Beef

*Navy Pilot*

After two years of schooling in Cali, the Rossman decided USNA and the EAST COAST was the only place for him. The consummate volley player, Rail was always looking for a beach, babes, and a net - not necessarily in that order. We were never quite sure whether liberty was invented before or after Rey. In his pursuit of fun, though, trouble was never too far away. Youngster fun landed Rey on SP, Fells meant bruises, while three striper libs further acquainted Rey with Smoke Hall. Meanwhile, Mr. GQ maxed his credit ensuring he was in the latest fashions, and we could NEVER forget the HAIR. Good music, a NICE car - "this is NOT your car," and a fake Rolex completed his look. Bahamas, the Keys, SD, Fells, DC, Vancouver, and EVEN Harrisburg - Rey charmed them all. Eventually, even Sharon Stone fell to his spell. With all this style, aviation was always in the bag (NJI). White gloves waving from the stands and falsetto catcalls of "Sa-ling! This Mirror Man really knows what he looks like, and thanks to JM we all know how he dances. (See the real thing at Sanctuary Fran's, or Tombs!) A sun lamp, a barbell, Paul Mitchell, and a blaze contribute to the "look" that has captivated Hood, Goucher, Loyola (Grind it Mike!), Fells Pt., VS & WM's LL (St. Patty thumb test?), SL, UGA's SB w/ protein jewelry and his brother, and DR (his Seminole Future). Beef came to us from the happy hunting grounds of UVA with his ever present scowl plastered across his face. What was it, four or five times that we have seen him smile in the past four years? He still doesn't remember the bus ride back from the plebe year Army-Navy game due to an induced coma. Youngster year began with twenty five days of restriction and spending three football games on the drunk patrol for drinking a beer with J.J. I guess things were different in '58. Not quite the flaming second class, he spent more of time in the rack than training the plebes. As a firstie, he was corrupted by his roommate who introduced him to the Ebttide. A geek to the end, he spent his last semester at Johns Hopkins through VGEP for computer science. And we thought he only used his computer for HARPOON. It is no surprise that he chose nuclear power. Maybe he'll learn to smile in Orlando. JRP

Dan arrived at USNA with all the grace and coordination of a newborn foal. Mr. Do Right could either be found face planted listening to another soundtrack or on the courts in MacDonough being schooled in hoops. Constantly impressing the babes, Stick wasted no time in establishing himself as the company John Travolta. Never taking a firm stance on any issue, four stripes suited him well. 2/C year, the pride and joy of Chillicothe left USNA for Towson and an Elizabethan education only to return when Mommy put an end to this extracurricular activity. Thinking that traffic laws did not pertain to him he managed to increase his criminal record a few pages. Although Angie was nice at Va Tech she did not fulfill the "Tammy" qualifications that has always infatuated him with LG. Good Luck with the rubber gloves and Vince at Med School. Colin came to us with his giant blue eyes ready to conquer all. Being from Chicago we all learned to either love the bulls, cubs, or bears or avoid him during the respective seasons. With ac-yr came Karen and the river. Not to mention a psycho room-mate. The inspection (nice nametag "wolfsberger") youngster year brought a talon but took Easter. "Someone stole my jacket!" Karen called. With the talon came Melissa. During second-class summer came Brandi. "I lost my i.D.!" "Why am I in the sand dune?" Karen called. Lets not forget 150's. Boy is he fast. With second-class year came the cruise, Traci, and a letter in 150's. What about the tie at army? "We'll get them next year!" Karen called. During first-class summer bulldog became home. Karen called. The party at Karen's; "i never..." Mike and Steve in the river. Finally 21 and the inevitable, a n-star! Gk

Dave came to Navyland from Nowhere, Nevada via NAPS. During plebe summer Dave had a leadership position, but the Academy never repeated that mistake. For the rest of plebe year Dave fought with his roommates who struggled to make a good midshipman out of him. On cruise Dave watched the coast of Africa and earned his nick-name, Snooza. Youngster year our man tried physics, but he finally found a home as an oceanographer. The rest of his youngster year Dave faked a knee injury to avoid the dreaded PRT. Second class year Dave enjoyed "Souza libs" and never got caught. Dave did his THIRD YP cruise first class summer. There also was an expensive little problem with a cellular phone. Academically, Dave coasted through first class year. This did not prevent him from selecting air, despite a body made for surface warfare. Good luck up there and try to stay awake. RVB

Straight from the hills of KY, this hillbilly arrived at USNA with his alien accent, fishin' pole, but no mustache. Plebe year, Quincy and Lisa tried to enlighten this hick, but they weren't his greatest enemy. "Guys, I'm really dreading this mile and a half!" could be heard, religiously, every semester. (sometimes more than once). Swimming, the RACK, an early bedtime, and more RACK accounted for all his natural strength. For all his talk, Daddy left his mark on Georgetown campus as well as Darrell's side of the room (UNSAT!). On the weekends, Little Boy could be found working on his wannabe Ford Chevy or munching at Pig Out's. In March Madness '92, UK b-ball became the love of his life, with Christian Laettner as his best friend. But, Pamela Gail had a hold of his heart, keeping that leash tight. Straight from his local Jersey shore high school, the "Bunger" finished plebe summer with only a few incidents such as getting caught dipping on the parade field. Racking during plebe year was especially difficult with our infamous former classmate chopping in his sleep. C.D. tried to help his exploits by hooking Wolf up with a Monmoth College chick, but I guess she just wasn't impressed. This tragedy did not deter our hero, because many old girlfriends were still to be had on the Jersey shore. Youngster cruise in the P.I. (no comment). I wonder if Wolf will do a better job flying a plane than he did driving the beer truck 2/C summer? At least Sunshine entered the picture to straighten him out, but even she could not fix him totally. Now, Wolf is going into the wild blue yonder with a woman by his side. Beef

When Brian realized that a few years in the minors would be necessary before hitting the show with the Orioles, he decided on a naval career. Where better to start it than right down I-97 on the banks of the Severn? Despite his Randy Quaid like appearance, Burke was totally fearless when it came to meeting members of the opposite sex. His smooth approach and sweet talk also managed to convince a number of his sucker classmates to purchase lemons disguised as planets. Although always quick to point out his status as a "rocket scientist", Brian also possessed and advertised the staunchest of conservative (right) viewpoints. Brian shows wisdom and knowledge that is only matched by the maturity of his hairline. More than anybody, Burke can be counted on for great advice and a quick wit. James Cummings will best be remembered as a Camaro drivin', tank-top wearin', Gargoyle sportin', RATT disciple. This lovable meathead, although not inspired to excel professionally, let his actions on the wrestling mat do his talking for him. Little did he know that his exploits on liberty far overshadowed any accomplishments he may have achieved in athletics. Cummings usually had the best intention of hanging with his buds, but it could be virtually assured that once he set foot inside any establishment those buds were the last thing on his mind. Let's just say this man is a hard charger! His interest in most girls usually ended after three days. Which interestingly enough is the same length of time he retained any academic knowledge. The Miami native never thought he would see the light, but Rob's knack for the system and bold attitude carried him four full years. During a rough plebe summer "Bonesy" ate a few meals with his squad and even brought home a sign for his dog, Mike. Double session swim practices, team tables, the "BARN", and 6258 roommates soon dominated Rob's plebe year lifestyle. Youngster year "Rob-O" would emerge from the rack to exercise a little of his wit - from bananas and spaghetti to getting extra food in King Hall. Rob's amusement never stopped. The summer was always too short, but Hawaii with Dingy and a hot car made it worthwhile. 2/C year brought many new female personalities into Rob's life, but none to last. Hailing from Upper Mexico, Stinky considers "War and Peace" suitable bathroom reading material. Thanks to Pizza Hut, the 3-0 head will never be the same. According to Kiss, virtually every pro athlete was either a PAC10 product or a former Padre. Although he never bought a vehicle of his own, he was always glad to borrow one from his roommates. Proud of his engineering degree and HP48sx calculator, AK showed his command of exponential numbers when estimating his hat size. Andrew's generosity is without bounds, especially when it comes to his sister or laying down his Visa. Kiss one day aspires to play in the NBA, too bad his two inch vertical, unrelenting hacks, and thermal underwear top bar him from participation. What a long, strange trip it's been. Transition was hard for this former Cavalier - BD, a tent, and a boog welcomed Dre to Plebe Summer. His love for the Dead and Doors appeared on colorful tapestries. Dre definitely went out at night-SNOWCON, Whalers in the Annapolis Harbor. In 6258, the law was "It's already Oct, Chill Out!" Youngster year saw Stinky and BC with some fiery room wars. Weekends were spent at DOME, Loyola, Duke-anywhere but here. In 4th Dre grabbed two rings of the triple crown. You are supposed to shoot pool on the table, to stay out of trouble Dre joined the Rugby club. O.C. was always a good way to relax in smiley boxers. There were lots of new people in different places. SS in accords to crowded rooms (Buffet- "look at this thing" - "are we on stage?"). I/C back with Doc and together never ceased to make someone laugh. Remember the Beast in you! We'll miss you! Jeff had a typical midwestern childhood for the most part. He spent his earlier years playing catch with his father and friends. He pleased his teachers by always putting forth a decent effort (and a few apples now and then). So it is no surprise that he made it into the boat school. We first got acquainted when my plebe summer roommate chose an early retirement and I was forced to live in the coffin underneath Jeff's rack. We shared the adventures of plebe summer and then moved over separate ways during the ac year. Through trial and error with many other roommates, Jeff and I were eventually thrust back together for our last two years here. It was a good deal because there were not enough two man rooms to go around and no one had any desire to share a room with the two of us. So after having known Jeff so closely for so long I think I am most qualified to say, "Jeff, your one in a million--fortunately."

Yo, VMP! So, are you still thinking about writing a book? First you moved in with JCC and I Plebe Summer (DJM's on M.O.), and slept in my coffin. You couldn't do that now, though... you're just too HUGE!! Wait... flex again!! Wow!! You're really pumped! Hey, V, let's do wings. A pitcher of Killian's? "Here's what I think of the Gamecocks!" Devin and Mike say, "Let's see that Paula Abdul impersonation again." (You would) You sure gave the Virus your best. And, you are the only person I know of who actually tried to practice the "rack 12 hours, only here two years" theory. Some more memories: "I'm getting up at 0330 to study... Yeah, right!" "I know where you sleep!" "Nice Bouquet." "You wanna see a dead squirrel?" "What's that blue thing doing here?!... I don't understand you (I just don't understand you)." "Don't go back to the rack after reveille!" Kinnison lives. Good luck, buddy.

James, affectionately known as Mr. Tan Man (after his skin which does not tan but rather spontaneously combusts), came to USNA full of idealism and energy, expecting a pure environment where brave men were molded. While he was never known to miss a rate during plebe year, he could never realize that roommate arguments do not follow classical debate rules! He learned the hard way about punctuality at Notre Dame, as the bus remorselessly departed for home without him. 2/C year he became quite the expert on West Point as he participated in a unique, earth shattering, two-way Service Exchange Program. This year we see James much more relaxed, less likely to debate and more inclined to pick up the next round at McGarvey's. For four years he has made great company softball contributions, been a dynamic debater and a prominent member of the Catholic Midn Club. The USS Philippine Sea will soon get a hard working, dedicated Southerner. Good Luck, Jim!

You can take a man out of NH, but you can't take NH out of a man (or boy). Four full years together except for 1 semester in striped alley. It all started with Plebe Summer - croakies, Tuck's, and his feet on the "Ground", Provvy even laid down on the job at Worden. Then to the notorious 6258-nothing reg-from banners, doors, radios, and SNOWCON to kissing mirrors and "it's already Oct". Supt's list every semester from the start - without you studying would have been impossible. Then, it was CatProvDoc with Bocephus coming out the ears. Road trips were key - Duke, OC, and the A/N game. 2/C year Matt spent lots of time at the Boathouse on the erg, weights, and water-finally a US Ltwt Team tryout. Doc's restless nights soon faded-21 begging for crackers. Now we are here, firsties and a new roommate-but we saved room. Lucky for you BRIGDEPCOM. A myth to most-A legend to us. Good luck Doc! *James Thomas Quann  
Dubuque, Iowa  
Marine Corps*

Sir Psycho. Wathen? no. Quann came to us as the man who would eat anything. Table hopping at Dennys, raiding plebe care packages, and MRE trash. JQ survived a ROCKy youngster year and nude bicycle races. By 2/C year he made the swim team and was never the same after, he learned to wear whiteworks, eat at teamtables, and love his body. This helped him start slow with the girls: LaBelle Cezanne, Banana Republic, visits with KB, MJN's knees, Sun. night at Orpheus. Then X-mas and b-ball season, I knew IT worked. Jimbo excelled in areas, not academics, by leading the way in body scars. The area bars will never be the same, neither will the Bulls shirt or that car window. 1/C year he hit stride though, he never did a paper on time, but he still made the grade. You don't have to "Be like Mike," or BJ, JH, ABB, JL, BK, RD, just choose your music and be yourself. Breast of chicken, second to none. JQ you're the best. TW

Brad came to USNA from Downey High School, sportin' his casual California attitude. It all began with Frankenstein..feeding the birds..Highberger Inspections..Rob-o, Dre, Telydog, and Brad = the Barn (the escape from Plebe Year)..Snowcon..drinking with the Canadians..seagull trapping..JQ and TW..the instigator.. "I knew from the first come-around"..Traveling to D.C. with ABB, CY, JQ..kneeling in the parade (sorry I offended you Gibb)..Roddy Frame..Light Station..Pepe the Cactus..Waking up with DN..Monday Night Minstrels ..Salsa Parties..Pentagon Trip for Army Navy Game.. Polock in the Camel clutch..Yosemite..Have Jeep will travel (breakneck speeds).. '92 New Year's in L.A..Thanks, CY and BC.. Midstore Lot--first class parking?..James Dean..Christmas Tree (Roman Candle)..fishing the seawall..Service Selection of a Spruance out of Long Beach will take Brad back to Cali..Best of Luck. Sam, Samantha, Sammi, and even Mana; take your pick of names. Eventually she'll answer to one of them. That fateful 3/C year, you stuck it out! Whoever think a little tutoring would turn into a friend for life? 2/C summer began an adventure, to last a lifetime. ES400 to ACTRAMID to Group six!?? Off to Quantico, Tin Grin Third Herd up front! Mayport brought the beach, new friends, cooking, cleaning house. 7 hours to P-cola, how fast can we get to New Orleans? Ac year brought Sam to 4, plebe rates all over again! 1/C summer in CA again, 8 weeks haze grey & underway (for 36 days!). From seeing the Supe to being on Dant's, 2-striper paper person to squad-mama, 1/C year brought *Lucky Bag*, Spaztics season cut in half, actually having to work for Jack. TAD for SWO? Good luck in that big grey Navy, I know you'll add a splash of color and a touch of sunshine to everyone's life. Remember we all love you! MRH, CDV, SCM, ERB

Following in his sister's footsteps, the last Marine (with the luck of the Irish but don't tell the 'rents), he came SWO close, joined us via NAPS and he isn't even an athlete! 4/c yr, juice under the door and midnight recons. 2 dates in 4 yrs, batting .500. Tuna likes you? No, JS does! Spending Thanksgiving with Jack. Wear your nikes out kicking garbage cans? What did you do during ring dance? Eat your vegies and clean your locker, the Silver Bullet (OCS). Brainiac, academian, philosopher, theologian, just ask him: "You're right Chuck, really." This man never misses church (for real). Heathen persecuter. Took the bugs out of the room. Big Brother is still watching! Chef Tell. Cooked for brigade cdr and CH, remember the wrestling match with Rocco? Wanna play dodgeball? Were the manatees receptive in FL? Nice legs. 2/c Lush, in typical Irish fashion. Semper Fi Mac! JEF,EBE,DJH,JDD,MKI,JBE.

*Scott Stephen Troyer  
Evansville, Indiana  
Navy Pilot*

Immediately upon entering a room occupied by Scott, one comes to the realization that he maintains "positive control" of a chemical weapons cache Saddam Hussein would be jealous of. Scott was ready to turn in his future as a naval aviator for fifty grand and a one way ticket to IU business school. Too bad his involvement with IU will have to remain a daily prayer to his idol and mentor Bobby Knight. We don't know what is going on over at Sampson, but respecting one's superiors is definitely not on the history syllabus. Troyer was not a consistent partier, but when he did choose to indulge at high altitude the results were disastrous. Even though he was a high school soccer superstar, he found his true calling on the cycling team. Scott possesses a sense of humor rivaled only by his former Siamese twin Rick Moranis. His friendship through these years was without equal. Good luck, your the best! AAK, JCC & BJB

Don't cry over spilt milk in Mitcher, you know SS did. He has seen the ghost of Christmas future. It's a bird, it's a plane, it's a grandma green Nova! You sailing baggit. "And here's to the Annapolis Terrace motel.." One of Johnny K's boys. Complements to the Gaucher girls. Pontificate lately? 21st B-day, next time sign the Ac-Log. Do you have to render a salute to your ex? He speaks the international language, and to drink, Peru' (Pink's Garage, remember). 1/c year he made the French Connection and, forgot the Far East. Midn/Terapin, what is the wol-yume?.. The Blues, turn off that damn amp. No skis please. G-town will never be the same. No SAAB story here. JDD, MKI, WJQ, JTP, VMP.

T&A had a spaghetti-fed stealth plebe year. He barely survived youngster year with the instigator. No chocolate after 8 and in bed by 11 was corrupted by me while he tried to keep me in line. After going from chemistry to oceanography to bagging the medical corps altogether, he started his supply corps career (and IRA) early by selling sporthills to the brigade. He liked LT(touch) (passout), JG, and KM but all time favs are short locks and NW. During spring break '92, he earned the title Disco and headaches. Boxman. Self-appointed wrinkle star for the team, he learned from the best- CT and AL. He learned to drink beer, though never in season? In season all year- where are squad tables anyway? Four years of dedication in running came to a head firstie year with eleven stars, a record in the 5000, All American status, and a real screamer at Nationals. RD, DN, ABB, JK, LM, BF, and I love you and you hate the rest. You're the greatest. JQ.

The slumbering, blundering giant comes to us from Kentucky. His mother did not think he would live past three but thankfully the carpenter cut his head out and the giant known by the group as "flounder" arrived relatively unscathed. This great kisser also known as peanut often would talk and talk and talk and talk and talk...Hey J, a little soap and water works better, stunkip. With all that talkin' and all that fluffin' your hot air always kept us warm and the room empty and noisy. When the administration weeded through his room they finally found him during his last semester and fried up the flounder. J., they don't let fish fly. The social scene treated him better and if things didn't go the way he wanted there was always the Moose. There was always the Moose. With the car on autopilot you made your way back from such exotic locations as M-street, Olde Town, Fells Point, and Atlantic City. The Cellar and DP will miss him on Monday nights, but TG from plebe summer won't. BW

White Out. Hailing from the Steel City and always loyal to who ever is winning. Ben never realized his dream of 'one for the thumb.' L (RIP) R and Ben sweated through plebe summer together. Plebe Year, he roomed with Pan Pan and J (RIP) S, but wanted to get closer to J, so he stole his blond haired, blue eyed princess. Youngster year, he roomed with A (RIP) BB and D (RIP-see a pattern here?) I. Cheap thrills was hearing DI and KO play checkers in the shack. Second class year, he moved in with Stunkip, but six days late due to bruised avacadoes. His German beauty left for home with his heart and \$4k. Firstie year, he got over his lost love with the TLC of a minor. Ben lifted, slept, and cooked while he wasn't fighting with his girlfriends. Unable to keep himself or his room clean for four years, small fry made his move late in the eighth semester. Benny, thanks for the late night race/equality/theology/mostly skinnies talks. John "Missile Lock" Baltes, the oldest of seven, came to us from his tribe in Springfield. Day 1, it was obvious that John was in for a long 4 years: 1, 2, 3...uhhh?, "What comes next, sir?" Outbackjack, MO was apparently no M.I.T.(1.63)? "What's an integral?" 3/C year brought better academics, and a never ending social career. John's escapades ranged from a G-town Basement babe to a Cath U. toilet. Get Some. 2nd Class year earned his new nick name "CB." She's mine, BACK OFF! John reached the height of his professional development when he became the shortest reigning CO CDR(12hrs) KEG STAND, anyone?? After slimming out of 45 days of restriction, John was back with a vengeance. He was always economically conscious(NO WAY GRENADE!) First year was filled w/ skiing/drinking/women-chasing. *Stephen Anthony Bishop  
Greensburg, Pennsylvania

From the start we all knew Steve was going to be a leader, especially when he started up his very own clique. Never needing to study much, he spent all his time attempting to have a good hair day on the rugby pitch or trying to justify a \$500,000 team budget. Luckily for Navy, the knee injury that would keep him off the drill field always got better in time for the big game. On youngster cruise Steve and his eye learned the hard way that Navy/Marine Corps joint operations don't include girlfriends. He thought that he played the guitar but Mac daddy, GEN. Z and I knew that...he played the role...Wow-that was damning. A little banana roja and some other bad habits always helped on the treks to DC, Fells and the real long ones to Annapolis. A room (re)inspection by the Dant, an overnight roadside stay in DC and 45 days of bread and water made for four great years. One way means one way. SJD

*Justin Guy Butters  
Herndon, Kentucky

When I met this skinny kid with his squinty-eyed smile four years ago, I had no idea I would never get rid of him. J.B. got off to a rocky start with the help of a squad only a sadist would enjoy and a certain firstie that took "A Sense of Honor" a little too much to heart. But from those humble beginnings the lefty from KENTucky showed them all. J.B. was perennial member of the list named after the guy with the thick stripes and oversized back-yard, and a firstie CCDR which I think means SOMEONE in the class of '90 owes SOMEONE ELSE an apology. He is still not much more than a reformed slob when it comes to the room and is a lightweight when it comes to...well, we won't embarrass him further. Through it all he remained as down-to-earth as ever. I never thought I'd get to be such good friends and grow up so much with this Yankee disguised as a Southerner, but I did. Thanks for four great years roomie. AMH

*Shogo John Cottrell  
Las Cruces, New Mexico  
Marine Corps*

Shogo came to us from the desolate American South West. The war hero arrived sporting a pair of jump wings. He soon pursued other forms of flight with the 5-4 ballet. His many computer pranks, and rappelling expeditions, brought him great popularity with Bobbie, members of the Dant's staff, and computer services. His pranks were many, but sometimes brought unexpected repercussions, like the letter to his father from JM. His reputation soon shifted from his computing ability to his driving ability. Did they ever find the truck? His immaculate driving record was tarnished (yeah, right). MARIO ANDRETTI scored two accidents in two weeks including my pride and joy. Shogo and I roomed during plebe summer, and were reunited youngster year. Those 2.5 years were indeed an experience. Thanks, and remember you are the man. Oh yeah, thank Findog for the degree. KK

*Stephen John Delanty  
Kalamazoo, Michigan  
Surface Warfare*

Before Steve Delanty, nobody knew that a place called Kalamazoo even existed. Now none of us will ever forget! During plebe summer, he was "Clownface" or "Dinosaur-breath", but, to his friends, he was just "the Dog." Halloween brought us great memories: the bloody leprechaun and the Heisman Trophy! We died laughing when he became the blessed virgin. Chief H, J, or da Rooster. He had some rough times: sun-burned on Spring Break, Herndon on crutches, and a long night in DWAP's car, but RADM H gave him the deciding vote! Although he was a 2% member for over 3 years, Steve never had trouble meeting girls: note cards at U of M, movies in the Marriott, letters to JMU, Muggin' in Panama City, and one night in G-town. Banana Rojo 20/20, MAC & SB, sign language, peanut shells, and the GENERAL! He'd be proud!! You, YOU CARE!! Don't look into the sun, it's bright!! SAB

Drinkwater..Two! Classmates get a load of my nice blue polkadot boxers! "I like this place, I think I'll buy it." At least you won't have any trouble figuring out the price from those 2 calculators you brought during plebe summer. How many push-ups did we do for them and that picture of your girlfriend? Oh no! Not another drink. Flying tadpoles!? "10 meters..Ah..that's nothing. I'm used to 1250 feet. AIRBORNE!" Ker-splash! gurgle-gurgle-gulp! Conlocker, is the mechanic done with your \$20,000 MG? I hear it has great pick-up. Too bad the roof leaks. Shrinkdinker you can step away from the mirror now. Ted..you broke the tent! Hey bat-janitor, my locker's broke. @#\$\$%!, they all want it. Yea buddy! How's Austin? Any more pictures? Hope you can spend that nuke bonus somewhere 1500 feet under the Artic Ocean. Glad to have you as part of "the boys." Cat

*Matthew Charles Dunaway*  
Butler, Pennsylvania  
Surface Warfare

Matt "Guns" Dunaway came to us from Butler as his mother's pride and joy but left us all in shock. His athletic exploits dazzled us all. Plebe year came and went with his one cameo appearance at tables. Youngster year Matt became famous when he sent the same three Valentine Cards to different girls. 2nd Class summer brought about the demise of mamma's little boy. "My daddy's on the Coral Sea." 2nd class year, Matt was attacked by a barnacle and kept the post office in Paris busy. A fire escape became Matt's only saving grace on a Ohio road trip. After his success at BULLDOG?, Matt attempted to sign up for FOREST Recon. Matt spent the majority of first year with mousse in one hand and a hairdryer in the other. One excursion to Baltimore left Matt searching the alleys for a doggie. Matt, thanks for the fun time and memories. Send the Heineken to Pensacola. MF,JB

*Matthew David Finney*

Fin-Dog came to us from TX, and will never be the same. He quickly distinguished himself academically as an astro-geek, earning stars every semester except for the conduct one. His social life began to flourish under the guidance of his mentors, JB & MD. It started with the biker chick in NY, continued with piano playing at Penn State, & progressed with routine Baltimore excursions (mirror cleaning & standing in food lines ?). I guess you were made in heaven Fin. You learned to well & got chased out of TX at X-mass (By how many?). Did you brush before kissing? Get some B! 3 years into his social training his anchor dropped in College Station & the M & L words were mentioned often. It must have been the way with which she punched your buttons that caused you to bail on Key West. After much training and fun, you should be ready for P-Cola. Thanks for the memories. JB & MD

It must suck to celebrate your b-day and I-day together. A permanent smile earned the Gooch nickname of Gigglepuss. Kev was known as Chuck (Manson) and Grenade. What happened to Lisa, the love of your life? Remember the 8th wing parking lot? Heidi caught his heart and Kev's mom soon found a pair o' earrings on her car floor. Hmmm. Chuck earned a reputation for ravaging chow packages: he ballooned to almost 200 pounds, plebe year, a fact that his Gymastics coach never forgot. It only took 3 years get Kev to sleep 2 minutes past reveille and then another half year to quit waking up his roommate. Thanks to our great taste in music, we're undefeated in Stop The Music. Calls from Heidi and the parents, motrin, Wanna see my blisters?, more motrin. When's your next care package coming?, the big Five Fry, Who am I? I'm Shogo's roommate, Inconcievable! *Anthony John Hatok, Jr.*  
Pittsburgh, PA  
Navy Pilot

Young Tony, aka the Weasel, Hatbox, Weedsnatch, milked his way through Plebe Year with a full ride football scholarship. Yet, Youngster year he opted for the little football team which he ultimately quit once he realized he could rack 12 hours a day if he played intramurals. Tony's true dedication was his beloved H.M. There was a time before (and during???) when veggies, old (young?) cheerleaders, dancers, and Towsend alumni (key chain) tied up the phone and Waldo's car. Ultimately his one true love made him drive his teeny tiny Hotwheel to C.P. every spare moment. Why were you so exhausted on Sundays? His confused cologne, CD, and clothes collection made up for his weak bone structure (How's the plate?). Of course one had to love the pickled shark and his short man's complex which never stopped him from picking fights or telling H.S. football stories (again & again). AJ's a legend in his own mind. jw

*Alan Hern  
Martinez, California  
Navy Pilot*

When Alan Hern arrived at USNA, it was his first trip East and many times over the next four years Al would compare our new home to his beloved Bay Area, heaven on earth (or so he kept saying, over and over...) Al got off to a quick start, but his journey was fraught with surprises. Coach D and baseball did not agree with him and four years of mandatory futtility (Navy home games) frustrated this high school jock so Al simply joined the 150s team as quarterback ("Put me in coach. I'm ready to play.") To the surprise of all, Al joined the 98% club, but quickly found happiness close to home, again. Mech E was no match for Al, well Killer Keith maybe...but Al had the last laugh (graduation!) A Navy Pilot is the next goal on Al's list, as with everything he does, success is a given, it's only logical. Al, you're a great friend, thanks for the great times. -JB

Snarl is a worldly man, just ask him he'll tell you. A backwoods country boy with a slab of velcro on his chest, he does it all—just ask him he'll tell you. His exploits are many but lack commitment (just ask V). Never short of words except at Holiday Inn in Philly. "Just a minute." V chronology: HB's, her place, his laughter, her mortification, insert AJR. Knock, knock. Don't shoot! Stoneman kills 120 during Plebe Summer. What's black, sucks up money, has a parking sticker and breaks down in N.C.? Don't worry Karl, the rope won't break (chicken!). Has it cleared up? (Don't worry it's only a rash.) The only Youngster flamer (actually, the only flamer in our Co.) Lime-green jello; four on the road. Thought you were Web's roommate for a while. If you won't marry a woman you can at least marry "the last bastion of male chauvenism." Have fun being a professional passenger. Good Luck, don't sweat the small stuff. CW.MC.JW.

*Patrick Russell Hittle  
Mishawaka, Indiana  
Marine Corps*

Patrick aka P.R., Spittle, Scott Free slithered out from under a rock in Indiana and into the lab decks of Chauvenet, only coming out at night. Seen in the Wardroom after his drunken carousing. One of USNA's truly nocturnal creatures. P.R. is the most motivated grunt the Corps will get (NOT!!) and the most informed drill officer 5th Co. has ever seen "Is there drill today?". Lime-green jello; one of the four on the road; road-sodas; "I think it was that exit?" A Chem-geek to the bone. His carousing included many women, wait... no it didn't. Thank goodness AAA came along after TMM put him in the 98% club. Do you even remember Ring Dance? Nice haircut. Can I snag a dip? Nice gut, when's it due. How's your sweater, you snaked out of that one. Wait for the calling. Brown, holey bedsheets. Frozen Chosin. Good luck to the only person we know who can sleep 18 hours a day. Try not to wear out too many boots. MCW.KH.JEW.

*Mark Fredrick Holzrichter  
Chicago, Illinois

Holz—the real life Footloose. He came to USNA as one of Adm. Farrugut's shining stars: "Don't hassle it." With a look of seniority, the Howitzer intimidated his upperclass. He was laughing on the inside, and they knew it. But he overcame many pressures his first 2 years: little sleep, little food, and Coach D. A Natural, but his Field of Dreams was not fulfilled. A Voice. "If you stop this, you'll have fun." I'm goin' fishin'. Hoops kept in shape through late night wind sprints from town. "I can't fit, I'm going over." No Surrender—Sing it Bruce. He was his hero, David Letterman. "It's my show, stick to your keyboard." Dk. As. Oh and...About Last Night. O-30-C. Whoa, Dude! Are you gonna finish that, Skinny? He caught up on his sleep and racked in his free time. "Navy Pilot?" He's laughing again. "Is there something in there?" There sure is Holz; You're alright. God Bless from Big G.

*David Robert Johnson*  
Lanham, Maryland  
Naval Flight Officer

Daves was the first person I met on that unforgettable day in July, four years ago. That was probably the most anyone saw of him after raising his right hand on I-day. Plebe year, Daves would slip into Lejeune before the sun came up and would not return to Bancroft until after the sun went down. Daves presence hardly felt that year, quite indicative of the next three. 3/C year rolled around and Daves rolled out of the rack just in time for the weekend. Leave at Noon back at midnight for Saturday. Jeeze Dave, church was awful early on Sunday! 2/C year rolled around and Daves managed to roll out of the rack again. Lou was a loo and Daves had enough, or at least his shoulders did. The thirst for racing was still there and Daves passed up a chit for Motorcycle racing. Whether or not it was approved, like most things, it didn't matter. 1/C year came for us but like most things it didn't matter. Dave takes life as it comes and lives it to the max. All the best from the Fellahs! -KKH

*Andrew Denis Lamorie*

"Chief" came to us from Phoenix via a long trip through the fleet, ASU, and BOOST. But La-moron never let his age show. Although Drew's vast fleet experience helped him slide through plebe year (what was with you and Kuts anyway?) he was lucky to escape 34 after going toe to toe with another prior who was also a company officer. Notorious for his disappearing acts (Plebe Detail, etc.) Drew always had an excuse that made sense, to him at least. After meeting Jill, Drew was always quick to punch out after his last military obligation (at least the important ones, right?) Although he flirted with the Marine Corps or with becoming permanent DAPA rep (listen up, I'm serious about this) Drew went SWO and signed on with the fightin' stump. Never a financial wizard (3 cars?), Drew and Jill are bound for years of happiness, of Jill balances the checkbook. When the moon hits your eye like a big pizza pie that's LAMORIE!!! - JB, KKH, DWAP

ServiceSelectionMan came direct from the sticks of Maryland, and Damascus' golden boy never looked back. From the first nights staying up talking, to the late nights out on the town, the "sweat" became more chill than his placid roommate. "Garrett, I know," "You're like a brother" the ladies used to say. Then came a change, and we haven't been able to keep them off since. Pun Master, monkey, Olympic Bobsledder & Skier, Blues Brother, Ninja Warrior fighting the Mate, Kris Kros, Elvis, Paul Schaefer, the list goes on. Endless hours of entertainment. Poet, singer, songwriter, comedian, impersonator, counselor, handled with ease. Little more time and maybe musical tastes would have stepped up from Michael J.A golden foot to beat Army in Rugby, a natural. Keep your eyes open and avoid Marmaduke. Ya know Dave, I'm lookin at the big clock in the sky" Garrett, you're alright, been my brother, See ya in the mornin. M.H.

*Jason Robert Maddocks*  
Beaufort, South Carolina  
Marine Pilot

Jason came to USNA determined to become a Marine Corps pilot or get his first kiss, whichever came first (He's flying). Jason's plebe year was drenched in sweat, but a new sponsor with a great bar ensured that the old boy might actually learn to live a little. He joined the powerlifting team in order to bulk up. Oh well. Actually, it seemed like the majority of his time was spent in front of the mirror trying to suck in that "spare tire". His romantic career was legendary, if not criminal: A scandalous affair in the JAG Corps (See JAGMAN Art. 133), the "ICE" chick, a couple of girls on the rebound, and finally A Run for the Border. We'll always remember Jason's general goofiness, his uncanny ability to laugh at himself, his little red CRX, the fuschia mood ring, his lack of a good tan, and his lust for domineering women. Best of luck, and Check your Six. Adios--MDF,CTS

Although Joe wasn't used to the tropics of Crabtown as compared to the Minnesota tundra, he adapted and overcame. Joe found faith in the book of Psalms plebe year and enjoyed reciting Psalms after taps, until our friend Quimbus found out. Joe also loved playing the Big Drum for everyone but soon discovered that Aerospace Engineering was tough-especially when you had never seen calculus. You should have gone Astro! Joe also had an uncanny way to attract strange dressed-in- black-with-unkept-hair women at the Sanctuary, though. Stay away from knobby knees! After tireless searching to find the perfect 2LT-mobile, an 86 Audi Quattro, he promptly turned around and sold it to USAA. We hope that you can keep your second Quattro on the road! Advice: be careful on your next skiing trip-you only have one spleen to lose. Congrats on taking the last USMC NFO billet! Semper Fi! SJC, DRJ

Mario came to our great school by way if NAPS, but is originally from his most beloved homeland, Puerto Rico. There, he trained endless hours a day trying to become the judo stud that he was here. As well, he sent many hours looking for that perfect woman, -- well he found her just before NAPS and has adored her ever since. At the same time, though, it seemed as if Mario loved nothing more than his car, his stereo, and his dinosaurs. Berry Powerful! What Mario? Oh, he's just looking at himself in the mirror again. I've never seen people watch TV that long. He who eats good once, but he who eats good and bad eats twice, right Mario? No, but Mario works hard, and tried his best to remain humble. Physically, Mario would run up and down eight wing stairs while holding his breath. Mentally, we were surprised he made it through 4 years of Mech E. And whenever he wasn't giving Salsa or Spanish lessons to his roommate, he always found time for a milkshake or three. Mario we think you're the greatest. You're a true player and will be missed. --DRJ

If Darrell had been a Comp. Sci. major he probably would have made a 4.0. Microsoft could have used him as a video game test pilot. Good times were always around with Darrell. The SCUD missiles, classic rock, Sat. Night Live, his grey bomber, the brain trust, tanning on his private deck, and hanging with the fellas. He gave his life to rugby. Spring flings never turned out fruitful, but they didn't deserve him. The "Corps" is going to have a great leader. You might say he could be our next Gen. Patton. But, to us SWOs he is an honorary member. Esek Hopkins would be proud of Darrell's "raids". The best of luck to him wherever he goes. He will always be the best of friends with Dog, Bish, S.G., Spaniard, Holz, Misha, and the short brown surf punk from Va. Beach. KAU

"If this is any representation of your work as an officer you're in for a short and painful career", said P-3 History Prof. and off to English it was. Was Hannibal a Roman or a Carthaginian? Anyway the Dan Gable of W.Pa. quickly joined the ranks of the retired Athlete Assoc. because of bum shoulders. The Probe he ended up with would be key for his trips to U.M. but for I don't think it was made to be a 4X4, you know? Summer cruises brought interesting stories back to the room...starting with that special Indian girl from OK to "Talk dirty to me!" "Ok you're ugly and you smell." Russia caught his interest and his heart. "Its convenient you know.", as we were soon to find Moscow in downtown Crabtown. You can probably still hear it in your sleep " 300 spots in less than 3 semesters Wow! What an influence!" But if I were to do it again, which I doubt I would, I'd have it no other way. Gracias por todo. LEY

Ken aka Ubes joined us at USNA after graduating NAPS with honors. His knowledge of matters military helped PRH survive the summer, but Stealth planes and guitars were his aero downfall. Ken quickly 'rebounded' to a Gilligan scene w/ SJD. The surfer, actor, musician, and disc f-ball player missed that pilot billet by a few miss-placed inches (check his six), but his good standing as a member of the braintrust will serve him well in the fleet. Ubes made his acting debut as the baby Jesus which led to his finest performance as "Kung fu Ken" at A-N '92. A terror on the field, Ken was forced into an early retirement after some fancy footwork. Ken is both a lover AND a fighter, "Come here, I want to talk to you!" Ubes returned to grade school for some late night E.I. (w/ML). Its been fun. Best of Luck to you and Maricel. Vann-wah was a very fuzzy, coffee-drinking, vanning roommate for 3.5 years for PRH (thanks for the fun.) Mark matriculated to the Academy from Covenant College under Foundation sponsorship. Note his heavy involvement in OCF. (John 7:4) Curiously, Vann-wah spent several days on R&R at sponsors' while recovering from a crash weightloss diet (pneumonia). What did Benson think? Mark avoided anything and everything military by earning a varsity letter on the sailing team (no soccer!) Newport-Bermuda 92! As an OE major, he took far too many math and engineering classes. How about the Frozen Chosin (want some snow?) He can be found in the woods, on the water, or playing golf. Maybe there is some deserving young lass for this boy; perhaps time will tell. She will have to endure his strict regimen of sleep (1130=lights out.) He enjoyed the AC officer billet (finally, co. work!) PRH

NUKE, often confused for the new cyborg 6000 series(TERMINATOR), has come and gone without a clue. Plebe summer was filled with laughter from Jim's movie recounts. 1st set earned Jim a ranking of 1, and 2nd set 39. WDF? Jim's academic year began with ENGINEERING mathematics and REMEDIAL English. WDF? Jim's marching rhythm earned him a permanent watch station during drill competition. WDF? Yeahhhh. Jim tried out for every Varsity sport on the yard, finally finding his place with 150s football(Earning his N-star and ALL CONF award) Yeaahhhh. Youngster year came and went without notice except for a few incidents: One involving an overly friendly man in a Mercedes, and two the Welcome-Yack party. WDF? Jim's most challenging moment came in the fall of firsty year as a result of dining at Ram's Head. We'll never forget your ability to make the boys laugh and we're sure all will go well. Jason, alias Waldo, came to us from Glen Ellen, Ca, by way of Northwestern Prep located in Green Valley, Ca. Waldo loves the Marine Corps, fire arms, motorcycles, and a special member of the class of '95, oops now x-member of '95. Boy what a ringdance date she made Waldo!! Waldo was the only first class midshipman to shine his shoes and brasso his belt and nametag every single morning before quarters-yarch devil dog!! Waldo was also one of the few 2/c to earn 1/c weekends. So what did you do with all those weekends-I remember, you stayed in and studied. I think you missed the idea. I hope some of my bad habits wore off on you-maybe then you will know what to do next time you spend a weekend at N.C. State. Remember, watch out for those wedding bells, don't worry she will tell you what to do. Well roomie it has been great-watch out Marine Corps 'cause here comes Waldo. TH,PH,KH,MC

Matt started his four years off a little slow preferring to spend his time dreaming about gas turbine engines and battling his computer in some fantasy adventure. Luckily, Matt has finished off strong inviting the rest of us into his little cubicle on 3-4 to blast everything from WWI biplanes to Imperial Tie fighters out of the sky. When Matt wasn't jumping the wall to see Metallica, he was pulling all nighters playing battletech with Daryll. During his free time, Matt was a successful Marine Engineer. Matt will always be remembered for his preference for Glen Livet and Scottish swords. Matt has everything in life including a portable VCR but a beautiful babe, but few women are up to his quality. Good Luck with Ashley. Matt is off to Yokuska for his long dreamed about FFG, but first he'll be my bestman. Good Luck Matt, your a great friend. Thanks for the scar. Chip Wired came to us from Plymouth Rock, and a rock he was. Wearing his shoulder boards inside out to a formal inspection, setting fire to the room, trying to burn down a bar with his Statue of Liberty, getting thrown out of St. John's--twice!! He spent every weekend either trying to convince us that sailing is a real sport or out on the slopes skiing, badly. Every Sunday, his only story was "I almost hooked up, but..." Par for the course for a guy who barely had a date in four years. Oh, except for that time he was green over white with that girl from Hood. It's good that Chip will be stuck in a reactor because its taken him four years to earn a letter in sailing, during which time he has run aground several times (great navigation) and overturned another boat. Hopefully all the time he spends haze grey and underway will give him the opportunity to get huge. Chipper spent long hours studying to be an Ocean Engineer so he can go on to paint buoys. We were only one semester away from going eight for eight as roommates, and what a great trip we had. After flagging Calc Plebe year, academics became a breeze for J.B. and was replaced by Rugby and Davis' Pub. Road tripping to G-Town in the Barrancomobile was always a highlight. As was Beantown (the Boathouse will never be the same. J.B. played Rugby for three years, where it is rumored sometimes he would shine at the keg more than on the field. 2nd class year brought about two changes in J.B. First, he became a "red tag" for Plebe Summer (proving they will take ANYONE for the job). Then he went on a rampage with the female section of the brigade. Amy, Kristian, S.J. and of course the period which had him singing "Joy to the World." 2nd LT Barranco? Who's kidding who? Perhaps there is hope for the Corps yet. John taught us all one can accomplish anything if you put your mind to it, even EE. Best of luck in the air and keep in touch to rally. Happy Happy, Joy Joy. Fogs

Bean came to us from the mile-high city with a snowboard in one hand and love beads in the other. Wood's favorite pastimes included arguing against you, resisting authority, and growing his hair out. The pioneer of new music, and explorer of D.C.'s sexually diverse dance clubs, Nosaj always was the ladies man: no techno 'Bennett' chic was safe when he was Raving. Then again, not everyone had to call their girlfriend "Ma'am." Not your average Mid, Doc went from chemist to poet, accumulating enough credits for two degrees, then decided that he had not punished himself enough and went off to Med school to become a poet-doctor. Pig Pen also did detail, and as a member of the handstand chowcall gang, he soon learned how many minutes it took to get to Smoke Hall. Wood always made this place a little more livable, if not laughable. MAM, JPS, GMK, MAP, BLS, HAE.

"Lazy E" arrived at Annapolis rip-roaring and hard charging, prepped for the US Marine Corps (bark!), having been the Supreme Allied Commander of his high school MCJROTC. But soon he realized that "Conzen, you're an idiot" wasn't just Plebe Summer name-calling, but *verdad*. So he turned his efforts from professionalism to his grades...no, athletics...no...Well, he turned. He also found that he was exempt from some insignificant events (Herndon), and he had no qualms about other misdemeanors (\*\*\*\* the Felch). Finally he saw the true light of being a SWODADDY, quickly adding a gut to his svelte frame. While his love life was constant, it was either too distant (T, jungle woman - hey, why'd we miss our exit?) or too distant (I need a watch. Timex, Rolex or...); until he found a sponsor! All in all, Eric has been a true friend and the best roommate, especially on EOSL. Yo' "ho" fo'ever. DJC

Dev came to USNA shouting that "I'm from San Francisco and I wear an earring, sir!" The Brigade of Midshipmen proved drastically different than anything he'd experienced before in his Jesuit education, there are girls here! After moving out of the psycho room he never had to hear "Come on, you know you do it more than I do!" again. A Herndon validator, ZZZZ, Dev proceeded to terrorize Summer Seminar campers and LT Bosslady. Youngster year brought an exciting plane ride back from leave - "Uuuh, steward-ess..." Dev met more girls through Glee Club, the more pen pals the better he always said. Only 3 girls really interested him, one was too crazy (Ring Dance), one was too close (3-3), and the other was so close, yet so far (Hoodlum!). First class year DJ lived alone but found time to visit his roommate in Eastport every once in a while. With Cox Fund, he'll probably bring back an opaire to San Dog. ELC-QIK

How about that Singles soundtrack? WOW! Is that an Italian vest? Deals decided to follow in his fathers footsteps and join the Air Force, and the Navy was happy to oblige since they tried to get rid of him, his entire first class year! A proud member of the 2% club came our way from the dirt roads of Michigan. But little did we know that he lived all his life in Bancroft without a TV. His mighty SWOness "should have really taken up running!" Weekend disappearances were common 1/C year for those long books-on-tape road trips to the homestead to visit the wife to be. AT&T and gemstone stocks were certainly on the rise in '93. "Al-ky" considered about every service selection option but settled with the donut crew. He got off to a rough start wearing the sea lawyer sign but has fared well in the rough seas of USNA. Became the company "pro-stud", just ask him, he'll explain more than you ever wanted to know. Seriously though, this happy-go-lucky camper (eagle dad) is a spirited dude that will always hang with the guys. New privileges of Youngster and 2/c years allowed him maximum Harpoon time. He finished 2/c year with batt cdr stripes. 1/c Weekends saw him heading out in his touring sedan to tear up the town in search of an eternal pen pal. Fogs made the Padre pilgrimage 3 years in a row, leaving smiles on many faces. The string ended in Key West where he found the real meaning of love me two times baby. Jabour will never be the same. Fogs found that 4 out of 5 academic buildings do not approve of him. He spent a lot of time w/Felch justifying his continued government employment. I guess it was the fact that he was the All Supreme Ever Knowing ROTC God at his high school. Plebe year found him blind folded for most of first semester; due to the excellent leadership of Hardluck and Dickson. He never could get those chow calls down!!! From the dozen donuts the night before I-day to the great road trip, you have been the best buddy I have ever known. This second generation Naval Academy grad had no trouble adapting to the Boat School's customs and tradition, he also discovered TLW at a post Herndon debrief. Scof had a weekendless battle with EE until firstie year when GE brought good things to life. Swimming to the spider bouy with SH and missing taps, finding the only rock slide in Kansas, survivor of 2 SB's with the Foz and being the poster child for world hunger are some of Jeff's finer achievements. As Big Al's former POW. Jeff was a slave to "Scof's law of average speed:" his ultra slow stroll that allowed his amazing pace, earning him 2 N-stars along the way. Mr Quick, originally from Providence, RI, began his career as the fastest man at NAPS (NOT!). After sleeping through Carvell's class, learning how the "A" students do it, youngster year Sly eventually "massaged" a piece of the package. His skills were greatly admired by many. Sometimes too many. Second class year, he had a firm hand on the PACKAGE and the other on the plebes' racks. The CISCO Kid's talents were also appreciated in Fla. (on the moonlit beach). He returned, first class year, to savor 2 dishes of Annapolitan cuisine. Unfortunately, these dishes weren't as filling, so his taste turned to Baltimore. Yet, the prince still found time to make trips to the KINGDOM and impress young maidens of the court (M.T.G.). After 5 yrs. of nationwide service, the DR. is now making private house calls in Baltimore. El Presidente knew the secret of life - "I give a \$@\*#!" What ever convinced our big midwestern farmboy to go nuke? No wonder though, this is the same guy that selected 93rd in the class, dates a girl named Bazooka (we're glad ring dance was so fun) and owns the only midshipman subscription to Nuclear News. I suppose that some brain cells have to go when you take a disciple of Rush Limbaugh and send him off to New Mexico alone for a week with no one to think of except Lefty Kreh and his scaly friends. Also, who else commanded the Sixth Reich, drives da'Merc while he listens to George Jones???? and Mark Chestnut (who's that)? No man is an island but some are certainly peninsulas and we all love the BIG three sports (are there any others), BIG athletes, and BIG time wrestling. Tutu left behind, you sailed here from planet Voop where sisters & brothers are close, sheep scared, & loading in the back of the pickup w/ a banjo & rifle is just about the best thing ever. You managed to protect your sis & not have a serious girlfriend. What's the call? sssafe! (what were you thinking?). But, let's not forget your beantown connections, Hoodlums, & more. We've seen several people inside you (Zelda, Sdwart), and your in-room concerts started a trend that's out of control. Your Gleeful taste in music made us wonder (Metheny, & songs like Pet the Hot KITty). Was that clear? Crystal? I thought so. Sebe, it was an honor to room with such a talented person, not to mention the one and only MCPOSC-ie grand poobah. I'm glad I brought out the hard charger in you (I created a monster!). With her compulsive need to clean the room and brush her teeth after every meal, she barely survived the wrath of the Raven...Who left water in my soap dish again?! Luckily this ended soon, and Tiny Bubbles lived with her bud and best friend, the Marine Corps gunge pup. Although Mrs. Gunge Pup was married and had to leave the 35th brigade, Tiny Bubbles remained and left a trail of broken hearts. Loves horses and country music. Remember country dancing Army Navy weekend? Not! Let's go shopping! What credit card limits?! Little Caesars and ice cream - yes! "What do you mean there's no lake?!" MDZ knew since he was a little kid on his parent's yacht that he was destined to be a midshipman. After numerous times powerin' by the sea wall and then when EJZ came to the boat school there was no question. Once reaching the Academy the grand illusion became reality. MDZ then spent four years striving for the ultimate goal "...just to be left alone." Well, MDZ being the perfectionist that he is soon found his weakness: THE WATER. But, as is expected of MDZ he found a way to conquer that mountain, after many diligent hours in the water the rock became a fish. Early on MDZ met his match, JR. She kept him poolside, on edge and sane at the same time. He rushed off to DE every weekend, but MDZ was always here when we needed him the most. MDZ we'd wish you luck but this Irishman knows that you won't need it. MDZ forever to be our friend in Pennsylvania. MSM.

Hey, Oh Great Broad-Chested One, you've made life here a bit more interesting for the last four years. Whether you were wandering to formation late or getting chewed out for smiling Plebe Summer, kicking the daylighters out of some Army puke at a karate tournament, or "packing chutes" at the loft, you were always unmistakably everybody's little buddy "Abe". How you pack so much gunge into one little body, I'll never figure out. But pack it in you did during Second Class Summer Bulldog, earning yourself the Corps Pilot billet you always wanted. Add to that your degree in Aerospace (astro track, of course), and subtract a lot of weekends, and I figure you'll be putting the jammy-jam on NASA in a few years. Transplanted from the hills of San Gabriel, 'milla arrived at the Academy a tall willow of a boy. The rigors of plebe summer, however, quickly turned him into the tool he was meant to be. Always honorable, "Sir, I think Spooky is going to commit suicide..." Scam brought with him his laid back Southern Cal attitude and a suave way with women (ask the wolf), making him a natural mediator. "BRD, you're just a politician," or, "MRK, you have no friends..." He took a year off after run-ins with the Major and Pat, and learned to shave his legs as well as "put the hammer down." After peer pressure, coercion, duress, and threats of bodily harm, Kelly returned to work his cox box magic and keep the crew team informed of weather, oceanographic trivia, the latest blond jokes & tales of last weekend. His luggage proved quite useful, however, and the SUPER-NAUT became the driving force behind Garc's famous parties. After a very religious plebe year (what did you and JEN spend all day confessing ?), youngster year brought brain surgery and a rapid upswing in SNM's IQ. Obvious since he changed his major from Marine Eng. to Poly Sci, remembered his age in the presence of alcohol, and traded dreams of the Marine Corps to become a back seat driver. It's been a great pleasure knowing TH, who's been an entertaining roommate, fellow naval architect, and friend. There are few people who are as intense as he when there is work to do, and it is best to stand clear when a deadline approaches. Unfortunately, his computer is not so cooperative (only his machine would plot a straight line equation as a curve). I believe that TH and his Zenith must have been enemies in a past life. Not much phases TH, except for wooden stakes, garlic, and running water. Proving he is a vampire is tough, but he shows the classic attributes. He sleeps mostly during daylight hours, studies best in dark rooms late at night, and can sneak around unnoticed in the shadows, sometimes as green vapor. TCK came to the Academy with superstar volleyball expectations. After one year of team tables his size grew to immense proportions, thereby earning himself the name BEAR. While lying in his bear cave, he challenged anyone to any competition. Whether it was the pit or taking on plebes in 6 to 1 volleyball matches, he would take any shot for a juice. We now know for sure that the CHIEF rules the basketball court. NANDO rules the tennis court, but Bear rules the rack. Bear will make one hell of a housewife, pass the S.O.S. bottle and sweep the floor. Dubbed over plebe summer as "Baddog" for his hammering of easy runs, he will forever be half a step ahead of his competition. Plebe year brought many challenges to this man, as baffled upperclass asked questions such as, "Who is Larsen?" and "Is Larsen a plebe in this company?" Youngster year brought a letdown at Hood and troubles with Jack Daniels one Friday night. 2/C year brought legal drinking. "Hey, this isn't as much fun if we are allowed to do it." 1/C year brought DAL his varsity letter after many grueling miles. Way to come through AI, you schmuck. Better known from the Van Halen tune "Top Jimmy," JJM is unforgettable. Even though his sarcasm sometimes made him difficult to live with, making him mad was not a good idea. The natural-born collegiate pistol champion's generosity only gave you fifty yards head start (and no one's faster than a bullet). Raised in an oasis of civilization in Indiana, JJM never fails to impress us with his ingenuity and mechanical skill. His still running '82 Oldsmobile (or better yet, "Jimmy cruise-mobile") proves it. When his hands aren't dirty from some project, he is most likely found out having fun. Even with a tough major like naval architecture, JJM always had time to spend with friends, or whichever woman had the privilege of his attention. Youngster year brought 2 Ac-Boards and a 1.25 GPA, along with two failed attempts at Calc III, fortunately his superb Military Performance saved him from joining Harriell. 2/C year JEM found a ball and chain, and soon after Orr joined him, changing both forever. Don't remember much about J plebe year...don't think I knew him till he became co. commander. then everyone who knew him wished they hadn't. 3/c year began J's education on the finer things in life...things a good church boy wouldn't know about. Hailing from the state with the largest ego, JCN flew solo into a world of lax sticks,band aids,missing anchors,perf. boards,and paper bag headwear. 4/C Indoc (old style) ended and 3/C year started with his first (and not last!) career choice of subs?!? Luckily that fad was short lived and he started to see the GREEN light after many midnight runs in boots. JB came to USNA, via NAPS, to complete his never ending search of knowledge. First JB wanted to be a weather man, but his always inquisitive mind was not satisfied. Instead he chose the path of political science and world affairs, concentrating in Japan. He did this because all of his possibilities for companionship at the Peabody Conservatory, Louvre, Lithuanian tennis court, Germany and Denmark were exhausted. Is it his Mysterious Ways or his scratchin'? How about athlete's foot spray? To clear his mind of these problems JB had his monthly beatings and his decorations: the SWO DOOR, the Commandant's Rug, yellow hearts and orange stars, chains, LEGOs, stereo and Periodic Table. Of course he outgrew those things and is now living at his sponsor's house. In the future you can call his secretary and leave a message about lunch because JB will be looking at his nice planes. One thing is certain about Slinger, from day one he knew what was best in life. Anyone so obsessed with fast, powerful cars that he rebuilt his own and named it Mable, needs to be in the cockpit of America's finest jet aircraft. DJS is the ultimate pessimist yet he managed to still have fun, so the question remains-is it just an act? Anyhoo, from his plebe summer constipation stick to his first class follies he always managed to amuse. How can you not appreciate someone who introduces you to the finer things in life: San Diego beaches, T.J.'s, So-Co., and interesting words like "caca". Of course his musical tastes are not the most varied (from Metallica to Motley Crue) but that never stopped him from making up his own twisted tunes and singing them in his o so lovely voice. After getting tossed around by anyone who had the time, Chief was demoted to the rank of Papoose. Still his way with women has carried him through the abuse that USNA has blessed him with. Chief has turned into an intercontinental lover, sampling exotic women from around the world, just ask him. TAW chose four years by the bay even though he had a full ride to Bob Jones University. Plebe year brought a new member to the IM basketball team even if EP blamed him for all losses, no women till Herndon, "The Dance", and rooming with AO and JM. Life got better with youngster year, academics did not. Studying on the weekends, he became the most studious with the worst grades, created the inverted rack, and love for rubber bands. Surviving "Axe" Boards started him on 2/C year where he became acquainted with Taco Bell after church, the B bunny, satness, a Ring Dance date plebe, and farts at reveille. After Bulldog he struggled with grades(again), the chiefs daughters, getting one of the last USMC billets, and finally finding KLC. How can one sum up 4 years at the mistake by the lake, no not Cleveland but good old USNA, in the life of HOALMIGHTY? You can't, but all you have to know is this: G.E. brings good things & grades to life! A renaissance man of the nineties, the CISCO KID (I'm not talking Western here) has acquired a taste for many things. JB, the erstwhile bodybuilding champ from somewhere near Detroit, came to USNA because he figured normal college would be too easy and boring. Hard to believe, seeing as he lived in the rack and never studied here, either. Ask him sometime if he ever read the works of Plato and Socrates. He didn't sleep in class, though. In fact, his profs always found him awake, diligently doing his crossword or filling out entry forms for a MidStore give away. Outside the academy, he was a changed man. Be it Hood, Michigan, or Georgetown, JJB was a man possessed. Whether seeing the Rocky Horror Picture Show frame by frame, or bonding with Jose Cuervo, he definitely had a good time. Now he's headed to P-Cola (someday) for fun in the sun. JB, it's been an experience, to say the least. Take it easy and don't study too hard down there, o huge one. MGF

Why are you such a ...? #8 walked on with us in the summer of '89, beginning four years of dis. Remember the fresh catch vs. Rice. Two words..You pole-vaulted (with a star) into youngster year to become the conduct king. (Restriction squad). Scarface made appearances at G-man (w/ Carl Pickens) and v-ball at the Sports Bar. 21st at P-cola and the 4-horsemen left you in Irish Wake.. "Shhh, Listen", "I love you guys." "8-ballin at World Beat showed us the Big O. You were always sick (w/ the fever). "Hey babe, you got to reverse that, Bam Bam." By the way, did you end up with more girls or cars at USNA, DARTH? Will that be cash or charge for your 18 bars of soap? Vermont Slope-Shredder. AB welcome to the Surface Warfare Comm, just for a month. Seriously, you're the best we know, we'll tri-up again at TBS. What can be said about RCA that would shock and surprise anyone? Very little, so an attempt would be worthless. We first knew we were in a unique presence when a 4/C RCA started inquiring during Plebe Summer about smoking regulations in the hall. By the time of the infamous 29th dining in and the RCA grog downing, we knew that the next three years would have a considerable amount of free entertainment provided. Sailing, cigarettes, philosophical discussions, and women not to be named wrap up Plebe year nicely. When we rejoined 2/C year it was sailing, cigarettes, philosophical plays, and more women not to be named. As I try to recall events from the mire of senior year, I always end up at H.B.'s. A special thanks go out to B., A., and J. from RCA and his roomie for making the last year pass more quickly and with less pain. DGW

Mary and David blessed us with the daygo out of a northern borough. GB was an inspiration to us all as he was a leader on and off the V-ball court. GB liked to go to the b-room, win money and stain desks since day 1 here at USNA. Bunk has certainly changed a lot since he first donned the uniform, from a 3.6 to a 1.4 was only one of the areas of his mutation. Jungle also explored new areas of love going dark and going hunting for wild beast and just going. GB was a frequenter of waterholes but he was never anywhere to make friends, especially with the c words. He lived through poor music tastes. Never forget us or Jerry, and never lose the rage, good luck with GIRL and go buy your Harley. GOMBADA

It's been a loong 4 years! He's been everything from hero to James Brown to head restrictee. He's close friends of two commandants and a close friend of the Supe. The man who has a knack for trouble. What was the fire coming out of in that picture? How did those handcuffs get on your rear view mirror? Whatever happened to that girl in Florida, Canada, Baltimore, Atlanta, D.C.?! In 4 yrs he went from being sloppy to damned messy, except cleaning up after a sick roommate. I've seen him overcome everything that this place could throw at him, and with the help of his little train, alot of friends and a stubborn roommate he's made it through. Now that we've made it, let's get in that shiny, black car and go to Henry's. Cat, stay strong and GO KAPPA!! Peace Out my brother. JCA

LCC shows up on I-Day as a Metallica fireball from MMA and leaves a mellowed Cowboy. LCC was not quite apt in the art of personal hygiene, but his flamboyant personality made up for it. LCC was the only plebe that scared the upperclass with the mystery scar. Youngster cruise LCC lost the force in style w/ the BC. 3/C year LCC was martyred w/ trips to UD and strange containers under the sink. "But mom, I never..." came to an end 2/C year w/ 45 days. LCC fears nothing-not even steel signs. "Everybody in your underwheres.." was LCC party call and he was definitely the life of any party. Watch out for dog's in the hot tub. Being a brat, DC claims several homes including the wonderful state of TN. He arrived at USNA after a BOOST from CALI with the blond hair and tan of a true mariner/aviator. Before the end of plebehood, our leader Herbie changed his career choice from dental corps to undersea life and became alpha in military ranks (despite his regard for civvies). 3/C year produced a long line of S5 burned bridges, an automobile accident, and career changes including the chair force for this seasoned sailor. After 2/C summer, DC became even more stressed about the future and decided to try USAFA for a semester. Returning to USNA with several more kindled bridges, this starman found his calling in EE/WEAPS and as Bud the maintenance-man. 1/C summer showed this 4 striped Devil DAWG the light that he must be a Marine with a 4X wheel vehicle. To pass the time before returning to the West Coast, he picked up Crew. TD rowed for the heavyweight team for three years, pulling the fastest erg time on the East coast, winning the IRA Championships, and receiving the rare N-Oar letter. Spending as much time socializing and laughing as he did sleeping in class, he was well known by everyone throughout the brigade. Trouble had its way of finding TD though. Whether it was the highway patrol or the CO, he had a way of being in the wrong place at the wrong time. Phil, the oil tycoon from OKC. Plebe summer he was the chit master & continued the tradition for the next four years. 3/C Year introduced PLE to a world without S, but with the wardroom, rack, computer games, & booze (A man). I guess it's a good thing we didn't all just leave him alone. Watch those field promotions. His taste in music (Whitney Houston & Heavy Metal) is only matched by his taste in clothes (Black w/OU hat). But that Pink shirt did blend in well at Disney World. MC will never forget 2/C summer in New Orleans. What was the name of that joint on Bourbon Street anyway? 2/C year started looking up, he got back with S, & Spring Break in Daytona w/the Guido Mobile was a blast. GMF was the proudest native of Florida. He is the only person to like all the Florida sports teams including winners like the Miami Heat and Florida Marlins. It was hard for GMF to leave his 12 siblings. Especially his sister the sister and his brothers the brothers. At USNA GMF lived with a diverse bunch of folks. He battled with a third world fireball, moved into the ghetto, and then settled for another Mick. GMF lived on the trailing edge of the Systems curve, but always managed to enjoy himself. Who didn't forget CT's last night out, which GMF blamed on the four beers not the Tequila shots. Not to mention GMF's own 21st birthday party. Did that stuff ever come off? T- came to us from "THE NAVY TOWN" and four years of Navy JROTC? Plebe year held many things for the "G-MAN", endless days with Laga-hole and quickly ending nights trying to study while your roommate talked to the "plump-one". Can you say stufferin'-thuckatah? 3/C year brought with it life as a convict, TWICE! By this time the "G-MAN" had become the "G-LOVER", literally. 2/C year brought with it sleeping habits from hell and the realization that AERO was not worth the price of the G-LOVER'S weekends. T- bought a new car for X-mas and with it a stereo that dims the head lights when he turns it on. Due to weak ankles and air sickness the Corps and aviation went the way of the dinosaur and T- became a diehard SWARRIOR during 1/C year. Good luck to you HOALMIGHTY a.k.a Velvet Jones. RML

P.H., the Jolt drinking frisbee throwing insomniac from El Paso, joined us so he could fly or so he hoped. Who'd of thought it would come down to the wire and you'd be P-cola bound? "What's wrong with your roommate?" was heard often, but we all knew he was just a little eccentric. Strange sleeping hours and wierd study habits helped P.H. survive the Systems Major. Is your roommate asleep? No, he just likes to throw half of his locker on his rackand cover it so it looks like he's asleep. SERE: it fits you. "Cover down on the man in front of you" took new meaning when you took the cover off. Now you can eat your burrito with your fingers, too. Peachy the red-headed stepchild. Athlete, intellectual, icebreaker. A brilliant man with flashes of genius. Only #8 in the class, but #1 among dirtbags--clearly a case of domination. Perhaps something a bit more challenging than Political Science next time. It was made clear repeatedly where PMK's priorities "lay" by miss-adventures (Baltimore and Rutgers). Accident or not, society is indebted to him for the 50 mile rule. To a highly acclaimed stud in the social arena, whose sniffing never seemed to bother the ladies, a bit of advice: diamond ring-wearers and friend's sisters = bad prospects. Speaking of rings, before making considerable jewelry purchases, be sure to have a taker (not to include sisters). Close proximity to his home as well as that of a close companion led PMK to exploit the CG exchange program. Just kidding about the tattoos. Nevertheless, may the brotherhood of the sea live forever. "Fife" came to us from the sunny shores of California with tennis racket under arm and a haircut that would've made the Johnnies jealous. Well, four years later, you might say he finally grew into his hair. It's been tough for him, but the NorCal crew hung tough throughout- it's those unexplainable additions like going UA for surf sessions that kept getting him in trouble. Not likely that anybody was going to brainwash him here, though- his Karate varsity letter kept us keenly aware of his desire to stay, at least in mind, back in Cali. Plebe year he moderated the holy wars & did flight ops from top rack. As a youngster he took a trip to the Gulag & developed a hatred for Zobo-Euro fag music. Great Herndon Party. 3/C cruise found BMW in Japan and PI. Nuff said. Carlton, a.k.a. Ben (I'll let him explain it), began his Naval career at NAPs. At the Academy, he made friends quickly, especially with the opposite sex (Sray-dog). You were always the politician. Watch out Chicago. Ben never experienced Plebe yr-"Shove-off Elliott" & "Reg PE gear, what's that?!" Don't forget Easter & the porcelain throne-Remember to brush. Youngster yr we became room-mates. Why? Who knows?! From sailing, golf, aikido, to Co. V-ball, Ben's done them all...but don't ask him to run the 1.5 mile. During 2/C yr, the professional and whipped Ben emerged. Next came the rings-"how much was yours?" & "That's a reg?!" As 1/C we became the "twins" & "trouble." Ben was the master of staying calm-Does anything phase you? Remember the Eigen-500, Pizza Express, root beer, lemonade, Forrester lectures, 1/C Perdue-NOT Hal, late night phone calls, and biology discussions. Good Luck in P-cola. JAM

Destined for greatness from the start, MIDN English patterned his career after Mahan by entering the Academy as a youngster. Never doing more than necessary, SNM is a model of efficiency. A laidback and carefree outlook on life made the everyday drudgery seem tolerable. His specific accomplishments include: -Successfully taming the Gloveris Giganticus enough to share barley extract with it. (Although the encounter left him clinically dead, the duty section was able to resurrect SNM) -Throwing a service selection party where nobody seems to remember exactly what happened that evening. Having proved himself through four rigorous years, SNM is recommended for the fastest planes the government can afford to lose. Someday, the Flyin' Hawaiian may even grace you with his presence. May God favor you with steady hand and strong heart. RSM

Missy began plebe year in 28th CO with dreams of Pensacola and someday NASA. If you knew her well, every week was an Army week. This Princess Machiavelli's table of priorities included EAT,SLEEP,CREW, and one other one we will leave to the imagination. Missy is a self-proclaimed aero survivor, and that she did with great heart and soul (thanks to the Great Spirit). She likes us to think she's tough as nails, but really she has a heart of gold. Did you know she sleeps with a teddybear named PeanutButter? I will miss our late night talks which began with "So, what kind of dog do YOU want?" I won't miss bluegrass. Remember, no rugrats. Don't forget our branding routine. I'll bring the camera, maybe even with film and batteries. May all your dreams come true including that very mature cowboy. You have been an inspiration and I will miss you dearly. HMA

The infamous Mr. Gish, of Academy lore, descended from the nearby chocolate factories of Hershey. Andy had a head start on the rest of us, earning his promotion to Ensign as a youngster. In Florida, Synjin was not enough to bring victory to "Jose and the Keggers" on the court, but his synchronized beach ballet was most enjoyable to the screaming sorority. Andy's 2/c year relationship of convenience (for us all!) ended when the fear of commitment overcame the need for an apartment in town. The Gishmeister's impeccable academic record proved enough to defeat tough competition and receive an internship to England. The London fog shrouded Andy's vision to where he could not distinguish mothers from daughters. Seeking companionship 1/c year, he renewed his love for the king of cactus juice and also rescued a lost smurf. Farewell to a dedicated member of the clan, and best of luck in the Silent Service. The Gloveris Giganticus is an interesting variation on the human species. Leading a passionate and driven existence, it thrives on Buffalo wings, barley extract, and intense PT sessions. This creature is extremely elusive, and its speed makes capture difficult. Nonetheless, small obstacles placed in its way will cause it to slow down and fall over itself. Grace on land is not a strong point, but the creature moves with haunting ease in water. Although very much wild at the moment, there is some promise in domestication of this genus. Its hallmarks include an unflagging loyalty to its clan, and a propensity to dominate in any environment. An interesting and exciting 4 years have been spent studying the creature, and as the beast slips below the sea to continue its life I wish it fair winds. Glenn arrived in Yankeeland whistlin' Dixie, thinking he was a Chief instead of a 3rd-class twidget. His demeanor won him friends and fame quickly at USNA. A humanitarian at heart, The Michelin-Man always preached the People Factor. No one could argue with the "Bubbaville" creed: 1) Minimum effort for maximum grade, 2) Sleep 12 hrs. a day and you'll be out in 2 yrs., and 3) Death before Conformity! SwoDaddy always fought authority, and authority always won- so it thinks! In his mind, G.R. knows the South will rise again, and the Administration will crumble. USNA stands, Bubba- but no one could cleanse your brain- especially with the door locked! KJK came to us via NAPS and some prior time on P-3's. He's accumulated a variety of nicknames over the past four years, including "Bela", "Boats", and "Slick" just to name a few. He lived with the man from Montana during his Plebe year until he met a kid from St. Louis. Kev spent some of his time Youngster year on the ledge, with his new roommate trying to cover for him. Kev's also had some famous quotes throughout these four years, like "I didn't have that many! I feel fine!" and "I'm forecasting 3-4 in. by 0200." And even though he's bad with numbers, we have managed to have a lot of fun: African dance during study hour, Lilly's, USMC B-day at Matt's, Tailgaters, A/N games, and the hardware store in Annapolis. It was a 7-year-long journey for Kevin and he's finally reached his goal: Navy Pilot. So, Brownshoe, it's been a great four years, and I wish you the best in all you do! JMM

No parties... then BirdDog was out at the beach tanning, listening to new tunes, and reading her millionth book. Special times during 3/c year with champagne and brie at Easter, trips to aunt j's, and museums in DC. "Yes Ms. Wagnerd, we're on leave and can wear civies in the mall." 2/c year made Birdie a caring big sis, an exploring scuba diver, and a super power-lifter. From two-steppin' boots to barefoot beach dreams, this woman is genuinely unique and will have a great time anywhere. Smiles G\*2

This Spanish speaking, choir singing, guitar playing, head banging, Puerto Rican part-time preacher and loan officer had a full year at NAPS to attempt his mastery of the English language. He has not yet overcome such Spanish 'accidents' as, "When you compare my AK-47 to a M-16, it just doesn't compare." Always good-natured even during the plebe days of the 'loser squad,' Tito was quick to help anyone in need, be it financial or 'studying' with the Muffin. Although an accomplished rifle twirler, he avoided drill season by working (more off than on) in the rifle range. Luckily through his days of violent drinking episodes, he has not yet had to see the Brigade DAPA. Who would have guessed that he would study just enough ocean engineering to get the second to the last pilot billet and become a Naval officer. Best of luck and a hearty 'Ay Caramba' for you and your helo, Helo, HELO! //JBY, ESW, DET

Scott came to 10th Company in his junior year, we are not quite sure were he was the first two years. He was seen driving a firsty's jeep through gate one with Zing, on his way to soccer practice. But that is all over now. He had a great relationship with a guy named Joe, and a girl named Cindy (nice picture). The weekend from hell, we are still not sure whose was worse. Scott assumed the billet of company female liaison officer early in his career. His senior year started with march on exemption, we are still not sure if he saw a single down of Navy football. He changed workouts as often as most us change underwear (what is a Zen workout?). The many parties at the House Of Cool along with the trio of Jennies took up much of his final year. Oh, and if you have any questions about winning friends and influencing people just ask Scott.

Kevin, a Timonium LAX wonder, came to join the USNA pack after an all boys experience at Loyola Don's. Kevin, protected under Duthie's wing, soon received the title of Da Onion by Sir Dona. Da Onion crossed the path of the Zinger and was enlightened in the ways of LaStat. Fate would have its way and Onion joined up with JR1 during 2/c year. Now the lyrical terrorist has made a name for himself and makes the ladies cry. Onion's only true love left him with only ring dance memories. Several successful road trips have dried the tears-chocolate treat at VT. On the field Onion is far from permeable! Tying school records, more saves will win NCAA's. Nightly dressed as Cornelius, "Planet of the Apes", solo dancing, and loose lips that have almost sank the "boys". It's been a wonderful two years in the 5262 hooch! Wishing you all the best and days when only beach balls come your way! Your faithful side kick, JR1.

Mr. M, are you studying rates in the head? Eh, Yes, Sir. Ha. Reveille, reveille. Get dressed and go to formation. Wait, it's only 0230! Four years by the bay and four years with the same roommate. Mr. Excitement, also known as Pontiac, came here and all the upper class thought he used to do drugs. There were bad times: (chow call choke points; but plenty more good times:) The Villiage People live on, not to mention a two hour car ride to Georgetown & paying for the drinks on your 21st birthday. CCG was (and always will be) a die hard squash player (and a Manilow fan) and team captain. After putting in as much time as he did into squash, he had no choice but to be one of the best. Defiantly one of the most easy going and relaxed Mids around. Every man has a price, CCG's was a pizza or ice cream as long as you were buying. By the way, you can leave two days early oops, Black N. Gee whiz! Our own little Communist! The homemade cookies on YP's were...WOW, delicious. Baking feasts and being 2nd mom to little Nico. Forever my guardian angel and keeping the bad grip away when I was too far gone to know the difference and putting me to bed and zero o'clock in the morning. Little gracious had a slight problem dressing and would go through her entire wardrobe before she was satisfied. Oh look, little goldfish swimming in the sink! Long lost amores (KP and Mr. Whammo); love those cannonball runs! Shh, let's drill. And then she joined the Force and spent her long weekends and holidays in New Jersey. Grace became an honorary member of the big 9. She finally got the princess rack bombarding poor Lori with clocks, bears and pillows despite my attempt to sing her to sleep. In the end, Grace saw the light and in a flash of brilliance chose Marines! Good luck and God bless. BC LP- Love. WSK

Johnny "Sequoia" Hellmann, Helldog, Jukebox Hellmann, Him John Big Tree, still the same person to you and to me. We've been through four years, the fun and the fear, he's from granola California, where the Giants play near. Through all of this time and after many strange looks, one thing we cannot do is separate John from his books. Crew was some fun but caused him much strife, John awoke one morning to say "God, I need a life!" He went to the library in order to sleep, but more time was spent reading than counting the sheep. He never spent a cent without a good reason, but ice cream for him was always in season. An attraction is he, come one and come all, and hear of the ghost in Michelson Hall. There are many stories and other friends he must thank, for the laughs and the good times-and that night in the tank. There is only one task left before we say goodbye, to tell Johnny be good and learn how to fly.

After a year at Newport, Bo found himself hardcharging through the halls of Bancroft taking the place by storm, well, except the academic part. Plebe year boxing treated him well giving him a title, Brigade Boxing Champion! The coon huntin' Florida woodsman wasn't treated so well by the Great North Woods. Mt. Washington tested his mettle but he came back for more. Franconia Notch, West Virginia, and the Shenandoahs were soon to follow and brought more of the same adventure. "Hey that fuel canister is on fire!" and "If it ain't rainin'..." and "Are we there yet Papa Smurf?" He liked the white stuff so much he tried skiing and did pretty well. Not bad for a flatlander. Seemed like there was always an indoc; Pre-Airborne, Pre-Sere, Pre-Scuba, Bulldog. Never met someone who asked so many questions, "Ya think she likes me?" or "Ya wanna buy a guitar?" Billy Kane, the personification of blue collar and a true son of Ireland came to USNA a friendly, open minded, dedicated, eager, THIN young lad. 4 years by the bay have turned him into a social menace. The Bill Kane tour of Belligerence: Georgetown, Villanova, Avalon, York, Philadelphia, Boston (Sue's house)... and the tour rolls on. Plebe year ended with a bang and a very "bodacious" young lady. 3/c year, Billy bought a ticket to smoke hall because he was "thirsty." (thanks Bob) The move to 10th company gave Bill the chance to get closer to his classmates (Restriction Squad Atten-hut) The CMEO lamp is now lit. Bill's social life culminated at the Ring Dance when he proved that he was too much man for any one woman including the "Belle of the South." As time at the Academy grew, so did Bill (Are my uniforms shrinking?) He also visited the two HOLY LANDS (Rome and South Bend) Roll Cardinal.

Volleyball brought Jeff "Chick" Kristick to us from a small Amish Village in southern Pennsylvania. The Elders were disappointed in his choice of college. Most of his plebe and youngster year was taken up by volleyball. WRK wants to know when taps goes. Jeff holds the record for most unsuccessful blind dates and bridges burned. However, he had a lot more luck here in the hall where he was named honorary manager of every female sports team. A spat of bad luck came with 1/c year when Jeff's midnight tour of Annapolis was broken up by the City Police, the Jimmylegs, an O-5 and the 17th Company Honor Rep. I don't think streaking should be considered indecent exposure, besides there were probably a bunch of Elvis impersonators running around naked that night. (I still can't believe his parents bought that story about why he missed Christmas Break). CEC Rules C-Ya in Guam.

*Andrew Todd Lehmann*

Andy/Todd(which is it?) stomped his way through plebe year doing his best imitation of Henny Penny and Humpty Dumpty, but 30 days of life in Smoke Hall to start 3/c year with WRK and JAH change a man. "Two beers at thirty thousand will kill you!!!" Tasting freedom again was memorable at Georgetown. We were lucky to make it there alive. "Where's a bathroom?" The price of a dozen roses cost him some pride. We told you not to do it. It was a good thing he validated so many classes. It freed up his time tremendously and enabled him to master the skills needed to conquer the world on his computer. 2/c year brought a new romance for Tweeky, T \_ incident w/the geeker squad, and a year of "putting the message in a box." After running around hotels in scivvies, 1/c year quieted down. Finally, proving WRK very wrong, he selected Marines and all of us(except maybe JW1 and WRK) wish him good luck.JAH

Well, 4 years has certainly been interesting. We got 2 roommates kicked out and close to getting one more. From the Pre-Herndon party, I heard it was a good time, to the 6 of us at Georgetown in a piece of junk car that we almost died from smoke inhalation and from hitting pedestrians. There are a few things that I learned from you, "they taste better than they look," never flinch when somebody throws something at you, and no matter what! All enlisted guys are thieves. When you are down at Quantico, maybe you can try and grow a desert Chia-Pet, or you could put on a light show for all the gunge pups on Friday night. If anyone ever throws a grenade into your little foxhole, you should be prepared to toss it out. Riv's USNA career can be chronicled through his legions of Psychotic-emotionally distraught women, both in and out of the hall. Plebe year:Denying classmates his affections. Youngster year:a multi-striped glazed donut. 2/c year:a townie, a firstie, and a young boy. 1/c year:P-head Hey, Riv, maybe Lou Holtz has a daughter, too. This soft-spoken, shy, modest boy from Johnstown, N.Y. ended many of his days returning to his room after running/swimming/lifting, totally exhausted. The many warfare communities are still relishing in the thought of having Karl join their ranks. But unfortunately Karl can only be spread so thin, so Navy Air was the choice for Karl "the Bull" Schultz. After winning the Georgetown Heisman Award in 1992 Karl decided to stay a little closer to home, deck 5-2. There he passed for a total of 5000 (almost 6000) yards in a second M.V.P season. By the way ladies has he ever told you about his satellite, winning the Marine Corps marathon, the perils of Aussie style repelling, his time in the Corps, and C.M.T and magic Slinky. If you don't believe us just ask him. P.S. At the time this was written, Karl is still debating who will inherit his female midshipman rolodex.

It is hard to write a one paragraph mini-biography about Tom. He is such a curious and complex Arkansan, but definitely one of the top ten people to come from Arkansas. He even edges out our favorite commander-in-chief. Tom must have had an exciting childhood, because his sense of humor is unconventional, even warped by USNA standards. Upon arrival at Canoe U., Tom had a more challenging plebe year than some, but survived it without any permanent side-effects. Ed became the central focus of attention in the barn during a very chaotic but fun youngster year. 1-90 violations were commonplace as Choker White pressed Great White into submission. Over the last four years, Tom has developed into a very unique personality. Nobody's going to steal your milk for a long time to come. Whatever you do, success is sure to follow you. I'm fully prepared not to meet anyone at Spring Break. This is definitely not the attitude Jim took very often. Fond memories extend back from plebe year: "GR, can you cover my chowcall, I'm on movement order." I'm sure the B-ball team didn't appreciate him as much as the girls did!! to youngster year, "JRS, the ball's in your court!" (JF) She provided a good laugh for all three of us. Can't forget CH and SG (actually Hood in general); WCB plays a mean game of footsie. To TWS, they are worth the money. It's better to have loved....Are we so sure, maybe WCB was right? Jim, I told you again, don't go after EAG! You were definitely a great hunting partner. Dave arrived at the Academy with his aviator attitude already intact. This would-be fighter jock got his first kill youngster year, but got shot down by a PCU ship later. Dave rebounded over the phone, only to be counseled for ropeless rappelling by (blue smiley) LT M. "I will not drink or listen to your music." BZ for sharing your dinner with the female BC in Key West. Next spring break, Dave tried to redeem himself by watching 69 episodes of Gilligan's Island. By firstie year Dave poured his money into his "sports" car and bikes, and has been financially strapped since, with barely enough money to keep his legs shaved. He never got is chance to star gaze with the hot babes, though. All talk and no show, he finally got his leather flight jacket to bulk him up a bit. While we all knew that CMT was unique from the minute we met him, CMT's full personality came out only in pieces over our four glorious years here at the boat school. Who can forget his famous ten minute chow calls that lasted past the five minute or toothbrush boxing of plebe year. With the stress of plebe year fading into anecdotal memory, the ever honorable CMT's true colors began to show as he began his career as the premier cover artist for the Log and a struggling NARC. While his Log covers are some of the best Canoe U. has ever seen CMT's grades were just good enough to get his coveted SWO billet. In addition to claiming the FFG-33 firstie year CMT also claimed distinction as Salty Sam's 1/c Poet as his emphasis in life shifted to the ladies and an empty bank account. Shiny Happy Wallace (Mr. Happy) was voted Mr. Congeniality four consecutive years. His love for his squad leader was matched only by his classmate loyalty. "Bulletin boards are a waste of MY time." JW1 has always loved his roommates (MPZ CMT TWS) but you can't blame them for always being wrong. In the years to follow John's social prowess blossomed beyond all expectations...NOT. "Nice car. I bet it helps with the women...NOT." John "the hall Rat" Wallace spent many a weekend avoiding the outside world by hiding behind his academics. 2/c year John's social life hit its pinnacle with the re-unification of Germany. Nothin' like having your Dad get you a ring dance date. "So why did you room with the boys that night?" 1/c year John's attitude helped him to win friends and excel at Bulldog. "So, John, when's the wedding?" "The car still isn't working is it?" Smile God loves you.

Fond memories go back to plebe year. "I care about a lot of things, sir...!" Herndon party at JR's, what a night. CH and SG (and all the other girls that we knew at Hood); "CH, you gave us a really nice view Homecoming night: Thanks, I just had it stuffed!" EB: Can I have a ride? The debate club president argued his way into a couple of dates on the weekends. DEH, need I say more. "It's better to have loved and lost..." A new date at each JRS party, "Boy, that Todd sure likes to have fun!" Baby Got Back! Quick, we need a weekend! Trying to get WCB to go out was like pulling teeth. One of these days he hopes to have enough money to buy the place, but while he's saving his pennies, Ernie will aspire to be the president of the USNA explosive ordnance disposal team. Canoe jousting was his varsity sport at Sterlington High. I'd just like to mention a few of the interesting traditions that Battle E helped to start at the Academy: Attention on ED, the Jelly Role Cheese (This athletic event required the use of a mattress), the Nazi Dart Board, and target practice for the three Hecklers (Ohmsy, Schrecky, and Hunty). We still have to play computer monopoly, and I always get to be 4/ C Grey (This gives special advantages that are illegal in the real world). Go ahead! Steal my milk! If we remember nothing else from our four years by the Bay, I'm sure we'll keep plebe year and the two ladies we loved to hate. "Why do I always get the loser squad?" Bye, and keep waving to the astronauts!

Hailing from Cali, Jeff came to USNA expecting to service select a sail board. After stealing his way through plebe year, Jefe was thrown into the barn with Battle E, Fast Eddie, and Choker White. Between three of them, they managed to make life interesting for the fourth(Fast Eddie). Graduation Science was forced on Rawhide as living in Circuit City kind of detracted from study hour. Jeff was probably the only 2/C ever denied a career starter loan, but the '76 mini-bus/bar is rather nice. Cat probably would have especially liked the window curtains in the back, but of course, Jeff had to get up early the next day. Mike (or is it Phil?) came to good ole USNA from the ville somewhere by Cleveland. He brought his wry humor, bows, arrows, and blowdarts with him. Mike doesn't play fair, does he Dave? During Plebe Summer he amazed us all at how well he could take a tackle and never ceased to surprise us. Rooming with Victor Hugo plebe year must have made him crazy. Chemistry?! Hey guys, guess what molecule this is. Long labs and comfy shoes. Occasionally, not often. Why do they put Vitamin D in milk, Mike? The guru of useless knowledge. I could always count on you to hook me up. The third time wasn't a charm, but number two turned out fine in the end. The hurdler with the glass knee. RACK-BYRNE This midwestern/Floridian soccer recruit showed off his face-planting skills to us early in Plebe Summer. A fore-shadow of things to come as Rack didn't quite aspire to his brother's BC status. In fact, May 26th would have been doubtful had KB not had every single hook professor at USNA. Claiming to possess God-like skills in volleyball and basketball, KB's only real talent outside of sleep was his mastery of sarcasm. A stormy Plebe Year "You been racking?!" with BKM included a square root QPR and Benz's in Tampa "Should we go back?" Youngster year w/ Fantastic Four shortly before meeting HER. The infamous Feendog came from the suburbs of Chicago, and Michigan, with a Vice-Pres. nomination from George. Plebe year found you engaging in latenight talks with me & G, digging for gold, pullups with Collins, and a short little fling with a short little mid. Youngster year was spent with Howie and Week One, who became a tad agitated with preaching and Amy Grant. Top Geek's QPR miraculously climbed after changing his major from EE to Comp Sci. Then came the BSU Winter Retreat and Amy; the rest is history. 2/c Year with Oz and Sandy; not the best combination. Firstie Year back with me. I quickly rememebered about your snoring. K-GAR came to BOAT-U with high hopes of becoming a sky warrior. Plebe year in BIG STICKS saw Karl with the knot tied, but his membership in the 5% club didn't last long. With Academics worth more than EHV, and status as both the master tour guide and the rack warmer on the Varsity Weekend Study Hall Team, Karl deserved the coveted N star sweater more than anyone else. During his studies as a dedicated Aero major, K-Gar would take breaks and conduct labs on theories presented in the text. Chad "Haze" Gray came to USNA from the bustling metropolis of Hemphill, Texas. Population: 1993 (or thereabouts). Chad is always reckonin' and fixin' things, and if accents are any indication, he could end up the next Ross Perot! Plebe and youngster year found Haze earning his nickname. By finding himself in the strangest places (YP berthing, hotel rooms, Annapolis Mall etc) he redefined the term "hazing!" For the record, Haze was one of the only men to dis the "Alaskan She-wolf" and avoid the notched hangar. After a brief leave of absence, he came back to the D&B and became one of the most shunned members in sop history! Once he stopped playing that solo over and over and over, he found himself in a striper position as D&B Ops. Chad happily selected Navy Pilot and will begin working his way to a career with Delta. First of all I want to thank the Lord for helping me through this 4+1(NAPS) ordeal. It wasn't easy, but when things got tough, I had a family in P.R. that was behind me 100%. Thanks for always being there for me: Mami, Papi, Yamile, and Deirdre. OEJ He came from a small distant island seeking statehood. His quest for knowledge began at NAPS where he befriended Turhan. Since O & T have become the Puertorican connection, unbeatable in basketball. Big O has always been everyones little hispanic buddy. He managed to beat the system with maximum rack time and minimum class time. He forever dreamed of playing baseball like his hero Roberto Clemente. In the meantime he minored in the obvious, Spanish while practicing Core Values. Since rooming with Big G he has taken up the minority cause, projects, and grab-n-ho's. To O, good luck in San-Dawg. I understood the Spanish. "Can we all just get along?" "G" JR

W.P. Kenney the third? What's in a name? Paulty came to us fresh from the cradle. The perpetual mumbler, the letter "R" proved to be his biggest trial in the English language, followed closely by "y'all." Pass the mawgawine. I loved your blotter, by the way, and your washcloth. Changing it for a calendar didn't do much good either, we were always months ahead. I'm still not sure if sailing's a real sport, but you're definitely not hanging those smelly clothes in this room! I'll admit Jabba and I probably corrupted you some, but you needed it, babyface. Once you caught on though, whew boy. What a tumultuous summer! Remind me to never buy a hot tub. You gotta admit though, Nebraska is better than Boston, just don't smoke the cigars. Then came fall and the battle axe. Have fun in the sun of Cali. Watch out for sharks and Jose Cuervo. Go SWO! TTS

Latch-key, Scooter, High-Velocity - a man with many different nicknames. The one which fit the best is Mr. Stealth. Very few knew him in the company during Plebe Year (including his classmates), he opened up Youngster and Second Class Year. Yet, First Year he again became Mr. Stealth due mostly to his visits to Walmart. Plebe Year, Scott proved he didn't have a rock for a brain, but rocks painfully formed elsewhere. Scott received the name of High-Velocity Edward Youngster Year at Key West. Being left in the room for only minutes, out he went on the beach looking for the famous button. First Class Year, Scott could be found on the golf course or the computer trying to become the next Jack Nicklaus. Lastly, yes you are going bald. The submariners are lucky to have him in their community as long as Scott doesn't ride the sea on the surface. Best of luck. KPB

This easy going, slow talking Virginia boy came to USNA to swim. He quickly gave that up after discovering battalion team handball. Plebe summer found him racking in the shower and sharing MDT's gift with WAK. He was originally an engineer but Jacques Cousteau and others convinced him to change to oceanography. He brought one other skill to USNA besides swimming - his ability to party (except he usually doesn't make it past 9:00). Although MRL didn't see any football games as a 1/c, he proved his organizational skills - tailgate rep, wardroom rep, party rep. Also that year he traded his bronco for a rice burner so he could afford his weekly voyages to Richmond and Lynn. Haze grey but not underway! Go MCMs. WAK and WSL

Sandy came to us from Georgia via NAPS. He came here a little chubby, but after SERE, detail, AIRBORNE, and OCS he was one of the toughest PT Nazis around. Plebe summer with Jabba, then SEL. Later MRF and JDW, but the whole time you were stuck with JCO. A 2% girl (fiancee) that promised a case of beer was sometimes all that he talked about- the girl, not the beer! H & L's School for Boys, the Mountain Fat Farm, and immediate criminal justice are some of his visions- If he were king for a day. The Second Class "Gun" loan- "Just five more and I'll have all I'll need..." or so he said. Farming with Full Auto AYW, and weekend training was the core of his professional development. He who dies with the most toys, wins- Walter's way ahead, but JDW made a surge near the end. He's going to wear out those teeth of his someday- does your Dad own a toothbrush company? Semper Fi Sandy. See you when we need air support. JCO and JDW

Howie Link came to the Boat school from the mecca of New York, Hauppauge. Where?? I still don't know. Howie spent most of plebe summer with a clock around his neck wearing the title of 'The Missing Link.' After surviving plebe year in BSTS, not a small achievement, Howie became an youngster raring to go. A professional to the last, Howie proved that D&B does have a few real mids in it. Howie turned out to be quite the ladies man, even in Mother B. After falling on his head skating (you never could get the backward thing right), Howie wasn't quit sure who he was- but he remembered his Valentine's Dance date. 2/C year brought a few weeks of unsatness, as Howie learned the engineer's right of passage- the all-nighter. Yes, you are going to graduate an Aero. Firstie cruise brought 'Sausage' to the conclusion that his future was over the sea, not under it. So much for Bottom Gun. Howie, you were a good roommate and friend. You will succeed in the Navy and life. TSW

"I wanna graduate, get married, and have nine kids. Wanna go out sometime?" But you always came through in the nick of time. Five days was cutting it close though. The true woodsman, you demonstrated at Camp David the proper way to support a tree. Hey! Watch out for that moose. Have no fear, Kevin's car can outrun it. Or at least you'll try, lead foot. Doug, The Great Procrastinator, or at least that's how he'll be known to his professors. From being the EN100 god, he has proceeded to barely passing in most Thermo, Fluids, CAD, or Design labs at the set date, but it can be safe to say that his response to friends has never delayed a second. Prior to his hopes of brigade boxing finals being shattered, his boxing partner did the same to his nose, but if a broken nose didn't kill him, you would have thought that rash would have. "Why am I here" was the question of second class year as the threat of professional officership approached. As the end of the year approached, something was missing from his life, though ..... a date for the all important Ring Dance, but the day brought just that, and we'll have to see just how "committing" that date was. With almost four years gone, Doug has affected many here by the Bay, especially his 2/c year roommate..... WPKIII

The giant prior grunt from the Pacific NW w/ the gameshow host name MT is already making a run for president of the US. Although no politician's blood runs in his veins the makings are there: charismatic, knows everyone, talks to anyone (who'll listen) and even dabbles into corruption (when persuaded). MT's USNA days have been characterized by late nights, thanks to Mech E, wild weekends, thanks to cheap beer, and all of us hearing how horny he is thanks to a 3500 mi relationship. His fidelity caused him to OWN every building on the yard. Knock Knock. Woops. I'll come back. 7X today, really? MT crewed, relaxed, CST Sed, boxed and now duckpin bowls competitively. Firstie yr. brought the stripes we knew he'd get, the engagement we'd hope he'd do, and the auto-mechanic out (brake job, oil change, tune-up call MT). Does anybody doubt he's the next Commandant of USMC, if he does we're in good hands. Your dirtbag buddy and friend forever. JJS

JJ came to USNA from the sets of nightcourt. Fatal rack ops as plebe. Bound for the stars. Non-agile. Set liberty records while arguing. Smoking jackets, Mafia let-downs. The Nazi always seemed to lead BULL into trouble (and ruin all potential bookups); tried to napalm MT, KIA one stuffed bear (Alex). Smoke at Hopkins. The Dahlgren days. Fully developed racking skills. Power left foot. The missile's in bound Mr. Truitt, make a decision! Then came HQ. RW, NG, and JS, all in fun guys. We didn't mean it. PT for 3-1. Hood, Salisbury, Geneseo, even St John's. Still no luck. Irish embassy and fax machines. Tequila pops, Nigerian salesman. Full tanks of gas, we showed him! A-6 Adventures, cruise in Norway, bottoms, bottles, and of course... the princess. Vampires, Visa Bills, and Sideburns. Spring breaks in Europe. Subs for the bonus. The 52th President JJJ. Winner of the Plebe mixer ("But she was cute!") Rowing crew...about time you got rid of all that fat (178-152). Sub bound...Hawaii! 2nd year, trips to Penn, fixing the bug, multiple meetings. Aerospace major OOPS 3%! OceanO will be fine, thanks. 3rd year, salami parties, scrounging, camping at David (fixing the bug), my 21st birthday, weekend partners.. sometimes ("GO AWAY!"), PT often now, women scarce. Great deal on jeep..NOT! 4th year, hottubs, home beer, monitoring Norman, Irish night, German tapes, English vacation. Not a girlfriend, just a hooyah. Reveille fry, foot odor, jeep no good (see a trend yet?) And the billet: leadership or paperwork? The teams couldn't get a more determined man. Best luck always. JJT

Austin is the "GUNGE PUP!" As a stocky sandblower you'd expect nothing less. He has put himself through extensive training the last four years in order to prepare himself for the Corps. He earned the nickname "Spiderman" for his rappelling stunts. Does anyone know how the footprints got on the spiral staircase walls? Firearms training is a passion. He is a member of the Varsity Pistol Team being an All American the last two years. He competes in High Power Rifle and shoots combat pistol for fun at Fort Meade. Another passion is 4x4's, he enjoys the monthly centerfolds of *Four Wheelin'* magazine and is often found tinkering on his true love, his Jeep CJ-7. Sounds like a typical marine "Jar Head," right? -NOT- He's also a EE major with a minor in Chinese! Chinese class holds more than academics- Austin was sometimes found holding the tutor! KG

*Todd Sinclair Weeks*

*Bellville, Illinois*

*Nuclear Power - Submarines*

Todd will always be a man that everyone will know, but few will understand. A member of the original barn, he managed to survive with style and outperform the best. With A's on the PCR and in PE. Supe's Stars, and Naval Station runs, Todd seemed to be living up to the standards that go with the title "Air Force Brat." For a while many of us were afraid that his aura of professionalism would consume him: he seemed distant. His encounter with the Dark Side and the repercussions that followed proves to us all that even the most locked-on have a human side. He took a lot of stuff for his dabbings with evil but he took it well. When the spotlight of infamy was finally off of Todd, he seemed to fit in better with the company on the whole. He kept the same high standards, but was able to laugh at them as well. I've missed not living with Todd this last year. He is a good friend who will always succeed...one way or another. Go Navy Nukes...HBL

*Jay D. Wylie*

He came to us, seemingly very conservative, with a steady girl back home (now fiancée). But when we got him behind closed doors, we met a different JDW. Wow!"Why, yes I am weird. But why the heck not" SKB probably contributed to that. Trips to Victoria Secrets; look where that landed him. Is there something you're not telling us? Youngster year marathon rack sessions with good grades. Second class games with FSV. What was with that? Catching dogfish at Assateague. Unconventional warfare books-concocting the fatal mixture that landed JJT and ABH in hack for ten weeks. Hey, what the heck does the "D" stand for anyway? Scrounging in the basement. Who's duty are you going to take this weekend? First class year moving in with JCO and WSL - nothing in common but guns, fishing, camping, Marine Corps, and destructive devices. White water rafting, SERE, detail, OCS. SEMPER FI. MAC! JCO&WSL

Scott (or Jeff depending on who you ask) was a quiet guy when he first arrived here from Goldsboro, Durham, Chapel Hill or wherever he came from. He made it through the summer with little difficulty except for an occasional threat to be punched in the nose, but with the encouragement from his girlfriend he pulled through. After four years of this encouragement, Scott finally decided to marry her. I guess she did something right. After three and a half years of mulling over which area of the Marines to go into Scott finally decided two weeks before service selection to go Navy Air. I guess four years of sweating was enough and it time to chill with the aviators. I think it has something to do with the guarantee of eight hours of sleep a night. Good luck in the friendly skies. Remember, May the BEST MAN always win! CMD.

The Tonemeister started his naval career as a Youngster, he even got a stripe, and decided look at things inside of Mother B, with particularly intimate knowledge of Smoke Hall. Two years on the varsity wrestling squad left Tony with less rack, and no formations. But as second class year rolled around, Tony got his priorities in order: money, rack, and money. With wild entrepreneurial ventures, he made thousands and spent thousands, but all in the stock market. Though never the Grand Poobah, Tony was always in the running until Heather rolled around. While she almost made an honest man of him, absence made the heart go wander. Before long, he was back on the prow! First class year led to wild times with old friends at Hopkins and great times with Academy friends. It's been a great four years. Stay away from girls with fiances. "Conan" comes to us from Colorado. Vermont, no, wait, Colorado. Well, Ski-country. After delusions of Navy baseball, he found his calling quarterbacking the company football team four years, coming oh so close to winning brigades 2/C year. Initially a hard charger, Doug began to unwind after rooming with Jamie for two years, a feat few could survive. After frequent trips to Hammerjack's and listening to "the Underground," he became known far and wide for powerful stereos, and all anyone had to do to find him was to listen. An aero major, Doug was fortunate not to have to study much (except EE), and he spent his free nights shuttling back and forth to a certain girls' school in Baltimore. These excursions led to unprecedented speeds on I-97, and no doubt contributed to his desire to become a pilot. Well, Conan, thanks for a great last year - good luck, bud. MLW

"Go Navy Fight." Grandpa came to us from sunny Muncie Ind. after a few years of college, Nuke school, and lots of beer. Not to let his age get the way, Chris soon lowered himself to our maturity level and became one of the guys. He had a real easy plebe summer right up until the time the upperclass discovered that he didn't know anything. At least he knew the enlisted ranks in the Navy. Somewhere in there he lost his hog jowls and learned how to jump up and down while yelling at the top of his lungs. "Keep him away from that microphone." The "Damned XO" was a wild man, but later in life he settled down. I guess he found the right woman, or maybe he just ran out of money. Mr. No Depth Perception couldn't make it to the cockpit, but he'll make a fine SWO Daddy. Remember us little guys when your rich and famous, especially when we have so much dirt on you. Armed with his trusty H.S. yearbook, Rick was always sure he wouldn't be alone for long. With time came more lost phone numbers (not necessarily a bad thing.) Rick also showed a true sense of duty as company commander, golf team captain and with statements like, "You should be with your husband now." I guess it's back to the yearbook! ◆ Kelly did not want to leave tropical Adak, Alaska, and give up the free whale and caribou meat. However, she came to Annapolis to win the "Best Grunt and Shortest Hair" competition. What other midshipman started as a plebe crew captain, became the world champion of powerlifting in Africa and Spain, clobbered fieldballers twice her size, coached an equally peewee sized tee-ball team, and finally donned a six inch skirt for Navy cheerleading? During plebe year, Maggie's merrymaking left her taking a cold, clothed shower. Nobody can tie 19th Co. schizos and torpedo-hugging Zoomies like Kel did. She took a semester off to entertain the WOOPs and returned to tack on her 4 and 5 stripes. Her '71 bug broke down every day, but luckily the Jeep was in town to save her. This goldwinged future grunt will return to the pits of Quantico in her '93 lean green Marine machine to test her gungy guts. Good Luck! SMF&KYR.

Although this Navy brat sputters over English, she has many other useful tongues. With a warface known throughout the Brigade, plebe year sent tremors from home and SC man, but after a HOT youngster summer her journey to the darkside was complete. Starting out in volleyball she soon progressed to the softball stud where she found true abuse from red, meg, and the irish pub while discovering Annapolis entirely all on that 21st night. When Mike came here with his Surfville, USA, attitude, he had to quickly adjust. His first priority was getting into a varsity water sport. Achieving 1st boat his Firstie year, he had no problem with his spring breaks at San Bancroft. As one of the "Hoibster Cloister" in sunny Camp Sosquito, he "held everyone responsible!" OK, GROVER! He should have used this motto youngster year while doing time for Fattie's crime. Mike's lifetime goal of becoming a mason required on the job training..."Hey guys, cement mixers work well with orange juice. By the way, stay clear of the futon!" When Mike needed more CALGON, he said "You scratch my back, I'll rub yours." Ancient Chinese secret, huh? Wabbit twacks... SNIFF.. SNIFF.. SNIFF... Twain twacks... SNIFF... SNIFF... SNIFF.. The Apeman came to camp USNA from his waterfront home in Indiana. His evolution included varsity offshore (bagit) sailing, where his weak stomach forced him to move on to the rigors of assistant manager of 150's, under JJC. During this time he earned and spent the thousands he made with BAC. He has been smitten with love by many. The lineup includes Mary Taylor, Carol and the latest and greatest Amber. They have cost him dearly. Always in love, he has never been without a girlfriend. Often full of wonderless facts (?), Jesse frequently spews knowledge from his backend. No mid has spent less time at the Academy, except that five striper last year. Never on base it's hard to believe Apeman is in the Navy, as a Batt Striper he never bothered to return for taps. Now to the future. Unable to dodge SWO, he will find home in the minesweeping community in Texas. We wish you well. Good Luck Amber. Your Friends BAC, FPS and HH (Kind of).

Hailing from the same state as Clark S. (who was run out) and Bill Clinton, Heath is our favorite Arkansan. Blending in with other Nuke wanna-be's was easy for Heath. Plebe year went by...youngster year went by... suddenly Heath was a second class and he came into his own. Can you say first time? Who knows? All that is sure is the battle damage sustained. Emergency Surface! With a little help from us (yeah, right), he was back on his feet. Too smart for most mids, he hangs with AA, BAC, WJH, FPS. Cellular phones, cars, and Sunday night pizza are trademarks of this mid. The over-political selection board made a mistake when they didn't choose Heath as a Rhodes Scholar. Luckily, the Navy isn't as stupid (yeah, right) and he will follow the "neat blue glow" at grad school. With his expertise, platoon drill competition will never be the same. Hopefully the submarine community will not have a similar experience. A true friend, the Navy will do you right. BAC, WJH, FPS.

Allen came to USNA from the southern most tip of Texas. He brought with him a very special determination complemented by a unique sense of humor. Grades were excellent early and then a late recovery from unsatness made his Systems Engineering degree a worthy accomplishment. Allen continuously juggled his share of girls from various high schools, colleges and wings. He may be the only firstie to have owned four automobiles within one year. He proved to be among the best in the brigade in racquetball and contributed greatly to the intramural program during his four years. His free time, besides racking, was often centered around his involvement in church activities. Though he had many flirtations with trouble, Allen always avoided getting caught. To my friends at Navy: as I prepare to exit stage right, I offer this bit of insight. From Carnegie: "When dealing with people, let us remember we are not dealing with creatures of logic. We are dealing with creatures of emotion, creatures bristling with prejudices and motivated by pride and vanity." There is no substitute for a man who seeks first to understand and then to be understood. From Carlyle: "A great man shows his greatness by the way he treats little men." Endeavor to treat all with respect, and you cannot fail. DTL

Well, the mighty mite marine 1st entered my life at NAPS. Many a wonderful night we spent with Ellen at ALLIE'S. I-day minus 1 was certainly fun(I should have been arrested!!). Plebe year and dinner with 2nd Lt( which one did I like?) Herndon marked an early beginning of our driving privileges. Then that summer YP686 changed your life. You strolled into Bleachers and met your princess. The dream date was truly solidified because Dee was really digging MY porkchops!! 3-c year you went undercover at U of M. Your cover was blown at Marine Corps B-day when you broke the latrine. But that must have been an omen because the weekend was extraordinary( for me anyway!) Thanks for loaning me Dee over 1-c sum. CREDO. Friends before chicks. U helped me thru the worst days of my life. For that I am eternally grateful. You will shine as an U.S.M.C officer. THANKS. You're a champ! SEMPER FI. KJK.JMM.

The Old Man began his naval career drunk and in civies at Maggies - one week after plebe summer. After getting Sparks and Burns off his six he began youngster year in line for a future stripper position. Then came BAC. Skipping drill and class became the standard for him. He soon was asking "What is a Forrestal Lecture?" and "What is a hospital corner?" (Ok maybe HE wasn't that bad). Once a proud promiscuous man, KWM fell to Amy F. The drinking slowed and the dept grew. A muddy '68 "Beast" and his Harley "Hog" helped to secure his Marlboro Man image. Bad knees were helped by special aerobic instruction, without the power bars and workouts KWM would have never been able to maintain focus on that NFO billet. Good luck down at P-Cola with the "Red" lady. You've been a great roommate. Sorry about destroying your performance grade. BAC.

Rog came from Rhode Island, bringing us his own unique perspective on life. Roger immediately took an interest in a wide variety of sports activities. He quickly conquered challenges on the basketball court to the squash courts, even gymnastics couldn't slow him down. Youngster year Rog heard his true calling from beyond the limits of the seawall. On the Severn, Rog sweated his way to success with Navy Crew. In his free time, at the wheel of big, blue 'Buck', Rog never had to worry about a cold V-8 start. With his sights on a career in medicine, Rog will first make a stop in SWO heaven, Norfolk, VA. Don't forget to write, but please don't forget the stamps. God Bless! RSD. ATT

Fred's first college choice was Notre Dame, until he saw "TOP GUN". Fred decided to abandon his post as El Generalissimo (con whistle), and venture north to the land of the yankee-drug-dealer under his new name, MAV. MAV's Academy hobbies include modeling boxers in the rain for friends and family, teaching tv news anchorwomen how to improve reception of far-east radio stations, hiding his shoes from law enforcement officials, touring women's dorms at R.M.U., and parking in the midstore parking lot (just ask the J.L.). Why ask why--FRED DRY (so Fred fly). Born again, our hero, became a VARSITY GOD (put a motor on it), leaving us mere mortals behind. Where's that darn Napster?? Andy took the round-about route to the Academy - TSU, boot camp, nuc school, NAPS, etc. Andy was hooked from the get-go. Out of company housing Plebe Summer gave new insights into rashes, grease undies, pyros, and empty canteens. With a choice between the high road (B.C.) and the low road, he chose the latter. Justice prevailed when he took the hit for dumping H2O on the CDO. Herndon proved to be the happiest day of his life, when he met the woman of his dreams (He had already met the man of his dreams over Spring Break - A.J.). "When you're here, I love the ocean; but when you're there, I hate the ocean." (Whatever, Andy) Racquet in hand, Andy was 12th CO racquetball god. On the field, his dedication to Navy Football has earned him not one but two N-stars, and loyalty to his teammates off the field earned him yet another. "Joe Cool" also kept his roommate company over spring break, and on many a trip to Smoke Hall. A true academian - with only sweat, eight hour classes, and an occasional load from McDonalds to look forward to, Steve gave up his summer to learn. His diligence was rewarded with postgraduate opportunities. With glorious football days over, Steve's aspirations turned to becoming a mountain bike cop. This long-winded, Thomas Jefferson Tech High School brat was braced by a shock when he became a first class and finally came across a class he hadn't already aced in high school. In his three and a half years he taught Navy's best how to really wrestle (Nick M.) Rooming with BAC as a youngster proved too much, and CC moved in with HH. Roommates for the next two and a half years with the addition of WJH, helped Mr. Speedy (especially on the mile and a half) gain moral ascendancy in their countless arguments (Read it in the POD), numerous fights, and strong friendship. As the Game Master with his No Work On My Computer, he trapped BAC, WJH, and HH into hours of fun while the youngsters and plebes made off with his firstie parking privileges. Lately, Craig has set his eyes on foreign shores and we will miss him for a while as he goes off to that far off region where they speak NickoLee. WJH, HLH, BAC.

This New Jersey progressive chick entered Mother B with a fresh and alternative attitude towards...well... everything. Her good fortune began early when she was the only plebe lucky enough to have a Commissioning Week house. She couldn't drink one, but only wear one during second class year. But by her Firstie year, she was running the best little Italian coffeehouse in Annapolis. She was a menace on the tennis court for three years and then sought to murder the mids with her "killer abs" aerobic workouts. As if that were not enough to push her to the limit, she decided to jump out of planes. When that got boring, she jumped out of planes and free fell for up to two minutes. Aaron came to USNA from the one stop sign town of Macedon, NY and even after a whole semester of march-overs he still wasn't exactly sure where the stadium was. From the mall to the Hall via New Carrollton? But after a plebe year of never ending come-arounds, Aaron went forth to see the world, green marker in hand. His voice (can men really sing that high?) led him to high schools all over the country. And A.T.'s had his fair share of dates, except for those nine months. By the way Aaron, are you still engaged? T-roy came to USNA after his initial plt co tour of the barking dawgs at NAPS. As a youngster, he went through many turbulent times (Comp Sci, Goatees, AcBd, Broken Noses). Now as a second class, he brought home a new "friend" for Xmas dinner. But then the new year brought along a new woman; too bad so sad. Just as in the ring, going all the way DOWN to the bell helped him win back the love of a woman that made him retire his sword of MacDaddyDom. Now he can be found driving the BMD Express for the BYG clique. His love for the C knew no bounds; especially when donning the title of Mr. Sushi Man. We'll never understand his high connections (Frank, Colin, Tony, Tom, John, George). From 5 stripes to 5000, he is still the man that we all wish we could be. Matt, otherwise known as the "Big Strappin' Buck" made quite an impression on his classmates in the old corps PLAYBOY company. By far the biggest obstacle to overcome was living with Schnider first semester plebe year. Matt's greatest asset to the company was his use of visual aids to help fellow plebes at come-arounds across the hall. Herman sends his thanks, I'm sure. After surviving the AX board, he had 2 new roommates. How about those 0200 room inspections. There were many a study period spent harassing the Z-man and the mid-eastern contingent. First dates were numerous and young seconds were few. Youngster cruise killed all thought of SWO, go CORPS. NOT!! WAGS wasn't doing too well for grades and was a card carrying member of the 1000 club most of his time at USNA. The last 2 years he wasn't sure if he was coming or going, to D.C. Red hair all ablaze, Aaron came to us with lofty dreams: a challenging education, a fast-paced and exciting career of naval service, and the opportunity to make lots of MONEY. Although EE nearly extinguished his burning ambitions, nothing could diminish his incessant hunger. If he wasn't studying, he was eating: no amount of food could assuage his seven stomachs. Late at night, if you listened carefully to his unremitting nocturnal babblings, you could hear the mystical chant, "FEED ME, FEED ME." Once in a while he would break free in a flash of brilliance and either redecorate DLS's car or run a marathon with a defective knee. Also, he was always there for you if you got in a financial bind...to buy off your stereo equipment. I hope some day you can afford a full scale Ferrari. If you watch this guy carefully, in between the long hours of study and the unwavering dedication to duty, you can see him break through his rigid shell: smoking a fat stogy under dim lights with The Doors, surfing Cooper Rd, designing fish-heads, and getting stupid like no other person can. How to describe large "D" in a few lines: A genuine wild man, large "D" entered Bancroft hall a shy, skinny trackster. After Herndon, Larry quit track to take up rack instead. Youngster year began and ended with visits from the Form-2 fairy: an O5 hit him on the chapel steps, and an O3 hit him in his own room. Second-class year revealed Larry as the surprise flamer of '93. Firstie year turned Larry into a social monster, tearing up all the bars between Annapolis and Baltimore. His large tips endeared him to the waitresses at Griffin's. Famous Large quotes: "It's your turn, I bought last time.", "You're not going to believe this!", "Action, can you help me print this out?", "Never again!" Great memories: acting as the company social director, teaching bathroom etiquette in SC, frequenting Ward Hall, getting ready for formation seven hours early, polar-bearing in the Severn. N. Turhan is the only man ever to attend the U.S. Naval Academy in order to become a professional singer. On his way from Ponce to Broadway, he was shanghaied by two petty officers. After learning a little bit of English, he soon learned that he wasn't at Julliard but was attending NAPS. Turhan often wanted to quit singing as he toyed with thoughts of being a pilot, lawyer, and even someday governor of Puerto Rico. Fortunately, he had the mental courage to press on (keeping in tradition with TQL and core values). He sang all of his chow calls as a plebe. He continued singing throughout his four years on the Severn with the Protestant Choir, Glee Club, and Barbershop Quartet. We will always cherish the countless hours he sang for us from the shower. Even though we still have no idea what he was singing, it always sounded pretty good. Best of luck in San Diego and wherever else your dreams may take you. SPT

Phin-Dog came to USNA with all the attributes to be a top midshipman—a taste for fine women and excess booze. A spaghetti arm at 2 led him from the diamond to the pitch for 4 years of rugby. Return from game: “I stomped this guy’s head and clocked him in the nose. Oh yeah, we won too.” Plebe year—Sponsor Bro’s, BIG cups, and days at John’s (#1). 3/C year—enter Ms. Maryland and he lost consciousness. Where’s Phin—Main O? 2/C year he awoke. Lazy afternoons with COPE and the remote control showed him he didn’t need to study to get the grades. 1/C summer—He’d learned alot? “Let’s skip the \$10 flight to Europe and take the 3 grand tour of DE, SC, FL (for Orlando) and CA.” He did learn to love country music, bass fishing, and wild boar rides. 1/C year—“I don’t remember anything!” That’s what you said last weekend. When Fred came to the Academy, he could swim mighty rivers, run through stifling deserts, ride up treacherous mountains, but couldn’t stand up to a bumblebee or egg products. Fred started plebe summer with a bang, with heat exhaustion, allergic reactions, and nasty falls all within a few short weeks. Receiving a black “N” youngster year and a star firstie year, he has always been one to live on the edge. Always pushing himself, Fred completed his stay at USNA with a 26.2 mile tour of D.C. and a 50 mile trot along the Appalachian trail. Better you than me! Nevertheless, we have come to love Fred’s quick witted humor and cynicism. Whatever the occasion, Fred has always been able to brighten our days with a smile and an encouraging word ... NOT! The Cassanova of Chesterfield County and his 2 chins rolled up to Annapolis from the backwoods of SC with dreams of joining the Silent Service. Ten months and -30 pounds later, our once quiet, chubby little bubblehead leapt forth from the shadows and took the USNA Marine Corps contingent by storm. The Corps does not yet know how lucky it is. Rayf’s integrity and sense of duty are larger than life, yet somehow he’s the most common-sensical, real-life leader type guy we know. It “hurt his heart” to see his pals live the good life on the parade deck while he was confined to the reviewing stand. Despite the demands of part-time studentage (majoring in History and minoring in Grunt), Paul always found time for Happy Hours and Randy’s. Never met a person who didn’t like Rayf.... Then he moved out of company and we never heard from him again. The end. N - JMB, JPS & MPK

John, whose positive attitude never did die, had a rough plebe year followed by an even tougher youngster year. Never a big hit with the upperclass, John was always sure to find new ways of getting in trouble. The perfection of EPOPS and continual all calls finally straightened John out. Youngster year brought a varsity letter of sorts and a new nickname, JP-5, both in honor of his disastrous 5000 series run-in with a certain USMC O-3, who helped JP-5 get assigned to a tour of duty as a POW-USNA during NASP ’91. If only GW could have seen you 2/C year when you proved your mettle by winning the ‘Eternal Flame’. Firstie year a more mature and carefree JP discovered the value of 1/C libs and Randy’s. Doug has been providing us with many good memories since plebe summer. His stories have made it easier to laugh at ourselves and at the academy. The cover story ("This doesn't look like my room"), nametag story ("Sir, Mr. Frankhauser's got my last nametag ..."), plebe summer parents' weekend, ADB's technicolor addition to the Integra, plebe taps every night for four years. Doug's love of country music and the Dallas Cowboys have made him obnoxious at times, but have also made our four years by the bay together an unforgettable experience. Doug received one of his most valued possessions at the end of youngster year, which he has worn with pride ever since. Doug's time in Smoke Hall taught him a good deal about military life, and he has learned his lessons well. Best of luck in the future, and I hope your Texaco mug is never empty. N DHA EJT LGD CAK.

Could've been the answer to Navy's basketball woes; we'll never know! Plebe year: an uncommon "wild man" ended his Army week early...Then there was that three-star General's daughter...and the youngster mobile lottery winner, what a car that turned out to be! All that hard work paid off: earned himself a semester at West Point, where he not only got to hang out with his high school buddies, but found his ROSE and even a new service selection! Came back locked-on with his stellar leathers and brasswood nameplate. Over-night Racquetball king--"I love to dive...beat that stiff 15-1,15-1." Always did love to run (3 miles a year)...Biggest skate 3-striper, no duty ALL 1/c year. If you ever needed the latest "Entertainment for Men," this was the man to see. Following the footsteps of his "younger, better looking brother," Skippy came to Canoe U to become a Navy Fighter Pilot. To achieve that goal he selected the easiest major at the academy-Aerospace-and studied just enough to get his billet. After trying out (unsuccessfully) for the Navy diving team during plebe year, Skippy realized that his calling was not in the water but in the rack. Good bye to old Georgia Tech sweetheart, hello new love. Skip was never without a girl (civilian or LT.) and he was never around on Weekends. Driving his red toy convertible, Shane treated his car better than he treated women. Claiming the title of "Medical Chit Master" and still trying to sprint one loop of the track. No more Spanish music, lets hear some Irish tunes instead. I am not making fun of them I just like to sing along. White men can't dance, sing, run, etc., but I can play great Horse. Jody came to us from the streets of Miami in the summer of '89. He started off plebe summer as the shy, quiet "Ernest". As we came to know him, he admitted that his friends call him Jody. Jody almost survived his four years without wearing stars, but ruined this record second semester firstie year, when he wore those stars along with his three stripes for being company commander. That's all right Jody, we still love you. Jody will be remembered for his impressive nose, his slightly less impressive physique, and his off-the-wall humor. Megs, our local yocal, came to us a couple of years ahead of the game after her liberal outburst at NMH...thus her affectionate nickname of Grandma Tuttle. A natural leader from the start and our first company commander during plebe year, she always kept us smiling with her unique giggles, encouraging words, and positive outlook...not to mention her trademark phrase - "Like, totally cool, Dude!". Youngster summer brought the Gunge Pup from Hell.. "You're going to SERE school!!!" There wouldn't happen to be a Smooch Bandit there in the mountains of Colorado, would there? First class summer...Looks like she found him...and now she's getting M...?...not Meghan Tuttle! But, alas, it was true. I never believed I would meet someone to rival my "positive" attitude on USNA politics, but lo and behold the Golden State yielded a competitor for the PC award I so desired. I began to realize that his attitude would only get better with such influences as GW's quote "Now!!!! Moi, MF...NOW!!!!" and the subsequent summer spent with NASP '91. 2/C year had such memories as finding the "missing link" in the Bel Air Taco Bell parking lot and engaging in a platonic relationship with a born-again- -and-again- Christian in DC. Our final year (oh no, don't tell me we can't stay and further improve ourselves) brought such nights as service selection and the Teaser's experience. Youngster year saw the end of his collegiate wrestling career and the beginning of his reign as "Doctor Pain." I was born on November 14, 1970, but my life only started after one beautiful night in September, 1989. On this moonlit night, I met the girl of my dreams, Marnelle. Her dark brown hair, dark brown eyes, and shapely body attracted me so. My friends jeered at me for going out with a girl who lost fifty pounds and still weighed more than Buck; being deceptively thin, I shrugged their mockeries I could have never made it through the many times I would meditate and Buck would disturb me, or the time when Bill changed my B to an F on email, or when my numbers and my checklist never matched, or my early wake ups by Buck's off study hours, or when the Marine awoke me from my sleep, or when I became the CO of the USS Enterprise, intergalactic warship without you. After three years as roommates, it is difficult to quickly sum you up. Needless to say, you are one of the main reasons I made it through this place. When we became roommates youngster year, I thought that I would never have to be designated driver again, but oh my, how the mighty have fallen. You even taught me how to ski, not very well, but I thank you for trying. You have also taught me the important skill of spending money frivolously. I thought that I could blow money pretty well until you showed me the light, but the stereo does sound pretty good. You knew exactly what you wanted to do with your life from day one at the Academy. I of course did not know, but it looks as if we will be together for a little while longer. Whatever happens in Orlando, I wish you luck in every step of your career though I know you won't need it.

When Medic came to USNA he didn't have one thing going for him. Plebe year he was Company Commander and after first semester he was #1 in the class. It was all downhill from there (including his OOM). I'm not sure how I survived 3 and 1/2 years. The music was too loud (but hey, good song!), I needed to have my olfactory lobes removed but medical said no go, and all those late nights past 2230 used to drive me nuts. I guess TK was a good break, or one of us would probably have been dead. J.P. had a reputation for being a sweat sometimes (read: all the time) and a smack (ditto). With four stripes it only got worse. But second semester saw a totally new person (ok he was still a smack and a sweat, but isn't love grand). Now he's going to be a civilian for awhile and come back as a LT to ruin the careers of perfectly healthy Navy people. I always thought he was destined for great things. Guess I was wrong, huh?

He can get out of a net bag while in the buff, faster than Harry Houdini, leap a tall tennis net, and take off for the 7th Wing backshaft stairs amidst the applause, and camera flashes without breaking a sweat. When seen swaggering down the street, you'll notice his familiar grimace (like the Grinch who stole Christmas). Kurt also has a remarkable talent for charming many a female with simple one liners like, "Hi, my name is Kurt Scherer, I go to the Naval Academy, and you-oh, really?-uh huh-so what do you plan to do-really?-well I'm going to be a Marine Corps F/A-18 Pilot." What a ham. Well, suffice it to say, whenever you see him, give a crisp bark and a slap on the nether regions-Kurt's one for brotherhood, just ask his bald friends and the boys who believe in B+B/M.

Richard Jay Slakes. Just the sight of this man, lying there in his rack, so peaceful, so serene, was enough to cause the deepest sense of motivation and determination to swell within meekest of men. Earning distinction early in his Naval career by being the first plebe to be called a nickname (Skates), Jay virtually dominated every obstacle put in his path, starting with his physical and mental crushing of his nemesis, Lee Grubbs. He went on to earn the title of 'Most Peppy Camper' 2/c year. Those of us knew Jay knew that he could always supply a snide or off-color remark that no one else in the co could have possibly thought of even if they tried. Despite the fact that no two views of the world could be more different, Jay was one of those guys who could offer a bit Skates-wisdom to all of us, even me. Good luck with your career, and your happy (if a tad premature) marriage.

What can be said about the best dressed midshipman in 14th company? Big "O" came to Canoe U. from the great state of Alabama screaming "Roll Tide, Roll," and having frequent arguments with JM about the worth of football above the Mason-Dixon line. Two years of football, a brigade championship in basketball, and a season as a disc football referee transformed the Admiral into one of the greatest sports gurus to ever set foot inside Mother B. Always bothered by Medical for supposedly being overweight with ten percent body fat, Bent earned the nickname SWOtis, but often confessed that he liked the pay of the submariner. Four years together, many late night phone calls with psychos, and more unsat weekends than we can count resulted in amazingly zero fights. You truly are a southern gentleman and your advice helped me in marrying HS. Congratulations on San Dog, you've earned it! JRL

Tim Sneeringer, derived from the latin phrase *Tightus Sphincterus*, came to USNA from IL, no PA, a die hard pilot wanna-be. Plebe year was an awakening for Sneaky (Sneeringer!, take a dump!) After he lost his light saber, and had a little torpedo training, he climbed that 'big lard covered D.' With a little help from Swiss, Sneaky (or Snakey) found a little mouse. No more practicing, Sneaky had a mouse in his pocket for good. For the next 2 yrs the journey went; Kalmie, beta, video games, milkmanitis, **Cinnabar**, marathon, photo copy fun, trampoline, ceramic hug, Rocky Road, **Morning Light**, diesel dungeon, spices, and Bermuda. Then a striper was born, and the sweat flowed. The torpedo was revisited, and some chest hair dissappeared. Wait, wasn't ring dance supposed to be in there, oh well, must have missed it. In the end, aviation lost a great man, subs gained a superb officer, and I found a true brother. RMK

Almost unbelievable that a tiny Filipino boy rescued from drifting wreckage in the central pacific could have ever gotten to where John Tan is today. An intellectual, Tan taught himself English at an early age. Graduating as Goretti High School's "Most Serious Student", the time had come for young John to give service to the country that had treated him so richly. A hunter by nature, Buck became point for Seal Team 2. But BM3 Tan knew he was destined to become an officer. At the Academy he would go undercover. His cover: screen. Year one, he mentally manhandled Sugar Graham, and drank his first bottle of Stoley's (and Gibley's and ...). He graduated as the #1 aero major, made history with his home-built modified helo, scored a sexy 1/C Cambell-look-alike girlfriend, became Cabana Boy at PSU, got too much sleep, and ate his share of chips and salsa. Chris came to USNA from the Evergreen State straight from Woodinville High. Never having visited here, he was quite surprised at what he found. He was happy to finish his long plebe year in Hard Core 19...Enough said. Living with B.D. youngster year proved to be quite an earful. And after that, he roomed with a rodent. Spending long hours in the range shooting along with other things was not a problem for this Olympic class shooter. Moving left him still with the rodent and someone to tell him to study. During 2/C year, he found himself with a shadow he has been unable to lose, much to the dismay of Smokin' Joe. After living with Smokin' Joe for 2 years, his grades improved. 2/C year proved to be good to him, as this was when he began dating the girl of his dreams... and very serious it is. Late nights with guitars and heavy metal music drove Smokin' crazy. Best of luck! JTM 2.0 15

Team trips were great for him, and two years as All-American was even better. Al Pacino had a great time at Hanscom with G.K. and J.C. He was sorry to see his time shooting for Navy end. QDS, king of bleach and the chopping helicopter/tank. Later that year QDS turned out a 3.8 and Supe's stars. Never will we forget the 10" LP, RB's high blood pressure, "Why did you say what?" Army Week dip cans, and too much grog. There were other high and lows to be sure. A wrecked sponsor's car, the Baltimore girl, Indiana Skinner and the Window of Doom, the long grind of second class year and many weekends with the Navigators, white-water rafting, ski trips, camping, hiking, keyboard maestro, hold the OJ, "I would never date a MIDN," but later a certain redhead, Bible studies, remember the 7<sup>th</sup>-wing garbage truck, hair line like dad. So how did you pay for that window anyway, you don't know your own strength. Running the gauntlet with Star Wars playing full blast. I'll never forget the day you told JT and LA about SM. You couldn't shoot hoops that well, but we played awesome D. USMC or IRA, either way you're a shoe in. You didn't need the parking privilege anyway. Mooore People!!! You're always on the bottom. Who else danced with the Bull so well? An unfaltering commitment to classmates, but don't try to imitate Bob Dylan or Midnight Oil for them. It was also reported that JDT stretches a penny from USNA to Mars and takes everyone else's beer. JDT belongs in his bright red Porsche 944 turbo. Straight outta Erie, just rollin' along, came Smilin' Rob, humming his own song. (Look at that fro! And no shoes on his feet! Is this guy for real, Can he stand the heat?) Smilin' Rob made us all smile: A mental vacation for a short while. When not out searching for the essence of fun, Smilin' Rob and his rack became one. Time was the medium that regulated life, weekends connected by a brain-sapping grind. Two days a week cut like a knife through the others...just shutting off the mind. One summer he was almost out the door: "Goin' to where the climate suits my clothes, don't want to be treated this way no more." But Smilin' Rob grappled his way through: Took down the Academic Dean for two. Up against the 'Dant lookin' for the win, and on May 26th, he walked away with the pin! Ahhhh, Infinity! Who really cares? It's alright Ma, it's life and life only.....JDK

After a year's leave at NMMI, Yardgouge humped to Canoe U. After a rough first semester he learned to disappear (sailing, CSTS). Youngster year found Y&R in the hole academically but still plowing along. Maybe he would've found CompSci a little easier had he not sold his computer after plebe year. Heard the call of the Corps during this same time. Kept a low profile during Bulldog. Got the bends in Panama City on weekends during Airborne - every weekend. Ac-year weekends found YardAnimal in PA with his nurse. His last Spring Break found him comatose on top of a TV. Unequalled in keeping track of his credit card debts. Hobbies: watching his Japanese stock fund lose money and Brigade boxing - depending on the academic climate. Took the plunge and gave a ring for Valentine's '93. ARAAT!-Snarlin Arlin, of the Sea Cadet special forces, rose from the ashes of the violent concrete jungle, LA. He is a self described Tom Cruise look alike, only shorter. If you have a holiday he has the religion. Plebe summer was quite an experience as we all learned from him the story of Baseball Bats. They're made of wood. As the reigning cripple crown prince the numbers 10:31 and 2:00 have many connotations. Our rack god began his path away from the Submarine community by sleeping through his Calc III final. When Junior pulled him from his slumber his hopes for deep submergence left his dreams forever. Even his own mother is not safe from the entrepreneurial spirit which forced him to turn a profit from his computer sale at her expense. Ben came out of the back woods of east Tennessee to join our class at USNA. Having never seen a ship before, let alone been on one, he had no idea what to expect. He found out the hard way youngster summer. Between the YP and sub cruises, Ben was compelled to go Corps (he already had the haircut anyway). Always known for his friendly disposition and fondness for mids, Ben would never pass up an opportunity to be with his family (the one back home, that is). His only real goal in four years was to return home and become a hermit. You'll get back someday, Ben. We've been through a lot as four year roommates (who else would live with us, or could for that matter?). Remember sweat Plebe year, the nightmare room, the voodoo doll, real rakers club, Morton's parking lot, applications (USC & UT), the year of the Monk(ey), the monk mobile caper, and all the other fun. Colvert Burgos came to us from CA, but insists that he is a die-hard Filipino. The truth is that he has never been to the Philippines. The aspiring Mech E soon discovered that his study habits did not support such a destiny. Though his academic pursuits were not steadfast, his relationship with Rowena, his Filipino princess of San Diego, endured. The highlight of Colvert's professional career came at NL303 Mess Night. The Burgman was so moved by the remembrance for our fallen comrades, that he himself attempted to join their ranks by decorating the floor of King hall on his knees. This event propelled him into the number three position of accumulated demerits in the company. Colvert has proved himself to be a valuable friend to each and every person in the company, and someone who was always willing to help another person in need. For Col, the dedicated SWO, his quest for permanent duty in San Diego is at hand, as he begins his naval career on the Horney. CJH & JAM

Out of the Cuban tundra came a man who was never too cool to sweat. Plebe summer, they called him "Shakey"--he quivered as his uncle did, agonizing over rates, knowledge, and life. When ac year started, the budding history major began to clone his patriarchal academia, philosophizing and b-essing his way to the top of the Group III's. Youngster year brought the Big Four, Ninja Turtles, suffering through Yanni, and regaining bouncing baby bachelor status. Second class year started a string of super, shiny stars and solo 1/c weekends. Spending firstie summer in Europe and aboard ship aided service selection decisions: a neat grey boat because it came with a nifty green cap. Denny joined us at the Severn River Club fresh from HS from way out yonder where the buffalo roam. Four years of "higher learning" and CMEO training never changed this cowboy from anything other than just a "good ol' boy." Plebe Year was a blur with brief memories of rumbles, brick sessions, and "spilled peaches." Youngster Year Denny joined us on the wilder side in the "barn" but never got accustomed to our late night bull sessions and endless procrastination--he just simply wanted to rack. Second Class Year saw the "barn" split and Denny and myself tasked with breaking in the "Zoomer". Firstie Year, Denny, as first semester company commander, led 16 to our first climb from the bottom of color points. Out of the Rocky Wilderness, came the Lion, the self proclaimed Beastmaster. During his time at the USNA, he acquired the worldly skills of orange peeling, baseball throwing, and absorbing punches with his face. The crowning achievement of his career was earning the name HAMMER. Then came Youngster year, when the Ham was blinded by the fireworks of love. Hammer was rarely seen after that, as he spent most of his time at his sponsor's house, repairing smog pumps and being a couch potato. After decent grades Plebe year, Mech E spooked him yet flailing grades could not drag him down. He is on his way to becoming an automotive, architectural, or Amway engineer; For the present he will be joining NOSLOT in its ever growing fight against the worlds minefields. Skinny joined our ranks from River Forest, IL (aka Chicago), where he spent his vacations building weapons of destruction. The wardroom will forever have the scent of second hand Adelscot. The Frog did not spend ALL of his time working, he managed to squeeze in one date in his four years. Regardless of all that, Skinny's hard work and dedication has paid off, leading him to bigger and better bonuses in the nuke world. Minnesota sent us a Sheep, and the Iceman Cometh. We always knew when the rookie of the year was in season by the divine reek and rank equipment pile in the hall for all to relish. Butch brought us magnificent prowess in art as well as the nicest derrier a man could boast. As a youngster, the "puck head" studied hard to become a throbbing Mech E. But as a 2/C, true colors flew during the NL303 Hurl Night, as the morning dawned more than a battered brain and body in his rack. Kimmer is a native Michigander coming to the Naval Academy from the beautiful city of Kalamazoo. Having roomed with Kimmer for three years, I can attest that he has been in training for the "corps" for more than three years. During the most beautiful sunny days at Annapolis, Andy would close the blinds in his room, turn on the overheads and stare at his computer screen playing games incessantly for hours. Despite his success at computer games, Kimmer would "occasionally" neglect his studies as illustrated by his asking, "If jets travel faster than the speed of sound, how can they communicate?". Obviously our resident physics guru missed a few practical applications in his numerous physics classes. Andy turned out to be one of my closest and most trustworthy friends at the Naval Academy. His loyalty was never questioned and I knew that I could count on Andy for anything. I was lucky to have a friend as good and genuinely kind as Andy James Kimsey. DGE

Speaking of senior year, another addition came to Pat as weekend CDO. After countless hours of phone time (mostly after midnight) he and his Harley-loving girl finally met. Arizona may seem merely a haven for sweaty cactus, yet it has yielded a fair-skinned, red-headed thoroughbred grocery bagger, #1 (of 2) state squash champ, and foul-footed mid. From plebe summer you adopted JP Jones' qualifications: "he is the soul of tact..." Ever since someone murmured "LLL..." you have relentlessly brought us the free-spoken, jests and jeers of your mind, the bold and brave badgerings of your pals- or anyone else. Somehow, visions of USMC fairies were shot down by Mav, and you altered your dogma, but you never came to refuse gifts or FOOD. One of your fav roomies must have rubbed you right, as you became a mad (computer) scientist. One cannot survive without the other, except when the blue magnet attacks an unwary Bob. After only a few days of Bulldog, with 100% performance, the instructors conspired with the medical team, claiming that he had obtained some type of highly contagious rash and should spend the summer at home, when in fact they just wanted a break. Ozzz, you came to grace us with your friendship, and artillery from the halls of NAPS. The second coming of the Babe, only to succumb to babes of darkness. From the days as a professional plebe threatening harm on the 3/ C and travelling to an oblivious destination with our 2/C, you were well on the way to flying for Delta. Fortunately, you joined our side, wielding a sword for two semesters-plus. Which lucky woman will wear the ring of the master(?) of words and wooing. B "HUG IT" O-the man, the myth, the legend. Introductions were a little rough, "People call me Bernard.". OK Bern Baby! Plebe summer led to his title as Grand Master Skittles Sorter and Starburst Fort Builder. "Ack" year snuck up on him but he was never hard to find. As the company "hacker" you always knew that you could find him within arms reach of a working terminal. 50 hour study weeks were this Academic Officers trademark. He never gave up on his quest for dolphins even though his grades were lower than the crush depth for all but the finest boats in the world. The Gorton's Fisherman can well be remembered for his casual yet distinctive taste in clothing and lifestyle. If there was a ribbon for enduring the most harassment with the best humor he would win hands down. Timmy comes to us from 'upstate'. My high school graduating class was larger than his home town yet he still called me a 'hick'. 'Loser' somehow managed to make it through this place without meeting even a single girl (that is if you don't count the few close encounters with his sponsor's daughter! - or the plebette 'friend' in D&B). Being a 'blower' in the D&B he was always quick to assess my musical abilities (or lack thereof) But judging by his performances in Dolly and Cabaret, he would make a good medieval minstrel. He makes an excellent Training Officer too ("I'm not doing it - they can just fry me! - well maybe not") Until he got his car, TP never saw the other side of the Annapolis Mall. (Still can't find Rt. 2) We musn't forget that physique! (here birdy, birdy) Too bad Beaker was too straight-and-narrow, otherwise I'd have more stuff to write. My attempt to fix us up for the formal Late night conversations about the multitude of women in our lives, but especially about HER. The youngster barn and all night E-mail conversations with yet another infatuation of yours. Sleeping through class and in class. 2/C year brought NL300 MESSY Night, widget marks on waxed decks and of course, Ring Dance with HER. Then as the fearless leader of the lean, mean and green company you really opened up the sweat glands. But, good times were still had. Wednesday nights, Service Selection and Spring Break. Grandpa joined us in beautiful Annapolis after his extended tenure as a college student in California, Georgia, and Alabama. Sam's journey to USNA began in the southern town of Marshallville (pop 1500), where hospitality, Southern Belles, and annual dove shoots are traditional. Being a third year freshman, Scrumph had all the gouge on plebe year. Youngster year found us in the barn with Rustlenack and Lunchbox where late night bull secessions were a common occurrence. Studying was still his main priority firstie year, and he always left a light on when I was try to sleep. "Come on Sam, it's ten o'clock. Go to bed." Finally service selection came and Sam got his submarine billet. With his nuke bonus secured, Sam's golf game improved considerably. As a youngster, he honed his future study habits, spending many nights investigating flight of a football or frisbee through the Barn. 2/C year brought EE and the Ring Dance with ME. JJ survived both, but has less scars from the EE. Firstie year brought the ESE project and true dedication. Daily JJ would say something about his love for school and his need for the perfect woman. Over all the years, JJ has remained faithful to his beliefs (esp. women) and to his friends. JJ is the greatest roommate I could have had, just ask him, he'll tell you so. Thanks for the memories. But all along the road you blessed us with your skill in the gym, flipping high above the best and sticking each landing with finesse. Fred came to us with horn in one hand and a hockey stick in the other. Now he leaves us for PCOLA with a cast on one hand and Mickey in the other. This institution was the great corruptor of our small town boy: laced red jello, keystone cops, and margaritaville. But our hero Fred would always stay in his room to study as the rest of the guys frequented the town taverns. Our easily persuaded Fred was a fiend on the slopes known to all the bunnies as the one-armed-bandit. Girlfriends were not Enrique's forte, his animal magnetism seemed to attract the most beautiful psycho felines in Annapolis. Fred's busy hand could be found in the studios of WRNV, "fixing" the cranberry mobile, playing golf, or jammin' with the Mudblowers. Seriously Craig, your friendship will always be treasured by those of us who were lucky to know you. Danno, Dan the Man, Lou, or just plain Chump. Trained at the Valley, but bred a true red neck from bass-ackwards N'orlins. Our hero's overwhelming modesty shined through Plebe year: "You're the cockiest #\*@\$! I've ever met!" Let us never forget his eternal vow after the infamous Delaware trip (thank God prohibition was a passing phase). The women were "dope" and our average was 1000. Second class year saw the onset of devotion to rugby and women. While the women came and went the remnants of rugby lingered on...chit after chit after chit! First year, Louisiana's contribution to Motown could always be found on I-95 south: destination Jax. Just remember money isn't everything. You drove how fast in Felix's car?!...too bad 115 wasn't enough. A true Tau Beta. Throughout the years, we've gained another brother to share our lives with. LOVE YA-BUDS FOREVER. VN.MKC.MG.JT

Kipper, Bonkin, Boynker, Tucker Tiger, or simply "the Snacker" hailed from dixie as all fine southern gentlemen do, bringing with him a taste for the finer things such as diving (hair never getting wet), little debbie snacks, and green eggs and ham. It all began with chem goggle burns and the K.P. Boykin twin turbo nuclear powered dorkulator (he's a good guy though, he's a chem major). He quickly ascended to the pinnacle of power: Battalion Supply Officer and Chairman of the Uniform Board, perhaps due to his softspoken mannerisms and his brevity of speech (yeah right). Did we mention the uniform board? That is CHAIRMAN of the board. Kipper, master of interpersonal relationships, could really take a punch, even on his birthday. Slipping anything past him would be tooooooootally uncool. ask "one of his girlfriends at JMU". Good luck in P-Cola. Hope your jet is as fast as the roadrunner... THE ROUND TABLE

Chesty, Cheese Whiz, Chesswick, Chedda Cheese, or the Eddie Bauer of 7-2 came to us as a minor and within a few years became a man. In the words of the alter ego, Chesty, "Just because this is on my credit card, you guys are trying to #@\$! me." Plebe year he became a target for the fearsome Frank and he survived to become the fearless Chester of Army-Navy fame. Once his alter ego arrived on the scene, nothing could stop him, not even the Snacker when it was time for him to go to bed. The metamorphosis continues to this day as we continue to celebrate his 21st b-day. Such profound addages as "You guys are crazy man", "Dude, man", "You guys ready, I'm ready, OK let's go", and "That's sick" were common lingo. His dancing skills improved exponentially at USNA. Just remember, dance to the beat, don't beat her at the dance. Your sleeping bag will be with you, always. Happy trails buddy... THE ROUND TABLE

JD Arrived by the bay as a devout Buckeye. Big 10 football, tailgates, and Cope formed his outlook on life-- until he came east. Fostered by a positive self-image, an appreciation of the fine things in life (stout beer & stouter women) and a rapidly diminishing fear in God, JD decided early that his major would be hedonism. The inalienable right for the pursuit of happiness led this eager pupil to all corners of the B,W,A triangle. Setting up base with his latest (models varied from short, tall, light, dark, very dark (dos)) he'd survey campuses, clubs, and ergo zones. The latter usually bore him first so it was time to move. On the professional side, JD was the first plebe since Nimitz to want to go swo. Well despite his 4 yr stint as a poly. eng. and passing up an aviation billet his dream came true. After countless weekend watches plebe year he underwent an attitude adjustment and became a grumpy smurf. Throughout it all his passions were chocolate and the rack. This man could sleep anywhere and everywhere, even behind the wheel (just ask his brother). Dan, why are you so pissed off? Remember, you have an ATU jump today. Alright, we'll just let you drink your milk. We'll always remember the pole at Winston's (even though you won't). SIGN THE AC LOG!!! "Don't forget your alpha code." Batman, Faxswo, Faxman, Fax Machine, Bruce Lee: these were but a few of our terms of endearment for John. Hey Miss Faxio, you look mighty cute in those whiteworks. John was always worried about getting carded... at the movies. He deserved an oscar for his plebe year karate movies with the Disney man. Second class year was by far the most eventful - the ten meter bellyflop, "eyes right, fly down", Listerine in the blister, Keifer's sister will never forget that present, defending the room in the penny wars, the \$10,000 Integra, 30-minute drive to the beach house, the annual miss October, "I'm not drunk - ask me a question!," the night of living hell in Mayport. Firstie year brought the stripes, a bent sword, and a back rub from bang-bang's friend. Hope Spring Break in the Keys finally thawed you out. Known to us all as "Gravity." Mike was on the eternal quest for self-improvement: frequent visits to the Gun Shop, a brief stint with the Lightweight Crew Team, n-- to butt in pre-minibuds, his own personal Death Squad, and valiantly leading the company (to 36th in drill). The distinctive Gravitt Gait could be spotted a mile away, characterized by being completely out of step. Mikey "Mario Andretti" Gravitt's further accolades included familiarizing himself with the front end of a Ford Bronco to the tune of twelve thousand dollars. Remember, if you hurl and she comes back she'll still go sailing with you the next morning. At least this time you didn't get a face burn from sleeping in it. Haasman came to us from the wilds of "Lightning 2-1," where he began his pursuit of academic excellence by blowing off NAPS graduation requirements. Since then Haaser never looked back, and has weathered four academic boards! Never one to sweat the little things (like staying above a 2.0, for example), Mike threw himself wholly into the Heavyweight Crew Team. And in this, his commitment and attitude cannot be matched. While most others were in the rack on weekend mornings, the Haasman could usually be found throwing up on Green Day Marker 13, or sampling his favorite soda from that mythical Coke machine at The Source. The same dedication that often kept Mike on THE ERG for 80 straight minutes played off in the end though, with two silver medals and one gold (!!) at the National Championships by firstie year. Haas, you have always been a true friend. Semper Fidelis-THE FOUR HORSEMEN RIDE AGAIN. TDG.

Lou!! Best known plebe year for not being known, by anyone! Probably spent all that time in the swim team locker rooms fixing his hair. Revolutionized hair care products at the Academy. Straight from the cover page of GQ, his hair and silk shirts never really fit in with the fellas at a dive bar. Although a self-proclaimed Tau Beta, he had more than his share of sub-par female "friends." Remember Virginia Tech Matty? Seemed to always have his share of trouble. Remembered by the admirals' wives for his late night exploits in the Oceana O-club. Also, seemed to have had one beer too many, on duty, underage..heck of a beer, \$2.25 and a year loss of leave, bringing his total to two N-stars at Navy! His luck did turn when his dream woman returned from Sweden. This one is even good-looking! Epitome of the "Suavay Sworrior." A completely reliable and loyal bud! Total partier! DB,LL,VN,JS,JT,MG

Second class summer, Romulon discovered the true taste of the sea (just remember the effects of dramamine). That emergency room date for Gravity was a good time. Lucky distinguished himself plebe year by stumping his own classmate with a rate, neutralizing a Texas Longhorn (Killer) with Lysol, and volunteering his electric razor for humanitarian service to a local Cajun Crabber. Better known as Felix (the eternal neatnik) and Bagel Beater for his generosity with money. Not! He came to us as a puny little fella famous for being the only Jewish kid to ever get a Jesuit education. However, with friendly guidance, he earned an honorary degree in D&M's accelerated Tau Beta program. He even gained a respectable physical presence after repeatedly mopping the floor with his cotton T. Unfortunately, what took three years to build took only 6 months to sag. We love the forever tire. He never did learn how to say what he wanted to say in less than ten times the amount of time it takes a normal person. He didn't listen to his buds about Jenny and got burned, however now he is his own man. The final product is one of the greatest buds we could have, who is always there for his friends. I met Kris 4/c yr when we made cheerleading. The team adored us & now neither of us can count past 8. We had a passion for being frat traps, but Kris excelled. I've never seen a more extensive "look what I've got" collection! Don't forget AF antics, stuntlings, my puke in your hair, Patrick, sharing men, CSTS cruise from hell & smuggling bottles around Dallas. Little did we know NOBODY strips down in officers housing & plebes don't rate borrowing restrictees cars. After spending a harrowing plebe year with the likes of A.L., D.K., P.H., and K.S., Greg finally started to gell. Youngster year signaled a new era as Gregor put the hammer down on the Navy Cycling Team. Lactic acid was not enough. Greg, the ardent dittohead, re-united with his mentor! And who could forget the day there arrived....the Acura. Then came 1/C year. Could anything be more symbolic than 1961 Château Lafite-Rothschild and the Four Seasons? Only a solo breakaway on Alpe d'Huez in the big ring! Joey aka.Ducky/Joe Joe Dog Faced Boy, wearing his towel high, with the white man's over-bite came to us from NJ via R1. The dream of being a Dr. quickly vanished as being a weather man looked easier. "Its better to have loved and lost," no one said anything about running him over. The phone bill dropped to \$200 a month. After 2/c summer, Joey had outgrown 150's, and focused on making the Holly list. He shamefully succeeded. Partying always a priority "at all costs" said the credit card king. Kiefer! Affectionately known to us as Future Man. This early aging hick from Maryland will always be remembered for his dip lip decay and his wild annual Herndon parties, where we all got to meet his go-nowhere high school chums. Jeff was actually one of the first brave ones to venture to the Darkside. He crashed and burned. He also never took anyone's advice to bury that heap of junk Jeep of his. Two engines and 65 mph later, not to mention all the other costs, we think it still runs (like sh..). Congrats on the Corps, maybe they can keep you from whining about short hair. Also, Quantico is a lot closer to your honey than Blacksburg is to Annapolis. DB will never forget the time you got fried helping him out plebe year-a whole 1000. Mr. Perfect! a.k.a. "T" or simply Mr. Quiet. This mild mannered, curly haired beach bum came to us with a golden halo. This was quickly corrupted by his entourage of bad boy friends. (minus MG) He probably is best known as the "Evil Emperor" for his vast influences to the Darkside. We bid farewell to our flowering jedi on Spring Break, youngster year. He was taken POW (prisoner of a woman) for two and a half years. Rescue operations are underway. It shouldn't be too hard because this Mr. Innocent always had a knack for lining up the women where ever he went. With his laid back music and clothing apparel, we always wondered how he scammed his way to three stripes. Must have been the flashy smile. Definitely, one of the most trustworthy and devoted guys amongst THE FELLAS. Managed to keep DB from getting thrown out for three years. Success is a definite if he can beat the women off. As soon as we heard "Dewek" talk and tell us about his "cah", we knew that he was a "good kid", a true-blue two percent clubber - beer bread was a good trade for a diamond ring. Among his favorite pastimes were digging trenches, making mixes (midori and cassette variety) and 150's. Congrats on ARMY-NAVY MVP and ALL-GALAXY team. He really was a playground stud, single handedly schooling '96 in the finer points of kill ball. Braving the cold in the Smokies with underwear on his head must have toughened him up. Hope no one "fotted" in it. We've always admired his extensive ball cap collection and his leadership during the great uprising of second class year (they weren't worth our time). He was always good at making friends, especially with the pole at G-Town. We're losing you to marriage but we know you'll always find time to hang with the fellas. C-YA!... THE ROUND TABLE

James, the guy with too many initials, joined us plebe summer with dapper hat and the King's confidence. He started early with his plebe year car, and just kept going. Blessed with a nearby home, James would lure the unsuspecting home with his mom's great English cooking--"...how 'bout helping me fix this roof..." but we kept coming back. Originally a cox for the Crew heavies, James was a bit too heavy so he moved to more friendly pastures. He lettered in Karate, and showed his new skills in the hall. James was most successful with sailing, though, and he won the prestigious Newport to Bermuda race his second class year. Not exactly Mr. Lucky, James made an impact on ring dance night, or rather someone made an impact on his mummy's new Mazda Miata. He'll be moving onto Ray-Bans of his own in Peola. But he'll have the attitudedown cold already. Good luck with actually getting in the cockpit... KJL

Cello joined us from the land of Martini & Rossi, with a short pitstop at NAPS. Plebe year found Cello in the spacious and always impeccably clean Room From Hell. Leaving behind Roscoe P. Coltrain, Cello didn't exactly get his wings that summer but he did land the Georgia Peach. Mama Fitz gave you a Firstie Weekend for What?? Second class year: Cello's a STRIPER. Nice boat (the Arizona II, huh) at the Army-Navy game!! By second class year, Cello abandoned his varsity visions and settled for intramurals and a starting position on the 18th Co. Bowling team. Firstie year, Cheez Wiz returns officially betrothed: a big striper, and got the NFO billet with sweat to spare but missed out on the party (and the jump). He made up for it on Super Bowl night; "Hey Cello, how did that cigar taste?" He's the guy you always want on your wing. What can be said about John? As a friend, a true one. As an athlete, well...as a member of the non-vicious rifle team "Posse", he became an All American and is now immortalized on the walls of Lejeune. As good as he is with the rifle, the safest place to be while he's trying to shoot a pistol is downrange. Not only can Soup be seen choking (and losing to a girl) in a match, but he has been observed on an occasion demonstrating this eating disorder in King Hall. Also along this subject of choking, John came in a close second in the "contest". As an academic warrior, he fell a bit short. After becoming SAT second semester firstie year (for the first time ever!), he switched his major from poli-sci to a much more interesting and creative subject at Virginia Tech. Plebe year, Jon entered the Room From Hell and went through several calculators and fans as well as the 40 minute trips to his faraway powder room. Casey "THE BEAR" Choate came to USNA from Tifton, GA of all things a swimmer. His unusual training regimen consisting of large meals and napping through practices allowed him to make it to Easterns and miss the wall on a flip turn. Third class year afforded him visits to Smoke Hall and with "Dirty Diana". Spring Break that year he was educated about 'rastling by the Polish Prince and hence he went easy on the cough syrup. During the year of professional training he single-handedly entered a death-cage match with four local boys. "Where's your bottle now?" He also decided late one night to cleanse the floor with human stripper. "P-baby, P-baby gimme a kiss." As adjutant during first class year he threatened to "cut your belly open and show you the black stuff inside" if his directives were not followed. Good luck in Texas dragging those bombs and mines from the water.

The Garster has led a pretty well rounded academy career. With conduct in mind Lt. Tanaka's buddy was the proud recipient of a black N, the likes of which he had not seen since his friendship days with Debbie and Missy. Fortunately though conduct and alcohol don't mix because he can handle his booze, especially with his feet. By far the Garsters most memorable years have been his most recent. Even though he dreamed the time away through the contest he has recently found a new deftness. His new wheels have more than been through its paces, from banging into a One Way sign to other things. On that subject he has been quite the Casanova. From being a charter member of the Ultimate Dating Club to the infamous Ms. Double 'N', Gary is always generous with his time. Whether it practicing with the pros or giving helpful hints to the beginners, he aims to please. Best of luck and Semper Fi, Supe.

The ever sarcastic, we had to put up with two difficult roommates together, I'm not sure which was worse. (we should have learned youngster year). Sal SHUT-UP, you're snoring (or yelling, there's not much difference), game-on!, I know you're not talking to me, hey roommate, let's throw Glenn's stuff out the window, let's throw Pat out the window, Hey Sal, you can mix daquiris and beer, but not in the same glass, are you going to carry Chip through another economics class, (economics there's a legitimate major, not), bowling in S.A. (Uh, just one more pitcher), Sal, did you pay a lot for the fur on your lower back? We had some good times and some interesting times. I couldn't have had a better roommate. Good luck in P-Cola (hopefully you'll be done before '97) (JB)

*Frederick Earl Crecelius*  
Ewa Beach, Hawaii  
Navy Pilot

The Cheeser came from Banzai Pipeline to Bancroft in true Spicolian manner: "Hey man, Bitchin' Ring." Plebe Year: Big Pete (Nice use of your b-robe), skidmarks, and expendibility (CDR Jensen's door) Being a nocturnal creature, cheese saw sunlight only under pain of death. "Haw-Haw, got a gun man" traveled near and far to ride tasty waves. Snowboarding replaced the gun and many afternoons were spent eating yellow snow. Summer cruise in Oahu: Who are you guys? Though his mashed beak rivals the Macedonian monument, Rick was popular with the ladies, Pam and now his Brazilian bombshell, Dala. Being allergic to meat products made him a popular guy. Ono grinds Boo? Hang ten on the tanker and Aloha in P-Cola.

*Robert Jeffrey Fails*  
El Paso, Texas  
Marine Corps Pilot

By the time you read this, Jeff will be well on his way to complete baldness. He checked into USNA at a whopping 100lbs(with hair). He thought he was Arnold, but he looked like Nasta. The ultimate trash-talker, he ran his suck from sunup to sundown...NOT DECENT! -BUSTED!! The bandwagon fan(Dallas), Dropped any books on Ream lately? Lick Jim's pressed ham. The founding member of the USNA SHO Club. The future Firemarshall Bill that decided 1 week before Service Selection that he was a gungy Marine pilot (because someone told him that chicks would dig it). With a blue-berry butt and a tan(Salon), Jeff (1 star general) was ready to move up in rank...Come on. West Texas Guido, we wish you the best. Peace... Dona Yo, Walt III.

*Bryan James Fetter  
Chicago, Illinois  
Naval Flight Officer*

Bryan (no I!!) came in clueless from the Windy City. Plebe summer: "Hey, the fat guy just slammed the clueless kid! (Guys, it was a legal move, I swear!!)". Plebe year: What's that stuff on your face?? Spent the year in the Room From Hell. Youngster summer, ignored T while in the islands, and the YP cruise, "What street did you wake up on?!", MFO record. Youngster year, started his career as 27th Co. EI rep: "Mama Fitz gave you the Firstie for What?". VERY fun times at A&D's. Second class summer, called cadence with the skill of a Czopek! (Is it a Chicago thing?) Second class year, wore out his leathers walking to Nimitz to get to His Table, Swishers, the Chicken Dance, and boxes of wine at the Hut (Jabbanobada). Firstie year, dissed by the Hoochie, Lethal Woman club, the Block Diagram, "Let's just make dinner at Deb's", "Can you even see the big E?" Good luck at P-Cola, if you can figure out how to get there. The Posse.

*Kurt Engelbert Fricker  
Middletown, New Jersey  
Surface Warfare*

Guido. Kurt hails from the "Concrete State," New Jersey. This former life-guard quickly earned his title while hanging out with a bunch of backward-@\$\$ red-necks. Guess they weren't impressed with his 90210 sideburn, cheese-line, guitar-strumming, harmonica blowing, booze-drinking, snake-raising, tattoo'd demeanor. He was a varsity 'stroker (swimmer) until he wore out his shoulder and had to retire--we watched his physique go from "sculpted swimmer" to "steel-belted-radial" but he's hairy and happier. All this came to an untimely end when he got hooked and reeled by beautiful Miss Heather. The cain-raising rapsallion will probably lose the 300Z for a station wagon, because he's taking "the sand" to the beaches of Texas. Good luck getting a dive billet off the Scout, and Wyatt out of your division. KJL. WAU (USN ret.)

*Gregory Francis Gallmann  
Campbell, California  
Naval Flight Officer*

Greg came to us from the great Silicon Valley, with NFO wishes and Tomcat dreams. Plebe summer, Greg conversed in German with 2/c M.C., listened to Little Jack's dreams of Jenny Sue, "Greg, did you ever learn the cabinet?" Plebe Year; Greg went nuts watching Lovechild. Youngster summer, Greg won more than a Coke on rebound 21. Youngster year, the four person room in the back shaft. Firstie summer, Greg bided his time watching Star Trek, eating cheese and crackers, and avoiding the Hoochie at all costs! Firstie year, Greg's phantom roommate, then he roomed with the pudgy guy, and pumped up. Good luck in flight school, we know you'll get your I4's. Take care. The Posse. Remember, "this is the sound a weasel makes"...never park a friend's VW at apartments...meat, and cheese, and BREAD...poochie, poochie, poo-CHIE!!!"...you've played your last card"...there are no lawnmowers in SD..."if you can touch me"...ruvroo" mjjw.

*Scott Brian Gooch  
Flint, Michigan  
Naval Flight Officer*

Scotty coming from the tape roller capitol of the world settled into a rough plebe year in the sports squad, while others studied rates Scott was taking heat for his inside shot against Monty. There were few boring weekends, especially on Easter, where he had a real blow out. The fun certainly didn't end for the summer. Gil's buddy switched from playing JV to playing in the penal league, but you can read about that in USA Today. Outfitted by Britches, totally, and sometimes supported, Scott was voted most likely to be a financial advisor. The proud owner of the custom delux Fairly Circle Car of the Year, complete with spewey wiper, has been known to smoke some of the finest makes, at least verbally. The three striper and charter member of the TB Fan Club has never taken the easy way out. "Sir Lot of Lamb" was almost decapitated while getting a spelling lesson. Remember there is no "A" in Super Fresh; best wishes in P-cola and check 6. JG-Soup

*Brian James Harris  
Evansville, Indiana  
Surface Warfare*

Boog, Greg, "T", and your special friends across the hall. Dirty clothes between the racks and walkmans between the sheets, it must have been a rough plebe year. Save the ozone layer and change your socks. "We have five minutes until what?!" So how many points did Evansville score in the third game of their 1884 season, who was the leading scorer, what was his shoe size? And ... Explain once again how an EE can have a 27 average and end up with a "C" for the six-weeks. The Boys of (second class) Summer thank Two Beer "Cryin' Brian" Claven for the suds. Have you beaten your plebe today? Sailing may be fun, but not the day after Ring Dance on a full stomach. The vaulter, the doctor, and the dancer. Any formation, any day: "All right, LISTEN UP..." Does the 'Dant have a nice wallpaper pattern? Grab your mug and see you in San Diego. And don't forget your SWO survival pack (the box of Dunkin donuts)!--JRP TER

*Noel Patrick Johnson  
New Baltimore, Michigan  
Navy Pilot*

Noel came from the well known metropolis in Michigan. With advice from big sis, Noel successfully executed the stealth maneuver plebe summer ("Who is that Johnson kid anyway?") Plebe Year: "How does jello taste through a straw?" Youngster Summer: Noel was the bait for GG. Youngster Year: "Wait, I signed up for a three MAN room!" We could never quite win the big one in soccer. "Mom, I left my toothbrush at home, could you bring it out for me?" Second Class Year: "Could you pass the prunes and peanut butter?" ("Noel. GET OUT!!!!") Johnsonstein made several trips out to the mountains. Noelstein managed to pop the question without blowing his bank account (Gotta love that free diamond). Firstie Summer: "Oh, to be in Paris and in love" (with skooner-tooner!!). Giving the Mexipino the silent treatment, and finding himself on 7-O. See you and Mrs. Johnson in P-Cola. Can we come over for dinner? The Posse.

*James Alan Lenart  
Highland, Indiana  
Special Operations*

The golden tongued polish prince arrived to the shores of Annapolis from the windy city. After suffering through the venerable Bridgeport prep, the fat boy poet was ready for USNA. Or was he? Jimbo wasted no time in letting his standards of professionalism (or should we say hygiene and tact) be known. How long has that laundry been at the bottom of your locker? With plebe year roommates like Cheeser and Two Hand Pete and, a mentor like Big Willy who could blame him. "Ding, Ding...one watermelon coming up!" Could the deep rooted hatred of DD's have begun during the kneeling on bean years? A less than average grade in perf. solidified his pact with the Schmuck, Casey, and the Guid-dog to fight all DD's to the end. Youngster cruise introduced Jimmy to world under the surface. Switching companies could not save our hero from the people he loved the most... Listen to Evil D. We'll do the Epic of Gilgamesh again. -Boog

*Raul Lianez  
Norfolk, Virginia  
Marine Corps Pilot*

Boog, Napoleon in the miniature Latinized version. Wanted for escaping from Fantasy Island. Epic of Gilgamesh at UVA, Destin rounds I and II (why did the schmuck take the mexipino muscle bound man and put his face in the sand) and Cancun where Boog mastered the Western grip. Machismo was an overrated quality for the pequeno member of the loser trifecta. One beer and he was behind the power curve. Triathalons provided an excuse for the bogus Adonis to stare at his little physique in the mirror every waking minute. Too bad marble bags aren't available in cammy style. Occupation: shine boy. One drop of hard booze and JB's genitalia were in jeopardy with the Karate Kid. Don't bark too loud in the Corps, for poodles can't run with the big dogs. You've been a great pal and when I need a haircut or Lipton Tea Bag, I'll give you a ring.

*Kirk James Loftus  
Kelso, Washington  
Nuclear Power - Submarines*

"Get Loftus. He's out of control!" The Love trekked out of the ash of MT. Saint Helen's and into everybody's cranium. An intellectual bohemian of gene-splicing tomatoes proportion, Love Dog was always ready and willing to give Pic a brain aneurysm. The buck o' nineteen boxing champ, Love Bug showed some sweet moves in Daytona Discoteques as a plebe. A veteran of a thousand psychic wars, Love Demon enjoyed being the lucky recipient of Dona's wedgies. Too Dumb to grasp the law of gross tonnage, Love Monster was summarily spanked. Who else would mix Joan Baez, Peter, Paul and Mary and Iron Maiden as a relaxing music medium. Afraid that his prepubescent boyish looks would bar him from driving, the Love Monger purchased a sky blue tank as his chariot. Hey Einstein, 7" does not equal 7 and 3/4. A great pal who recants tales of woe, have fun countin' the cash in the torpedo tube in your McDonald's uniform. Hey Loftus, see this?

*Jon Gregory Martin  
Greensboro, North Carolina  
Marine Corps*

So who is that tall red haired guy with the goofy southern accent? Greg has come a long way since plebe summer. Greg, like so many of us, fought a four year war with grades. First class year proved to be a little better. Finally SAT. Now, he spends all his time and money with his German girlfriend, Miss 944. Yeah, she's a fast one, but so is Greg. Fast enough to claim first place in the company "contest." Now Greg looks forward to wearing the crimson and gold, and hopefully a pair of wings. Good luck Greg! -SBG

*Kent Wayne Moore  
Milton, Florida  
Navy Pilot*

Kent came to USNA from the cultural mecca Milton, Florida. His fashion and folklore deductively prove that he is from Mozambique. Nice plaid shorts, George Dickel t-shirt, and high rise trou. "Hey Kent, model that jacket for us." "Say no to crack" was his personal motto. A Cassanova of extreme proportions-- Sweet Gina loved balconies. Years of intense PT gave the Country Schmuck a Michelangelo sculpted bird chest and an equally impressive gunt. In the classroom, pressures of unsatness forced an intellectual metamorphosis, and Kent became a true cultural scientist. Dean's List... SO? Aside from Moonbeam's extracurricular activities of pulling Mickeys at The House and Spring Break duck bashing, his service as resident custodian and professional stud ("What's CSORM?") set him heads above the rest. With out a doubt, Kentmo made our stay by the Severn little more enjoyable.

*Jason Robert Pawley  
Charleston, South Carolina  
Surface Warfare*

Jason Pawley a.k.a. "God" hails from the southern metropolis of Charleston, SC, but always seemed to disappear to Pennsylvania on leave. So where IS home Jason? He always claimed to be "PoliSci by choice, not AcBoard" obviously due to it's difficulty, which explains how he always found a way to finish in time to hit the rack by 2230. Plebe year found him with a steady girl-- until her wedding in November. Nice "Dear John" letter, eh? Then he was too loud, or was it low, and was forbidden from sounding off by the XO for the rest of Plebe year. 2/C year found the "SD" on Batt staff--a position he gladly kept through 1st semester 1/C year. If I'm lucky I'll get the chit in on time to change this one. Can you remember yet why you're not NFO? Must have been the wreck. Go SWO or go home! San Diego here we come! Maybe you'll have better luck with the lifeguards out there.--BJH TER

*Toby Eric Ream*

Cottage WHERE? Nasty, Rob, and "The Room of Doom." Marine Corps squad leader. THE rumble (for everyone after '93: What's a rumble?). Have you looked down the barrel of any good Rugers lately? Do you remember "swimming" in the Bahamas? Didn't think that you would, or would care to. Why don't you wipe down next time BEFORE you walk out on a Disco Dahlgren dame. Be careful next time with your woofers-if you push them too hard they may just blow on you. Always remember: A house, or a class ring? Decisions, decisions. Be careful the next time that you decide to do carrier landings--I understand that non-skid is very unforgiving on baby-soft behinds. Who is your dance partner this week? Oh-no, MOTO got the last NFO! Good luck in P-Cola and remember, if you can't SWO there, you can't go there!--BJH JRP

*Micheal Paul Robles*  
*Los Altos, California*  
*Navy Pilot*

Hailing from the great fruit and nut Wonderland, Barney Robles stepped through the gates of Canoe U. with F-14s sparkling in his eyes. Plebe year was spent in a quest for team tables with his equally pseudo-varsity athlete room-mates. Always sure of his flight billet, he tackled a gruelling History major with no sweating what so ever. His athletic prowess was proved by running 26+ miles, a feat for which his knee has never forgiven him. As therapy for his bad knees, and his failing shoulder he decided to slow down and take up the low impact hobby of Triathelism. Oh, Michael you taught me the intricacies of sand volleyball, the sprinkler, and what Mulholland Drive really looks like. As we depart from these granite walls for ever, remember these two things (1) The first two Swiss glaciers ever claimed by American citizens and (2) They are my sponsors! JMS ( Where are we going? Its so far away.)

## *Satish Skariah*

*Dallas, Texas*

*Naval Flight Officer*

Satish, the Little Indian, T. Fix, T-man, came to us from that insignificant state in the southwest....Texas. Plebe summer, was M.C.'s wingman on the mission for his calculator. Plebe year, Supermate Satish would not leave his post!, and Army week left him hanging, literally. Youngster cruise, "Hey T, when were you in Hawaii? We were there then, too!!" Second class year started with the Skimask eating worms and bark at Sere, then setting world time records for showering, shaving, and dressing thus creating the T-factor! Firstie summer, abbreviated workdays at the TACAMO Trailer, thumbs up for Lethal Woman and amassing his collection of pro-material. "T, too bad you lost the contest, you should have used the western grip!" Don't run anymore Stoplights! The Cowboys get lucky and T gets happy; and then he finished up the year with the Naked Cro and M.C.. Have fun at NASA and we'll see you in P-Cola. The Posse.

*Joseph Micheal Staud*  
*Elkins, West Virginia*  
*Navy Pilot*

Like all of us, he experienced a metamorphism, evolving from a trim, mustachioed, long haired youth to a man of expanding ideas and an expanding forehead. Joe enchanted us from the very first day with his wit and humor, entertained us with his skills and stories. Hazarding all, he emerged from his stunts with nary a scratch or a dent, only a smile. On one Statics exam, he proved that finals can be more than boring and useless rituals of academic exertion. He later manifested his educational technique in a competition among friends: He didn't win, but all came away smiling. During his Firstie year alone, Joe spent time ignoring his new guitar, applying his engineering education to Lego works of art, proving Newton wrong with his snowboard, and Rollerblading on the cutting edge of hazard. The Connoisseur of Fun and Frolic has enlightened all who spent time with him. He has been the best of friends to us all. -Barn

Taking a major cut in pay Chuck-E-C came down to Camp Tecumseh from upper suburbia. Not the frequent wild man, he has been known to get a little insane at times (ie. upsetting a myriad of sponsors and treating the company after the supts reception). A man that gives new definition to cleaning up in the shower, don't forget to wipe off! What is that smell in the sink? On the subject of SDI..... Looks like a life-long commitment. The academic boy-wonder hit some rocky road over youngster summer. Between acquiring a nearly 5000 and a walk in triangle park he barely made it to Christmas. Best wishes to you both. BNR-Soup

*Glenn Alan Weidner*  
*Plymouth, Indiana*  
*General Unrestricted Line*

Glenn came to us from the midwest with a new attitude on how things should be run and got away with most of it. Weedshack, firecrotch, Big G, Glennard Skinnard, Wedner had it all, brains (unused until X-week), the running, until Big Al brought him to the finer points of afternoon drill. Who likes to party, I do I do, they're mere mortals, Tetanka (and her chair), O.K !ff, I bet I can do it twice as fast as you, I'll clean it up in the morning, I need a chit, she hit me with a smooty, why don't you pay for something once in your life, I'm just not feeling normal, smoking, would you pwease wake up misteuh Fettah, J. B., all you need to know is F=ma., you can derive the rest. I don't know where I'd be without you, from ice cream in your car youngster year to dirty point to Plymouth it's been fun. Best of luck, I know you'll find the right loopholes (JB)

*Patrick Earl Young*  
*Arlington, Texas*  
*Medical Corps*

Pat gave up his long hair and rock and roll life to come to us from the metropolplex. The plebe summer rate machine. His photographic memory allowed him to be the only plebe in the history of USNA to memorize all 27 Laws of the Navy (which he still knows and recites to this date). High strung-Pat Young, academic wizard validated everything in sight plebe year. A dream of a roommate. Not exactly what I expected. how about a pop-tart?.. could you set another alarm... please. "I did so bad on that test.... 98." Youngster romance ended with Kristen... no more poems and love ballads. D and B rocks the house!! Creative photography, burning bugs.. for fun, the pumpkin from hell, thanks for turning off the alarm.. was that formation? Owned the door contest. Good times, good memories, have fun at Vandy and remember that the drugs are for the patients. (JB and SS)

Poor Benjamin Jesse, USNA took him straight from the cradle to the grave. Away from mommy and daddy only to find a new set. Offers for boxing EI from his 2/c. Go Navy, Suh! Living in squalor, Benjabo's high entropy ways were often grounds for a good 'ol fashion pummelin' and lambastin'. No shoe wearin'... Frank Perdue, keeper of the eggs, sure knows how to work that geekbox. Why? Inbreedin'! Uniform for liberty is Chief's Dress Echo, wear runnin' shoes! Did you brasso your glasses for inspection? ## *Kevin Lewis Austin Dunwoody, Georgia Surface Warfare*

Kevin decided that Tech would be too distracting so he headed North to the more disciplined environment of USNA. Right away he made influential friends (A.J., T.C., J.Q.) who helped him through the hardships of Plebe year. Here's a hint, drop 70lbs and play 150's; you won't have to drill. Forget that, "23% body fat."--drill stud. No! There is always a way out. Systems Engineering proved challenging and Kevin mastered the all nighter. But, he still found time to become familiar with the various bars in the Balt.-Annap. Wash. area and to keep his little black book filled. Group'6": D.B., J.B., M.A., L.A., R.J., E.P., J.S.. You don't want to know! Finally Graduation! After Marine Corps, SEALs, EDO, and Supply Corps fell through, Kevin decided what he really wanted was a FFG. Not that it matters, the money is in computers. Good Luck in the future and remember the good times JDM.

R.J. came to us a prior and ready to go back to the fleet. Yes, indeed Sparky's best friend was THE CHIEF in '89. Four years has changed a lot of him but not the obsessive cleanliness. "Just how many showers have you taken - today?" Yeah - Mr. Clean didn't like a mess...what about Australia? Between defoliating the back, breaking his knuckles, lambasting when appropriate and firing things (and us) out the window, the task of little Bros to 'Arj', THE OLD MAN, was a treat. Enjoy Yokosuka. We'll all be ready to meet your Cherry Blossom. Hope she likes livin' in a dark cave!! Be sure to stock-up on Brasso and clear report covers so that your 0800s outdo those other three Ensigns! Seriously, shirt stays when your an ensign might be a little much!! Watch out for the crab pots and PLEASE stay out of politics! B.J.A. & I.N.M.N.G.

*Mark Glenn Carter

Being a Parris Island veteran, plebe summer was basically a waste-o-time for Sergeant Carter. SIP's, PEP, drill, inspections were no problem, but Chemistry!! Just because you just had your wisdom teeth yanked doesn't authorize you to walk around with your shirt dragging from your socks. Remember, "Once a Marine, always a Marine." Socially speaking, it is quite curious that all your ex's immediately get engaged once you give them their walking papers. Although our Marine Corps combat engineer had a little trouble with his systems engineering major, it did save him from becoming a bubble head. His car, "the pregnant roller skate" served his purposes well and is presently his major link between USNA and Kent, Ohio. Nonetheless, his plebe summer pals Mayhem and Jaime, started and finished together as roommates - and we aren't even engaged!! "Stand-by.....click!" JJE,MKT

## *Brien Wayne Dickson*

*Casper, Wyoming*

*Nuclear Power - Submarines*

Brien came in Plebe Summer and quickly earned the nick-name of "hop-along" for his unique chopping style. The first couple years were rough, what with S.S. naming him as one of the bottom 10 and his flame sessions Youngster year. He persevered enough to earn the right to do more work as the Regimental Maintenance Officer during First Class year. Brien came to the Academy wanting to fly. Navy Medical thought he would be better suited for nuclear power. Brien's no sports fan, which is what drove him when choosing extracurricular activities. He will always be a better sailor than an instrumentalist, however. Brien spent his summers in such places as Rota, Spain, Miramar, California, and Nassau, Bahamas. Nothing will top the time he sailed his S.S. Minnow to Bermuda with his beloved skipper. Good luck in all you do Chief, I only hope the submarine community is ready for its next Admiral Fluckey.

## *James Joseph Elias*

*North Kingstown, Rhode Island*

*Naval Flight Officer*

James...old...friend. Just like a good plebe, you made it through your first year with little trouble. Smacking your cover on the desk for SS, you drew comments like, "What the @#%? Elias?" The next time we are in San Diego, lets call the Yacht Club first, before we walk ten miles just to get turned away because we are not members. That deck is sinking now since it was set 1/4" off. 2/C year brought you 5.0 L of pure power and self-actualization. Should we make the Detroit airport our meeting place? All you wanted for first class year is a new nose and a chin. "Don't you Goo' Baa, me!" In time, you finally got your "D" qual. Aero was tough, but, "You guys are sharp."--BB. You got your dream and you are going NFO, "Even though you don't look stupid." Your wit and sense of humor are unrivaled. Smooth sailing (and flying)! See you out there, old...friend. *Joseph Carl Foraker III  
Reading, Pennsylvania  
Naval Flight Officer*

Joseph Carl Foraker III, Jay to everyone except N.M. who couldn't remember anyone's name, came to the Naval Academy at the ripe old age of 17 with the intentions of varsity swimming. Unfortunately, things did not work out and he ended up playing a horn for a year with the D&B. Despite a busy first semester of leading classmates around by the hand, Jay earned his first of many 4.0's at the Naval Academy. Jay spent his summers at scenic spots like Hawaii and Panama City. Everything pointed Jay to his destiny of nuclear powered submarines until the night before his nuke interview when he decided he would rather spend his time with his head in the clouds. Jay spent most of his last year at the academy serving as Vice-Honor Chairman, a job that suited him well despite what our rolly-polly, plebe summer, squad leader might have said. After being Jay's room-mate for 4 years, I can say that no one was ever a better friend. BWD

Graassssdoocckk! Grasdock, Wayne Grasdock hails from the wide open spaces of Montana. Plebe year was full of laughs. Watch out for that meter! Your favorite comedian-"Don Knotts, Sir!" Youngster year arrived with DKS, a Honduran, surround sound, a cellular phone, and a Coke machine. Room formal second class year would have been a lot easier if you had known the difference between wax and stripper. And don't take the time to wax the passageway to make a plebe death trap. Never will park in the same spot at Bethesda again. Watch the 2.259 L break left while Mayhem maintains constant bearing. Who is that girl in white Volkswagen Fox? Who could forget the shirt stays/PE gear combination courtesy of B.M. or the missing tie which led to new uniform combinations for JR to try on. 3/C year John's athletic prowess was proven by his ability to jump from a chair to slam dunk. At least JR returned the ball before getting his cast. Wedgie wrestling wars led JR to purchase Hanes in bulk. John chose EE as a major. At least there's no weekend policy in the fleet. JR's academic endeavors was furthered as he landed the job of IEEE VP, by hitting the softball the farthest. 2/C year cybergenitized JR to 170lbs, but Brig boxing and the sauna shrank him to a lean 139. Exercise and fitness brought good taste to Gail, but the Int'l Ball brought John another sweetie-JR. Army/Navy week brought a light show for everyone on 4-4, especially the Brigade Staff. Remember the good times- 1st drivers license, Baltimore, and Griffins. Good Luck. VAT

*Daniel Joseph Haller

Navy Pilot*

Haller.doc came to the Academy from "The most livable city in the U.S." to become a Navy Pilot even after the "exciting" flight physical. Dan is only the second midshipman in the history of the Academy to validate Plebe year. Youngster year, OSI Haller was credited with securing color company for "Freefalling 15" with his unmatched Navtag skills. As a second class, "Howlin' Dan Haller" took on a new role as an uncle. "Uncle Dan" took on the responsibility of singlehandedly implementing the policy of positive leadership - with successful results I must add. In these past four years "Dan the scuba man" has seen San Diego, Hawaii, Australia, Detroit, Bermuda and almost the America's Cup. His selfless EI instructions have not gone unnoticed and he deserves nothing but the best in the future - JETS!!! A little Star Trek and some Maryland blue crabs wouldn't hurt either. JJE

Lo-babe. We all have our moments, but this chick from Cali has had more than her share. Sure, she seems "innocent and virtuous" enough on the outside, but just ask her about "viscous flow, downhill, in a channel"--a true blooded aero geek despite our best efforts. She does her best to "deny her heritage", but those eyebrows really give her away. (Is that your REAL hair color?-I don't think so.) She managed to kick her halo into orbit by I/C year-prompted by "fishboy", but despite her pleasure seeking, pain avoiding nature, she hung with crew for three long years. Now, she can predict the weather by the L.G. Memorial finger. I bet that will come in handy while "haze gray and underway!" Best of luck on the high seas.(Hee hee). D

He came to us as Johnny Mac, the wrestling Maniac. He started out naive but soon came to realize that 190lbs of mass can not overcome 295lbs of mass. Johnny Mac meet Mike D. Next he became a finessing, sweet-talking pretty-boy. He changed his sport to squash and gained some under garments with holes in them. Johnny Mac turned into CrackDonald, the man in search of true love. He roamed Rod's hangout during Saturday liberty, but only after he cleaned, painted, and renovated the homebase. He went to beach parties, to Sanctuaries, and even on a Safari to find love. He also fought a dragon, who badly needed Rogain. On one Safari he caught a big fever. When the fever broke, CrackDonald became Euro\_\_\_\_. This stage past when he caught the fatal fever. This fever will probably stay with him when he goes to California. Good Luck!!!!

Out of nowhere, the viper struck, surprising us all with her strength and fiery emotions. She brought a load of smelly laundry, but fortunately, with several feasts and a little help from her friends, she was able to see the light. Double Desserts? What more could you ask for in life (besides a shopping spree)? Nine months to hatch a car, and boy would that car travel far. When you go to Germany, look out for loogies. JH will meet you in Lorraine for lunch. Despite being soothed into submission for a while, the viper reappeared, at last, in full force, with a spectacular oration worthy of a service medal. No thanks to Had. & Roj. Andy relentlessly finished plebe year. How bout those shoulder boards? But, youngster year brought new challenges. Double easy wasn't so easy. Not one for gouge, Andy took on the EE workload, and prevailed. But, the long hours didn't keep Andy from partying. With his moshing jeep, Andy took on Hood, NOT! Lets try Georgetown, New Orleans, maybe Rutgers too. A little WWF spiced up youngster year too, or is that RWF? 2/C year yielded a productive leader who motivated his plebes, even through the summer. A few fireworks made the year exciting, just ask the B.C. So much for the R.D., but no one's perfect. With 1/C year came the free luxuries, xerox, phone, a ski trip to the Alps, should I say more? Always in the fast lane, the devildog will go even faster as a Navy pilot. Always one to lend a hand, the Bird will surely be missed by those who knew him well-JRG III

Dave entered into Freefallin' 15 from deep in the coal mining regions of PA. Plebe year was fun, especially burying that arrogant 2/c on a Sat. morning "fun run"! 1st sem. 3/c year found us next to the Coke machine with a full fledged youngster room (most expensive surround sound system to hit USNA, cellular phone included). TR was found 2/c year in 19th: a loss of stereo and phone but a gain of various other appliances and a desire to become a SEAL. 1/c summer was real rough on Coronado and the beach with the "Dragonfires"-GO NAVY AIR! 1st sem. 1/c year, he found 3 stripes and a challenge. THREE-PEAT, BABY! Last semester, back up on 4-4, he was attached to the VDS-19 "Blue Magnets". Once in a while, a TAD excursion would send him to work-out, class, practice, or the phone. Hope Pensacola isn't a letdown after being Admiral Ensign at USNA. God Bless as you soar through Navy skies!! WGG

MAYHEM!! How appropriate that plebe year nickname is. Little did his second class know that "Mayhem" would stick till after we've all left this place for good. He only validated 19 credit hours plebe year. An aerospace major who realized that he wanted to be a medicine man... Make up your mind! *Timothy Mark Ulmer*  
Vestal, New York  
Naval Flight Officer

Tim's career at Canoe U. was marked by a string of crunch-time decisions (Naps contract, Serv. Sel., engagement). Irony in that his destiny had been set before arriving in Annapolis. "There are a few captains, but there's only one admiral". Usually found with lax stick in hand arguing with C.W., Tim developed the art of "creating dialogue" ever trying to keep his unbroken streak of being right. With youngster year came the girth, a new ACL, warming up goalies-a "rocket shot". Mixing narcotic pain relievers and 6-week exams resulted in a quick ending to a promising narc career. With every movie release came new career goals (TopGun, AttSubs-an early casualty. Getting wet-n-sandy in O.C.), but on 4-0 Tom Cruise could not ignore the calling of the brown shoe lifestyle. Blood Brothers experience everything together. Eat up the world Ulmer! Hoo-Yah Sir!

A popular roommate to have, V.J. had the most, just ask the 2 that were separated. Except for a little restriction, V.J. rolled on. 2/C year created a short terror who found himself on plebe probation. What did you do to that plebe anyway? Would J.B. across the way have approved? 1/C year found him oft in the rack esp @ brkfst. His "empire" was dented when the batmobile was totalled in a collision "self des-cribed" as near fatal. He still partied on though, remember DD, but no RD?, frisked @ Grifs, & still a crstl col. With a lifelong des- ire for flying, V.J. joined the Air Force. The Dude (Berrydude, and other assorted callsigns) came to USNA from the Mardi Gras land. After wanting to go air, then every other service selection, the Dude settled on submarines. Known for his high-powered intensity, he survived and crushed cables, ankle surgery, nuke interviews, Marine Corp marathon, and country music. In the time we've been rooming together we both were forced to give up our membership to the Blue Collar Midshipmen Club when we were hit over the head and saw stars. I guess we'll have to join the ranks of the golden children. I'll certainly miss the multi-hour tirades on La La Land and maxing both the volume and the sarcasm level. I'm sure that "This is Jamaican!", "Where's my pen!", and "Not just no, hell no!" will be ringing through my ears long after we go to nuke-land. Remember that I want to be invited to hell freezing over, and if it ain't fast and black, - your wrong!

Jon marched out to the "Heck you guys don't know what COLD is" east coast to figure out "What is Canoe U. all about?"; this began a series of questions including: "Hey why isn't this girl writing me?" "Do we have to pay for football tickets?", "How much do those sheets cost?", "Does Conduct do a lot?", and "Rob, do you want to do a skit for Skit Night?" Yep, lots of interesting times for four years as roommates guest starring "You're gonna get fried", "No, you can't put your towel up", and the practicing monk - like I should talk! CT. The guy who came to us from New Hampshire? Arizona? Boston? London? Oh well, it doesn't matter where he came from as long as we all know that he found a home at USNA...shaa-right, as if! He spent more time in formations than he did studying. Did he ever really study? From the stack of 13 newspapers Plebe Summer to the recent Elvis sightings he's always provided our entertainment. A little eccentric. We could always count on CT to be there when we were down to push us further down. He's an (Dennis Leary song) and proud of it! We've all witnessed the great leadership capability that will serve him well in the fleet as evidenced by his close-knit squad (need we say more). Rob, at the bright young age of 17, came from the beautiful state of New Jersey (Exit 7A on the pike) and settled into his new home away from home, "Mother B". With the initials of RAC, you would assume he was in the "rack" all the time. On the contrary, Rob was a hard chargin' individual and spent many hours doing his job and on his computer. Don't get me wrong, Rob considered sleep a sacred event and people knew to step back when waking "The Ghost". I always valued Rob's opinion on anything especially computers. Being a CompSci major, I was lucky to have a roommate that was a former software engineer and a fellow CompSci major. We had some great times together, Army/Navy '89, teaching him how to play racquetball and a year later getting beat by him. The USS Devastator is inheriting a fine Naval Officer! HAR-READY!! Hey Chris, 0500 for a workout? Yeah, Right! Life began as a munghead on 7-0, shootin' hoops and being ratey. Then came youngster year and Froggyman aspirations: run, swim, and flutterkick with the best of them as long as it was well after sunrise. After a quick plebe detail, pack the gear and head for Zoomie land (AFA) Colorado for a short vacation of skiing, PT, and rack. Back to USNA, though, to become helplessly trapped by a little Byrd from Frederick (the Mk1 Mod0 wife); First year spent being whipped, securing a billet to HOOYAHville, Coronado, camping trips, and company commander-- Remember: put out like a Big Dog (2-40, SYCO) because Senior Chief is waiting-Check or Hold? Youngster year saw realtime access to Krystee\*\*\* over NATS and ENGAGEMENT! (Yeah, as a Youngster!) After a brief stint with the plebe detail munghead squad, it was on to second class year. Extraordinary, legendary, like some comic book superhero Mike ruled the Annapolis, Balt. and D.C. circuit undaunted, untouched and certainly unmatched. No girl was out of his reach or his league. If there was a fly honey in the place, Mike already met her. Mike did more work as a plebe meeting girls, than most upperclass do all weekend. While most would call him cheap, he was only efficient. Mike will also be known for the mack daddy machine he created the car, carphone and the clothes. There was also Jauwana right there when things didn't work out. He will always be remembered as a man of action who led some of his less fortunate Boys out of a life of academic boredom. Mike's a true con artist...the man's "good boy" during the day, a past taps macker by night. Bradley (Brad, Gresh, Fresh, Bam Bam, Chode, Taint) came to Canoe U. from a year sabbatical in heavenly New Jersey. "You have to get up early to fool the Ol' Gresh". Plebe year saw the last traces of a wanna-be engineer with enough hair left to part. It also saw pic-nic benches at formation, Bobby Brown, and sweet memories of Stu. Youngster year brought the challenges of Mech E (though short-lived) an the chance to excell in statics, never admitted wedding plans, and the perfection of the blow burp (Chile Con Carne). A guitar-playing U.S. Navy Seal surfaced 2/c year. By 1/c year, Brad could be found in one of three activities: rack, producing song, or strumming cords. This self-proclaimed "hand-some devil" was well prepared for Coronado-SWOS that is, not BUDS. Don't forget Va. Tech and the screaming Nazi. Best of luck in all you do (especially BUDS). From the snowy hills of upstate New York came a petite, hard-charging pleber. Though she escaped some of the trials of plebe year by subjecting herself to the torture of crew, one spring break missed was enough. And after a tough youngster cruise in France, she returned ready to tackle EE. While studying hard, she met some nice guys in 11, who dubbed her the "Hahnster." Second semester saw her switching majors to comp sci (for the better?). Second class summer was spent at USNA training plebes, while she wished she was in France. Then came a move to XX. Second class year meant "long" weekends and "positive" leadership. Firstie year brought supt's and some fancy two-steppin' in Springfield. This New Yorker turned country girl is now ready to command a nice office in D.C. May swift traffic and clear weather guide her to work every day! RMH,SAH

"Woody"? Four years ago, a street-smart city dude from the thriving metropolis known as Harvard, Nebraska, established a name for himself here at this fine institution. Armed with all the knowledge gained from a short stay at NAPS, the Woodman instantly established himself as an academic and professional role model we could all look up to. Even though Woody spent many hours of each day engaged in the pursuit of academic and professional excellence, he still found the time to run in the afternoons. Always the one willing to help others, Woody was most comfortable in his locker room where he could be found helping the underclass with their rates. Although his athletic awards will never match his accomplishments in professionalism and academia, he made quite a name for himself on the track. Twentieth company is saddened by the exit of their hero, but we know well that Wood will soon make us proud again in his quest to become TOP SWO. ctb

After a rough rookie semester with a 1.38 QPR, 'T' managed to fight an uphill battle over the next six semesters to win the voodoo lottery and get accepted to nuclear power. Taku is definitely worthy of the "comeback player of the year" award. Taku and I have roomed together for two years (always next door to RAC and JWB) and have soared to new heights of comedic sarcasm. "Do as I think I want to say, not as I say" has become a trademark of our time at the academy. Few history majors probably ever have the guts to take engineering classes as electives. But, Taku had the pleasure of enduring Prof Harper along with his roommate while taking nuclear energy conversion. Always the "in the closet" engineer, Taku will be at home in the world of micromanagement (nuclear submarines). It all comes down to this: Pick 2... Fast, Quality, Cheap. My invitation to hell freezing over still stands. RMB

Marshall Blue came to us from Slidell, LA at the tender age of 17 and her elders said that she was TOO young... well, you've proved me wrong! We lollygagged(!) through plebe summer and resigned ourselves to face ACK! year. Alpha and Omega roomies, we survived numerous attacks: Being locked out due to Christmas presents; Blue and Gold tag teams; And "Join me, Luke..." Remember, it's all fun and games 'til somebody gets grilled! The girl ones made it to Herndon and melodious sounds (did they ever change?) helped her to weather the Storm. 3/c & 2/c late night gEEKing, she got thru screws and EEK. 3 yrs of D&B gave way to being 1/c PMC pres and Head Heretic of Utopia 21412. USMC intentions once led to a Devil Dog summer, but a 1/c LHA, fair winds and following seas will lead her to a different Corps. Though I had to leave you, we'll always be friends. You will never find a place where Pete Olsen doesn't know someone. It may range from an x-girlfriend, to an old high school buddy, or people he met on the athletic field. Even in the Brigade he is well known. Pete can get along with anyone. He is always outgoing: from taking the mic at Cha-Cha Cocoanuts, to finding a "keg-off" at the University of Delaware. Either by making jokes or giving one of his famous impressions, Pete is able to make a bad time into a good one. Second class year was phenomenal. Road trips to Duke, UVA, Florida, and countless others gave us all experiences with Pete we will never forget. First class year brought on a change we thought we would never see. We now move on to San Diego to start a new set of experiences. Only time will tell the outcome of Pete and D.G.'s relationship, but Pete will always be the fun-loving, "laid-back", guy we all know him to be. --MFZ

Mike came to us from the huge Navy town of Emporium, Pa. having never seen the ocean. He was the first half of the double trouble twins during plebe summer. Finally the munghead room got together Youngster year. The daily Hoo Yah sessions also started along with the circus photography, and Bucket O' Pirates. Did we ever go to bed before 2 a.m.? Then we lost Mike for a semester to the government Play School in Colorado. The rest of 2/c year saw class being scheduled around PT sessions and zero dark hundred workouts but he still managed to get the stars. Firstie year, Mike survived the booby trapped books and desks and tried to lay low avoiding the "T". Jo brought entertainment to all. The wait was worth it but Mike finally hooked up 2nd semester with a "nice girl". He surprised us all by not taking a FFG out of Norfolk and became a Hoo Yah man instead. What a long, strange trip it has been. Tennessee's biggest football fan here at the Academy. Everyone thought you were crazy to choose E.E. as your major, crazier still when you managed to get 4.0s doing it. Plebe year gave us army week and the invention of shaving cream ball bombs. I still don't know if it was the wisest of moves to tag him in the head with one of those. Youngster year brought such keen memories of as the Spring Formal and descriptions of Planet Earth. I guess you can't always trust your roommate's judgement, I owe you one. That was also the year that the nocturnal study hours were born and with it a newfound affection for the magnet as the quest for the golden pillow had begun. The questing continued into second class year. Making the trip to Knoxville was also an experience- the Boiler Room, Underground and Mardi Gras. By the way, "I am not a Cop!" Brett came to us from Deep in the heart of Texas. What happened to your Pringles and Gouge cards during Plebe summer? He "tolerated" his room-mates snoring. Plebe year also included the encounters with Dan the Man and the Molesters sister. Youngster year brought the Munghead room together. What did we do that year except kill mice, take pictures, and just goof around. Brett spent a semester at that other school in New York, but he made out like a bandit after the big game. Then he spent a semester in the rack with his new "Green Girl". Then came the ball and chain. You finally saw the light. Firstie year saw him trade his barbershop hat for a skivvs shirt. From his flower-child roots in peaceful San Jose, this veritable redwood of a man was thrust into the hectic world of this wonderful institution. After a brief one-year hiatus in Newport, Bow came to us and instantly achieved fame as the "big red-headed plebe with no brace." After a year in purgatory he came to room with his soul-brother and has ever since. It is only fitting that a man of his stature should have so many nicknames: Lemme, SMAL, and Beer-clod are just a few of the departures from the ever-popular "BOWS". Ignoring the pleadings of the Navy Air community, Bow defiantly took that frigate out of San Diego. Never one to miss a good time, Colin often escaped from reality to the heavy-faced jungles of Nam (Philly, Yale, Harry Browne's). Sporto joined us from the sunny state of Florida, already an old dog in mind but trapped in the body of a pre-pubescent man. Adventure abounded when you got him away from his studies. From the full mooned night all over DC, Balt., and VA to the snow covered slopes of NY, to the sunny beaches of FL - adventure found him even if he wasn't looking for it. As Mr. Indecision, it was never clear what this man was planning?? Attending Mini-Buds and BullDog 1st class summer, he gave us all a spin when he selected SWO. If Coop was short and stocky like Ef, the Gorilla from Manila might have won. Another distraction entered his life in the form of a girl from Ohio. JoMeister, we made it. There were times we wanted to strangle each other, but I think that seven semesters of living together says it all. Plus, we always knew when the other was about to blow-up. I'd like to put down what has stuck in my mind most over the years and hopefully we can both get a chuckle or two out of it. We shared the same eating and sleeping patterns, and even the same cycle thanks to me. Our late night conversations kept me in stitches-how did we ever get on those topics? We were a great old married couple for awhile;how else were we supposed to get dates? I will always remember frozen yogurt, pizza quarters from dad, dinner and a movie, chocolate chunk cookies with milk, romance novels, the dorks who always came by the room, the dreaded mile and a half, wars with the guys next-door, and the Joe and Ken's envy incident. Annandale, New Jersey  
Navy Pilot*

A pole-vaulter from N.J., Mike came to USNA with "high-flying" aspirations. After 8 semesters he has achieved his goal, but not without his share of stories...stuck trucks and FL turtles... 3/c year XMAS dance="Where are we Mike?"... credit card debts... 2/c year ski trip to the Rayls... Panama City and the TAZ dancing... Cape Hatteras Lightning... visits to Duke... service selection hotel fight... "Bill, should I wear this?"; Pitas piss me off...Buffalo... Naples... Chicago... Vero Beach... Disney & Universal... Scuba... Airborne... SERE... All of Mike's craziness molded him into a company drill stud, a raise-my-grades on exams type of student, a "no cop tickets me" driver, a fine film critic, and of course a true ladies man(we wonder, Did he avoid Ring Dance???)...Regardless, Snapper's path has a purpose and he will make the best of it!! We're behind ya' buddy!! WRD

*Christopher James Sterbis  
LaGrange Park, Illinois  
Navy Pilot*

Sterb came to us from Chicago with visions of flight school dancing in his head. Well, our little Hobbit will get his chance. It didn't come without a price, however, as we all know. There were numerous weekends, too many to count, of "getting small" and saving money. But with the freedom of first class year and his IHTFP laiden 4X4, Sterb ventured out to claim what was rightfully his. He found it in rock climbing, skiing, and surfing. We'll never forget Sterb saying, "The hell with the CDO," or donating a pair of summer whites to the trash man. Perhaps not the most subtle person, Sterb effectively communicated his feelings in a variety of ways. He showed his devotion to the Class of 1993 by shaving a class crest in his chest hair. He showed his anger with honest, heart-felt vulgarity. And he showed his friendship in his unshakable loyalty. JRV, NLR.

The Dog came to us after a year of prep school in Kingston, PA where he first started his yearly habit of hitting on women not yet old enough to vote. His love life was put on hold for plebe year, due to the attentions of Villagoat and the Mad Egyptian, but the Dogger quickly made up for lost time as a youngster: hooking up with his NATS cable. After 2-for-7, NOT!, we found out just how much Aero blows and Mech-E sucks. Between Tunnel and Strengths, we sacrificed entire forests in search of an "A" lab....who are we kidding: to get a passing grade! This didn't slow the Lap-Dog from bagging out of our trip to Europe: to go to Prom Night back home!!! (And let's not forget THE NIGHT FROM HELL) This year Dog's moved onto more mature and cuter (but not necessarily older) leash holders. Good luck at Bubble School, and no, I didn't forget about the little drummer girl. JRW

Out of the wasteland moseyed this free-spirited Texan. Barely surviving the pitfalls of his accident prone Plebe Year, Bobo courted many "dainty" East coast girls. After a premature retirement from the gridiron, Kevin proved himself the unsung hero of the All-Star Oarsmen. A lanky 6-5 (6-9 with hair) Mudfoot's physique reminded us of Bleu the Bear, but his wardrobe was definitely GQ. A lover of poetry, Kevin became a student of the English language. Unfortunately, even the Bard could not rid "ain't" or "y'all" from his vocabulary. Bobo's weekend liquid diet found him in many a precarious situation, ranging from the back alleys of Cocoa Beach through the frat houses of Penn State to the watering holes of Bean Town, not to mention Red Square. Now Kevin expands his horizons to the Pacific, and we will miss the good times we shared. Na zdorovie, brother-- JWL, CAB, ZUB

This BOOSTer came to USNA from sunny Cali and soon realized party days were over when she opened that first chemistry book. As the only 93 Female Chem major, K lived thru mega peer abuse. Where to find Vallazza: Chem lab, D&B practice, or an honor board. Walter taught me to Merenge. Mike taught you to two-step. "Don't close your eyes" The green thong is only a rumor from All Hands at Mayport 2/C summer. TDF's at Lucky Pierres steamed up the dream staff in New Orleans. Semper Boston, XO and OPS. 4 years off of fast food biscuits, King Hall cereal, and Grab & Go pretzels. BZ Tia Titi. Verdo fought major confusion living with same name roommates--Kerry and Kari. Thank company mates for your song "Uh, Vee so... love me long time!" You taught me Spanish. Dientes, Nalgas, Tripas, Pequeño y GUAPO kept us entertained. I taught you Greek. Sotello! Good luck in Corpus Christi, mi mejor Amiga. MAL

*Jack Ronald Van Natta  
Kalispell, Montana  
Naval Flight Officer*

The third time was the charm for this Montana boy, coming to us after some time at Northwestern Prep and NMML. He tried golf early on, but gave it up since it cut into his Ships and Aircraft time. Somehow 'Natta survived Herndon, hell in Fort Benning, two years with "The Fleet," hurl-blanketed sinks, and the ultimate experience. He had his peculiarities- Warren Zevon tunes, 8 foot beef sticks, corn dog look-alikes, and morning foofs that shook room 4402. But his isometrically carved muscles, Clapton like guitar playing, and superb gardening skills made "The Body" a great roomie. His alter ego feared rats, played defense, and asked strange men to dance. His most treasured lesson: "sometimes you just get boned." What are you driving at? Oh, good point. We'll meet in Nam for some java and an Egg-a-Muffin. Fat bloated idiot pals forever. CJS, NLR.

*Matthew Hunter Welsh  
Mansfield, Pennsylvania  
Nuclear Power-Submarines*

Matt came to us from the Marine Corps family and departs for the reactor corps. Despite a brief exposure to the medical community, Matt stuck with subs and leaves us on his way to Orlando. He has certainly found his place in the submarine force. Never one to take things lightly, he has done more than his share of sweating while at Navy. Academically that is. Not one to take to the playing field, he acquired his "well rounded" character with the Masqueraders and the Musical. Four year of playing "striper points" landed him in a job as battalion executive officer where he put his more than sufficient knowledge of regulations to use.

What's that lump under the blanket, Ray? Studying may not have been his forte, but he OWNED computer games. Scott, can I. NO, why don't you buy some? If you don't like it I'll put the headphones on. He lived for 4 straight yrs on PB, Za, popcorn, fritos, & JD. OK, you can dance, but DON'T, just take her to the beach. Don't worry, your ring'll be there when you get back. With shoulder-length hair, (Oh, we can't forget the mustache) Weps joined us Plebe Year from his alternative lifestyle in CA. Youngster Cruise started with a bang, as Weps earned his Black N and his nickname: "Where does it say I can't keep an AK-47 in my basement locker?!" JRW eventually learned to legally channel his love of weapons (and the women who wield them) through fencing, where he earned a BLUE sweater this time. Weps' Youngster Year was no less interesting as he picked up a new HABit, which he hasn't kicked yet. "But we're just friends!" Yeah, and you ENJOYED that whole bottle of Bacardi too! 2/C year: Aero, Mech E, EE: jab-jab-cross! As 1/c Conduct, Weps processed many Form-2's, including his own -at least no one saw her! Congrats on selecting Navy Pilot!! And remember, we may both have habits, but at least I don't have to salute mine!! Good Luck! SPS

Crane, Hoover, Stinky, or Icabod came to us from the city of brotherly love, where he lived life in the extreme. He has experienced the hardest, coldest, toughest, meanest, most dangerous, best, coolest, most exciting, most (your fill in the adjective) of everything. There are precious few facts that he is not intimately acquainted with, and none that he is totally unaware of. He has thrown some parties that perhaps even he could not top. He supplied a pet for Peto to sleep with, Ivory for Mole to eat, bushes for Lemme to fight, video for the Who game, a keg for stands, steps for Scooter to brood on, ool and brew for all, and floor space for "sleep." Outside of the annual parties, Crane's life consisted of eating, crew, eating, studying, eating, stinking, eating, sleeping, and dreaming of eating. We know he'll make a good doctor because he's already got the handwriting down. JA,CW,SW,JB

Despite being an inbred from the hills of TN ("No. You're mother's MAIDEN name."), he somehow talked his way into NAPS and began a career of talking his way into many escapades. 1-1 CC to 93 VP; on the rocks of Newport (we'll do the Trail anyway) to the rocks of Dead Chest; mopeds in Bermuda to Harleys in Key West (someday); first lesson in an FJ to schoolin' each other on the Bay; fishing for Jack (Daniels) to 7 days without a strike; 2 for 1 at Shannon's (what was that on your ear?) to smokin' with Capt. Tony; Tabasco to the NASS fiasco; Jose at Dre's to Jaeger on the ridge over Watagua. Ahh, Watagua. Jet ski tours, Elk river water skiing, houseboats, bands, kegs, islands, bonfires, Wildlife Feds., Mark & Linda. Roommates beware (5 for 8). Women...frying pan or fire? (May KM, KH and M never get together) Off to RI and HI...and maybe KW! Plenty of time to build the toy collection and the list. MA,CW,TK

Gene came to USNA from the streets of Detroit, MI. Rough childhood made him a self-made man. Eugene became a mere Plebe from a Colonel (in JROTC!) Met a roommate for 4 years from the Land of Rising Sun in Lejeune pool in Plebe Summer. Gene realized he couldn't float.. but by his youngest year, he was giving EI. Gymnastics took a large part of his last two years at the Academy. He did get that N-Star. All four years eager to fly, now off to FFG in Mobile, AL. Go for it! I wish best of luck and success in every dream you told me. My future security advisor? Without you, I haven't made this far. Thank you and I'll miss you. K."Cheese"K. We've finally made it thru. It took my roommate, some force, a locker, tears, heartache, and most importantly laughter. More events come to mind, but too many to mention. Take time to remember the times we had at USNA and things no one else knew. Wherever you are, I'm only a call away. Love and friendship forever, SCM

Dave "The Snake", pride of Standish, son of Satan. Plebe year began with the V-squad and ended with company commander and golf with Uncle Rich. 3/c year revealed his love for textbooks- Dq's, Statics, etc; also adios CDH & JRD. Thanks Dad for the letter. 2/C year was the Dark Period (Hear the bedspring chorus?) How 'bout that hole in the wall? A new addition to Dave's love life: Garth. Remaining a true Spartan, he journeyed to MSU. Allergic to beer, Dave did not fail to meet the challenge of B-day #21 (How bout a prairie fire to go?) 1/C year began with the home tattooing kit. Dave's attitude was always positive. On the athletic field, Dave was a role model, receiving the USNA Intramural Sportsmanship Award. A true metal head, Dave was a regular at Hammerjacks. Good luck in Nav Air and continue to bang your head. JTK

Midwestern, Valedictorian, Wrestler, Football-jock, 1400+ SAT's. BANG! BANG! BANG! "You got any OREOs?" as the tourists watched...if they only knew. "No sir, I never touched her." Pistol Pete's victim "Where's Ralph?" CHRISTMAS '89 "I'm going to cover it!" The BUNKER's other Sentry. Spike and Sergey? Larry? How'd that happen? UNSAT, NYC, Wilson's, MIMI "They would never understand... They are not warriors." Had to go to the beach. My mom's favorite. Let's spend spring break in the cold snowy Midwest. Always wanted to be JB's NFO but medical got in the way. Marines got lucky. "If firearms could solve the problem, I'd have this licked." His buddy Thompson. Gotta have the good beer. *Kary Nikolai Brownlee  
Kennasaw, Georgia  
Naval Flight Officer*

Kary came to USNA from the most "northern" southern city of Atlanta. His boisterous and outspoken manner made him the best and worst plebe in 14th company. Kary spent his Herndon overnighiter in Smoke Hall for drinking on the sea wall with his firstie buddies after acting as Mr. Vice at a company dining in. During younger year, Kary served as Young Joon's personal janitor in the Goon squad. 2/c class summer brought the love boat cruise and Plebe Detail. Eventually he met sweet southern Tracey, a Vandy girl, and has been lost ever since. Now Gector Boy hides away grab-n-goes for all the overnight road trips to Tennessee he can stand; always making several donations to local law enforcement officials along the way. Kary is an engineering genius as well as an unabashed leader who will shake up any organization he joins. Best of luck. PMD.

This streetwise, little man with a big attitude hails from the cushy suburbs of NJ. Never one to let height get in the way, BACKBONE set his sights on a career as a USMC aviator. However, after rugby, and boxing, a lack of stride and rock like swimming convinced STINE that he was destined for better things. While not in sub-squad, Napoleon was supervising early morning activities in Smoke Hall. After restriction...Hi Tiffany, "so smooth". Thus begin the chronicles of MAC (daddy?)... starting off as a youngster on the streets of B'more looking for love in all the wrong places, when he wuzn't on 3-0 late at night "socializing" with the fellas. A string of T's, HU, the Ritz, Bentley's, Berlin, the Playground, Econolodge, "I'm the boy", "Camo hook me up", were all part of a quest to be like KWS & MAJB. SHORTY its been a trip rollin witcha over the years. PEACE...SLASH.GSR.III.MAJB.Camo.wes.

*Peter Michael Dougherty*

Pete came to the Academy from just south of the Arctic Circle and quickly earned the name Mungo for his 'bushy' good nature. His attitude endured and he was soon heard sounding off 'Fly Navy, sir.' True desire surfaced as he completed the last real pre-airborne and earned his gold wings. Smoke Hall soon became familiar, but the Triad couldn't keep us down forever. Second Class year brought the Sergeant Major, and the call to the Corps was sounded. Touring Europe led to the discovery of Europe's greatest treasures: the beer halls in Munich. Despite those questionable postcards from the backwoods of Maine, Pete was allowed to take over the company Firstie Year. Putting his Bulldog experiences to work, (except for that Poison Ivy thing) Pete led with a smile. Never afraid to dare, Pete skydived like a madman and scuba dived the Keys. It was quite an adventure living with Pete, but it will be a greater one to see what he does next. The Corps is yours. KNB

*Lesley John Fierst*

Les comes to the Academy from the great white northern town of New Prague, Minn. where everyone worships hockey, Pig's Eye Beer, and cow tipping. Les took on the rigors of Academy life full bore and finally made the coveted Supt's List after seven semesters. The "super squad" made plebe year fun and Les made himself known with his "Sirrrr!!!" 3/c year brought a 5000 rumble, two new roommates, and funtimes with the Dark Angel, Double Deuce, 2/c year, proved a good change from the heavenly halls of 7-4 and Les mastered the guitar within weeks of starting (just don't sing please!!). 1/c year brought more ax, more 'Jacks, more Metallica, more Lulu's, and more complaining from J.T. about everything. What I admire most about Les is his honesty, mathematical genius, and above all his love for drill (Not!!!). It's been a fun couple of years as your roommate, Les. You'll make a great NFO. God Bless, TDH.

From the Hills of Kentucky came our fellow youth, who still has no clue! You are off to the Mighty USMC, good Lord the Corps will never be the same, but I'm sure you will be. On to different subjects, the hunt! You put up with our "V" for so long I thought you would be like P.F.T. You conquered that one and didn't even tell, awww what a good wittle boy! He thought he would learn to fight, but you're still too slow son. Always remember 2 things: 1) you cannot beat a bullet, and 2) I will always be faster. You are destined for great things in life, but they'll probably make you infamous. Finally I leave you this my friend: Remember to violate the Prime Directive if it will help others to become better without interfering with normal evolution (For this you will get command) and forever more Live Long and Prosper. Don't forget me. E.R.B.

Gray, the SAPSTER, THE GREAT MAPLE THAT UPROOTS AND WALKS. Came from corn (and Air Force) country with visions of gridiron stardom. 30-some pounds lost that summer didn't help; knees forced early retirement--into the arms of a certain MIDWESTERN GIRL. Why're y'all looking at me? After that, the Sapster's world was filled with dances, trips to Indy, phone bills, bitnet and, well, X-week always seemed rough. He didn't want it any other way. Youngster year he saw THE WAY. OOM<USMC AIR--there's still TBS. Things didn't work out with #1 CHEERLEADER, at least not as planned, but he'll pull through. Anyhow, after 5 semesters I have a PhD in coun-selling, and a few words: RELAX!!! Oodreaters. Garth sucks, Hank doesn't. I'm still genetically superior. County Line. Baja. The 3 Wise Men and their Cousin from the South. U-rah. Take care of those knees. I harass you a lot, but it won't be the same w/o U.--MHB

*Terry Duane Hagen*  
*Stafford, New York*  
*Marine Corps*

Terry "The Shocker" Hagen hails from the small community of Stafford in Upstate NY. During plebe year, he became the 14th Co. artiste and dazzled the upperclass with his bulletin board masterpieces. After a hopeless battle with Statics and Calc III youngster year, "Oceaneasy" became his true calling. Terry finally lettered his final Rugby season after battling three years on the pitch that included many memorable weekend road trips. He also traveled the lands of Europe in his quest for the world's finest beer, and found it in the Munich Beer Halls. Firstie year, Terry led the Astronomy Club and properly broke in the new observatory across College Creek. Permanent Marine Corps fever quickly overcame him at Bulldog. His superb discipline and character will surely be an asset to the Marine Corps. LJF & PMD

Bruce arrived from Li'tlitz, PA, wearing his Leather Jacket, Boots, on his HOG with a blonde on the back (at least in his own mind). Survived Spike, Sparky, Stroud and his Super Squad. How'd he do 'dat? Spent a summer with the Gators and the Gyrenes. Gordo's Punisher's Scuba Instructor. Talk now think later. Youngster Company Commander. How'd that happen? Neptune joined Pluto's orbit second semester youngster year. Has been there since. "I'm still an engineer, \*#%@<@!!!" Got an HP to prove it. Detail Twice! How'd that happen? "Bruce don't let anyone in!" "OK." JB's faithful rottweiler. "Where are my tools?" "DUDE, gotta go to the I-ball." "DUDE, LST's are great, small crew, large state rooms, no weapons and diesels. I'll have my SWO pin in no time!" Master of the obvious and superflous. Remember: a pointy ship and a star to steer by that's all you need (and the HOG!). Good luck-JBB

*Jeffrey Thomas King  
Modesto, California

Jeff came to us from California, with enough prior schooling at Embry Riddle to validate most of plebe year. He brought with him enough California to strike us as a little odd at first (an impression that for many has remained through four years). An aero degree, a love of flying, and a 1,000,000+ candlepower desk lamp have taken JT exactly where he wanted to go--Pcola.(Supreme Allied Air Command Gecktor.) Jeff is easily the most sensitive of our company mob, a feature which never endeared him to the more radical elements in the company--but Jeff is also one of the few people with the personal courage to travel his own course despite popular opinion. Opposition has never slowed him down much. He finds his happiness in God, Cindy, Amy Grant, and OCF. Which is as it should be. Good luck, and don't forget the Grunts! --BPO & MHB

### *Nuclear Power - Submarines*

"Hey Plebe, stop the music!" seconds later, "What!?, you do not know who Public Enemy is?!!!" Those were the first sounds I heard about the man from Virginia with the "preetty eyes". Work was to be done. Supt's list first semester plebe year despite one stinky roommate and on really dumb one, Slash, with faithful Shannon by his side propelled into 3/c year. A new suave roommate and Lax to take him out of drill, Gash set his sights on nuke power after a late night revaluation looking at a pay chart. "The bonus money will cover the engagement ring, huh Nash." Complete with the newly invented Nash two-step, and Shannon's permission of course, the Slash was ready to go out and tempt the women. Trips to UVa trying to hook up calssmates and many nights sweating brings Slash to firstie year. After adding the wiggle to the patented two step he's ready for grad school, investing and marriage?? Toad entered the Happiness Factory at a slim 150 lbs. but a nearly crippling ankle injury in a b-ball game started him on the road to Girthdom, only now has he returned to his prior NBA caliber. 3/C year showed his criminal instincts, for his famous "Simpson Fry." Budha was here to stay. Xmas-thank for the sweater, meet the curb. Stein would've been proud of Spring Break: Pushing the Brown Bug was good exercise, but for future reference call Magic Mountain in advance and PULL the fuel release lever. Thank "Ben Dover" for thinking of me and my grades. 2/C year, he and many others saw the last dinosaur, humparackasaurus. Once again in Smoke Hall, is that a "Black N" you're wearing? The road to Girthdom, now a major interstate. 1/C summer spent mostly at San Diego, and Baltimore. Will you work the O's game? 1/C year, Plebe Year II, try to be helpful, and you're doin' the "Shuffle" again! Best of Luck! DWB

*Bryan Patrick O'Leary  
Barrington, Rhode Island  
Marine Corps Pilot*

The RI Civil Air Patrol did us no favors upon giving us Bryan, unaffectionately known as either "Larry" or "The Plug." Plebe Summer left us with the fond memories of the cry (literally) "I wanna be a Marine, Sir!" Sob, sob. And also of the wimper "I'm in pain, Sir." Youngster year brought us "The Kiss" and the start of the Lottery. (The "prize" going to the "winner", a semester of nightly moaning and intolerable annoyances.) 2/C year brought two more lotteries. His working relations were at an all-time high. Ring Dance with Sgt. Major's daughter. 1/C brought the election, and with President Clinton's pledge to allow other groups into the military, there was hope that someday Bryan could come out of the closet. Bryan, we'll miss you quite a lot, free entertainment is hard to come by. 22

Forsaking his deep blue heritage, Jason decided to become an officer. They sent him to Newport first so they could chip off the layers of encrusted salt, but his it just wouldn't go away. From across the Yard, you could recognize him. Either his unique turtle-shuffle or his hair waving to you would give him away every time. Being everyone's project didn't help his academic progress, but he eventually made it through a very tough plebe year. After three years in slavery to the System department, firstie year brought design projects, headaches, and many sleepless nights. It also brought Key West, Scuba Diving, and long road trips. You're being brain-washed by that stupid book! Let's Go to IHOP, TM, KK said she's going. --TM. & KK. Could you please turn the radio down...and get the light too. Good luck in the fleet. God Bless. ---JTK.

"There I was in a silver P-38 with black and yellow invasion stripes..." I-Day saw the entrance of a unique individual, devoted to the cold war and Ronald Reagan. Plebe Summer included Rich, Mike and the RI Civil Air Patrol. "Nice frames and newspaper." "Sir, do you mean the mod1 or mod2." Viper and good grades(?) were to follow. 3/C year brought the mech-E dept., falling grades, and RI Encounter II, "Dude, is he moaning?" That spring, the "woman hater" found love in Detroit and at the Sea Wall. 2/C class year meant "EE" and unsat. The "steel sphincter" trained the plebes with colorful metaphors and impatience for weakness. He washed shoes at his favorite mid hangout, Fran's. Leading by example 1/C year, he showed a thing or two to the Command Chaplain about Bungus. John, Hand-Brake off, then DRIVE! Hey BATWING, the Red Light is lit! May a waiver come, and with it a Trident. Good Luck! DWB & JCR

*Jeremy Christopher Rich

Beaker, Sweat, Meat-Grinder came to us from Germany, France, Cali, Maryland- just where the hell did he come from? He started off Plebe summer with Slug and ended with Kingdong. Like his role model, R.S. he became a marine engineer. Summer Cruise he got his "sub quals"(sock incl.) 3/C year he lost the lottery and showered with bathing suit on. Spring Break brought love; where did Xerses III go? Jeremy received a Purple Heart for having his leg blown off in boxing. After flooding 7th wing, Jeremy moved on to 2nd wing. 2/C highlights include more gectering in Rickover, Mosh Pit Safety Officer at Metallica, male bonding at Camden Yards Ring Dance night. 1/C year meant bubble dosimetry, the Flight of the Batwing, and Batt commander (sparing his old roommate from THE CD COLLECTION, esp. Grateful Dead). Enjoy the long hair at Berkley before you join the Silent Service. Good Luck. JTK & DWB

Rubes came to Canoe U. from the beautiful Northwest, longing for the East Coast. He fell in love with country music and may just be the biggest redneck north of the Mason-Dixon line. He gave Rugby a try but had to quit after becoming an honorary graduate of the BMW driving school. On the weekends, Mike's favorite pastime involved road trips; ECU, NYC, WKU, Rehoboth Beach, and Charleston. Mike always had a great time, and left broken hearts. The words of Rubel will ring in our ears forever: "No, she's not bad looking", "Don't worry, I'll get us out of DC", and "Let's make a nice Italian dinner...." Mike has been a great roommate and friend. Many of our good times simply can't be printed. Many of us left good friends behind in the hall, but some have left very good friends behind...right Mike! Thanks for the memories. PS. Are you Eskimo...Indian...Hawaiian? Good luck in Pearl Harbor. WMM and VRJ

You've gone from "Don't bilge classmate." from K.K. to a married aviator. How did all this happen? I still don't know how you got a girl like that to - well marry now- go out with you. Miracles never cease! Slinky you've got more stories than Carter has peanuts, but they're always good for a laugh. I can't believe it's all gone. Here are the only marriage tips you will get that are right (if you think I'm wrong, ask the MRS.) 1) She is always right! Except when you know you're right and just don't feel like fighting. 2) Never forget important dates (cause when you do it will be the only time she remembers) and 3) Never go to bed angry! (Making up is 90% of the fun.) Always remember, you're smart but take time to listen, it will make you smarter. Be good to others cause we're all over and we'll find out and you'll never live it down. E.R.B.

FARNELL- the good ol' "G-rated" boy from San Mateo. "Stop! or I'll shoot!" "Y'all are YHHHANKHEHHHs!" Remember: you ditched her. Rescued RAM from the world. 0400, "I'm just cleaning up my mess." "Don't worry, it's got a way of fixin' itself." Gene loses. "SWet Floor" in front of our room gave us away. "You need to get a haircut!" Lima Whiskey? N.Arch. extraordinaire. Doc W's favorite. Doc Z to PFT: "This is a hull." "I hate this major! I should have gone bull." Ring dance date? No problem. She's cool. She's cute. But, "what's her name?" JB's academic command minion. Went to Alaska alone- -Hmmm? Charlie Charlie? "Did you go to church?" "Did y'all set forth and see-in?" Co. Fuhrer. Had JB as command minion. "Where's First Platoon?" *Jason David Wartell

Nuclear Power - Submarines*

Jason, known affectionately as "the Beast", came from Florida as the Ron Jon kid. College, then enlisted life bored the "old man", so USNA seemed fun. He astounded everyone with his professional knowledge by impersonating a CH-46 plebe summer. Then fate dealt him a cruel hand by placing him under the leadership of Varney and Rouchelou(no pen, no Easter). Plebe year ended by doing the Smoke Hall Shuffle with his drinking buddy, Uncle Rich. Jason is the smartest person never to wear Supe stars (they're for nerds anyway). Don't worry, buddy, I liked your Trident project. He gave into rugby, then gave up smoking, but neither shaved much time off his 1.5 mile run. Thinning hair never kept Beast dateless (almost.) He changed his name from Alderman so he could join Columbia House twice, but only confused the plebes. Anything you do is golden. May you never be looked upon with a jaundice eye! -VRJ

When people look at Clay, they automatically think Nuclear Navy. That's where he came to us from, and with some great cadences. The record holder for the most roommates, he managed to run off two of the only three people who liked him. Tempers flared in volleyball and football; "You'd better have your head on a swivel!!" And who drank that bottle of Gin? An extraordinary sailor, he made the varsity offshore team as a firstie after losing a fight with a Hobie. From HI to Baham to KW; from skydiving to scuba diving (springing!). \$10 spent on books youngster year; cheesesteaks and ice cream always in the fridge; the hottest date at Ring Dance...hands down!!!; booze cruise (how potent were YOU? And who put your swimsuit on?); Jimmy Buffett concerts; Watauga Lake; Mike's Crab House; impeccable credit line; and enough about the d\_\_\_ Cowboys!!! MAJD

Shakka Z appeared on the scene with a thick accent and what he thought was an understanding of American humor. He was wrong. But with the help of this fine institution, he was molded into a person ready to seize command in the vast Malaysian Fleet, although it took about forty extra pounds of clay. Through the four years here, Al has come to know about as many people as Sarah, if that's humanly possible, and seen as much of the world as possible through MAC. Anyway, Al came to know us especially well, being our chauffeur and all. He never really seemed to understand the whole thing since even as a firstie, Ramadhan Dan, found himself asleep at the wheel one night at the Lunker Lodge, just outside the metropolis of Faceville, GA. Al, your time is up and you're headed back to Malaysia, where ever that is, so remember that "stroke" is not a standard conning command and you'll do fine. -JBP, JWM

*Michelle Marie Brett*

*Alexandria, Virginia*

*General Unrestricted Line*

Brett! You are one hard core lady-from plebe summer cookie crumbs to Bulldog in the hot summer sun, you proved you are tough as nails. Once called "Leather&Lace", your other side was shown in that every man in the brigade was in love w/you. But you only had room in your heart for Mark! Plebe year gave you your only 4k and led to an eventual 1/2k. Youngster cruise almost made you a swo-mamma, but the plastic bags always tied to your side changed your mind. Youngster year tanning almost got us in trouble again, so we turned to fake-baking to avoid the spectators. The geek in you really came out 2/C year, and you weren't w/o stars since. You picked up residence at the Villemez's as soon as they got back from Guam (what else would we do on Wed. nights?). Though originally from S. America, the hick in you was just waiting to come out-Garth and two-stepping. We'll miss you, girlfriend! LLV & SAD

*Damian Holland Bridges

*Nuclear Power - Submarines*

We first met Damian sneaking Bit'o Honeys in the Summer. His flights to hippie college brought "You guys are plebes?" Never guessed "The Cadre" would crush Airborne, ooh rah. Never guessed the incident with the park bench, "watch" out. "Dave" sends thanks for "The Great CD Caper," LT Satan may have other ideas. Super "star"? The End of Smoke party was great. "Nando's" girlfriend remembers. Good thing those Annapolis lights turn green at the right times. ("Bridges," Sliide "Present") making Tracks. Skeen can always clothespin his robes out to dry. Motocross mania. Never thought you'd cut weight again, you start chucking people around the Judo room. How quick did you get that brown belt, Grasshopper? The Z has always given you the speed rush- linear or rotational. Keep on the ground, Killer D. Deep summer '92 primed you for Bulldog night in Balt. Remember, you loved it here. No bottlecaps off the conning tower. JEL, RXP.

This "real sailor" came to us from San Diego via BOOST, but it didn't take long to see the shy kid from the Big Apple (or Mexico, we don't know which). Eventually, though, the bubble burst. Since then the "easy lover" has enjoyed the company many rich women. Nights at sunny Baja have taught him how to hold his own; but VA, FL, and the wall showed him up. Service Selection was no surprise. What else could a super locked-on history major choose? It may say history on his diploma, but we all know that he majored in rack. Since Plebe Year we went through many roommates, but no others could take the heat. You've been a good friend and I wish you the best of luck. Hope you get to drive a REAL tank someday. -PEACE, JWM

Without Sarah as the crewbas fearless leader and my bestest friend, the team would be sol and I'd be miserable! You're the best pair partner and I'll never forget the fun/trouble we've had: racing, tailgators, OC, VaBch, Lilly's Easter Party, Philly, & Ga., trans.bar, Rumpelintins & more Rumpelintins, that hazy-glazed over look you sometimes get-but I'll always take care of you. You're the Queen C, prez of the NGA club (NOT!) and a great friend-just try not to fly like you drive! Love KMB Our everpresent smile and friend, plebe year was never dull w/ your continuous chatter and gossip. The first words out of your mouth "Four years together by the bay, girls!" You never lost that happy outlook! The only person who can lock her keys in a running car, keep smiling after forgetting about the tp in her sock, and name every man in the brigade. Famous for your walkins and counting calories, 23 wont forget you! Love, L & C.

Book, Snooka, Pig Pen, Preacher, Perry, Midstore, Fugly the list continues. You arrived from the Vacation State (?) "yeah right" with an all American record but a history of 10 milkshake headaches. From the outset he sweated it all and except for a few doubts plebe year did so for four years. We relinquish the late night title to you so "go to bed and put away all those old letters and newspapers." With all the gourmet dinners at his sponsors house he didn't have much time for dancing but he always left a little room for a nice Irish coffee. It took until 2/c year for him to realize that he really was "just lucky to live with" us both. 1/c year saw him move to 4-1 as a 5 striper Richard and win him his ball and chain. He'll do a FANTASTIC job at grad school. GET CRAZY, DUDE! The South Pole hopes you enjoy your wedded bliss and produce a whole troop of Boy Scouts. Biggy and Goody

Fanny went from T Co's head dandelion to MS&JR's favorite project plebe year. W-polo managing kept him busy and medical got to know him from top to bottom! 3/C year came and went without major event, if you don't count his significant other. She and his w-polo N(M) sweater kept him happy because he didn't have to wear a hat on Fridays. 2/C year brought the 4-man room, more shoes to curb his snoring, and plenty of people to answer those early morning phone calls from Germany. SB wasn't backyard dacquiris this time, it was Europe for the weekend. 1/C Pumpkin-head saw a new boat and more "poly-sci labs." Since the Spanish Navy was not an option cuz he didn't have a cousin or uncle there, Juan service selected "the best wardroom in the fleet." I've enjoyed building our "swo-guts" together. At least one of us will use his. Enjoy the fleet and life ahead you've got a lot to look forward to! KJS

Greenpeace was dropped off at the Academy with a worried, timid look on his face and with luggage in hand, but first impressions can be wrong. My roommate soon excelled in virtually everything he did- boxing, academics, and racking. Rewarded finally as a firstie with the prestigious billet of Brigade Intramural Officer. Known for his great, short-lived passions and extravagant tastes, the pseudo liberal eco warrior enjoyed torturing his roommie with too much country music. That's okay, we know he was equally tormented by the woman he initially loved and by the woman that eventually loved him, unfortunately she was not the same woman. Greenpeace, the honorary member of 27th company, changed service selection like most people changed underwear, but that's okay too because we all know Chris, not Marcus, will be the next H. Ross Perot (only, 'Peace will be richer). You have been the best of friends-CAC

*Wayne Douglas Gunther*

Wayne came to us from Minneapolis by way of Orlando and Idaho via the Nuke Power Program. He once told me, "Don't let me go back under any circumstances." Well, Service selection has come and gone and Wayne said no. Grandpa Wayne is not your typical mid. Hooked from day one, Wayne met the doc and his life was changed forever. Using the condo as a base of operation, Wayne persued the good life. From fine dining in Washington, to hunting wild turkey in Southern Georgia for spring break, Wayne has done it all. Wayne has been like a brother to me, and at times he needed a brother. From gently reminding him that he had had enough and it's time to move on, to wrestling in the hall late at night (I won), we had some great times together. Well Top Gunther, it looks like after four years I'm having to move out-, but don't worry, just keep on being your same old grumpy self and you'll do fine. -JBP

The Darkhorse FINISHED the race? NOBODY knows how or why, but stranger things have happened. The Philosopher/Sailor hails from exciting landlocked Atlanta (he knows EVERY street's history). 3/C year found him an adopted son of Surfing Seventeen, roaming the halls with his ever present "Coke" & parrothead attitude. Montana, his pro snowboarding start. Sharkin' Hartman (Buddy's & Shooter's). Some of his roommates actually graduated (Bad influence on Tom?!?). No one's ever put more effort into being laid back. Gettysburg-"I'm doin' good, huh?" 2/C spring break? Eternal D.D. of the "Big Blue Battle Wagon"--Cisco, Mad Dog, Rolling Rock, etc (just be wary of psychos and trees). Waffle House--"I don't need a menu." "R.E.M. might show up."--GA trip. The King of Cheese, instant friend to any waitress or street bum. Who needs a cue? Great friend & roomie. TSR & THE FELLAS.

Matt "Machine Gun" Kelly taught himself how to erg then row to become one of the longest established bowmen of LWT history, first in the "Father Christmas" crew, through his Quickah phase, and finally with "front wheel drive" always across the line first. When not at Hubbard you can find him sleeping fully clothed on top of his covers, at his table in the SW corner of Nimitz, or working on the latest in cox boxes. Though never lacking a date, through his Wm&Mary contacts, his "pasted on hair", "cute guy"-ness, or John Denver serenading, he's had no keepers: someday he'll "just know" and be someone's little Marine but he's been too scared of women who are, "just...you know..." For now, he'll focus on his peer pressured career choice after succumbing to the call of the pancakes at LAJURNE. And he'll always remember quick catches with bowman rate ups made the SRC 4 go fast. What can be said of this toe-jammin, Ho-Jo lovin', Bruce Springsteen rockin' guy who breaks a bottle with Curran and ends up paying for his sins by serving enough time in Smoke Hall to earn a letter sweater and star? It seems everyone associated with the 'Little Caesar's Pizza Man,' most of whom are now residing in other states, had a talk w/the Dant. Have you ever seen Fred Flinstone drive a moped into a wall? Having mastered sailing, surfing & reciting poetry to young girls, Jim moved on to become one with his wardrobe. Maybe you've seen him as the "electric cowboy" at Gator's. Hoffa also mastered the guitar and jammed on the drums at the talent show (fortunately never realizing his voice potential). Bronta loves the color blonde & wrestling on banana/beer covered floors. In fact Father Landis once administered a Franto's bouncer his last rites on the sidewalk. Fair winds & following seas. See ya in Orlando.DHB/RXP

Jim came to the Boat School an normal, upstanding, scholarly individual from the heart of America. Well, at least the heart of America part is right. To call Jim normal would be far to harsh an insult. No one will ever accuse Jim of taking life too seriously. From his earliest days at USNA, Jim saw nothing but a hazy grey future. Youngster year unleashed the real Jim: flaming airplanes, flying cookies, and the Batty-Do memorial giveaway. After a little too much fun, only the glorious USS Annapolis could save Jim, and it was General Sci or Die. Realizing it was better to give than receive, Jim tried Detail, twice. Then there was Jim the artist, the mighty Philo McGiffen and "I hope this won't explode". After two LSD trips, he was convinced the Gator Navy was the place for him. Thanks for putting up with my all-nighters and keeping life from getting to serious. See you at The Big Tree with a stoggie. DCN

Jeff (Noodle) came to us from Boost knowing it all, although he had more hair when he got here than when he left. Plebe year brought with it the beginning of unsatness and the rumors of girlfriends with four digit phone numbers. The girlfriends came and went but the unsatness remained. Now Jeff finds himself faced with the knowledge that "2.0 and go" is more than a saying; it's a way of life. Jeff led a pretty boring life here at USNA, until returning from Christmas firstie year. Since then Jeff has gone from watching Star trek to living it. Hopefully, Jeff will soon change channels back to the Batman Network. However, don't forget that 90210 is Wednesday night. Well, Jeff by some freak act of nature you got something with weapons at surface selection and are off to sunny Charleston to meet the mighty steam cruiser USS Bainbridge. This super-stud from Syracuse came with hopes of being a SEAL, but a few grades, a marathon, and a couple of fries later he was left cold and wet. Getting used to being a SWO daddy, he mastered Tetris and joined 23rd Co's chapter of Weight Watchers. 1/C year brought two new roommates and left him with less liberty than Plebe year, although he didn't get as many demerits as 2/C year..."I hate stupidity!", but "my hat loves me."-Peace

Doug came to USNA a right-wing, single, sailing, SWO striking, spokesman for Craftsman tools. After the glorious commissioning of the USS Annapolis, Batty Doo's send-off, a close call with Weird Al, guns, Philo McGiffen, the grenade, a new face, the Marine Corps?, he is still a right-wing, single, sailing, SWO striking, spokesman for Craftsman tools. I've never met someone with a wider knowledge of everything in the universe than Doug. He can fix your shower while telling you the history of the 24 foot motor whale boat. Even though his social life consisted of Mc Dee's and Robert's guns, a night of Black Russians was never out of question. The Aegis community needs to prepare itself for the first four month qualifier and Newport women watch out. Doug, you were an understanding selfless roomy and there for the good and bad, thanks for the support and always being there. JPL.

The "Little One" came to USNA right off the boat. He escaped the wretched life of selling Coke bottles in Saigon after being literally rescued at sea by the US Navy. Since then he has devoted his life to serving the fine institution, or at least it was the story he used to get through Plebe year (A "dear Thaison" from LH didn't help.) After an uneventful 3/c year, he often spent hours on the road with his Hyundai horse to see Ada (The New Significant Other) that is, until a certain Doug Wahl helped out with the driving. Navy Air was his first love, but the legs never grew. So, armed with a GPA almost as low as his height in feet, he opted to go SWO. Four years at USNA brought semi proficiency to Thai-Son's English, but he never quite caught on to western humor. Ooh! Good luck "Euge," and if you ever have trouble finding a job with that poli-sci degree, stop by my cleaners. I'll hook you up! BO

AJ squared away N was dropped on Mother B's doorstep direct from the outskirts of Detroit with a naive understanding of what was to come. He survived plebe year easily including the split from R and J and the fire of Andy McMarlin. Youngster year breezed on by with trips to the rack NLT 2300. Second class year saw the "instruction" of detail "Duh, Sir; I'm writing my Congressman" and the trip with "Goody" to the Venezuelan sunshine, nice amber hair! Boy he looked dapper at New Years(see above). Biggy, Goody, and Just Lucky to Live With Us lived at the company chokepoint with Antoine as training. Blue and Gold: Today you were better plebes, we give you a D! There was aviation cruise, the cottage trip and Company Commander came next. After teaching herself English, she longed for a way to repay her new country for her resplendent newfound freedom. She opted for military service and thus, arrived at USNA. Strong desire and unparalleled perseverance enabled Katie to overcome more than her share of adversity. It was always the little things in life that were precious to Katie. Fueled by her foreign culture, Katie's pure and innocent disposition is unlike any that most of us have ever encountered. A fateful day at the airport and the subsequent taxi ride changed Katie's life forever. From that moment on, Katie's life has been filled with the enchanting, the exciting and the absurd. Bo, (aka Buddha) came to Canoe U from the land of rice paddies and conical hats via Silver Spring, Md. Good bye, Saigon. Plebe year: Sheet posters, Airborne. Bo got "Hang-ed." It wasn't a pretty sight! But soon, he was singing "Someone at NYU loves me." Then "I won't share you." Tough times did pass, 3/C year Bo majored in Mech-E, Tracks-in DC, and Sidney. 2/C year, the rice cooker became fully active-"Kim Chee and soy sauce rule." "Bo \*\*\* is on line, satisfaction guaranteed." 1/C year, graduation was the major, too cool for Navy Air, Bo went Sub\$, save the bonus for the wedding, eh Bo? How many kids did you say you'd have? Good luck at Nuke School and hope you get the "boomer" you want. May all your dreams come true, even the one of the dry cleaner. Thanks for "Four years together by the bay," brother? Didn't see your satellite room plebe summer but sure got to know you. Batson would have bounced on his head if you had gotten him out the window anyway. You've always been an intense character, how many plebes pull all-nighters twice a week? Youngster year it pretty much fell into place. Crew, Mech E, pro-stud, no sleep. Live by, die by. Put your money, or shut up. You lived every fly second. Skeen helped leave the wake up tape, no wonder you took his underwear. Too bad we couldn't all do Hawaii. Second class year you lead the "coup room" to great military things but you continued to "punish" yourself with frequent all-nighters. "All Plebes must die." Mud wrestling & keg to sink pre-A/N game. San Diego was too short, too bad we couldn't all do Mazatlan. Thanks for teaching us all to marathon drive and drag Marlboros. The '76 road hog lives. Yes, Colonels love eggs and bacon. You're from Louisiana? Where's your accent? "I watched a lot TV as a child" was the response. You brought your middle name and Maq to us from the La School for geniuses. During plebe summer you impressed everyone by "telling us what you know." You still do that in the form of violent debate. You're original dream was to drill holes in the ocean on board SSBN's but a certain significant other changed your mind even if you don't think so. There are no subs in NYC are there? But at least you still make it all go, with slight detours thru Lynchberg and 969 Breakwater. You're the dirtiest wrestler I know, and you have a habit of spilling a lot of beer when it only costs a quarter. You are one heck of a fly fisherman, but you have to quit sneaking out w/o telling anyone. 4 yrs have been great and you're my best friend. I only wish we could go on together, but alas we can't. Longwood, Florida  
Special Operations

After two years of civilian college, USNA was a culture shock for us both. You still had SOME partying left in your system, though. 21st birthday parties, Chi Chi's, Ft. Lee pool party for four? Suffering 2 summers of Army schools: 2 hrs for lunch. Out by 3:30. 3 workouts a day. JMPT's. Chin strap upside down! Still the biggest over-achiever / sweat I know. O'Laughlins? Yet there's no one I would trust more or be prouder to call a friend. Spec Ops will never be the same, dce The biggest sweat out of the five of us- staying up after TAPS plebe summer to wax the floor. Her hard work was awarded with four stripes 1st semester. Bessie can survive boyfriends who won't quit, jumping out airplanes, fighting people off under water, yet still can recite Shakespeare from memory and sing her heart out in the gospel choir. Beth will surely be the first of us to make flag. GL! MMB, LLV, SAD

*Gregory Alan Sakryd*  
Orlando, Florida  
Naval Pilot

Little is known about Greg. other than that he was a quiet and seldom seen. Originally from Orlando, Florida, his father's military career forced him to abandon his warm weathered home and move to Charleston, South Carolina. Bored with the deep South and stuck in a dead end, low paying job, Greg enlisted in the Navy and moved back to Orlando. Prior to reporting for Boot Camp (NTC Orlando), he attended UCF, majoring in Beer. With fond memories of college and a 10 minute brief on the Naval Academy, our hero quickly reserved his luxurious room on the Severn. During his stay, he has seen ALL of his roommates invited to academic pep talks with the Superintendent (some of whom were even invited to attend other institutions). C'YA.

*Kevin Jay Stroud*  
Danbury, Connecticut  
Civil Engineer Corps

K.J. came to us from the "hat capital of the world," gracing the company with his boisterous personality and his musical wisdom. Plebe year he shared many a cigar story and after a few months was no longer a member of the 3% Club. He managed to stay away from much of the heat by joining the incredible D&B and had a special week at Disney. Third Class year he had an incredible homecoming that kept haunting him. He participated in some wild trips to Catholic as well as numerous trips with D.B. In his on going quest for stripes, 2/C year he was named to the post of battalion commander. He enjoyed the job but one day had to much fun on a night out in town with CAC and was demoted. Things improved and he eventually met D and landed a striper position in D.B. His desire to fly met with reality and now he finds himself with his true calling, to be a Sea Bee. Good Luck and JBP won the SWO gut!-JAF

Little Lill, We knew you were tough from the start when, as a sandblower you had to run twice as much as the rest of us and kept up! What a time we had with our Dirt Devil these four years and it all started that hot summer day. XC & Track kept you sane while your family was in Guam. Savage and Mark, God-sends, helped you too. But they didn't keep you out of trouble - Frank's sponsors and room tours forever! Youngster year just continued the fun-YP cruise (puking in the bags), hanging out at Wes's, cleaning to the B-52's, jumping off the tower (which you wouldn't do 2/C year!), and laying out on Macdonough (trouble again). Once your family moved to Severna Park, we all had a 2nd home, and Wed. became a ritual 1/c year. Our fav boyfriends Rich & Tony kept us laughing thru it all. Lillipusch, good luck in the JAGCORPS, have a wonderful life w/Wes, and always remember you are the best roommate we've ever had!SADMMB

*Matthew Roy Blunt

The Bluntster (JFK wanna-be) learned early that Fig Newtons and Kool Aid aren't really "discrepancies." B-Dog easily edged out Pops on roommate selection night, being the Good Baptist that he was...we all know what happened to that, along with the \$100 he lost to Zulu! Ended Plebe Year at the playground via Dockside. "Do you like coffee? mangoes? You're cool!" Remember the girl with the unusual hours at the Rose Festival? What did you do youngster year? Idiot squad. Did they ever go to a lecture? Worst tape-off casualty ever. A Double E natural. Gettysburg. "7...is that your lucky number?" Ring Dance in New York City. Set a YP on fire trying to cook burgers. "I'll take Presidents for \$1000. Alex." Wayne and Garth's disciple. "What's a sphincter?" Good luck tracking down the teacher from Lulu's! Alone again on spring break. Taco Bell & movies. Great friend & roomie! THE FELLAS.

*Richard Stefan Whiteley  
Ridgefield, Connecticut  
Navy Pilot*

Richy Rich. The Limey oppressor, has been kicked out of almost every country on the planet and was lucky enough to finally end up in Ridgefield. A year at Farragut taught you the finer points of hazing and harassment, and you brought those skills with you to make being a detailer exciting. Plebe year brought us together then split us apart so you could beat up on Batty-Do. After a brief brush with the conduct system and the 4K, Plebe year ended with a pale, log-rolling. Youngster year led to the formation of the South Pole, and long battles about Antarctica. The Trip to South America and "Kiss me my Love" was nonstop laughs. You then became the W magnet after rides in the BM. After mixed-up intros at Ring Dance, 1/C summer heard the battle cry of "Come on boy!" These four years have been unforgettable, and the singing and late night story comparisons will continue in P-Cola! Biggy.

*Michael Louis Burd*

Burdman came to Canoe U from a hick town in Kentucky with a promising basketball future. Pipe is where it went from there. He rode the 3 year rollercoaster with Pee-Wee. Closing in on school scoring records, B-man was cut short by Pee-Wee II. Basketball was not brother B's only love. He is the only man who could go out with a 6-pack and come back with "12 in him." Junior year brought the drinking spot and many back road trips. Isn't it "strange" that senior year brought creditors knocking on the door? The phone bill is due bi-annually, right? Fatty will never be forgotten or his "strange" ways. When we meet again bring your own t-shirts and socks cause we're leaving ours at home. MAK(REXX), MMM(Sweaty)

The lizard comes to us from a)South Carolina b)France c)Oklahoma d)Cali e)you choose. Man of many tall tales, traits and experiences. Plebe year with Mr tight and domer. Take a shower and get rid of that clock!! "Meester Doobs"-Yahya. "I got a 70ft air, dude." Who did you live with 3/C year? A proud member of the idiot squad. A picture safari? "Your summer was 5 months long, Phil?" LCOL Blice. Never yelled at by below an O-5. "Don't call me Devil Dog...sir." Ever not been kicked out of class? Fred Davis (your mentor). "She's a model, she digs me." How did you get \$18000? Only serious cover war casualty. So where's this girl in France? "That was French, what'd he say, Phil?" "Sure, its an Si"-good buy, at least you have a license. Forever a "lost boy." Nice foul weather/snow-boarding gear. Dishwashing at the Dude Ranch. Pseudo-friends. A great friend & roomie, THE FELLAS.

*James Douglas Collier*  
Clovis, New Mexico

Douglas Q. Collier, The Drill Stud, came to the dreaded east coast from Clovis, only ten miles from the Texas border. The Lost Boy's motivation came in real handy plebe summer, "Let's go help our classmates make hospital corners!" Plebe year, he became Company Commander and gave us some great advice - "Okay classmates, let's all start using our first names with each other. Any questions? ... Tolson?" Juan Valdez was seldom very far from his never-washed coffee mug or his tools. "You mean 'Ya ta hey' really means something?!" Nobody can pick a bone prof quite like Macho, but if it weren't for bad luck, he'd have no luck at all. I wonder if Mr. Lavender will ever ask you his question? Don't forget, black socks don't go with shorts, and "Mead's fine bread." You're not a great basketball player, but you're family. I wish you and my cousin all the best. Good luck Cuz and remember - Divers do it deeper! JKKJ

*Nicholas James Fiore*  
Westfield, New Jersey  
Navy Pilot

Knowing Nick Fiore is comparable to knowing Norm on "Cheers." Funny but true, Nick knew every member of the brigade. His easy going personality coupled with his great sense of humor kept everyone laughing during some pretty trying times...ironic since behind closed doors he fretted every little paper, project, or test. Sarcasm was his specialty; we never really knew if he liked us until a few weeks ago. (just kidding!) Nick had few faults, but we managed to find them: an '84 Buick, a sizeable fixture in the middle of his face, and unmentionable ??? growing on his back. He laughed with us about all of these, except the hair on his back. (oops!) Seriously though, Nick taught us many things about life and we are much better for having lived with him. Good luck in your future endeavors, but don't lose sleep if you can't decide what those future endeavors are! RJS, PJT

*Michael William Fivas

The mountain man from Cow's Bell, Montana, got off to an early start in the "condemned room." Two in the room with a view. "Stalag-down," the green bench, and terrestrial rig - "Strike 1, 2, 3 YOU'RE OUT!" And Boober always was! Bouck and Bourassa. Need I say more? IPP's... Yeah, baby! Daily duty at Station SWO - Whoopee! Don't forget John Wayne Jones - the Duke, or our BUD, the Good-boy: want fries with that? A change of scenery was welcomed (all too soon...) Enter Dark-Wing Duck, your favorite superhero! Precomms put you in the back seat. 1/c year brought the beast east - high speed, low drag, 5 ALIVE! and computerized visual entertainment. You left-side drivin', rubber-burning, slurpee-meister! You're dangerous. And it's off to Pensacola...the best of luck to you. Wear your goat with pride; you earned it. Here's to Four Years Together By The Bay. Rock!

*Daniel Eugene Greene

Arriving at USNA via limousine, "Meatball" was quick to discover the difference between Zen and the military. East coast sucks! Chips and salsa after taps, same squad as "70-plus", "devil-eyes" the ultimate wrestler? Couscous care packages, Belinda Carlisle "a friend of yours?" Cancun, grueling youngster cruise, will he ever make it home? Who can skip the most classes? Photo-mania, love letters written in crayon, tag-team wrestling, "make love, not war (censored)", T-bird under the table at the Dining Out, Halloween, drinking "sprite" en route to Army-Navy. When are you going to break up with Laura? Dragonslaying in Jamaica. Einstein in the Burg. What afternoon classes? Insta-party tailgaters, road trip to Georgia, Gazelle the herbivore from Baltimore, Pat Benatar, SAY what?, "Dan, is that you?" Male bonding at the Colorado dude ranch. A great friend and roomie, THE FELLAS.

*Jeffrey Keith Krause, Jr.  
Allentown, Pennsylvania

Jeff "L" Krause the 27th, Mr. D&B, Mickey Krause, The Happy Plebe who always had cookies from home. The Omniscient One always had a stapler "WITH MANY STAPLES" or an answer to any obscure question that would normally take an almanac or encyclopedia. Jeff's bright, teathy smile and happy-go-lucky "Hi Guys!" could cheer up the most grumpy victim of the Dark Ages or annoy even the Pope. Chemistry was his only pothole as the obnoxious brainchild History major cruised right through his studies. Remember the Cel Nav test and kidnapping Omar? Over the crowd at football games, you always heard him, the lively D&B Super-Star "Screaming Sop." Crossing over to The Dark Side just before the Ring Dance, Jeff found true happiness in his now- Fiancee, Vee. Jeff, you're a great friend, a lousy basketball player, and soon to be Cousin-in-Law. Best of Luck, Cuz. JDC

Krackowitz, Krawchick (i.e. Goody), Krafchick (ala Rachwald), came to USNA, but spent the next 4 years applying to Duke. Kir perfected invisibility as a plebe except for that squad fry which caught Yahya's eye. She managed to spend 2 semesters and a summer with her favorite Middle Eastern mid (NOT!). Her summer perked up on YPs thanks to Chef Smitty. 3/C year she followed her heart from ESE to FPS, despite her 3.0 QPR. Friday nights at Jeri's will be a fond memory (HA!). After experiencing an FFG-7, she KNEW SWO was out! Detail was also fun with the D-yynamic D-u-o. 2/C Ring Dance brought butterflies that never went away. Kir always took the best trips: Jamaica, Europe, and most recently the one that earned her the title of SKY GODDESS! Remember? Inspirational letters from Mom, smoking cigars, Calc 2 in 1 night. Good Luck in Key West (What a 2am decision!) We love you! AL & MO

*Michael Alan Kuhn*

*Medical Corps*

Kuhn Dog Rexx, as he is known by his better friends, came from the pasture of Pennsylvania with girlriend in hand. Dog expanded the minds and social lives of Fatpo and Sweaty by introducing them to Hood(or at least one dorm). After being expelled from that institution of higher learning and ending his love life there, K.D. concentrated on a high schooler from the heartland (PA). Next came the Tennessee connection, many random numbers, and a spoiled nerd from Hopkins. Dog's luck changed on firsty cruise when he got a 2 for 1 good deal in Charleston (that's when he became brothers with B-man; he was already cousins with Lil M). With sights set on Med School at Bethesda, he found his wife, a little woman in Maryland with a pet goat(at least Sweaty saw it). Graduation brings Kuhner (as he is called by his E-town acquaintance) a promising career, but with the bottle of Dom, he must part! MMM (Sweaty) MLB(Burdman)

She called her roommate "rich girl", but soon became the Bank of Lewis leaving \$1100 in her drawer. She still owes a care pkg for that 1 time (NOT) she left the locker open. 4/C year brought a new challenge "The Roommate from Hell." She sought refuge in NATS (an addiction beyond words). She was the yellow rose of TEXAS (a very early bloom), luckily, Lord Byron stepped in. 2/C year had her hot on the trail of plebes, but she soon found a new track. She showed persistence (8 mos. of EI) in the quest of a certain hurdler. Six mos. 'til engagement, huh?. That sure was a nice dress and shoes for Labor Day wknd, but he "forgot" the ring! Her roommates wanted to strangle her for never studying, but by 1/C year the wizards and fairies sprinkled some Supt's list dust on her (Hope that book gets published some day). Two months after serv. selection, Andrea was billicless. We heard McDonald's colocates. ALL THE BEST! KK, MO, MM

Sweaty left the fraternity life at Memphis State to join the brotherhood. Plebe year brought success on the basketball team and a company commander position. As a team, Sweaty and Rexx took on youngster year, Dr. Campbell, and Hood College. How often can one boast making the top ten list. (Ironic) With ambitions of a career as a Navy pilot and Top Gun crushed, Lil M started a three year journey towards NPQ and countless visits to Ortho. Second class year started out with the 21st at the cellar and trips to Baltimore's finer establishments. Being an Economics major, Brother M quickly found 101 ways to turn a quick buck and then spend it just as quickly. After being voted as Steerage's Most Valued Customer, he decided to become a frequent flier on the Memphis Express. With Hoopilator in hand, Sweaty single handedly raised nearly 100 G's for his company mates. ETL.VC forever! When we met again, you better bring the Dom. MAK, MLB

*Maria Sesaria Marina McMillen*

*Craig, Colorado*

*Marine Corps*

Ree-er, Capt. Forehead, Marushka--Maria found plebe summer was a breeze (it could have been her classmates fanning her during an SIP). She was stuck with a MisConception that made 4/C year exciting to say the least: midnight mag readings, all calls (with SWO), no Herndon night (but what a night before!). She was fried twice: for fun at her Squad Dining out, and for not waxing her deck (sp?). Waxing the back of her neck soon followed (ouch!). 3/C year brought time on Sesame St., but she soon decided Hospital Pt. was a better locale (with a Flintstone). Maria was never at a loss for admirers, but the Beast turned her off to cyclists, and she opted to change sports to Squash (she's still trying to beat The Boy). If she gets dissed anymore, she might get violent: Spring Break '93, etc...Where was it he lived in DC? Best Hair At Bulldog Award! She was always loyal friend. Good Luck with USMC! ALL & SS

Smilin' comes to us from the jarhead state of Virginia and returns as one. Plebe year brought two new roommates and junior year took them away. How many drunken cribs can one man take and still wake up? Senior year started as C.B. tried to diss his buddy Birdman. How much does it cost to purchase a phone number? Ed is an individual with a unique way of reading palms: he burns them. With claims to a share of the drinkin' spot, he has vowed to uphold the pounding tradition. If a career in the Corp does not work, Ed has plans for the sport of barroom brawling. Within a few years, someone will figure out what that "hot, flashy sportscar really is." Maybe someday, Fatty will pay him some attention. With stereo and D.J. equipment in hand, Smilin' will depart into the jungles of the unknown. When our paths cross again, make sure it is not in Atlantic City. MAK

*Brian Roland Perry*  
Fullerton, California  
Navy Pilot

It's been a rough four years, but Brian survived with his Salty Dog zeal for the Navy intact. Listening to his family tell of BP being reprimanded for reading submarine books in the 3rd grade lets you know that USNA was inevitable. A bonafide Lee Greenwood Proud to be an American late-comer to country music from Fullerton, CA endowed with the zest of a ten year old on Christmas morning, Brian has been a good no-nonsense friend. Youngster year almost got him Ac-xed, but didn't slow him down. Like all problems BP tackled it head-on. Living by the motto "Nothing is above my paygrade," BP had more contact with the Sup and Dant than most of Smoke Hall. I've been blessed to have you as a roommate. See you in P'cola. M.A.T.

*Jon Crosby Perryman*

The frog comes to us from Maui via Springfield. The youngest plebe in history and the original surfer-snowboarder-haoli. JP spent plebe summer/year with sweaty and the general's son. "I'm gonna throw you out the window, Todd!" Singin' Hotel California. "Perryman, brush your teeth!"-Grover. Youngster year with domer and domer. Missed 150 classes easy (combined). Montana-"you're tooooo young son" Is he Redskin or Redneck? The original BAD dresser, positive change by firstie. The drive from hell to CO with the Pfife-man and einstein. "What road are we on?" Livin with Slaughter-dog. Nice closet!-"got a bean burrito?" Millions spent on TACO HELL. Turned 21 and finally hit puberty firstie year. Eleven phone-calls with the bigot--longest relationship. What happened to Maha-la-wanni-ka-eha? Bonding in the Dude Ranch. Paula's health? A great friend and roomie, THE FELLAS.

Mighty Mo, Modell, and dubbed Pokey--despite her unnerving efficiency. Her roommates now have high blood pressure, but we know in 20 years she'll still know how many black socks were issued. Mo's most traumatic experience 4/C summer was when her toy dog hung from the rafters during a room formal. She was known for her inspection clean showers (3.55 to 3.35?)...except for those Jolly Ranchers! She taught her roommate Calc 2 in 1 night (the tears worked!). Playing with globes? We knew she had to be a geek! 3.6? GEESH! 3/C year, Mo spent alot of time on the catwalk, but there's no tanning after taps. "Maureen, Maureen, the YP Queen"...sound familiar? Though Mo swore she wouldn't say "Yes" 'til after 26MAY93, she wore more than one ring to Ring Dance. 1/C stripier duties included tounag 9th wing regularly. 21 going on 40, enjoy life in the Navy, Dr. Farrell! The self-proclaimed 'Chosen One' has managed to maintain the Brigade's most unique personality. Sometimes considered a radical, a person with no scruples, or just a confused nut, who cares? It's all relative. Edd led the way in the search for knowledge about our race and ourselves. "Knowledge is power!" One day, he'll eventually answer certain questions that inquiring minds want to know. Will you stop looking for love in all the wrong countries? Was that kiss on her doorstep worth the five hundred dollar ticket we got thirty minutes later? (I'm glad you drove!). The guy with two pink body parts was born to be a Marine, but somehow Ships and Aircraft and its black and white pictures won him over. Thank you, Mr. Polmar! Ed will be a capable mariner and more. Santa Claus landed in sweat city to have a good time. Before the fun starts let's have some blood, wake up Werner. Stalag down, Stalag down, you want MORE? Plebe summer is over, time to refocus, what a misConception! Enter Bouck, what a Sense of Honor, two year old kid. Class of what, say it again! 93 minute chow calls. Beat Army! For a good time head for the Cool Ranch. Let's not forget marriage. Plebe year is over and we're ready for good times with the Goodboy, our Bud. Got your finger caught in a mouse trap? Melody is gone. Fun times in Arizona. We're heading to 24th company to be flammers. The plebes learn that where there's a Smoking Rock there's fire. Here's pie in your face. MUTINY. The former prom queen came to us from Jersey with a nack for hairstyling (her true calling). She spent the next 4 years defending NJ, BHD, and guidos. USNA taught her a few things like how to dust & that there were no frat parties. The Taylor made plebe finally stopped sweating at Herndon. 3/C year saw Paul exit and the Paul II infatuation began. She got a new knee, and made the mate go get her Chinese food at gate #3. She gave herself car and civvies privelges (even if she did hide under the car seat.) She never got caught but **WORRIED** incessively anyway. 2/C year brought a REdiscovery of crew, an obsessive football player and a 21st b-day. With her ticket to Crabtown she redefined nightlife, found a 'civilian' but was shocked to discover a complete turn-off. Has she found love at last with a jarhead? or is he merely a check on the varsity sport list. LETS PLAY THE GLAD GAME! GOOD LUCK! MSM

Little minsucky came to us fresh off the boat from the big Seoul via Mee-lah-wah-kay. Weighing in at just over a buck-o-five (wet and with his golf clubs and beach towels), perhaps the smallest man in history. "Domer" spent plebe summer in bed. "Ahhh, have you got the sniffles?" Plebe year spent with a lizard and the most uptight plebe in history. Moved in with the West-coast "cool" connection youngster year. Did they ever go to a single lecture? "Doo, lemme sleep foh nother howah!!!" Missed 150 classes/semester combined. Wrestling with meatball. "Get that \$\$\$@\*\* Korean music outta here!" Loudest typer in Bancroft. God or Buddha? Billions and billions spent on Street Fighter--"doo, let me get a dollar!" "Hot and cold as crazy" Finally spent time with his whitey friends in the dude ranch. Gonna marry the "Terd". "The Great Sibala" came to us unable to speak English (at least when answering rates.) Plebe year roomed with JFK and Zulu. Always a freak at the splashdowns. King Hall connection--thanks to Jerry. First President of Dockside/playground club. Cisco versus Mad-dog, what a choice. Always changing rich girlfriends. Escaped summer cruise multiple times. Pre-lunch shuffle soap. Ultimate nerf basketball player--75% win record! 1480 LINES--Greatest TETRIS player to ever walk the earth--"who will challenge him? No man for he is the Great Sibala"--Georgia trip. "I forgot what she looks like!" Slave wars. Cover war combatant preparing for his dictatorship. Pie fights. Red shirt club. Stole herbivore from Dan at Baja's. Always com-fort-able. A great friend and roomie--THE FELLAS.

*James Carroll Slaight*  
*Fairfax, Virginia*  
*Naval Flight Officer*

Straight from the Underground, Jim spent most of his time in the rack plebe summer with pneumonia. Sure, "Skate", we know how it is! But he'd never "skate" as mate, right? After Jim was rid of his phoney British accent and we started to understand what he was saying, he instantly won many friends. Luckily some of us never had to live with the jinx (only 5 out his 9 roommates remain). Jim ran the full gambit in academics, from Plebe year's axe board trip to the tarnished star (Dean's list) 2/c year. Speaking of tarnished, we all laughed when Jim bleached his hair Muppet-orange. Airborne?! "Where's that 2/C drill officer?" "Nice care package, cool magazine..." Road trips to the rockin' little town of Athens to see his little Buckeye. Slaight-dog's SHO, aka the "Beemer-eater". What Batt DAPA?? If "Clean" can navigate a plane like that car, the Navy better watch out. JCP, RJS, PJT

*Richard James Sullivan*  
*Superior, Nebraska*  
*Naval Flight Officer*

In dire need of a 3rd roommate, we gambled on the quiet guy from NE. Rick started plebe year with late night discussions of bathroom wall literature, a pumpkin pie in the face, and too many lip smackin' honey-glazed donuts. Teasing Rick for his shyness was too easy. Thus, our search for Sully's single flaw began. It was difficult to find fault with his impeccable body since he has never had a zit or body hair (maybe you'll hit puberty in P-cola). He does have small feet though, and you know what they say! Come to think of it, he's got a puny chest too. Thank goodness he made it to 2/c year during which his many sporting injuries made the precom wall of fame. We sometimes laugh at his idleness, but Rick has taught us how to enjoy the little things in life (no pun intended). What started out as a gamble has ended in 4 years of friendship. Good luck friend! Coming to us from the land Down Under, Matty the intellectual had a great concern for the Navy's future but little for the pro sport circuit. The year flew by and ended with a Herndon Overnighter restricted to 7-2. Was the night before worth it? How far did the taxi take us, 2 Blocks? 3/c year brought the DC scene too bad the fat chick didn't work out. 2/c year Matt did a stint in the Army along the banks of the Hudson. The "crucifiction" began with a shaved head. After the Point USNA never looked so good. Ring Dance was a trying time for all. We soon learned the "true" definition of mutiny. (Hows it go again?) Despite being forgotten he eventually made it to the Baltics. 1/c accountability was moot "cuz" of Batt staff and VGEP. USNA soon become a pit stop on the way to Ohio at least until his unfortunate encounter with a Dump Truck. Weds at Griffins.. A friend to the end. Fair winds and following seas. MM, BRP

Jeffrey Isaac Barr  
Newark, New Jersey  
Naval Flight Officer

"Good morning sunshine!" JB came to us from Newark, NJ and he's damn proud of it. The five year plan sent him to NAPS and many memorable nights at The Copa. JB's brother Rob, Class of '91, passed away Plebe year. He was ready to punch, but we're glad he didn't. "Nelson" or was it "(Skid)Mark" pedaled his way on to the USNA Cycling team. Would you believe the Youngster year Aqua-Rock ended up making it through Pre-Mini-BUDS. The switch from Aero to Oceanography more than doubled his grades, going from a 1.4 as a Youngster to a 3.72 and Supt's List his Firstie year. JB, aka, "The Parking Czar", was responsible for the infamous Annapolis Parking Scandal which got us 20 & 20 for Usurping and the Mayor... well, he got off easy. Don't forget the bowling parties on restriction. JB's ideal: If man could live on banana pudding and milk alone. MPJ

James Richard Boss  
San Jose, California  
Surface Warfare

Jim "BUTT-CHIN" Boss came from the sheltered town of San Jose, California. MKL asked, "If you quit, can I have your printer?" Now that's classmate loyalty...but I mean, really, BOSSMAN betting...and losing the whole rooms arses? When plebe year ended, he thought, "O.K., nowhere to go but up. Ahhh... Electrical Engineering, yeah that's the ticket", great idea ...WHAT-EVER! One of Burns' boys, he became one of the two muppets who sit and criticize constantly....EE mainly. A great sports fan, he never once worked out. "I wouldn't want to get so big that I couldn't move, besides, my muscles are already too strong for my body". With the aid of his blue magnet, Jim learned to sleep more than a three-toed sloth. The TIME survey stated that it is impossible to sleep as much as this man. All of this sleep led BOSSMAN to one single question: "If I have 20 hours and I sleep through half of it, will I have 10?" By the way--my stereo knob is way bigger than yours. LWK&MKL

Boystown's Mayor. One of the few children who ventured into the dark. La Chiquita para tu. This isn't the closet folks. Not that he didn't spend many occasions there (asleep), even as a first class. Forget not the hanger, the only casualty of the great war. Sand, surf, sand, PT and sand a summer to remember. His spring breaks could be described by wine, women, and song. O.K. I lied scratch the women part. He spent the rest of the year filling his chest with skeleton bones. Bozz ventured to little school by the river undecided, but senior year he found his true calling, donuts and coffee. As he heads off to the fleet we're all hoping he takes his eyesore car with him. As you watch the wave recede the shore and your hairline, when you feel sick, that slight tint of green that enters your complexion is just one step closer to being a frog. ALC

*Marc George Carlson  
Crystal Lake, Illinois  
Naval Flight Officer*

Marc, also known as "Walks with a limp", was undoubtedly the greatest rack master of all times. Need Marc? Look in the rack-he'll be there. "Don't forget to wake me up", except Marc never did. Marc originally intended on going nuke subs, but the flyboy syndrome hit and he subsequently obtained his "cool" jacket and chose NFO. Academics? No sweat, just sleep on it. What about the Piper Cub at 32000 ft? Outer Mongolian wombats-what was that noise they make? Maybe someday I'll yodel for you. Marc was also a great outdoorsman-What about wet sleeping bags and blueberry delight? A little 151 and Five Alive goes a long way. "I was only doing 68 MPH". Hey, cerveza mas fina, si, mucho cerveza. Did you ever kill that bug? I'm glad we found you before you died at McGarveys. Alley cat, Hardees, "feel my knee", "It's a floater", "Ford Bronco II, I'll buy it". Fly navy, backseater. TJM-Go SWO!

*Christopher James Cavanaugh  
Convoy, Ohio  
Nuclear Power - Submarines*

Chris came to us from the tiny town of Convoy with his dry wit and big ears. Plebe year introduced a new superhero: FINGERMAN. The 3rd law will strike fear in our minds forever, along with the teddy bear pictures of Chris and Kim but, grades saw a 4.0 and Going... Surviving Strengths and Co CDR. Chris streaked through youngster year without a scratch. (Still Going...) 2/C summer. High school girls & Ocean City...TNA's here. Halloween food fight. TNA's gone. Guido Mobile, Easter...2for1 ? You're a stud (Hee Haw)!! TNA's here...nope, gone. Choosing sides was tough! Short 32 or long 30? Need a Ring Dance date? No problem. Sleepy? You're not her type anyway. "The Cooker" tag-teamed on detail. (Still Going...) 1/C saw Thomas Hardy, dribble spots, getting dragged out of McGarvey's with nuke bonus in hand. "Attention to Orders!!" Good Luck at Berkeley or MIT or wherever. Go Nuke...Run Silent, Run Deep...JP RP EH KV

*Seri Chumchuen  
Bangkok, Thailand  
Thai Navy*

Seri "Bob" Chumchuen, a.k.a. Coconut Willy, Splinter, Chum-Chicken, Timber Thai, and Brickman, will be the first person from Thailand to graduate from the U.S. Naval Academy. His talents include: dirty dancing, soccer, football, b-ball, sword manual, computer games, and, of course, racking. Starting out as an Aero, he was forced to switch over to Mech-E since his Navy doesn't exactly have a huge carrier fleet. He managed to get by though, barely...(being on Supt's List every semester here). Words of wisdom to Seri "Bob's" future roommates: make sure you ask him to use his phone and **never** wake him up (especially if he's in the rack with "Frenchie"). Don't forget: knee-pads, Seahawks, three holes, steaks on the grill, Batt Champs, hydro-sliding, crabbing, "Eeek-eeek," Brandy, "watch your back I got a knife," and "da Chinese downhill." Fair winds and following seas. MGC

*Aaron Luke Crespin  
Denver, Colorado  
Marine Corps Pilot*

Aaron Crespin attitude child. He came from Denver without a clue about navy and the past four years really hasn't changed that. But now things are going to change, he's going corps where he'll fly high and complain constantly. Before he disappears into the wild blue yonder there are a few things he shouldn't forget. The plebe year pie, feeding the fish off the Eastport bridge, your good buddy the mayor and the form 2, the time you introduced your navy friends to your home town friends and almost got them shot, the amazing Crespin and your seagull buddy at BUDs, and who can forget your ring dance date. Well Padre that about sums up four years by the sea for you. Hopefully these haven't been your best of times but rather your worst. Figure it this way, your luck with girls can only improve, but that eight hours of sleep for aviators might not be enough. I wish you all the best of luck and God be with you. JPB.

*Brad Behring Davidson  
Zelienople, Pennsylvania  
Navy Pilot*

Brad left his sheltered little-house-on-the-prairie life to fulfill his dream of being a Navy pilot, and every woman's fantasy. Through dedication, hard work, and no small amount of self-induced stress, he has more than achieved the lofty goals he set for himself. Founder of the "Punching Bag" school for meeting women, Brad became a pseudo-Annapolitan by marriage to KP, earning a stool at McGarvey's with his name on it. Despite his domesticated nature, he still managed to get out and play Mr. Hyde occasionally. The infamous trip to Maryland, countless meals at Chili's, Swishers on the ledge, many nights in town, and an Eagle with three different rear windows all attest to his hidden barbaric nature. Brad, you will no doubt be a star in P-Cola, and eventually an exceptional aviator. I look forward to flying with you, and will especially enjoy habitually waxing your posterior. BAA

*Ruth Annette Dalton  
Cumming, Georgia  
General Unrestricted Line*

Our Southern Bell came to Plebe Summer with the idea that at the beginning of academic year we were recognized. The shock of the year long training really depressed her. Youngster year brought a couple of new loves into her life. The first was her squad leader, the next, lasting relationship was with sailing. Although for two year we all thought eventually it would be RADF. Second class year had Astro track and EE. Lonely days and nights debating if TDF was going to work out. First class aviation cruise finally decided that fate. NG, no go! Then back for the best and last year here. This new year again brought new found friends, but don't try to find my Roomie. She's out with what's his name. Then TTU. Deza-vu, Huh! Best of luck getting into Space Command. My roomie forever, SCM

*Eric James Hawn  
Phoenix, Arizona  
Navy Pilot*

Eric "Goldie" Hawn, came from the Andover Dark Horse '88 New Englands championship crew and was one of the original pinella twins (#2). A true lightweight, our "rail" had to move around in the shower to get wet. He was also a member of the "Father Christmas" crew and that same year attended the infamous "Kelly" dance with one of his own. During 2/C year (or before), E-Hawn volunteered for K.P. duty--a Russian interest which may last. Eric even survived cables despite hearing "No.. No, that's not right" on more than one occasion. Matching rings turned the pinella twins into the wonder twins. Despite 2 years on detail, he was the "nice guy." If asked to lend a hand, he was sure to reply "Hell, yah ". 1/C year, E became a valuable member of SRC. Currently involved in developing the cox-box of the future, Eric will be found in Craftsbury Vt. when not in the cockpit. MK CD KV CC

*Michael Proctor Joyner  
Costa Mesa, California  
Naval Flight Officer*

MJ came to us from the sunny west coast of Cali. MJ, "Mr.Organization", has a lot to offer our Naval Service. He is asystems major who should prosper. At the age of 22, MJ has already been through four cars, three of which will never run again. Goodthing this future aviator won't be in the pilot's seat. MJ's experiences as a mid include: beating Army in golf and being #1 on the team as a plebe, a fun filled 3/c cruise (how about those K-bars in Pearl!), becoming probably the only mid in history to have paid \$ to get on restriction just before his 21st bday (but we had some nice bowling parties in Bancroft), and going from the middle of the academic pack to making Supe's list 1/c year. Famous Navalsaying: "Sir the main course is BBQ Midshipman sandwiches. Sir!" MJ can be found enjoying the outdoors, on the phone with, writing to, driving to, or daydreaming about his girl. JIB

*Lucas Wayne Kerley  
Watertown, New York  
Surface Warfare*

We knew that Kerley was hopeless before we had even met him: "Where the ?#&% is Kerley?" Luke came to us from Watertown (Where they make water?), New York a very sheltered child...or so we thought. Plebe summer was a blur...mainly because, "Oh, Kerley, were those your glasses?" Learning to drill, "Kerley, say a cadence." "Sir, a cadence, sir." We didn't know what Luke was here for until, "But, sir, I run a 4.4 40." And then the lights came on, "Is it morning already?" Then there was youngster year: red-bellies, upper rack fights, and search parties. We never will know what motivated Luke to go EE... BOSSMAN? T he blind leading the blind? One of Burn's boys, Luke plans to emulate his lifestyle: ties, suspenders, and all. Brian, you can print it in the morning...just go to bed. And now the journey is ending...watch out for those trees that go bump in the night (but I was only going 30...Sure!) MKL&JPK&JRB

*John Patrick Killacky  
Downers Grove, Illinois*

*Surface Warfare*

J.P.'s four years by the bay have not been very boring: Plebe year saw John as a D & B blower, poly sci major, aero major, and air wanna be. Herndon party, J.M., that old flame burns bright. Youngster cruise, Nuc Subs(hoo-yah), salty sailing dog. Youngster year brought out the beater in John. Civilian select, She's the greatest...The mighty Tarzan took commissioning week by storm - waking up with the company commander. 2nd class year brought J.P.'s famous naval sayings, "Just take me out and shoot me", Mecl E., Marine Corps, NFO, Poly Sci (finally finished switching), bruised hips, still beating, falling in love with J.M. - AGAIN! Firstie cruise John took to the seas again and hit Bermuda by storm...Firstie year brought more famous naval sayings: "Why didn't you guys shoot me the first time?", "Where should we go tonight?" The voyages to Columbus, see the light? "One for dinner!! Texas looks great on a minesweeper, Go SWO...RP&CC

*Kelly Suzanne Kinsella  
Falls Church, Virginia

With swimming offers from other schools, Kelly (thank God) chose Navy! Plebe year brought Joe(the watch guard), unsat grades, and true love (NOT). Youngster year grades improved and REAL love was found! There he was in 10th company players-life was never the same. Kel, did you really want me to come get you? Rain or shine, there were always motor-cycle rides. 2/c year- Oh my God! Major Dilemma!-The company change! New problem was living with BC--Kel, I'm so proud of you! (Thanks, I've been waiting for your approval.) In a desperate attempt to alleviate the stripier headaches she decided to move in with a 3/C (female!) in Boys Town where Kelly proceeded to show her the ropes.-SoCo and dip? Capt. Kel spent her 1/c year swimming, something new! What you mean just because shes my sister doesn't count? Can you really study EE at Griffins? Yup. Good luck with flight and Los Love ya! MJ.SS.RW

*Dean Richard Kinsman  
Raleigh, North Carolina  
Naval Flight Officer*

Dean arrived from NAPS with the squadron ready to make their mark at the Academy. They may not all make it together but "lumpy" and his pals had a great time trying. Dino will be in the air eventually even with the 20/40000 vision he snuck through medical. Football didn't work but Rugby was a good substitute besides the parties were crazier. Each year brought something different, if it was the VW bus or Key West (both times) everything was fun even the old stand by-West Street with Duke. The hook has gotten Dean in and out of alot of trouble over the years and right now it looks like he just might win the race but it's not over yet. Well Dean doesn't leave much behind but he likes it that way besides if anyone ever gets their hands on the film or videotape over the years he might want to leave where ever he is as fast as he wants to leave the Academy. Best of luck Dean and take care.

*Chris Walter Lewis  
Florence, Alabama  
Naval Flight Officer*

Boots... Stetson...Quarter ton o' fun... What can you say? This rebel without a clue was actually a northern transplant. Hailing from the central plains of Ohio, he claimed to be the original Alabama Crimson Tide. Unfortunately, the only waves he caught were due to Hurricane Keri. He burst onto the track scene, but realized he was stretchin' things a little too far. Second class year saw a change to intramural sports and an increase in grades. In pursuit of the perpetual chit, he always reasoned out of physical conflict. After testing waters in other areas, he finally selected NFO. Hangin' out with Good-boy, trips to the Ram's Head were fun, but nothing beat a "cut session" with the trio... JPK, JLS, Wags P.S. Thanks for a great four years at the boat school - we'll always think of you when we hear a "Rebel Yell."

*Andrea Lindenberg  
Winter Park, Florida*

*Surface Warfare*

Andrea, your 1st love was volleyball w/the Wandas. MANGNA Wanda, you kept the team laughing (knee slappers) w/episodes like "pink" and Judy Tenuta jokes. You played left bench tackle when not on court. Don't forget those "cram sessions" at Steerage to eat uh, I mean study. But the crew in you won over all. From the undefeated champs under Latham and 2/c year w/ Marty and stroking the Vw/Laura (nice knees!). You could bench more and eat more than anybody on the team. We saw the Charles twice, but the best was the Bagel Row. Youngster year Peggy & Mara took you under their wing and wow what a party. 3/C Spring break beer for breakfast, lunch, and dinner how did you make the 1st boat? But 2/c year as BC, you were locked on Lindy. 1st female 4/C Reg.Cdr. you did awesome! You set the example, SWO Lindy (hungry is she) you will do great and go far in the fleet. I'm proud to call you my friend and teammate.SAD

*Matthew Kneeland Lobner  
Manhattan Beach, California  
Nuclear Power-Submarnies*

Matthew 'Super Genius' Lobner, the ideal midshipman? Anti-Mid is more like it. Who else could get away with so much, care so little, and do so well. To describe him in one word 'skate'. 4.0, varsity letter and a total of two stripes over two semesters first class year, go figure. The only EE major I know who would kill himself changing a light bulb. If it wasn't in a book it couldn't be done, at least not by Matt. He made up for the lack of common sense with ability. Non-chalantly deciding to change from varsity baseball to varsity volleyball. Maintaining a 4.0 while taking first class weekends every weekend, since youngster year, that he wasn't on duty or m.o. Having the desire, drive, physical prowess, and class rank to go SEALs, until his s.o. decided that it wasn't a good idea. Well, no doubt he will be the best at whatever he decides to do. She finally found the right roommate the end of her 3/c year-a southerner. Between gymnastics, Lucky Bag, and helping dumbbunnies with EE, it's amazing she still had 3.0's. After 2300 you couldn't find her because she was under her fuzzy blanket. Lets not forget the creatures in the night bothering her valuable sleeptime her 3/c year. Between her bears and dinosaurs, there was no more room on the rack. She was an Indiana Jones going to Detroit with Gene and risking getting shot at. A pilot she will be-only after sweating those pilot measurements -twice. Always remember-Beat the beep. RAD Stolen away during the seminar and a semester later, WE DID IT! Thank you. Their will always be a place in my heart that only you can hold! Don't ever forget that no matter how far we are, I love you. Now to new horizons and wings of gold. May ALL those dreams come true (maybe together) ERB.

*James Arthur McGrady*  
Hyannisport, Massachusetts  
Navy Pilot

There's entirely too much to say about this Mass\_\_\_\_. In his four years he has played every role from Rastro to The Mayan. He gave his best \$1.45 pitch to a cute, earringed (x9), teen softballer, but she K'd him en route to a perfect game (or was it a hat trick?) The bosak of his youth came and went and came again ... and again ... But we mustn't speak ill of her, for Jim esteems her tenfold higher than all other women - except for "Ma!" and the Virgin Mary. So I guess Wetz will always be number THREE on his list. His Key West kleptomania and his bike ride in Newport betray his abilities as a player far more than his accomPLECHEments on the rugby pitch. Rugby magazine will vouch for that - but they put him on the cover anyway. "Boys' Town" will always remember the fivehead and the case of Heffenreffer that could have been -if the race had ever ended. As always, "ONE FOR ALL AND ALL FOR McGRADY!!!" MJS

T. J. Mills, swodog from afar, came to us from the distant orient, stopping briefly at NAPS to nab a spirited girlfriend. As a plebe, the salty warrior outgunned his upperclass and drove the legendary D.D. to his knees. Youngster year brought new roommates, Frenchie and Splinter. Second class year he stowed his gear with D-Bear and "Walks with a Limp". Surviving that ordeal he graduated to firstie year, car insurance, and life without E.E. Four years of back breaking effort, stonewall stubbornness, and late night marathons earned him his first choice, the USS HEWITT. NWSD and now HNIC, not that the first no longer applies. Tom came to us from the land of peppermint patties and barbells. While visiting the zoomies he learned to sunburn as well as the purpose of a bat and the accelerator pedal. His taste in women is let's say varied if not pallid. From the psychotic to the neurotic, Tom found them (THICK). It must have been his Yugo or our VW bus. Hopefully, the up grade in transportation correlates with taste. His desire to fly has always been true, even when it came to volleyball, jumping ten feet in the air to call the ball. Innocent to the end, well almost to the end. His lack of conduct offenses were quickly compensated for with 60 days left. That , of course, was my fault too. (Thanks, Bill.) Best of luck in the air, hopefully you'll never use those airborne wings. Just think, you almost picked ground. BOOYAH!!! ALC

Mary Joe, the Air Force brat, left her cousins and wandered out of the back woods to come to Annapolis. Plebe summer brought all of reef points, "I would assume...", and 2nd set from hell. Sailing -who was that and where did those marks come from? 3/c year privileges started out with civvies, extended taps, beers, and cigs. The Easter Bunny brought the Century Club and video (did you see it yet?). Grad week: Fish Mkt, a white jeep, morning jogs (NOT). 2/c year: EE, JD, & MJ don't mix, but what about THE gate guards? YP's-the good first impression along with the Grand Marnier was flushed down the drain, while the donk made her bonkers. 1/c year MJ wandered back into the woods (have you seen my shoe?) and wondered how do these panty hose work! Warning: MJ & JD don't mix! Last, but not least, Key West: wine-time, beach, scuba and JOHNNY. Good luck in the AF. We love you! Remember us squids! SS, KK, KB, MM

Max already left before most of us even thought of service selection. VGEF was the way to go, click, click. Even at 180 lbs he still managed to make a top rate rugby player but he never did land the good looking chicks. Grady led him astray early and with no stripes possible, Max tried to enter the ranks of dirtball. After the "only one" he dabbled with a few including something very large from AU but then he found the 2nd only one - a dirt muncher. At last Max has found the 3rd only one who he lululus. The most important thing he left with was The Record - 48 seconds - hard to beat. A legit mark. S.B. '93 gading.gading.gading, walk it off Shudda - deep snow. For someone from Southern New Jersey, Dan turned out to be a pretty normal guy after all...well, almost. Always one for a good laugh, starting with Plebe Summer, and Dan laughing at himself in the wall mirror he held in front of him while we all tried to keep a straight face, "Ho! Ho! Ho!" Some great imitations, Al Minnick and Gunny Rosenfeld among others. Youngster year, road trips to Jersey and E-town to see his honey (she never had it better). And then those great stories. "I've been here 2½ years and I haven't learned a damned thing." After all that work with the Ring Dance cruise, we still drank the barge dry. Spring Break camping in the snow... "I'll never do this again." Wrestling, mountain biking, and surfing, but no snow skiing. A bruiser and a thinker (well, a bruiser at least). Let's go Marine, Here's to future years of friendship and fun! MR, HDB, SDS, GAW, KID.

*Clay Anthony Berardi  
Rochester, New York  
Marine Corps Pilot*

Clay has bucked the system and shown that graduating from high school isn't necessarily a prerequisite to college. Lucky and lacking underwear he was able to snatch a Marine Air billet. He thinks it is completely normal to sleep all day and stay up to 3am, whether he is in the Lucky Bag office or avoiding trees thrown into the room in the early hours of the morning. Memorable events: Suzy Q's, new uses for plebe socks, rock climbing, parking tickets, loss of driver's license, "I should be able to go at least 80 around this corner", Towson, cappuccino, cough syrup, refrigerator, no a TV and microwave would be overkill, funeral pants for Army-Navy, restless sleep, squeaky racks, climbing yellow planes, 'sleeping' in the men's head at 'The Last Dining Out', lacrosse (ball-magnet), and hockey games. Thanks for the four years and have fun with the short hair, YARCH!! - DMD

*Henry Daniel Brown  
Rockford, Tennessee  
Marine Corps*

Hank "Belligerent" Brown. That's the tone you set plebe summer. The letter didn't help much either. "Brown what are you?" M.G. sure had a way of making you feel positive. Chem was a real delight, with a capital "D". You demonstrated your Marine Corps stealth when you became the only plebe we know to be fried for dragging. Youngster year sent you off to see "her" every weekend, a trend that abruptly came to a halt firstie summer. During second class year "chastity" kept you in line and looking over your shoulder. Old R.T. didn't improve the situation. Firstie year brought the boat and the "Nazi". We know it was only your job. You changed (digressed) from pilot to Ooh Rah somewhere along the way. After a stint in the Corps its off to law school and Tennessee politics. Remember there are wild Russians in the mountains of South Carolina aching to be shot. SDS,DTB,WES,GAW,BFR

*Eric Thomas Bruns

Hoops claimed Cleveland as his home (why, we don't know...), but we always knew he was a KGB spy. Plebe year he sweated blood and the entire UCMJ for a monster named McCreary. Spent 3/C cruise with the CO's daughter in search of Fantasy Island (Bermuda). A white gi and a black belt kept us from killing him for effortless 4.0's. Reggae and dreams of Jamaican spring break ..the SI "Wall of Fame" ..drinking a beer worth 4 grand ..2/C year: marathon man? - ArE yOu CrAzY!?!? "Gnarly feet dude!" ..learning the ABC's of life (and death) ..talking to trees-- BAM!! --"Where am I? Who am I?" ..1/C year brought a cruise to the motherland...dinner with the CO, huh?.. ..Miss Ohio-"she's not bad." -WHAT?? ..headcheck! OK, your an NFO ..Cancun! We couldn't have asked for a better roommate and friend. See you in the sky! - JLS & Ziggy. P.S.-- Are you ever gonna set me up with your sister??

"The Rude Bwoy" straight off the boat from Ja. constantly enriched our lives with his dancehall reggae. AYAH! was Air Jamaica's cry down the middle of King Hall as he battled 1/c Byrd's enemies. "No ganja smokin' allowed!" As an Aero major, Camo soared like he was doing a flying back kick. We were just the men livin' with THE MAN! Only THE MAN can have no money, no clothes, no ride & still have constant companionship. Ziggy was never outdone when it came to the dating game. Why did U diss Michelle "my belle..."right before Ring Dance? Go figure?!? Only THE MAN can do that! Seven hours at N.D. and you threw it all away! Always the top dog, the Mr. Loverman held class for his 2 young pups; and every Sunday, another smiling face. You always had a friend in Heineken at the Carribean Club at Howard. Hope the civilian corps is not too rough. YOU ARE THE MAN! Love, peace and hairgrease--- GSR!!!, wes

*Steven Harlow DeMoss  
Austin, Texas

A story & lesson. It is 1976, USNA becomes a serious thought in the mind of 6 yr old Steve DeMoss. 13 years later this sensitive man enters C-7 on a quest into the darkness. He ends up with a girl who dips. Youngster year his devotion turns to the interests of the Brigade, a true performer. But, without warning, his love throws him to a different home. A friend invites him to play darts one evening. "No, they're good this way". He is changed. Second class year: 50's baby, 7 out & 100 on black, a new skill is aquired. Lost with a weak stomach in Pittsburgh while hunting piles, eating brownies not eggs. "This is America. We treat people with respect!" EE nearly sends us on the rampage. He enters firstie year with a STITCHED scratch on his lip from surfin' at Baja ("I had to. I'm vain"). At last he outdoes Vader, & has to beat them away. And through it all: Piles. JRE. DEW

*Ray Marvin Hendrix Jr.  
Pacifica, California  
Naval Flight Officer*

On his arrival at the School on the Severn from the foggy shores of northern California, Ray immediately was given the nickname Jimmy. Plebe year was tough but his secret (??) stash of tapes and the use of his walkman helped ease the transition. Youngster year found him with a new "friend" down the hall and the true reason for being issued a computer- computer games! With the move to 26, a new Jimmy appeared- the flaming man. Though he may have been a tough guy in the p-ways at first, this old bear became a "positive" leader in no time. Plebe detail was a true leadership challenge which challenged this leader. Firstie year brought libs every night and, unbelievably, stars at the same time. Weekends were spent in Springfield dancing the night away. Now he's off to go help those poor pilots fly in P-Cola. Wishing Ray friendly skies and following winds wherever he goes! SAH,RMH

The Chief came to USNA anxiously awaiting an opportunity to cultivate his first layer of salt; he was always finding ways to develop his sea legs. There was detail: "Go back to your spaces", and G.Q. alerts with "OBA's" Ah, and living with the Chief. The LM2500 computer and extra noisy reading habits. We redefined the proper use for an issued desk. In his last stand, Chief muscled a spot on the Brigade Training staff. Who says you have to be on the list to get an interview? Ne'er we forget, "Academics are not worth losing sleep over". The U.S.S. O'Brien has never seen his likes. Though he might have been happier at the helm of a wooden hull firing broadsides at the British, Jeff will do just as well as our modern-day Stephen Decatur. "Non Sibi Sed Patriae" -SKS. CAB

*Raymond Marciano II  
Cleveland, Ohio

"Rocky," sometimes endeared as "Cherry," came to USNA to become a Naval Aviator and to receive a degree in Electrical Engineering. He succeeded but met several pitfalls along the way. Some of you may have seen him around on his many days of restriction and months of lost leave earning his Black "N" star, but there is a good side to him. "Rocky" will help out anyone at anytime but please do not ask him to box. This talent seems to have been used up by another member of his family, and coming from "Little Italy," the Family is very important. However, after four years at USNA, Ray is still unable to tell anyone what his father does for a living. Once on vacation, Ray and his father were known as "Little Ray" and "Big Ray"-- Ray, what did happen to Mikey D. in order for you to get Spring Break?-- My only advice is to be nice to Ray and do not ask him to adjust your name tag. Our introduction to Bill during Plebe Summer was a bright faced kid with a strange Massachusetts accent whose pet hermit crab died when it was fed Fruit Loops. Since then we have discovered a few more facets of the man they call McKully. He is of Finnish heritage, but speaks Spanish fluently, grew up in New England, but thinks he is from the South, majored in Electrical Engineering, and is sold on the Marine Corps. At first glance, some people might think this is a confused individual. One need only to dig a little deeper to find someone who truly loves the Lord his God, someone who cares for his classmates, and someone who has dedicated himself to military service. He couldn't be further from confused. He will forever be a beacon for his classmates. Bill, you're a great friend, a most-excellent roommate, a true brother, and a terrible guitar player. - Steve (munapaa) Proverbs 18:24

*Charles Fredrick Megown*

Chuck is the kind of guy that everybody (CRESSA) likes. He would do anything for a friend (CRESSA). He would drive fourteen hours every weekend just to go bowling or to see a movie (with CRESSA). He would swim in the sub-freezing, jellyfish infested waters of the Severn in late January just to retrieve a soccer ball (that CRESSA gave him). He would even take up cross-stitchery (for CRESSA). The only people that don't like Chuck are Sam Adams, and anyone that has to deal with his smelly feet (except for CRESSA). But all these good deeds paid off for Chuck in the end, with the very last flight billet for the Class of '93. Now its time to hit the old FTS button and get out of here. Good luck to you and Cressa, we wish you the best. True Bra's. MDM. --GES, EMW, CDM, MDM, SKS

*Charles David Minifie  
Simsbury, Connecticut  
Marine Corps*

"Dave" was a quick-witted Young Republican from the rustic and idyllic town (or so he thinks) of SY-sbury. Call him C.D., Cid, Kak or many other names, but never "Chuck." Identity crisis continued as stealth-plebe acquired alias of Pinella #1 of LWT crew fame. "Is that sickly little thing your stroke?" But we sensed that this "rude dog" would become captain. Our Honors English major's ties with his SHS sweetheart gave rise to the "Minisy" shuttle USNA-U.Del 24-7. Name game escalated 2/c year as LWTs dubbed our loquacious cynic with the acronym to cover all: CCCSFXBTMP... Pinellas became the "Wonder Twins" with matching class rings. That all night pancake house at Camp Lejeune left our "little marine" with plenty of reason to stick with the green. Future looks bright for our young hero, especially if he stays quick at the catch and with SRC 4. EH MK KV.

The highlight of Mike's four years at the academy came early in plebe year, when he and his classmates discovered that his ego had attained stardom. This is quite an accomplishment for the former juvenile delinquent (we know the truth about the french toast, and so does mom). Youngster year, Mike learned a valuable lesson, at the expense of a dislocated thumb—even your own roommate will fight dirty when he's in a chokehold. 2/c year Mike used Ring Dance to show that brother's truly do share EVERYTHING! Then came 1/c year (or was it fourth class year?), who knows? When you never have a weekend, you might as well be a plebe. On the other hand, being a firstie is at least 1.95 times better. Now, Mike is off to the real world. Remember to respect your superiors. None of this "whatever, sir" business. Stay out of trouble. We will always be brothers! Red eyed Marky Mark with the Calvin look, MAARRRK was loved by PR scuba women. Abused by his brother (baseball bat and swimming lessons) Half Nelson SAILED thru Plebe Year and three more varsity LASER years. "It's not even a challenge anymore" T.O.Y.I.M. Wanted in three states for head butting vans, refrigerators, and bar fights in DE. "Am I fat?" Had many with T.K., none A.L. Mark's reputation as an All-American wrestler (when drunk) told everyone he had your back. Scuba, spec ops, Mech E (made it but doesn't understand major as well as BJ.) On duty mechanic. Minny Mouse waitress, under O'Laughlins (Wed night special on 21st). Midnight swims with Jeff (racquetball/drinking partner), N Orleans, Key West Video. Late nights in Dalghren with L and comforter. Weekends without sunlight. Mark's future holds a LONG career in Navy Air, Spec Ops., or CIVLANTFLT. Thanks mom, flood insurance.-- THE FELLAS

My 2 earliest memories of Mike from Plebe Summer are that he came from Mechanicsville, VA and after painting anchors on his forearms, he was referred to as "Popeye" by some, "Swee" Pea" by others. Our third year saw him spending his time in the wardroom and the tatoo parlor - who was that girl you took to the Ring Dance, anyway? He returned Firstie Year with a different hair color and a new hairstyle. The remainder of the year saw him frequenting the local pubs until he met his "true love" and began spending time with her. Throughout all four years, however, two things remained constant - his ability to "count sheep" and his distaste for cleaning the room. Academics were no sweat until things got a little hot under the collar around Service Selection. Best of luck to a true friend and thanks for all the good times. By the way, we both need more dance lessons! RMII

Max, Robosmack, or Maxcellerator-anything but Bruce. Chemo-Kid made quite an impression Plebe Summer after Parents Weekend when he and his parents were mistaken for the family from Aledo. You must look like the Parcheezi type. Then there was that motivational flat top from Mr. Hastey to make him look like the wet-rat type. Robinskin?? Max can usually be found "desking", which helped him miss plenty of mandatory evolutions and earn 4/c privileges 1/c year. He's either wired or in a near death sleep. Not to mention his sunny, teeth-bearing disposition at the end of every EE test. Max didn't let service selection interfere with his sleep either- "wake up, they just called your name on the radio!". His endless quest for excitement took him freefalling, surfing, and boogieing into the night. How many middle names did you get that night? Whether accelerating atoms or taking her deep, good luck. G-money hails from the great mistake of Texas. Being from 5th Ward, Dark Gable's best friends were the Geto Boys. 1/C Byrd plebe summer: "I ain't no damn drunk!" said Crown Royal. Nappy Ned the Wino: We knew "Goldenrod" would leave his mark on the Brigade and Worden Field, just like the one he left plebe summer. After breezing through plebe year, GSRIII went against conventional wisdom, majoring in EE. 21st Bday in downtown "Dena, she couldn't dance so she got the BOOT! Lip trick. Study with BJ,MTP,DJ. 150's + Stick'em = catch = Letter. In his pursuit for excellence, and that perfect woman ("a LADY with 304-like qualities"). *Sasan Kevin Sabet*  
Dale City, Virginia  
Marine Corps

Sasha arrived at USNA with his smokey the bear hat and his USMC Officer's Guide. Plebe Summer went smoothly for him. "Babbet" had all the Laws of the Navy memorized by I-day, so he was able to excel in all of the plebe geek rate competitions. He also got away with things, like eating cherry cheese-cake after taps. At least he took his Code of Conduct seriously: "What is your major malfunction, butt-head?" Two summers later, with his Gilbert inspired megaphone, he was a terror to all plebes. He even got so stressed out that he was forced to take the day off before he killed some-one. 2/C year, MIDN Rear Admiral Upper Half Sabet carried quite a load. Things seemed to get better when the love of his life called. Too bad she was married, Sash. But you didn't need her, since your new love is 95 times better. Good luck in the Corps, drill stud, and stay away from the Jaegermeister! Your eternal roomies --CFM, GES, BFR

*Glen Edward Sabin*  
Clemson, South Carolina  
Nuclear Power - Submarines

Glen made two discoveries on coming to USNA: store-bought shoes and prolonged conversation. Stealth said about 15 words during plebe summer and 10 of them were "Yes Sir!". What is roast beef Aw Juss? Then plebe year and our favorite nasal 2/c: "Sa-a-bin!" Youngster year was pretty uneventful, but 2/c year came in with a bang. We never would have PEG-ged Glen as such a lady's man. Then 1/c year, after spending his nuke bonus, he showed to which service his heart truly lay by taking to the drill field and leading a platoon through platoon drill comp. The only mid to come out of the nuke interview unscathed, Glen should be back for his own Submarine Hero's Reception. But we all know his outlook on probability: Good luck in the future Glen. Your best friends for life. CFM, SKS, BFR.

"Not-So" Smart crept up here from the foothills of South Carolina. To the uninitiated, he comes across as just another Clark Kent, but we have seen the devil within and know that he's "swamp-wise" Until recently "Not-So" would have rather been hiding from the humane society after his 37 cat killing spree or going on one of his infamous drunk & destruction nights than doing the average Mid thing. You gave J. Reagan a nice wake-up call on YP's. Try to find the head next time. But thanks to the "Nazi" & "Baldi" his re-socialization has begun. He even goes to the Gap now, but won't admit it. Though he may be caught flirting at Furman, or doing keg stands, he'd rather be blending fish, brooming mice, riding the high seas in the "Nymph", or making Casey go on the carpet. Squirrels Beware, he needs meat for jerky. Happy Easter, just leave it in the Sunday School room. "You can lead a horse to water, but you can't make him drink" HDB, DTB, KID, GAW, BFR.

"Friends are friends forever if the Lord's the Lord of them." And as the Lord wills, I pray that I will be able to keep friendship with Stephen as close as it was here at the Academy. In spite of his seemingly easygoing California attitude, Spragueness has done his Navy family proud. Not content to be a one-striper, he proceeded to assume the job of a three-striper, after the unfortunate conduct demise of one of his plebs. "Boy, Bill. If I fried you I could be Brigade Sub-Commander by now..." Now he has found his place in Navy Air, even though he seems to forget that he lost his cookies three times (once in a helo!) at P-cola. Speaking of cookies, how about his grandma's great oatmeal raisins? OCF at USNA is going to miss a true brother and servant in the Lord, someone who truly exemplifies what is to be a disciple. God bless you Steve. You have taught us so much. James 3:17,18 - Bill

Still-born (Sausagehead) hailed from where? in Illinois, with what he was sure was the love of his life (strike 1). The ultimate airdale-wannabe led several assaults on West Point and even flew the Phantom. 1 porta-potty, 2 USMC Marathon times and 12 grand of now obsolete regs blemished Jon's record. This homeboy was the founder and acting president of the LGA until he found wheels. Always good with the gift of gab, except for the five and ten minute calls and menus. Where's your rack now? 4ever sleeping because he had it like that as a polisci major. Wes was a demon on the court; "I Got Skillz!". One day he'll get a handle on the rock; until then, just pass it off. He drove stick like Mario Andretti's grandma but still managed to run into a few people in Florida. Woody came to us from Corning, N.Y., you know- the place where they make the dishes. His high school had 10000 people (or was that his mother's?), so coming to USNA took some getting used to. Plebe year, Woody made a name for himself with his Woody logic: "Robots are stealing my luggage" he would say. He had a tendency to over-exaggerate just a little, though we all believe that the rats in Addison are as big as dogs. On occasion, Woody would even under-exaggerate to help his cause. How many cupcakes did you really eat Woody? We all took it easy on Woody (Not!) because he had recently lost his girl AND REALLY was upset. It's OK, though, because now he is hooked on the love of his life. Woody will always be a simple guy. He will never be one of RC's boys or president. At least not the president of IBM, but we still love him. Good luck Woody, and always check the chalk dust. Your best friends CFM, MDM, CDM.

Nuclear Power - Submarines*

Q-man descended on us from the metropolis of camden- also known as "the town with no women". Sliding into d&b (drum & bender corps) early, he escaped drill until firstie year. A model student, bri cruised along in the top 200 for all four years. Exam periods were tense for his roommates, heaven only knew his reaction if one of his exams might fall into the dreaded "mid 80's". Well rounded, bri's youngster room should have been made the sample room for tourists. He's also mr. Outdoors- being a fine snow and water skier as well as hiker. After a brief fascination with nfo bri found his calling with the nucs. The only problem facing him now is weather the 688's reactor will put out enough power to allow him to run his omnipotent quattro spreadsheets. Firstie year has seen bri powering around in his black beast- his only lapse in fiscal conservatism. No matter, he'll be a millionaire by 40. Good luck. -Bpr

*James Brett Blanton  
Alexandria, Virginia  
Navy Pilot*

Quite a unique individual, is Brett. Captain of the Diving Team, aeronautical engineer, stellar performer; he is all this and much, much more. Quick with a joke or a fantastic story, Brett was always on his toes. Though he was never seen on the weekends, he was never without wine, women, or song. Short on relationships but long on confidence, the current squeeze better hang on tightly. However, she has outlasted many whom have preceded her. We'll see just how long. To the first of the triumvirate to wed, his pocket will be \$100 lighter. Might as well write the check out now, Brett. To know Brett is to befriend him, to date him is to worship him, to have to live with him is a fate only the eternally damned should have to suffer. Only kidding there compadre. We have all benefitted from the experience. Never succumb to the system. - TP

*Todd Robert Arneson  
Youngstown, Ohio  
Surface Warfare*

Todd arrived at USNA with his last reg haircut on 1 day. After a year of Pixies, Quigs still won't admit to liking them. Shaving 3 times a day must be rotten, just remember plastic surgery can fix that fence scar. Go SWO! SPQ.CEH Four years at group 3, Todd was convinced in the bull, should have been a Johnny; hair, sandals, music. He could always be counted on for the quick and dirty on Billy Shakespeare's rambling. The colonel tried with no avail. DAP Todd's firstie year was full of beads, incense, and the psychedelic 60's. He had an affinity for granola, Rocks, Middleton's, and long hair, "I liked everything about him." He tripped on Beat poetry, protected the environment, and baked in the Soul Kitchen. He loved being mistaken for a civilian. Todd always said, "I got hair on my chest, I look good without a shirt." and "You must try some of my purple berries...probably keep us both alive." WAGE PEACE! PMR

*Christopher Lee Clark*  
*Page, Arizona*  
*Marine Corps*

Teddy bear came to the U.S. Naval institute of technology riding the rapids all the way from the grand canyon state. His starting was rough but soon found excellence through dedication and hard work. Undecided in what sport he wanted to dominate (he went out for six club and varsity sports in all), he became a fervent competitor on the company fieldball and softball teams. He was always ready to help a friend out whether it was academics, or matters of the heart. During firstie year the usually docile teddy bear would transform into "unforgiven" on weekend trips into d.C. And baltimore (don't worry chris, t-john doesn't want you to kick that guy's ---). After much thought theodore discovered that the marine corps was his real calling in life. Chris' inner intensity will insure success in any endeavor he undertakes and we wish him the best of luck. May you always work that ---. --Sukes and t-john

*Andrew Daniel Danko*  
*Kennewick, Washington*  
*Navy Pilot*

Spanky arrived ready to "turn and burn" in his F-14. Plebe summer is long gone, but we'll never forget hunting for the Kennewick Kid one night after taps, 'cause he ate too many dried apricots. Thank goodness for your sister's beloved Monster Cookies--they certainly pulled us through some evening hunger pains. Spanky was a mild-mannered lad, but MEF and BCL forged a feisty, strapping, young buck out of him. Unfortunately, they never harnessed his notorious rage which accompanied an unsuccessful showdown with his trusty computer. Spanky was also notorious for his ability to embarrass classmates, teachers, and (unknowingly) himself with his "million dollar" question. Professor Star Trek has never been the same since his run with the Spankster. Yet, whether he was plastered on a golf course at 3am or spotting you in the get huge room, he would cover for you with the best of them. Just make sure he gets first pick!

Gonzo, Zorro, Scrappy(My 4 yr roomie) showed up on I-Day with a new set of batteries in his watch ready to study into the wee hours. "I am right, you are wrong...Oh, maybe not!" was frequently heard. He entered youngster year as a Mech E, nuke sub wanabee - maybe not, two Ac Boards later he was Gen Science. "What the F#@%?"(Not a good way to make an impression on the CO!) A 3.4 and 5000 caused him to think maybe I'll "toe the line." Charter member of the 100 Beer Club, he never met a beer he didn't like or a bottle he didn't keep. 2/C year brought the headache of the Southern Belle(his head is still ringing.) Bulldog convinced him to be a Marine, he always was a stubborn a%!! As a firstie, he built "The ARK" and somehow a sword got into his hand. Ding,Ding ## arriving!(What's up with that?) A little advice, "No! No Steve! Don't do that!" Otherwise, Ring, ring!! Clue phone! and it might just be for you...again! -JAS

*Erik James Eslich*  
*Ft. Lauderdale, Florida*  
*Surface Warfare*

Sleech came to USNA from the sandy beaches of Florida. A swimmer by trade, erik quickly overcame lou's rejection. He then decided to take up running and was always the one who picked up the pace. Gossipmaster of the severn, erik quickly became the grapevine of 18th co, 27th co, 3rd batt, 5th batt etc. Etc.. He liberally spread his intimate knowledge during his nocturnal foraging. Youngster year found erik earning his light saber quals- no luke, once you start down that path you can never come back! No, erik, we never believed you were just friends. With 3 stripper libs in hand firstie year, erik was a regular traveller on the norfolk express. Moving on, sleech's new love was the "whale" in a neverending search for women. An all around good guy, erik even left a parting gift for the supe. Go swo. BPR DAP JFM

*Michael Edwin Fenton*  
*Columbus, Ohio*  
*Medical Corps*

Michael E. Fenton was born in a small suburb of Columbus, Ohio. His maturation was not sound causing him to stray and pursue higher education at Depauw University for one year, before righting himself and heading for Annapolis. Fentonian sought challenge for his thirsty mind and body, and found much more in the bosom of Navy Crew. Hubbard Hall nursed this young sailor from a timid, midwestern, conservative character into a fiery, tumescent, go-getter who never turned down a friendly conversation with a lady. He had arms like oars, but his vast strength was no match for the force of the white name tags.

*Mark Joseph Fernandez*  
*New Orleans, Louisiana*  
*Surface Warfare*

This guy has had so many nicknames, I don't know where to start...sure I do..."Weasel" was always my favorite. As a plebe, he was always well "loved" by upperclass. "Willy" had a real plebe year (nothing that a little quality time in the locker wouldn't cure). Youngster year brought the infamous stereo, the Bronco and the beginning of a long and distinguished career of majoring in his native tongue with a little Spanish thrown in. 2/C year brought a new definition to the term Dark-Ages. Firstie year had alot of time spent at W+M and an "economical", cultural expedition to the Highlands to sample the local brew. What the future holds for Mark is uncertain, but I don't think it'll be Charleston. Anyway, we'll all miss ya'dude and I'll especially miss all those King Cakes during Mardi Gras. If Mark ever misses home all he has to do is click his heels together three times and say, "Ed...I just fainted."-JPS

*Navy Pilot*

Ed, my roommate of three-and-a-half-plus years, looked worse for the wear when he reported to USNA, but, as time passed, I learned that "Meat" was a pretty remarkable dude. Plebe year had the "God, I should have gone ROTC..." spell which eventually passed. Once I weaned him off of listening to Bon Jovi and Skid Row and LET him steal my date, there was no stopping him. This guy could balance an Astro major, sports, and many "extracurricular" activities. On rare occasions when he wasn't tearing North in his fire-gutted Daytona 500 to visit "The Family" on Staten Island, we were blessed with his presence. After his musical renaissance got under way he was even closer to being perfect. If only he would play fieldball and learn to drink Wild Turkey... All I can say is watch out P-cola (if he ever gets there). Seriously, take care and good-luck, bud. "As they say in olde Mexico...A.M.F.!!!" - JPS

*Casey Hannigan  
Galveston, Texas  
Marine Corps Pilot*

Rainman-YagaMan-Casey showed up here on the Chesapeake straight from the Gulf Coast-- not sure what to expect. Plebe year he never ceased to amaze us. He had memorized the lyrics to every Cure or Police song ever recorded, but the menu for noon meal often stumped him. Nothing could rattle Casey. I never saw a flaming 2/C bother him as much as the way he freaked out when he missed The Simpson's and Cheers once we were upperclass. After Plebe Year, since he wasted little time working out, he primarily occupied his time in three ways. He was in his office (the wardroom), on the phone for one of his 3-hour marathons, or playing Tetris. His racking prowess was simply legendary. Once, during 1/C year he was unconscious for 24 out of a 36 hour period. Studying was generally unnecessary. Finally, after being roommates since Day 1, I can safely say I have laughed a lot, and learned little. Thanks! See ya' buddy. SPQ

*John Wayne Hopkins  
Albert City, Iowa  
Nuclear Power - Surface*

John showed up on I-day straight from the shores of Okoboji. His stories of fun in the sun and inland lake sailing seemed remarkably familiar. After spending a few days of "quality time" together during plebe summer we realized that this wasn't the first time our paths had crossed. As plebe year continued, John found an escape on the Chesapeake with the sailing team. This brought new focus, new friends and, of course, new parties! Sanity was also saved by spending his precious Saturday afternoons with friendly Hoyas of Georgetown. John frequently joined me on trips home to Wisconsin. Madison can be a very fun place but watch out for Mr. 151 and the burning popcorn! Along with all of the fun, John always found time to study. He is very disciplined and has excelled in everything he has done. I am sure this trend will continue in the fleet and beyond. Good luck and thanks for everything. -DJK

*Daniel John Keck  
Oconomowoc, Wisconsin  
Navy Pilot*

Dan came to USNA from Wisconsin, the Land of Cheese, prepared for the rigors of plebedom from years of sailing on Lac Labelle. G-town, and sailing were common modes of escape. We drove didn't we Dan? Next...Wow! Weekends, unlimited, Right?! If Sailing wasn't enough, now Hockey, a glutton for punishment I guess. On leave, many trips home to UW. BLOW IT OUT BEFORE YOU TOAST IT! DUH! How fast can we really drive? "MAGIC 21" arrives, Tombs, Cellar, Fell's Point, Griffins, etc. Where would we be without the Flight's? Crappy pool players anyway. Look out for those toilets! OUCH! Uh Oh...New Development...The Girl! Suddenly, a new man, even with the arm twisting of HOP,RAS and CHOP to name a few. But that's O.K. we like her too. ServSel: After a short bout of Sub Fever during 3/c cruise, Watch out Tom Cruise! Best of Luck to the Keckster. What are these guns everyone keeps playing with? HOP,roommate from hell.

*Brian Christopher Lantier  
San Francisco, California  
Supply Corps*

Well it took him awhile but he finally made it here. After five years of high school and a year at NAPS, Brian successfully maneuvered his way through four grueling years at the Academy. Brian liked fast money, fast cars, and fast women. All of which he was able to easily obtain. His silver tongue fluttered many young hearts and closed many successful deals. Like lightning on the lacrosse field, Brian dazzled many opponents with his unorthodox California style. His pipes were awe inspiring and his goals were plentiful. As Brian prepares to set sail as a member of the elite Navy Supply Corps and I his roommate watch him depart, I know in my heart that he will reappear as a financial wizard on Wall Street. Finally, Brian, or should I say "Disco", lived his life for his friend and mentor Michael Jackson. -MEF

*Chester Lee McMillon*  
Houston, Texas  
Marine Corps

From "Houston, Texas via New York City!", Chester is known for his southern drawl and unique expressions like: "You can't read, you're illegitimate." He's undoubtedly the loudest most boisterous Midn. Who needs a IMC when you have the ICM? Billed as 93's original ROCK, Chet wore FIVE floats in swimming sub squad. Nothing keeps him from going down. Chester is most famous for his dedication to his woman. When we were out cheating on ours, he'd counsel us. Without him, we'd have no conscience. Though taken in the first round of the engagement draft, he still found time to hang with us. Without Chester to keep us laughing, USNA would hold no memories. A TRUE BROTHER... Black Men come no stronger. E.L.P.

*John Francois Miller*  
Lafayette, Louisiana  
Nuclear Power - Submarines

"Chipmunk aye," was the battle cry heard from this "vertically challenged" cajun when he came to USNA. With his heart set on becoming a doctor and wishing he was back home sucking on crawfish heads, he experienced a rude awakening with statics youngster year. Spending the next five semesters as a born again oceanographer, his second home was the basement of nimitz. Hard working, dedicated, a lucid dreamer and a one time scary philosopher, he joined the nuc power community (good luck- hope you don't glow). T-john always had a quick witty retort ready in hand. You could always count on a friendly boxing match (watch those punches). He was also a good travel companion, as long as he was awake (even if his french was limited to oui, non and ok). After the baby came of age, he was always found at the "whale" in dc, sipping on a casual brew. Thanks for all the memories. Good luck. - Suke.Chris.Ben.Suhaimi.

*George Teruhisa Nagatsuka*  
Ocean View, New Jersey  
Surface Warfare

Oh, where to begin. Oh yeah, and she was naked. George had theoretical problems with EE but was quite familiar with it in every day life (oh my god!, The current ran through my chest!). He was also unmatched in study habits and it was easy to tell when exams were approaching due to his rapid and wild mood swings. Overall, though, george was usually Mr. Congeniality (especially after he downed a few). Good with the weights, george was one of the strongest guys in company, even if he did have a little "nagatsuka". A dedicated upperclass, george took pains to see that his plebes were trained well, that is if he was awake (berr..Gerrr, shove...Off, sign off at taaaaa.Ble.). A romantic, sukes fell in and out of love daily, but his true love for a good bowl of rice never waivered. A swo all the way, sukes has already drank more coffee than most master chiefs. Good luck on the sea. BPR JFM CLC

*Gregory David Newkirk*  
Medina, Ohio  
Navy Pilot

From Ohio's Finest comes "The Pride of Medina." Everybody's buddy, every women's fantasy, and every officers' nightmare; he survived the Medina crash of '91, the yellow letter sweater, and four years together by the water cooler. Quick to point out his bi's and tri's and washboard, he wasn't called "No Guns" for nothing. The envy of all who knew Greg, he was by far the most copied individual since Elvis. Always being penniless never hurt his lovelife, since Newhu--- never met a man whom he wouldn't borrow money from. The New Orleans incident behind him, he charged on the social scene at Penn State, Maryland, and Georgetown with unleashed fury. Frustrating the ladies with his chastity, his commitment remained strong. It would have been nice to receive some from home, wouldn't it? Success is yours, my friend. You've earned it. TP

*David Alan Pliske*  
*Miami, Florida*  
*Supply Corps*

Dave Pliske, the hulking man that he is, was really a very gentle fellow (except for an occasional friendly fist in your chest and a smile). His sense of humor was subtly twisted but jovial. "Big Dawg" as he was known throughout the Brigade since NAPS, can easily be pictured slowly sauntering down to team tables after a formation sporting a perfectly old, yellow set of White Works with a blown out upper-inseam, faithfully clutching his latest medical chit. All who knew him must be able to imagine this familiar sight, and if you weren't of Big Dawg's acquaintance, he probably didn't care! - BCL

*Tony Alexander Prete*  
*Ocean City, Maryland*  
*Nuclear Power - Submarines*

Tony Pre-ate, the man with the largest cranium known to the free world that is filled with every sports stat known, is by far the hardest worker the Academy has ever seen. He came here for one reason and one reason only: MONEY. He spent plebe year studying all night in the shower, youngster year regretting he turned down the Maryland scholarship, second class year waiting to turn twenty-one, and firstie year trying to find a chick. Yes, Tony will be paying the other two amigos a hundred clams for this mistake. His psyche eroded daily by the grim reminder of a championship loss from a holding call. Maybe this is why he is a perfectionist and a natural coach. He is amused by the simpler things in life, short one hoppers, 25 foot treys, a perfect spiral, making par, and above all: long legged redheads. Congratulations on your dreams coming true, SUBS. See ya in the "Fortune 500." Peace. JBB, GN.

*Sean Patrick Quigley*  
*Lugoff, South Carolina*  
*Marine Corps Pilot*

Well Quigs (does any body even know your first name?), you came to us after a year at NAPS all ready to go. That is until you read one of the names of your new Plebe Summer roommates. I was one of your other roomies and you haven't gotten rid of me yet. Good thing for me. There have been plenty of good times. From putting up with the girls over at the Lord's to relaxing by the Ramon's pool. I've never seen anyone who is able to eat so much. It's also never been too hard to drag you out for a couple of cold ones. Not to mention your own attempt at a "home-made" Bloody Mary. Cruising the town firstie year in the "Quicker Chicker Picker Upper" lead to even more good times including, unfortunately, the loss of your reign as Company Commander. I know you'll have a super career in the Corps. You will have to say good-bye to those white uniforms which lured you here in the first place, but oh-well. Semper Fi, Sean. - CEH

*Paul Michael Rasmus*  
*West Palm Beach, Florida*  
*Nuclear Power - Submarines*

Ahh, the Stories We Could Tell....Straight "A"s and #1 in Purdue NROTC weren't good enough for Paul--he knew he was supposed to have been a Naval Academy grad. Smiley's sense of humor survived plebe summer, but BS emerged after a Good Fight with Schief. Sunday afternoons with Steve & Amy helped Razz survive repeated volleys from the SAW. Youngster year he found Christine--she wished she was a Big Rig! Another summer, and Skate got command--and a guitar! Paul enjoyed Firstie weekends as a 2/c until his Stars Fell on Indiana. Finally, Firsties! Who let that dude drill with a sword, anyway? Margaritaville was our destiny--rollin' down A1A. PKS Paul always wanted sand between his toes with a board, waves, and a crystal ship sailing the waters. He somehow missed his generation, fires burning somewhere in the past when peace and the real kind of love were among things most yearned for. Peace! TRA

*Benjamin Paul Richmond  
Lowell, Michigan  
Marine Corps*

The wayward farmboy came to USNA from the mighty metropolis of Lowell with a staunch idealism of the way military life should be. Disillusionment with usna came early in his career, but his love of the marine corps kept him motivated. Farmboy's vast knowledge of trivia quickly impressed the plebes, and he rapidly became their favorite upper class. Ben was always quick to promote the dairy industry through his posters and enlightened us all with his unique stories of life on the farm. Ben was the adventurer of the company. As a result of his journeys from the bowels of Bancroft hall to the wilderness of Alaska, and from the plains of Europe to the deserts of Israel, he was dubbed the great wanderer. While we will not miss Ben's odorous feet or ultra-conservative renditions of current events, we will miss his upbeat antics which brightened our lives daily. Good luck on the farm -- bri, sukes, jhooosi

*Suhaimi Bin Sani  
Selangor, Malaysia  
CANOEERON 6*

From Malaysia, where's that? He came to us a wide-eyed naive little brown man stammering his way through the English language and plebe year 12,000 miles from home--to start his "American-ization." Hit from all sides--the Rugby team, his roommate and friends, spaghetti and wings took the place of rice, a brunette from Indiana replaced the hometown sweetie and swear words filled the gaps once stuttered. Yet he remains a simple person amused by simple pleasures. Fleet of foot and gifted in the athlete's world, he was at home on the rugby pitch--best scrum half east of the Mississippi to dazzle crowds weekend after weekend. He's an artist an avid sports fan, a world traveller, a weightlifter, and a best friend with a big heart. Four years later he leaves us all wishing his stay here was for good. America will never be the same without him nor will Malaysia with him. Good Luck, Buddy. Keep in touch. GN

*Peter Kenneth Schiefelbein  
Oshkosh, Wisconsin  
Marine Corps*

Pete came to us from the Great White North, complete with accent. In his 4 years, he's been educated in more ways than academic. If not learning how to two-step, he was with one of his many chicks strutting the 'VETTE, one his fortes. Yet through it all, he managed some excellent grades. Now he's taking his ME degree and putting it to use...Marine Ground. Who would have guessed on I-day the Schief would go Corps? Well bud, we wish you the best of luck in whatever you do. SRS Plebe year in a word: Fred! Youngster year consisted of philosophical walks to Nimitz and the search for a social life. Next Schief heard the call, "Shag a little a@#, it's FUBAR FRIDAY! His dancing evolved from doing the unforgettable "Schief" to moshing. Firstie year he loved smoothin', shaving his head, and losing 4 hours at a time. I knew him to be a Parrothead, an urban cowboy, and a seaside philosophe. Go elephants! Peace. PMR

Plebe year was a tough one -- between bitching at the Second Class and working out with Firsties I'm surprised Jay had time to educate the rest of us. I still say that half the time he didn't know what he was talking about -- oops! he's dribbling again! My 4 year roomy and partner in unsatness, my cohort in Southern expeditions -- I felt he lacked the total Academy experience and filled him in (the hard way) on the conduct system making up for it a year later with a ring-dance date. His talents with plebe detail, trap and skeet, color guard, and .yes, even Shank's aptitude in the EE field were surpassed only by his wooing the fairer sex -- watch out, MOMMY'S GOING TO GET YOU!!! He had a financial standing comparable to the national debt yet drove a bitchin' Explorer and was NEVER short on beer money. A good company commander and a great friend (when we weren't arguing). Fly high/ski hard/ Semper Fi! - SJ

*Scott Robert Seyfarth*  
*Papillion, Nebraska*  
*Navy Pilot*

Our suburban Nebraska boy was poised to play and party at a real college, when a late June phone call took it all away. Only days later, our Air Force brat's visions of frolics and fraternities turned to the realities of chopping and chow calls, not to mention a little RIFF-raff. Two cruises in San Diego turned out more like a Tijuana trolley excursion. Youngster year--our daring EE major retreated to the safer haven of physics. You needed the extra time for the Ultimate team, right Sky? After a year of terrorizing plebes, our flyboy earned himself his aviation vacation in Jax, with--what else?--a Hornet squadron. Firstie year with Cinderella libs ensured use of his hot, red, classic sports car--the Toyota Celica. Homework? What's that? Nevermind--Scooter still walked out of the 'Dant's office with a flight jacket. At last, The Reward. Yeah, baby! Best of luck, always. You deserve it. PKS

*Joseph Patrick Smith*  
*Sandy Hook, Connecticut*  
*Nuclear Power - Surface*

Joe came to us after a 12-month vacation at UConn, amid the cow pastures and mental hospitals of that Big East powerhouse. Plebe year brought about many miles with Navy Track and one very unfortunate inspection in the fall. Joe was down, but not out, and he bounced back quick with the help of two of the major food groups, Jello + Sustacal. The marathon was youngster year and then again (just for fun?) as a firstie - unfortunately he dragged me with him. Third class year also brought about his 21st birthday - look out at the Turtle and the Whale. We all saw some strange things at those places - Joe has some talent. Remember Spring Break in the Keys and Colorado (watch out for that Jersey barrier). What more can I say about my roommate of 3 1/2+ years? He's the best. "I don't want to work, I just want to bang on the drum all day." EJJ

*Brock Andrew Spradling*  
*Houston, Texas*

### *Nuclear Power - Submarines*

"Sprocket," "Chopp'n Brock-alee," "Sprad," or just "BROC-A-LEE!" Brock earned a reputation as King of the Rack. Blue Magnet. People entering room 6047 were often surprised to find him upright and standing, or in his chair, instead of deep in slumber. He just does his best at whatever he undertakes, and he wore impressive holes in his bedspreads! When active, he sometimes windsurfed, almost being blown into the icy Chesapeake one afternoon when windsurfing was not authorized. Brock got one of his best times in the 1.5 mile despite being a hungover wreck from his 23rd birthday the night before. Birthday quote from that night: "I may have the coordination of Estlich (famously clumsy), but I have the strength of a Gorilla! Ahrrr! In his last year, Sprad traded his Rack for a ball-and-chain, spending more evenings in College Park than at USNA. Hey Penny's! The Flight's. Good luck in the Silent Service.

*Brian Salamat Talicuran*  
*San Diego, California*  
*General Unrestricted Line*

Brian was a prominent member of the 'Unsat Room' plebe year, but a visit to his advisor's office and a switch to the Political Science Department abruptly brought a glorious end to that nickname. Four years by the bay taught Brian several important lessons. Second class year, Brian learned never to take an early morning nap with only his cotton briefs on. A year later Brian learned to terminate any relationship that could come between a man and his weekends. So what? It was only a class. Many considered my beloved roommate the quiet, shy type. That proved to be a grave mistake for several men whom believed they were involved in a strong relationship. And she says he's just a friend. Brian was rewarded for many months of uncertainty with a three year vacation in Hawaii. Best wishes, Brian. Catch the wave and ride it. C.L.M.

*Mark Warner Tankersley*  
Odessa, Texas  
Navy Pilot

This "top gun" wannabe came to us with visions of being hurled from the deck of an aircraft carrier in a hornet. Tank's ability to chug a canteen of water earned him instantaneous fame plebe summer. His legendary talent to guzzle water was severely tarnished by inability to retain it. His frequent trips to the head do not give credence to his nickname. Physics brought tank a variety of interesting friends. Whenever there was question as to tank's location in the hall, "check greenspan's room, he's his personal sidekick" would be the most common response. This quickly changed second semester of youngster year. That's when tank met sue- enough said! To this day, we are still confused with his amusement with inconsequential things and try to avoid his sarcasm. We bid farewell and best of luck to tank. - K-john & chris.

*Brent Addison Alfonzo*  
Poway, California  
Navy Pilot

Brent, the lumberjack (and he's o.k.), was rudely awakened when he first arrived at the Academy already in a flight suit, but found comfort in weekly visits to Taco B, Za Xpress and the Harbor 9 Double Feature. So are you an abomination or are you just glad to see me? Yes, I assure you. Firstie year found Brent looking for gears and defying Newton's Law stating that a rice burning RX7 cannot occupy the same space as a NY state fair water-buffalo. Can I borrow your towel? But I digress. Brenny, unable to escape the ball and chain, married Annie, the fashion consultant for the pro-bowlers tour (a vast improvement over earlier wardrobe). Much to his fathers chagrin, Brent's best man will be Monter-AAAugh!! As you will be the third best fighter pilot ever to grace the skies, we will be milking and waxing your night stalking posterior with maximum ego and afterburner for a prolonged period of time. *Timothy Eric Bourdon*  
Jacksonville, Florida  
Navy Pilot

Timmy B came happily to this place since he knew the discipline could not be any tougher than The Colonial back home. Smoke Hall was nothing compared to what he was used to for underage drinking(4000), UA-drinking(5000), underclass parking on the yard (3000), Another UA(5000), white works at dinner(2000) and one still under investigation(6000). Tim and I always took the military with a great deal of sincerity and simply hated the fools who constantly tried to make a mockery of this fine leadership labratry. As Econ majors, I night a week was ample time to do everything. Seriously DJ lets go out? Although we both loved the game of soccer, we didn't love the management. Our pre-game meals out in town caused us to take a late season vacation, returning just in time for the tourny. Most didn't know Tim from Tim, although it rarely mattered. Now is the real thing and I hope to stay out of his back seat.

*Keng Shin Chong*  
*Singapore*  
*Republic of Singapore Navy*

Keng came from the far side of the international date line to try and learn something on the cold banks of the Severn. During plebe summer, he wrote a song and learned more about the U.S. Navy than most of his classmates. He made a name for himself 4/C year as the adjutant of justice, producer of long pro reports, and a proud member of 911. Youngster summer was spent in Benning (Kmart cammies) and off the coast of Liberia. He traveled with the fellas on spring break to Cancun (unexplained leg wounds) and Panama City (BG) his youngster and 2/c years but always remained faithful to his girl on the opposite side of the globe, Lena. For awhile he had a brief affinity for decorating bathrooms. At the end of 2/C year Mario Andretti got a fine car of his own so he could drive his girl around. Kenger, don't forget about your American friends when you're back home to straightening out your Navy. DCH & WKK

Coop you'll always be a SAC. Just enough brains to be VGEP, graduate with honors, a Rhodes Scholar, and turn himself into an ice cube on the App. Trail. A born politician whose worst nightmare is an incurable knee wobble and whose greatest aspiration may very well be marrying off his sister. Politically adroit, he stumbled and married himself off to T.A., the first woman who fell for his famous line, "Its boring in line at the bank!" A man in the arena with the potential to be the first president assassinated by a High's Grocery employee and a deadly pair of stereo headphones. A fine officer born to lead "Dose who bean dare." If they're crazy enough to stick someone behind me it better be the Medicine Man. There is no better place to milk and wax the night stalking posterior of the fundamentalist movement for laziness and ignorance (ie JT and TH). I've got 'em in my sights. Gimme the go Mr. Pres.

Zippy, if you ever slow down enough to enjoy the real pleasures in life, live them up. Despite words to the contrary, SWO is better then Corps- of course you haven't heard any of those words but... Keep the credit cards at zero and the ladies to one. Even if you were unlearnable, you still beat EE. Of course the all night "bear \_\_\_\_" studying before the final didn't hurt. If you ever find a bayonet as you sleeping partner, just think of me and the people who may have deserved a two edged partner. As far as the God squad, know who is leading who and to what end. No more technical classes for you, just don't lose your ability reason things out. And as a parting note, let someone else run your finances. God bless, and grow with him.

*Michael George Earl*  
*Kerhonkson, New York*  
*Supply Corps*

Mikey Earl is unusual to say the least. Could have been all those games of find the bayonet. Bringing whiteworks to a new height might not be a bad motto. Fun times and rough times, for his friends he's always been there. Of course, he isn't always easy to find. Thanks to Mom Earl, who takes care of Mikey's friends as well. Thank you Miguel for all your patience with the God squad and all their antics. Now, don't ask him about traffic accidents or ex-girlfriends. See you in the fleet supply guy. You were right, most times -- Zippy. So where is Kerhonkson, anyways? Cows on the plebe blotter?? Walks along the seawall...thank goodness for older brothers! What's an ugly cow? Jelly and toast for breakfast. Fire fighter? Questions?...anything Learning to trust. What does an Oceanographer do? Sea sickness -- Love, Squirt

*J. Sargeant Glenn  
Casa Grande, Arizona  
Navy Pilot*

Sarge got off to a rough start, had a rough middle, and finished up rough. He only came to the Academy to make connections to help him out in his political career. Plebe Summer saw Sarge drilling with the sword of the Amorphous-Grabastic-!@#&-Lower-Half. Things just got worse from there. He closed King Hall with BRZ and made bulletin boards on Saturdays. Being 3/C treasurer. Sarge had a phone and, with it, temporary popularity. 2/C year Sarge dabbled in foreign affairs and got into home improvement. Sarge, why won't they let you have carpet and an AC? 1/C year he got to know his congressman too well, set Jack the Greek for life, and made mature female friends. Hey Sarge, does she mind babysitting at Army/Navy? He also stretched the limits of the Honor Concept (insider trading, etc.). Hey Pathfinder, we'll see you in Congress or Leavenworth. TAJ GWJ

Flounder, Hannukah Harry, Grossmid, Mr. Gadget!! I'll always remember your many melodramatic moments at USNA and its environs. Yes, They did seem like cheap acting in soap operas of the third world, "Youuu Kliiingon Baaaastard!! Youuu Kiiilled my sonnn!!!" "You better be firm in your belief,..." Plebe year brought you the wrath of Crispell and the midnight bout. Could never wait for leave to end to hear your many tall "tails", we knew that they had a semblance of truth behind all that mierda de toro. In four years you managed to earn a few 4,000 level fry's I guessed you liked them. Thanx for the late night weapons marathons I ended up with a "C" in the class! The sledgehammer, the plebe, Pensacola 2-step, pelo rojo on the boat, coke ho, cooking in the kitchen, you have more black notches in your hanger than anyone else in the brigade?! "GO NFO!" thanx for your friendship. WGJ

*Terrance Eugene Hand

Well, after four years, are you the product of your plebe year? Wasn't that when it all began? "Don't touch me!" "Oh, I'm not takin' any more of this...!" Just walk away... How many Spring Breaks did you spend looking up at the sights from one of our racks in Bancroft? Well, it was only "One Irish Coffee..." Sorry I had to zip in and zip out of Smoke hall while you were there, but it was like Czechoslovakia man...Did you get the Black 'N'? I guess it would just get lost in the banana patch anyway! Remember, you can't see an Ugly smile in the dark...The Annapolis police were always so happy to lend you a hand, weren't they?...as long as they weren't a bunch of...Just remember, we live in a dangerous society. Never forget that first happy summer, and whatever you do, DON'T name your son Juddsonia. See you after graduation--bring your donations to the time machine, and NEVER FORGET!! ABG

Doug, 1/16 Irish Red, came to us from God's Country with a slow disposition and an even slower speech. Plebe Summer saw an aspiration to fly the infamous DC-10. After a lil' coaxing, he got up to speed and took off like a madman. When he wasn't being hazed or losing sleep, he was keeping the notorious quote log on PCWrite. Being the gungpeup that he was, he just had to do Airborne then come back and flame on his "leggo" classmates. Youngster year saw an end to his Nazi relationship. SB '91..Cancun..women w/ big red.. jet boats (not). SB '92..Panama City..rough rider..vball..Radford girls. Despite constant pt, his wisest decision was to forego the CORPS after BD. With firstie year came fast cars, endless happy hours, Baltimore excursions, and Fatal Attractions (and a Johns Hopkins rep 2nd only to WJ). "I am just providing a service." May Australia continue the tradition..friends forever. KK & KC

*Gentry Wade Jensen*

Every Mormon is on a mission. Gentry's led him through the valley of the trolls and the black hole in his wallet. "I only ordered a water...Here's my dime." Atlas went through a slew of roommates before finding a brother that could put up with him in the morning. With the exception of Quiet Storm, they found a strange equilibrium between sultry ballads & WHFS. Yet one too many love songs forced him to sell out his boys. But remember, stay true to the game for rabbit season's coming. He had an extensive wardrobe when combined with everyone else's. So there was no halfstepping unless he dressed himself. Gentry pioneered Ro-Pa-Sci for shotgun. "Have you used hedge clippers in Maryland yet?" Gentry always tried to make drill fun with swimming and the Name Game. "Is Ned Percy really a band?" What's in a name, just kick @\$\$ at Coronado. You've definitely gotten enough sleep for Hell Week. TAJ JSG KNM

*Marine Corps*

At NAPS Juarez started his reputation as the International Party Animal In Slightly Outdated (Early '80s) Clothing (IPAISOC c.1980), in the bitter cold of Newport, RI, and on the ROAD TRIPS. You should've seen Rodriguez rotate, gyrate...on 42nd street, and become invisible at Smith. All of this while making rank at the Notell. Well the grand ole corporal Hernandez beat Calc and gained the rank of Midshipman and international renown. Maybe it was that genuine European cereal!? No challenge was too great for Valdez. He was even willing to answer Plebe rates in the men's room--"Sir, would you like to take this into the head?" Where's your cover, Professor? And NEVER mop the deck in your sleep! Annapolis will always remember the early eighties because of Sanchez. Rosa, dress him up! Winst ol' buddy, keep loving her the way she should be loved--always. TAKE CHARGE! --The Best Man

*Timothy Alvin Johnson*  
Cullman, Alabama  
Navy Pilot

Tim fell right off the turnip truck onto T-court. He came in saying that the only thing he didn't like about the Academy was that it was north of the Mason-Dixon line. Over the four years, Tim told everyone who would listen all about his heralded high school football career, although he has been an intramural king since I-day. He was not real fond of PT though. As a 2/C Tim was quoted as saying, "Dude, I've got a good looking girlfriend and no more PE tests this semester. I have no reason to workout." Even though his major was systems engineering, none of us who witnessed his gas funnel design will ever put any faith in his skills. We all enjoyed TGIF's Friday happy hour, but Tim made it his mission in life. SNL came in a close second.

*William Karl Knox  
Kerrville, Texas  
Surface Warfare*

Karl came to us from a small town in mid Texas. His plebe summer education started with his roommate who entertained him with stories of WestPac liberty which gave him ideas for his later years. 3/C summer was more fun with a CSTS cruise and a BB out of Long Beach. Karl started putting lead down range early in his career and didn't stop for the rest of his tenure at the academy. He had a run in with Al Pacino, but this was not why sunburn called him the shacker. 2/C summer wasn't motivating enough for him so he decided to complete both Bulldog and Airborne his first class summer. At the end of 2/C year, Karl had a '92 Ford Mustang, a girlfriend who outranked him, as well as a plethora of nicknames. Karl finished out his time at the academy with trips to Baltimore with the fellas and plans to go to a Spruance in Norfolk. Karl, don't forget, your face will give you away every time. DH & KC

Shutupp!! Go hard or go home. Sure. Hailing from the midwest, Smiley was ill-prepared for the intricacies of Navy life with swimming and the uniquely alternative lifestyle of her roommate. Once Porkchop was cleansed of the chlorine, she learned to appreciate study-hour air-raids and avoiding the fine line of good taste in Steerage. 2/C year brought a new top & stereo to the rabbit and trips to Dairy Queen, not to mention a certain dashing profile of a future pilot. 1/C year, Yogurt was appointed as a striper on 6-0, and realized the benefits of Cider (5,10 times, tops), and the hazards of brunch. Always one to be tolerant, Sprout threw logic to the wind and braved the hazards of appearing in public with the likes of JGG (often accompanied by BAA). Luckily Kelly was there to restore order and bring her back to sanity. I look forward to your successes in the future (i.e. Nov.). DJW

◆ *James Edward Moonier III

◆ James arrived at the Institution with a potato sack on his back and a tennis racket in his hand. He was always a bit abnormal, but we knew for certain his elevator wasn't going all the way to the penthouse when he exercised his own brand of table etiquette and said, "Classmate, please pass one individually wrapped slice of American cheese." He was dubbed "Snake" because of his youngster cruise dry-docked on an ammunition ship in Brooklyn. He met the girl of his dreams and was so swept with blind heart-throbbing-gag-me-with-a-pine-tree emotion that he forgot how to get back from Baltimore like most good weekend-duty firsties. Luckily, the CDO promised she wouldn't fry him, rather odd that he did the Smoke Hall Shuffle anyway. ◆ The Ancient Warrior from South Carolina, or Georgia, or Pittsburgh, or Wherever, came to the Bastion of Rabbits on a football scholarship. Time and the boards however guided him to other pursuits, like learning how to stay off the bottom of the pool long enough to go on spring break. It wasn't easy marching strong when the rest of 28 was halfstepping. The Man With the Plan exposed you to Ice-T and reggae, I don't think we're in Kansas anymore. You cannot live on hip-hop alone. 1/C year Kwame Collateral Duty Moultrie spent much time flowing with the fellaz in the grip to G-Town to work all the fine honeys. A few strong sisters even returned the numerous cellular phone calls. Don't forget to give Timmy-B his 1/2 G. Peace out to all the brothers lost along the way. Peace, my Nubian Brother. *William Thomas Murray*  
*Quakertown, Pennsylvania*  
*Supply Corps*

Medical Murray graced us with his presence after plebe year was finished. The first strain he took was at the bottom of Herndon. Youngster year he educated us in the area of stereo technology. Believe it or not, crushed coke cans under the speakers and t-shirts on the tweeters do enhance sound quality, even when using technicolor 3rd generation James Taylor demo tapes. He was always one to expose KSK to the vulgar behavior of young men in their natural state, but always polite enough to ask first. 2/C year, Billy continued to date girls from his high school and became a committed Ditto-head by taping Rush everyday. He also went to his first come-around, a traumatic experience. 1/C year he again worked the medical system to get NPQ'd and bought his dream car - a 4-door Saturn, complete with the Club (a necessity for parking in rough neighborhoods, like 8th wing). Best of luck to you, Billy. DJW GWJ

Dan, you are the most pensive, laid-back guy I've ever met. Plebes in the same squad-Why do you have civies on under your sweats-Why are you wearing sunglasses at night? I wonder if Jeff ever knew? Not! Watch out for the foot long drinks in Cancun, because next time, the Mexican taxi drivers might run over you. Have you been stuck in your shirt lately? I thought Germany was land-locked? By the way, isn't a starling a bird? Try not to let people buy you Gorilla Farts; I wondered what you were looking for underneath Sharky's dock? I'm so hungry! Mr. Policeman had pity; "It's only a sprite!" as I carried you back to the room. Does TOPGUN bring back any memories? Only five times, Dan! I can't believe you're going to be a nuke. Whatever happened to you being my NFO? I hope they teach you in Nuke School how to tell time and blow out candles. Best of Luck in your life, you're a true friend! RAP

I've fallen and I can't get up! Rob, whatever happened to these past four years? Saluted, sunglasses, plebe year finals, is that my upperclass? Get in quick! Cancun excursions in the sun. Pizza Hut mexican style. Dancing and inebriant aplenty. Who is that swinging from the ceiling? Roommates 2/c-1/c year, start of a glorious friendship. Heh Becky! Oh my God Becky! Pennsylvania, true cow country. Plebe summer detail and nights in Baltimore. Baha Beach Club. Bachelorette scavenger hunt. Have you any red biking underwear? Sorry! 75 mph? Nine Inch Nails. Front 242! Florida road trip from hell. All we have is King Hall cereal! Sharkey's and Spinaker's. Yes we are for real. Fond memories of sawdust pits and horserides at Fort Benning, GA. TA-4 ride at TOP GUN. What is that smell anyways? Nonstarter. Brigade striper. Good luck Rob, in all I know you will accomplish. Best wishes - D. Huiz

*Kristin Marie Phelps*  
*Chester, Virginia*  
*Supply Corps*

In August of 1989, I came to room with "Kristin Phelps from Chester, Virginia." Little did I know that this tall Plebe summer squadmate (who just looked like she was rolling her eyes) would become my best friend at the Academy and the best roommate anyone could ask for. During plebe year, she sweated out Chemistry, learned yard Gouge from BRZ\*\*\*, and lost a good portion of those ever popular (with me) care packages from Mom. Youngster year saw that characteristic plebe stress pop out only where Statics and a certain horseman were concerned, but the rewards would come in the end. With the second class year came new interests (especially on the deck below) and perhaps a little more leisure. As a firstie, Kris learned a lot about life, made some big decisions, and held out for the last Supply Corps billet. I wish you the best of luck in the years to come. You deserve it. NLS

*Timothy Steel Pione  
Pickerington, Ohio  
Naval Flight Officer*

Timmy P came to us from Ohio. Some how we were cursed with being roommates, teammates and companymates. Soccer practice got pretty odd, but he soon showed me how to avoid being a plebe. One day he turned the locker room into Franny O's. By youngster year, we were completely absorbed in our economic courses. He often wondered if he should have chosen one of the lesser challenging engineering majors. Most of the time, he could be found on the telephone. I knew I should have bought some stock in AT&T. Professionally, his hands off, eyes closed military training was the best. During soccer season firstie year, you could always find him at Griffins talking about his dediction to the sport. Coach Myers didn't agree, and suspended him until the tourny. His only true devotion was to Sara, and after meeting her I understood why. For the good of the Navy, I hope they don't put us in the same plane.

*Natasha Leigh Smith  
Hazard, Kentucky  
Civil Engineering Corps*

I never would have believed we would have lasted four years as roommates when we were thrown together plebe year! That shy scared plebe turned out to be a great student and an even better friend and roommate. She even went so far as to become the "Damn Exec" of fifth Batt this year. Somehow we made it even with the monster that seems to have run off with all of our towels and shirts. I had to promise not to mention any of the things Tosh had to "sound-off" or anything else she did plebe year, but as I know Lisa will agree, Tosh has become a different person since then. There are several of us who wouldn't have made it through Chemistry, Statics, Dynamics and EE without Toshie the "brain-child's" generosity. So, is it off to Guam, or have you decided yet? Wherever you are, you'll make a great officer. Good Luck!!! KMP

*Jonathan Paul Taylor

Midn. 4/c Taylor, report to platoon cmdr. as ordered! Aye classmates! Groovy dance step there Travolta. Your own drinking fountain. "You grab a line, I'll grab ...." Jon, how could these past 4 years have gone so fast, and so slow? Varsity track star in your own right. "Christmas time's a commin'..." By the way, have your neighbors shot at each other recently? Perhaps shotgun duels from back porches? Salt loaded guns at close range. "He was lookin' in my sister's winder..." Bird dogs to big dogs. Just to think a chilly walk in the mountains could change your life. Who kissed first, anyways? Does it really matter now? You saw stars then, and diamonds later. I hope Christy Lee brings you all the joy in the world. May you always remember Him who is our strength, confidence, and security. As we keep Him first, we will reap the rewards of His blessings and wisdom. Good luck Jon. Best of wishes - D. Huiz

*Dennis James Wagner*

Schwank took the scenic route to Navy, by way of BU. Cured by his "mentor" of his rowing dreams, Freen was left only with fond memories of the Brotherhood. Dr. Rosennoodles is the only person to ever come to USNA not wanting to fly. Being an English major, bedtime was all the time, and weekends were free to take the Batmobile for spins to Marley, the Bell, Jumpers, and Baltimore. We kept Za Xpress in business, and tried to bankrupt Harbor 9 with the "Midn. Double Feature"--I assure you. 2/C year brought the surprising to no one bloom of romance with KSK, and a major case of reticularius mariocuomos. Should be a hoot to bring our twisted ways to Florida, and you must continue my snowboard training or I might fall to the dark side and ski. Best of luck to you, Dennis Mahatma Wagner, and I'll meet you at P-Cola Beach with a cup of hot fat, the head of Alfredo Garcia, and a Swisher. Dittos. Rush. BAA

*Max Josef Allen*

*Pleasanton, Texas*

*United State Air Force*

What do you think about when you hear Max? A sloppy room would be a good answer. Max seemed to never get over his love of a messy room ( it reminded him of home ). Plebe year Max learned that cleaning your socks in the sink was a big no no. Max came to USNA in the height of the TOPGUN generation with dreams of flying next to Tom Cruise. After second class year Max met up with the likes of QAS, where they spent many nights consuming beverages of barley and hops. After the whiskey wasn't working anymore, Max focused his attention on the ladies. It was here that Max found his calling. He now spent more time with his cowboy hat and the women than he did with his friends. The biggest change of all was when Max gave up his Navy blues for the Air Force blues. All I can say is, Max I hope you enjoy your silo from QAS. P.S. Your not on land, you in it.

T or T-bear for those of us with a better grasp of the English language. Did you pull another allnighter? "Yea, I lost my program again!" Are you jumping this weekend? "No, they lost all of my hours at the loft." How did you get those Gold wings anyway? The first Lebanese to ever graduate from a U. S. Service Academy, and probably the first Foreign National to wear as many stripes. Aren't we at war with Lebanon? Where is it anyway? Mr. Chbeir can I have your dessert? "#%\*&^&\*. " So what are you doing after graduation anyway? Who's driving? I don't care as long as its not T. Get your driver's license yet? How old is Cybele? Hey T, I guess its O.K. if that's your culture. T let's join the HairClub for Men. Oh, I'm sorry! I didn't know you just shaved it. No T, that's called the tail bone. What language is he speaking now? I'll see you in the U.N. in 20 yrs. MLH

Jeffrey Scott Conklin  
Livingston, New Jersey  
Naval Flight Officer

Jeff found his way to Annapolis from off of exit 15W on the New Jersey Turnpike. Straight from the gates of hell, Jeff's honors Plebe year include: the tool award, one of two prestigious 4000s, and a full semester under the clock. Despite an illegal (not to mention lucky) bout in boxing, he continued to keep his head high. DING! Jeff is most likely the only person here to have been a company commander 2 1/3 times.... "There the boys now!" Youngster year, he flinched at being caught with his hand in the cookie jar. "Dude, what the....???" Happy 21st Jeff-we bought your first legal beer! Jeff spent 2/c year with stars(outside here!), chicken pox, and on his cruise after the Ring Dance. Firstie year was highlighted by the RV disaster, service rejection(which changed daily), tipping at Griffin's and, of course, all the responsibility that comes with losing liberty (whatever!) Lonnie Lee Crawford  
Arvada, Colorado  
Marine Corps

Lonnie came to us via the BOOST program. A suburban guy with streetwise attitudes,(NOT!), he found pebe year easy sailing. His talent for cheerleading kept him busy all four years, although it did cost him a knee. We joined up youngster year after TC unfortunately went away. Lonnie found love on the hallowed grounds of St. Johns. He risked life, limb, and liberty to maximize his time there. But it was never meant to be. A firm believer in "L.L." meaning "ladies love", Lonnie kept on his savage quest for romance. Our many trips to NY and DC left the love fiend hungry, but Lonnie found true bliss w/ BS firstie year. A lover of poetry, classical music, and all things unusual, Lonnie beat the system every time. Do the right thing in the Corps, and don't let love cloud your thoughts. It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light, it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us, we were all going direct to Heaven, we were all going direct the other way—in short, the period was so far like the present period, that some of its noisiest authorities insisted on it being received, for good or for evil, in the superlative degree of comparison only. Well, four years sure went by fast. Cory came to us all the way from King City, Missouri-Where? All Plebe Summer I only knew him as "the guy with the horrible blisters on his feet. Never seen anything like it. Little did I know that I would end up living with this guy for two years or that he would become my best friend. I learned some interesting things about Cory over the years. He is the only guy I know who worried about getting a flight billet even though he was ranked somewhere around 100. I guess you could call him a sweat. (I did.) But I realized that here before me was the hardest working individual I had ever known. It's a good thing because being Honor Chairman this year kept him busy. All the hard work paid off and he got the flight spot. (I don't know Cory, it was a close one.) Can't wait to get down to PCola with you. Good luck and remember-speed is life. AOH

*Ralph Frederick DeWalt

Chip came to USNA on a one way ticket from DeWalt Travel and sponsored by DeWalt Power Tools (guaranteed tough) destined to enter the family business. Neither 90 nor 91 mph Hurricanes could keep Chip down at meal Plebe Summer. 2nd semester under the clock primed Chip for continuing his Plebe experience well beyond the Herndon party. Chip was never very good at dancing but through it all he has managed to keep his toes tapping, on the carpet and even in the ring. 3/C year brought steak knives and just a few other appliances to Bancroft (thanks Steve). Thanks M & D, you haven't missed a tailgater in ten years. "Chez Ralph's" premiered with a specialty for room formals-Spare Ribs and Apple Brown Betty. 1/C cruise left Chip with six Youngsters a week and 5000 more reasons for drooping. The Stealth Plebe showed up sometime after the summer and landed in the Smart Room and ran some track. He enjoyed Plebe privileges so much that he couldn't live without them until 2/C year. Pitt took care of you, O's, Colin, and early to rise as a Youngster. A 4.0, Cancun, Duke, and a "good deal" to go with his stars landed him on Plebe Detail. Plebe Privileges weren't enough so Marc passed GO at 97 mph and went Straight to Jail in N.C. \$200 later and a road trip to Padre helped'im, helped'im, helped'im to a view from the Penthouse and an imaginary date. Firstie Cruise Marc met Herb in CA for some flying and looks forward to the next visit when he might get in an aircraft. A 5000 left Marc holding the keys for Spring Break as he exchanged his ticket to Key West for an N-vitation to Smoke Hall. Best Wishes, Tau Bate. SCR/RFD/JSC

All that matters is truth and loyalty. Know yourself and your friends. Wakefield was black and white (no gray), Navy is a rainbow and unfortunately gray also. Gray is a confused state. THE QUESTION OF U, who am I. Who do you think I am, do U want 2 know. So many opinions by so many people. If U don't know Mark then your opinion doesn't count. Speaking of opinions: -U will never make it through that place, it is tough. +If anyone can make it, U can. All wrongs will correct themselves, Right G.C. -U are 2 small to play college FB. +Son, before you graduate, all of college FB will know of you. -Anyone w/a heart, conscious and a belief-N-GOD would not do what U are doing. +This is your life, I support your decision. Naval Flight Officer

Having spread his sunny disposition and athletic ability from MD, to SC, and finally to CN, TimmyG decided to show his wares at USNA. Plebe summer he amazed his classmates and upperclass by being lost continually. Speed was a crucial factor in his performance; be it typing, or getting dressed-"if you rush me I am only going to go slower." Always a one for variety Tim decided to try a major in each group-Ocean Easy (I'm going NFO), to Chem (I'm going to be a doctor), and finally to Gen Sci (I'm definitely going NFO-I think). Grumpy's athletic skills have improved: from Crew to Sailing and to Head Football Manager (he can even catch-sorta). The king of all-nighter's, Batman has made a name for himself with his nocturnal habits and R2D2 lamp (it really didn't need a 200W bulb). Remember, April showers bring May flowers (the Harvard Muppet- Gonzo). Good luck and thanks for 4 great years by the bay. KJZ

Pissed off. Pleber? "YES SIR!" AND WHY IS THAT? "BECAUSE YOU'RE WASTING MY TIME, SIR!": Only Monty would be so bold. Three years of prior service; what an attitude! Strong smell in the room! must be a new coffee discovery of his. Grandpa of the company. Would make a good HairClub For Men President. Straight, and mature: Dinger loved his cadences. Room with Monty, and he'll get your act together. Perfectionist and special gift inn spelin...nuf sed. Funny and outspoken brother around liquor. Innovative too: "1st Platoon, PORT MARCH!" He set a record this year: didn't chew tobacco for 2 hours straight! What time is the alarm set for? "0515". Remember the walk back last night? "Back from where?" Why switch to aviation? "I decided to have a life!" It'll be a great one, Monty. When the time comes, remember to greet the camera for me. We do get CNN in the Middle East. T-bear

Albon...the Man, the Myth, THE LEGEND. You've lived through the ex-girlfriend experience, summer school, and kept your eyesight despite all that studying. Pensacola will be a piece of cake, I can't imagine anyone more destined to fly (That's a Buffalo... GREAT plane!). I finally got to see that Big Desert Area that Mexico paid us to annex thanks to you. Incredible seeing that we come from such different backgrounds, but I can't imagine having a better roommate. Compared to the Menace to Society and the Crazy New Yorker, hell, you were perfect! But, having to put up with your living habits for two years, surviving with you through two Plebe Summers, and spending leave at each others houses, I figure I've gotten to know you pretty well. Pretty amazing that I had to come to Annapolis to find a best friend.

Ftball at S. Cal. wasn't nearly exciting enough for Spock, so he decided to join us here at the Land of Makebelieve. Steve was quick to prove that he could rack under newspapers and that TV's don't work without antennas! While Spock wasn't repossessing his clothes from Soho(or tossing his cookies) he could be found in town at Franny O's with teammates, friends, and loud obnoxious women. Youngster yr Steve found himself brutally whipped by the love of his life(well occasionally he forgot-what's her name?). Spock's pastimes included electric jello, hall margaritas, inhaling subways, painting the shower yellow, and romantic nightlife on Hos. Pt. 2/c year brought Buffett and the booze cruise-Lips off! KZ's not your date. The past 4 yrs have been too much to endure: self help, Charlottesville, nightmares after G-town, and dancing w/your sister-that's wrong. GTFO's now past tense. Calling up the NATO Supreme Commander, a plebe year acquaintance, he gets Mallybocus reopened and is stationed there. Following in his father's footsteps, Sean meets a German girl at Schwimmbad and is married a year later. Upon returning to the U.S., he resigns his commission so that he, his wife, and his car can move home to Alaska. After 2 successful terms as mayor of Eagle River, Sean seeks and wins the office of Senator of Alaska (defeating Reker in a close election). As senator he passes legislation to make automatic weapons legal and remove all speed limits on interstates. KRK

The CAPITAL K established his "temple of Q-per" plebe year. Dazzling all with repeated 4.0's and an undying dedication to Nimitz and the pursuit of perfection. THE ever increasing POWER OF the "mother of all computers" was an experience to behold as bytes became megabytes and 286s became 486s with more options than a new car. Kieth's frequent camping, hiking, and skiing excursions turned him into a cross between Oppenheimer and GRIZZLEY Adams. At the beginning of first class year Kieth got out of the library and established his reputation as the PARTY monger and wildman we all knew he was, yeah right! The endless flow of K's individualistic attitude was refreshing in the dark and despairing TIMES. "Defeat hung heavy in everyone's heart, any more of this and consciousness would soon depart. Then, as I began to resign myself to my fate, the mighty Kipp stepped up to the plate. 'A quarter pound burger,' he cried confident and clear, and somewhere within me a small voice began to cheer. He's got it! He truly knows what we will eat, any minute now and we shall be on our feet! Then, to my dismay, the mighty Kipp swung at one high and away. Silence fell over us and the air grew still, did he say sweet, or was it dill? In the front leaning rest it appeared we would stay, and there was no joy on 5-3 that day." I'll simply call that My Life with the Toilet Paper King. By the way, what's a nice guy like you doing in a major like systems, anyway? You must be doing something right because you sleep and I don't. Steve came to Crabtown as a lacrosse recruit from the quiet suburb of Herndon, VA. Steve was the stealth plebe, until he got caught in the rack by his 3/C, but still managed to breeze by without being noticed. Youngster year, Steve learned that there was life outside the wall. Although alcohol consumption was not his forte, his shoes managed to hold what his stomach could not. All the girls he dated seemed to have the middle name SEGA because that's how much he played them. But one girl played him like a SONG. He continuously fell for the old one-THU. 2/C year, Steve turned the 40 year swim into the 200 year swim. Let's hope his ship never goes down. Firstie year, multiple trips to D.C. and Baltimore with AAM, QAS, DC, and MJA. We all became distinguished members of the roundtable at Camelot. We will all miss him as he heads to Newport, R.I. Good guy, great friend, we wish him fortune and smooth seas. AAM, QAS, MES

Just as it had for years, the glare pried open his eyes, forcing them to focus on his white surroundings. "Oh...what a pleasant color," they explained to him as they shut the door and locked it with an echoing clank. He reached for his nose, it tickled, but his arms were restrained by the jacket's seemingly endless sleeves wrapped tightly about his waist. They told him it was better that way. He pondered enjoying a stroll in a park on a pleasant spring day, breathing the fresh air while taking in the world's loveliness, though he knew his existence was confined to within the six bleak sides of his cell. "Just follow the rules," they once said, "and do what your told. It's really better that way." Left only to his imagination he closed his eyes, concentrating, fighting...his thoughts drifted to whenever. NAWANDA

One of the rare good things that ever came out of the South, Magoo came to us from a tiny dot on the N.C. map where churches are loud, people are too friendly, hangovers are painful, and eyebrows grow clear across your face. His personality is disgustingly friendly and his charm is overwhelming to all girls who cross his path. He's the only guy you'll ever meet who'll swear he's met the girl of his dreams every day of the week. If you're lucky you might meet him. You may catch him doing shooters with Meier in Maldoons, or "fixing to go down to dinner" in Newport. He may be holding up Ron's legs in Philly or decorating the halls in the hotel. Then again, he may be funnelling in Myrtle or slapping hi-5s over a southern bell playing "who's my daddies". Hell, he may even be in YankeeLand ordering coors light! Wherever he is, find him. You may get lucky and talk to him, or really lucky and become his friend. RTM

Anel traveled down the New Jersey Turnpike to join SSL, QAS, and MES in Annapolis for four years by the bay. After he conquered plebe summer, he allied with MAI to ward off the likes of Baquer, Dungan, and Personale. He was an outstanding watchstander. Just ask him about the night he was CMOD (Army-Navy Week '89 and GD!!). Youngster year, we spent many hours congregating at CINE-MONTES. After two summer schools, he made it to 2/C year only to ask himself, "what is this, a sissy school?" Missing in action for the ring dance when his brakes gave out along with his dates bladder. After relieving SSL for Plebe Detail, he was convinced that the future of the Navy was dim. 1/C year, he was given two stripes, and was knighted at the roundtable of Camelot w/ SSL and QAS. Lulu's and Hammerjacks were frequent stops. Anel will depart us en route to Pearl. We wish him all the best in the world. SSL, QAS, MES.

Diamond Dave came to USNA from one of the few towns able to make crabtown seem fun. After a year of cultural and language re-education, he could finally be understood by the rest of the world, well almost. This Southern boy rapidly showed his Achilles' heel off, always equaling his roommate's consumption, and made the first of many mid-night trips to the sink. 3/c yr was spent lowering his ranking by hanging w/SH & KZ, waking to KN, painting the town red(not to mention the walls & quilt green), garden maintenance on SW, and w/last minute runs from C&R's. 2/c yr brought 21 B-day(medical parking?!), a flurry of attempted romance in prep for booze cruise, and the first of many parties w/KE. 1/c yr brought a dramatic dip in his love life(perhaps from hanging w/Elvis), dancing at A.L.Gator's, ski trips to UVa, and camping w/MI. 4 yrs together by the Bay makes a best friend. Robes, #3, or Stevie came straight from THE hockey Mecca of Mass(Sorry, Fogs). After validating 22 hours and induction into the Vorn Dick clan, this "super" found himself playing Hockey (chicks dig scars), video games (way too many) and scraping for gravy. Youngster year the Chemist (his true calling) found the meaning of life-RACK! A 'D' in perf and EE left him few options: more video games, stupid pet tricks (the professor, flying squirrel), and more rack. Spring Break in Cancun was TU much (Anybody seen my shoes?) 2/C year began with 2 for 7 laps around the block. "You gotta be proud of your body." Army-Navy, South Padre Island- enough said. In lieu of two finals, on his 21st he went all off (I mean out). Ode to an old room-mate, or how I learned to live with Akula logic. After all the years of politicizing, griping and miniature foot earthquakes, we made it through: the noisy neighbors who repeatedly interrupted your nocturnal studies and my sleep and often stopped by to philosophize, the tortuous drill days, the adventures in cooking, THE cruise. Along the twisting path, you took time out to fill your boots in the steam and demonstrate your grace in the snow. You have it your way. The hello's and goodbye's blur over time, but we are strong and we live, as we dream - alone.

Mike made the long journey to USNA from the far reaches of Riva, MD. Plebe year came easy due to the continuous supply of chow packages from home. Mike's claim to fame spurned from the famous "chocolate bar incident". Pistol was Mike's savior from plebedom. Then 3/c year found him in is out-of-company room with SSL and QAS, it was the perfect place for late night videos. An anonymous letter to the Batt Officer quickly ended that. 2/ C year Mike found his new loves. A girl named Kacey and Glenn Danzig. 1/ C year Mike, the only firstie under 21, became company DAPA. Although he is Jewish by birth, he is Oriental by nature. If he is not sampling Korean delicacies, he can be found at the nearest do-chang practicing Tae Kwon Do. Hey There, What's your name...Cuddles? Kitten? Without a doubt the model midshipman, and voted most congenial by his peers. Sheathed in a rebel flag, "Mr. USNA" waged a constant war against cretins, legubrians, mouth breathers, kreplocks, lizard music, the systems department and the War Room. I know what you need--PT! A Gimme Some!!! Luckily, we had such stabilizing forces as puppies (Da Fudge), Debbie Sue (who progressed from squeaker to ropey), a Marine flight billet, and knife throwing for fun and profit (ask BRZSKI). Hailing from below the Manson-Nixon line (We got him now, Bubba!), Smiley had never heard of grunties, wrinkles, or vibraphones, and would never accept supreme executive power from a watery tart. I have no doubt you will be an outstanding member of the Starch Corps, except when camouflaged, and that you were born to be the Commandant of the USMC's dream/nightmare. BAA

Quwan "Cisco" Smith blew in from the streets of Queens, New York and I must say he's not half bad for a Yankee. To strangers he has often been misunderstood and unappreciated. Yet to those who really get to know him he is known as loyal, dependable, and to me as a best friend and brother. While on the banks of the Severn, Q spent most of his time collecting parking tickets and in the few remaining moments concentrated on academics and underclass relations -- NOT. Over the years we have all gotten to know first hand the power of Quwan's mouth. Even though its got him into trouble, it has also broken the monotony of this place and has given everyone a good laugh. In a few months Quwan will be shipped off to Japan and will spread his charm on the rising sun. (And they thought Hiroshima and Nagasaki were bad.) Best of luck Quwan, God bless and thanks for the training. MAX.

At 6'3" 265 lbs, Bobby came to USNA to play football. But, soon Bobby met with food deprivation and the rigors of plebe summer. Alas, a substantial portion of Bobby will remain forever soaked into the pep field. Now at 185 lbs, only a mere sliver of the man he used to be, Bobby resolved to abandon football his youngster year. Bobby will embark on a land job in the wonderful world of public affairs and protocol, thanks to the colors: grey and pink. Does green look white at a certain distance to you too? Let me know what color the stop light is. Being a nice and caring guy Bobby had many beautiful memories while at USNA. Hungry eyes, the PRTs, U2, 12 roses (just because), many movies at Jumpers, San Diego, Trident light, Viva Las Vegas and more. In the final analysis, mind triumphs over matter and the will to win is more crucial than the skill to win. Thanks for believing. God Bless and good luck! \*JCK

TOM! Plog, Grog, Unga, the link, no matter what the nickname, Tom will always be the gentle giant to us. From the beginning, we all knew that Tom was here for one reason and one reason only, and that was to WRESTLE. Tom spent more time in the wrestling room than he did in class. After Duttera and too many hours trying to put the little dot smack in the center of the screen, a few axes didn't need to convince Tom that GenSci was the faster road to EIWA and Iowa City. For most of us, the rule was half your age plus seven, but Tom usually just settled for half. Blotto always brought ice tea and pinch bread for the games. Tom had a hit for all occasions because unfortunately, for most of those occasions, Tom was unsat. By the time that Service Selection rolled around Tom was the only one who got to sleep in; he had the whole board to himself that afternoon. We wish you smooth sailing until Coronado! SCR/RFD/JSC

Dave arrived at USNA via NAPS and the fleet straight out of the bayou. This ragin' Cajun spent his semesters at the top of the company in performance and grades until his major sent him to the cheap seats in the EE department. Despite setbacks in school, Dave never lost his motivation or his frisbee. After commanding the Regiment at Naps, Dave returned to lead the company and didn't pull a JR until his tenure was over. Undaunted in his faith, Dave got a full course in how the other half lived after moving in with Steve and even took to enjoying a few beers more often than not, esp. Parent's WE. Dave couldn't keep all of the fun to himself so on SprBrk he introduced the crew to his family. Dad's glasses were as thick as Dave's but he could read the vans. A through Z school the Rickover way haunted Dave until he pulled a fast one on all of us. Submarines aren't the only marines, Semper Fi! SCR/RFD/MED/JSC

FDuring plebe summer, June Bug started a fad by wearing 20 nametags on his whiteworks and became the 1st 4/c to serve as platoon cdr during HIS OWN PLEBE SUMMER! Being the stellar mid, Revi Ramos chose systems engineering only to change to a new major-RACK, I mean Econ. A secret was never made to be kept whenever Curious George was around (excellent gossip, I might add). 2/c year he redefined Webster's definition of flamer, but professionalism did not stop the mischievous Weasel from e-mail chain letters and a date w/ restriction squad. I'd have to say 1/c year was Shepi's best. I have never seen anyone happier than Kermit at service selection. Congrats, man! What do you mean you have never heard of Kurt Jacob Zahnen? Annapolis certainly has - the Academy will never be the same. Ft. Laud., Fla. never produced a more dynamic character! Obviously, living his early, impressionable years on the family yacht destined Kurt to sail the U.S. Navy's "Seven Seas." Sometimes he lost sight of this vision Fate wove for him. Perhaps Florida State remains in the back of his mind - looks like Grad school to me. Kurt. Need to confirm the latest news? Update yourself with Rumor Control Zahnen. If its juicy, he will know - if not he'll make it up. Need a drill exempt excuse (ie. rack)? Try: D&B, shoulder, training, how about a knee - convenient. Four years together by the bay. The sole survivor of a plebe room decimated by academics and honor boards, Britt grew to 205 lbs as one of steerage's preferred customers while living with "Bad Company" 3/C year (before his Grab & Go diet). Cheers to a size 8 head guy who hangs up after 3 hours of mommie, pops, or a number of different women and then gripes about grades and no free time. We're glad he got rejected at UVA 3/C year and realized that a Dodge Stealth, 5 speeding tix, cowboy boots, and stacks of phone # filled bar coasters does not equal SWO or JAG. After a 5 for 5 football season 3/C year, "Biff" thought he found Mrs. #1 at Sweetberry. However, 1/C year he found Mrs. 2,3,4 & 5 simultaneously. Hoop 22 came here with a dream like everyone else determined to be the best - only she thought they meant at basketball. Four years later she is still spending more time with a ball in her hand than a book...priorities! Some memories of my four, always interesting, years as her roommate: Capt Morgan's, and take it from Heather, it's difficult to make it through the National Anthem hungover; Group 11 and the log (funny, the person who kept it appeared in it the least); the ticket in Louisiana, lucky it was just for speeding; fan fights with AS; Turbo (and I thought Boxing Rings were only for boxing); "I'll never date a mid!"; and conversations in the dark that brought me closer to a best friend I'll never forget. So now she is off to Europe (no, not the pros yet) to, strangely enough, go to school. Then, Pensacola; it's a good thing there aren't cops in the air. CAM

In the course of four years, Chip (When Cameron was...) perfected the art of sitting in his chair and staring at nothing. I'm so %\*#@'ed! Nothing that constant rack couldn't cure, though. He enjoyed the love and joy of the first class his plebe year-- they were always gathering around him to shower affections on him (and his pillowcase). As a youngster, he brought pride to the institution by single-handedly decimating a local college fraternity (chess club?) and by climbing the highest trees at the KOA. 2/c year brought him firmly into the grasp of a certain meow who whipped him into proper shape. He saw her every chance he had and even took a few he didn't have, so he will forever be remembered as the firstie who shot from XO to wardroom rep faster than a Rhesus monkey can .... then racked through 45 days of restriction without missing a single muster. The albino rhino entered the academy with impressive credentials. As a master of anatomically correct Yoga tricks as seen in "The Silence of the Lambs" and the only Texan in recent memory to fill his nasal passageway with three dollars in quarters, he earned a unique place in the hearts of many of his classmates. As a member of the DMZ for an entire year, Coley has a great appreciation for the high standards set at the United States Naval Academy. Growing up in smalltown Geneva, Chris probably never imagined living w/ the likes of Psycho-Sweat, Fruck and the Chitmaster. The smalltown jock was exposed to a variety of challenges. The greatest of which lay not in the Systems major or the Academy regimen, but in the 3 year adventure living w/ me. Tetris, the Pit, dip spills, the line of death, Soccer Locker, Fry Shield, Band Pass Filter etc. Chris' only faults were 1) a dabble on the other side 2) his distaste for country music 3) his favorite football team - 3 time losers and 4) his bullhorn, wallshaking snore that wakes the dead. Chris carried my cross to graduation and I will be forever grateful. I will miss our late night discussions and your shoulder to lean on. Run silent, run deep, make money and find that #10. JH

Logan arrived from exit #3 in NJ, with an itching desire to become a man twice his size. We almost sent him back claiming he had lied about his age. All the way from the BSRT, tile floor wrestling, biting showers, to fiery stripderdom, his way was marred by fun. Trips to D.C., drinking, the beast, aspirin and hangovers, buckets and sponges for cleanup, Logan's left broken hearts from Jersey to Colorado down to Mexico, and don't forget Canaan Valley. Some were remembered, some weren't, what was her name anyway?; but his affinity for tall women caused problems during slow dances. His parents could teach him a thing or two about throwing a bash, A/N. Mr and Mrs D could pack the shots, JD and CR. Doles is the only plebe to know all 27 Laws-Of-The-Navy before plebe summer. He thought he knew it all until he entered the plebe rate contest, it was good to see him put back with the peasants. Football is a strong point and paid off in the end with TV time, strong friendships and 1030's. And let us not forget the season of SNAPAGING. Enduring faith in God held him together along with extended periods in the sacred rack. During our many study breaks from his "pressing" English assignments we experienced Baja, The PIT, and other various hot spots. Learning to work hard came naturally, but experiencing the finer points of life proved to be more difficult. Over time, and after the Ring Return, he came to his senses- meeting the opposite gender was not our FCA Prez's specialty but once learned he became an expert. Hammer came to us a street wise NYer and has since been trying to find himself in the boxing ring and on that field of dreams called company slow pitch. He is perhaps most notorious for his wrestling skills, grappling with ideas ranging from jarheads to subs to seals to air to fertilizing pumpkins and even nearly pinning a certain brand of whiskey. Hammer insured that Fun One '93 would have a real plebe year to the end, as he conveniently departed early on 3/C cruise leaving his classmates to scrape his yellow 1's off the monuments hours before Herndon. 2/C year saw Chumpy abusing Nats (Yowee! No PE for a week brigade!) and his newfound driver's license let him scare the !\*@& out of drivers from MD to the Keys. It's too bad the Yanks will have to wait 20 yrs to pick him up from the Navy. He's not a bad 1stbaseman for a guy who throws with the wrong hand and hasn't figured it out yet. Haauggghh!! SRM, WM

Hey there, Goofy! It's hard to believe that the gungy little swimmer who arrived here 4 years ago is now SWO-bound and still chlorinated. What's going to happen now that the neighborhood problem-solver is on her own? How are WE going to survive without you? All the trips to your house- hot tub, tennis, mom & her cider, dad & his chairs- and the trips to NY are just fond memories. Not to forget Grandma (murder party). For having to be the first person that KSK met, you've survived nicely (helped by Bartender's Guide). White shoes, got 'em? You rid yourself from the Jeep and stepped into the BMW (no gun-rack). It's a much nicer way to cart around the chips & salsa and peanut M&M's (green, of course). You've come a long way from 3/C drill to the Honor Staff- we know who did all the work. Keep the flag flowin'. We wish you the best of luck, Kelly; you'll be a great success. See you in Nov. KSK DJW

A local hero, hard to believe "Howie's World" has gone this far w/o getting strangled by a roommate or girlfriend. After wonderful late evening experiences such as VA Beach, Alfred, Brownstain, his Ring Dance Date and attempts to win many coveted naval decorations fit for bannanas, he has chosen to wake up at the crack of dawn for the rest of his life (you would never know by the way the phone rings all nite). After 2 reigns as CC, he mastered meeting deadlines (1 minute before the absolutely last extension), especially med school applications. After adopting him 2/C year, he created NORAD in our cave (2 phones w/ ans. machine, fax, 2 comps & printer all on 1 desk). "Ever heard of Oedipus?", not picking up the check at least 2 nights a week. Howie, taps, not the start of study hour, goes at 2400! If he doesn't join Hell's Angels he'll be a hell of a surgeon. Good Luck Doc. TK.BB.

EjHAN came to us from every Spanish speaking country in the West with brief stops in NJ and NAPS but his brain was Encyclopedia Britannica. Thus, after years spent programming the PC on his shoulders CompSci seemed the only choice but HANdom was his calling No Mid has ever known more about the BIG RING & Ej and Cycle could be seen going out when the mailman wouldn't dare- of course Ej has done more to re-surface RT.2 than MD...fortunately there was always gauze. We worked on Social Skills only to see Ej dogged by the only BIOCHEMIST not interested in ANATOMY or COMMITMENT-oh well, his only true loves were FIGS and COLNAGO-which required loans from HAN Mutual. At the wire he zoomed by us passing up the Nuke bonus. What, no criteriums under water? Hopefully they allow rollers in silos. Forever may the sky be clear, the road exciting, and the final sprint yours. AGGRO for EJIS. SD & O'B

### *Nuclear Power - Submarines*

Brian "J" Jurutka chose The Boat School based on the fact that his father was an E-9 in the army. He was destined for the higher echelons of the midshipman chain of command from I-Day. Second-class year he ran into two speedbumps who took him under their wings and gave him a little life. His grades came down to that of an average mid and he even spent some time in Smoke Hall, although he should have spent more time there because of his driving. We all learned that his thirst for beer must have come from his German mother, but his tolerance must have come from his Korean father. Probably lack of an enzyme. Right! Some West Virginian coffee tables will never be the same. That was when he wasn't busy being a human canvas for the artwork of the company. Second semester first class year he became Company Commander. If he would have only known what he was getting into. MCR, MKWS

July '89, HG said, "Who does this belong to?" If we knew then what we know now, it would have been obvious. Walking Church Circle, Dahlgren, GA. or D.C. - old or young mattered not. Luckily, Capt. America couldn't catch his tieless, coverless, shoeless, phone number laden Gate 3 to 3-0 sprint. "If I'm ever gonna get caught, it's gonna be for something good". Good thing you never did 'cause there was plenty of good gettin' ("Who was that masked mid?" cried DOD Police). "C'mon, Gimme some!" Chokin at the can in Bad Co.; slap, slap next to Howie at Towson. St. Delaware was the only one to steal his heart and stay a saint. Still the best point man, he always puts up a good swordfight. Sniff, Sniff - AWWW, Cheez! Possibly the gungiest person to ever grace the p-ways of Bancroft, Air Maier arrived on I-Day with a pair of soccer shoes and pack of disposable razors. He soon traded in his kicks for a squash racquet but he's still doing battle with a perpetual five o'clock shadow that has had him braced up or in the LT's office for four years. After the traditional plebe year Dear John letter he bounced back to begin an east coast hunt which has produced numerous kills. Youngster year climaxed with his selection as Fun One's Bulldog contestant which he had the wisdom to gracefully decline. 2/C year gave Steve the opportunity to show off his much envied TQL skills as he conducted come-arounds from the warmth of his rack. To finish off his sentence of four years in hell, Steve has become the LT's one and only "boy". He's still thanking the Lord that he wasn't chosen to be second semester co. cdr, De Jabba! FCG, WM

This sweet, naive girl arrived at USNA directly off of the watermelon truck from Tennessee. Bambi's natural affection and sweetness won her the immediate prize of being the "Social butterfly", until the Butterfly Catcher. Her youngster year was quite a MEMORABLE one. Her knowledge expanded by leaps and bounds in the "sport" of soccer. Until one day, her heart longed for something different. Aaah yeah, hockey..this was the "sport" that she truly loved (I hate to say it but I told you so) Second Class summer found CM a new identity as "Miss Scarlet" and the newest craze...the Tennessee Bop. "Why excuse me but are those Tennessee shorts you're wearing?" Today, she is a strong young woman, so all you NIGHTSTALKERS beware (Who are you..Stop.Go.Okay) because this girl don't take no' mo' \_\_\_\_! Darlin, you have been the best....I love ya. HDB

After stumbling out of a Columbia frat party and into a Navy recruiter's office (DOH!), Bill Fish washed ashore on the banks of the Severn. He soon realized that he was a midwest land shark, and has been trying to return to his roots ever since. His x-country career lasted only as long as plebe yr team tables, by which time he took up varsity rack and perfecting the Heisman. He kicked off his drinking career 3/c year, and after visiting many bars, on New Years he finally ended up behind some that only served bread and water. 2/C year saw Bill being traded to West Point, which wouldn't keep him. Disillusioned by military life, he began preparing for his true calling with the Hell's Angels, picking up a Sportster, eagle and a spare tire at Ram's along the way. Brigade stripes meant less work and more time at an apartment clarifying his marital status. Sell the ring, dude! SRM, FCG

Ef, your coach called, what should I do with the note? Although he's no Rhodes Scholar, Ef sure has been to Oxford a lot. Three day weekends would see the Eagle Talon, with full ESM suite, take off for major road trips. Ef was in with the King Hall workers [Sunshine, more soup]. Are we ever gonna give this hot plate back? Weekend room standards came to a screeching halt, clutter, clutter. O.B.Han came to us from the sand and the waves after a brief interim at NAPS and spoke surferese so well we needed translators, but first we had to help him understand the upperclass. Of course, if professional life was OK academics was never OB-in fact, he still hasn't taken enough weekends for Youngster quota. Still he passed- he must have if his picture is here. Ron came to USNA after attending Northwestern Prep school and Chico State and never lost the "party school" attitude. Plebe year he earned the nickname "Mr. Perfect" because he was never wrong, just ask him. However, we let him hang around with us because he had pretty cool sponsors. He had a pretty interesting Thanksgiving Break with "Hoover" that year and through his four years never did learn about "the force." She was pretty cool though, so we let it go. Youngster year saw the beast, drinking, diving, and what was her name, anyway? (or was that 2/c year? Oh yeah, then, too.) Pilots didn't have enough testosterone so it was SEALs for Ron. Maybe that's why he enjoyed PT-ing the other conditioning squad instructors til they dropped. First class year saw the onset of Ron's "ball and chain" and moderate domestication, but the SEALs still got a good man. WLD, MKWS

Mark, excuse me, Rey, when did that change anyway?. He came to us a gigolo, and after some reform we thought he'd be leaving us as a somewhat respectable Naval Officer, but a late firstie year excursion proved us wrong. How was Western Texas anyway? Rey always got the best letters from the girls, "Thanks for lying." How's the list anyway - don't worry I have pics. Champion of the pig push. He likes fast bikes, cars, women, and 12 ounce curls. Single digit bank accounts. "We Who? You got a frog in your pocket?" He is one of the few mids who actually slept through the A/N game. Mr. White Works. "Can you help?" "Yeah, I'll get right on it." "A.K." came to USNA from an ultraconservative, rightwing city named San Francisco (via a memorable year of extra military instruction in Newport, Rhode Island) and has been living a life of conformity and restraint ever since. If you don't believe this, you probably never attended one of the herbal tea parties in her room to listen to the "Funky Worm" or accompanied the "Shark Woman" on an expedition to DC in search of a "vegetarian restaurant that also has a good bar." In addition to all of these extracurriculars, somehow in between taking unauthorized jaunts to the Canton Gardens (that she made me go on too) and making weekend trips to Canada for... Akane became a world class sailor and a political scientist of some repute. The "key point" is that A.K. is a good friend, a cool person, and will be successful in whatever she decides to do. Matt was admitted to USNA from NAPS solely on his "leadership potential." From the start he was determined to have as much fun as possible and managed to spend essentially four years on leave interrupted only by an occasional academic effort. Plebe year after dehydrating himself and wearing sunblock "0" he decided "I am the sun!!" Youngster year sent him to Sweden (and Smoke Hall). "Why yes I speak Swedish, I've been there seven times." "What's wrong with a little mack trucking?" That year also brought on the beast, drinking, driving, and what was her name? Throughout his time here, Matt has managed to adapt and abuse every language known (and some unknown) to man in what are now affectionately termed "Seiptisms." First class year he became the proud owner of the world's most expensive fake putter mug sold exclusively at the Ram. We leave him now wondering do SWO's get to wear green? WLD, RJP

Mike was scraped off the surface of a liberal cess pool and deposited on the doorsteps of the Academy. When push came to shove, he was the top plebe, but eventually he decided that he'd had enough of a certain flamer's attention. Youngster cruise in San Diego, he picked up a souvenir that he had a hard time getting rid of. Youngster year saw him trade in his gymnastic shorts for a more comfortable blue magnet. Who can forget the Chinese Empress he picked up in the barnyard of NYC. As a frequent flier on the Sato travel program, he was always getting bumped from his flights. Ahh, what would first-class year have been without recycled carrots, the omnivorous drawer, and studying for whiz quizzes in the sink. Rob reinvented mass-electronic-communication on NATS and was rewarded with no X-mas leave for his ingenuity. Remember flame throwers during blackouts? I sure do! Robbie managed to keep his grades 'spectable despite late night trips to Tracks although the OBITS showed otherwise. GO PHYSICS! After being a masterdebater, Rob found fun in the tri-club...now he's heading for sushi and an apartment as cluttered as he wants! Her first love captured her heart with leather jackets, rings, money with no explanation. This unexpectedly ended when he CRUZEd to Lvnwrth. Her next adventure was scuba lessons & she made quite a splash! Her instructor even personally escorted her to Key West. They had fun, but the bubble burst when done. Kath GAUT right back in the saddle with her buff ring dance date Ken & Barbie with Colgate smiles made the perfect looking couple. For Kath the perfect hotspot was Franny O's-the romantic encounter with the SMARTest man turned out to be a dumb move in Key West. But Thank GAUT was there! "Boedekaa" came to the Academy with one intention, TO FLY. With the help of Jensen and Sal, Scott (the brain) was transformed into the "Model Mid" until Youngster year when he made the mistake of living with Jack and Martin who corrupted him forever. Whether it was playing with Capt Mac's mind or spending time in Smoke Hall, Scott was never the same. We will remember you for..."I wanna sing Sympathy for the Devil!", "Speed is your friend!", "Sir, you should change the drinking age to 18!", "Let's go to the Ram's Head; I need to finish my card!"(Will you ever finish the Trois Monts?), "I came to Montana to ski (& snowboard)", "He's pulling a Furry". Redheads...Todd is the only person we know of that made up his own nickname and it actually stuck..."Recon." But he's not Mr. gungy, an aspiring Marine or Seal. Instead, he sold out to be a bus-driving Air Force warrior. He is one of the few mids that has had a girlfriend everyday for four years and fallen in love with every one of them. He has to study with the lights off and if you try to eat some of his food, WATCH YOUR HANDS and don't touch anything. He came to us thanks to Bill and the Babe whom have allowed unrestricted use of their home (thanks!) as long as you're willing to spend a few hours working it off. Todd's a product of Naval Academy nepotism. His father graduated (also a bus-driver) from the Academy, so it was natural for him to get three-stripes not one, but *both* semesters. This devil dog came to us from nearby VA though you would think he was from another continent with the few times he has called home. He is the only plebe in history to get his head shaved at the END of plebe summer as well. I knew he was a bit unstable when he decorated our door at Christmas plebe year with Terminator Santa Claus. When he is not too busy terrorizing the dance floor at any bar or harassing young children at the local arcade for the secret moves of Mortal Combat, he is unconscious. "Moderation is the key he always told us. Yeah right. A quiet guy most of the time, Mike is truly a menace to society. On a more serious side. I have never met a finer person. He has been a constant in an ever changing experience and one on which everyone around could always depend. He has become a friend for life and I feel lucky to get to serve with him in the Corps. Rebel is, I mean, ya know, a man of few words but many demerits. But it only takes a few words to create a legend. I mean, how do you describe a man who takes a firstie weekend as a plebe, drives his car on the yard during MPSS, and has several unawarded "Black N's." Rebel has spent four years on the Conduct Office's "Most Wanted" list and will serve his last day of probation on May 26. To stick with his good points, we won't mention his academic prowess (Square Root Club ring any bells?). Never far from a can of dip. Reb often gets vacuumed, being mistaken as a permanent fixture in the wardrobe. A should'a been All-American, Reb was a four year star for Navy water polo, despite his close and "loving" relationship with Coach Scho. Debs..who really knows where she came from(or where she's going for that matter). Always a wild & daring spirit she still somehow came to USNA with a great deal of innocence. Even after a little B&B, handling some not so B&B, trips to Grandma's, conlocker hideouts, that get away by the bay, and various other deeds that earned you a Black N, you are still sweet and "somewhat" innocent. Plebe summer was tough but you did it and what a terrorist, gestapo from hell, flamer 2/C you turned out to be. An academic sweat you always were; sometimes it was just plain necessary, but 1/C year taking your books in and studying at the bar? By the end of plebe summer she had dazzled the B-ball coaches and walked on to the varsity team. 2/C year saw 50 fun-filled days of restriction with Kim's one day off spent fixing a blown-out tire. Study hour was renamed laughing hour and provided many a night filled with dance breaks, flashlights, and jokes about the stupidity of mids and men. As the years passed, Kim spent less and less time at USNA. By firstie year, her mail didn't even come here anymore. Between her men, her parties, and her business ventures, she'd better have her "dope bachelorette pad" lined up within a couple years. Although she was planning on gracing the Marine Corps with her presence, the Navy now gets to deal with Kim for the next five years. You've been a great roommate. Have you ever been thumped by the devil in the pale moonlight? From Las Vegas this dawg brought his own language & could always point out the blahs and dahs. Jack, also seemed to have a problem finding a tissue, & all his friends needed belts. Youngster year brought Jackie into the bartending scene & a new record for most classes skipped. Young Boedecker tortured by the A-licker with help from the Damians & a Jamaican roommate. 2/c year: Piles, piles, and more piles. Mount Vernon, why? The first EE scandal, and the lab partner who turned you into a Monster. \$8000 in 4 months? Some drivin' fools...Heres to parking in a fire zone on the sidewalk, Chinese Food, and the fact that we somehow made it through here (So far). TC-Thornton Colorado. What four years you have had: plebe summer attitude, living at the roamer's table, "I have given a name to my pain", writing like a 3rd grader, attempted kidnap of a cheerleader, Herndon monument of beer cans, sailing through a hurricane to Bermuda, YP run aground, battling dark forces, brush with death on country roads near Hood, UA-no plebe detail, summer on restriction, flame time, the Four Horsemen, Homecoming fun, skiing in CO, Spring Break cruise to the Bahamas-"I kissed her first!", see ya Beeker, Ring Dance weekend-"Hey J, can I borrow a... ", summer cruise flying in California, Tiajuana--10 beers-10 Tequila shots-10 bucks, turbo Probe, summer two timing, close one at USAFA, weekends dancing in search of babes, and finally, Navy Air! You persevered and made it. We've had a lot of truly great times, and you've been a great friend to all. Watch your six! JEJ

Dave who? Dave came to us a a soft-spoken, well mannered(?) liberal, Catholic boy, but it didn't take us long to change all that. It took us a year to figure out he lived in a study room in Nimitz with only infrequent visits to Bancroft. The man who seemed destined to be BC, but got 5 stripes and a RHODES Scholarship instead is the only truly gungy SWO we know. A 3.99 earned him a spot in Griffin's scholastical elite club, too bad beer effects his memory, especially where bathrooms are concerned (No Dave, that's the closet.) He traded his sailboat for a crew shell after two years and decided '95 was too HOT to handle. Remember: 3/c Army-Navy F-ball, "Turccooo," "Did we win?," Why you always diss'n me? Skins-Cowboys, late nighters with the Boss and Clapton, & "It's not a tuma". Don't blame us-we voted for Bush. Thanx for coming to your (or any) party! Peace & See ya. Have fun at Oxford! Our very own liberal, little, eskimo who HATES cold weather. Go figure. She twirled her way into our hearts on the D&B Flag Corps, but then decided she was destined for bigger things. Powerlifting. You wanna do what? A lot of work later, here she is a National Champion and the Baddest Bench in the Brigade lifting very big things. Quite the little hard body. Raccoon skins, funky music (Nine Inch Nails have got to go), and FJS, you brought all kinds of wierd things home with you. November Mike was the dream that didn't quite come true. Tanya has been afforded the luxury of being from Maryland from sort of nearby Hagerstown. To look at Tanya, one would say "Hey, that girl is the model midshipman." To know her, though, is a different story. I've often wondered how Tanya, or "T" (as I affectionately call her) has put up with the many constraints of the life of a midshipman. The woman who can 'house' all night long, intoxicate herself silly (watch out for those shot glasses!), do new and exciting things with her hair ('Pinky'), be Princess Leia, sew her toes together for BEAT ARMY week, bite the butt when she has to (LOOK OUT, MARTIN...), eat macaroni and boiled eggs for an eternity, shower with close friends at their convenience (Shrop), travel to Norfolk for nine hours, relieve herself in the trash can, strip to Venus, ...able to leap large @\$\$%\*& in a single bound...LOOK...IT'S A BIRD...IT'S A PLANE...NO!! --It's only Tanya. That guy across the bar? The one with the quarterback smile and lineman build? Yeah, that's Tom "Frannie O's" Milanette. Sure, you can ask him to dance, just don't stand too close. If you're nice to him he may tell you one of his forum-quality anecdotes. His "Truck-zilla" is parked out back and loaded down with his favorite fly fishing rods, every Elton John album known to man, barbeque grill, *maybe* a day's supply of clothes and, of course, all the M.G.D. an African Bull Elephant can drink (ar,ar,ar!). If enemy ships looked like fish, Tom would be the next Norman Polmar. No, I've never actually been to Lake Winnepausaki, but I do have nightmares, er, dreams about it. Don't let the smell of his hockey equipment paralyze you, the clothes he's wearing are clean, just go ask the owners. But seriously, this guy knows how to have fun, and if you're not careful, the big lug may become one of your best friends. DAW

When Lang came to the Academy, he was a good ol' country boy (and cheerleader?) with a temper the size of Texas and a stubbornness to match. After every leave period, it was inevitable that he would state "I met the girl I'm gonna marry." This included some acrobatic stunts on the roll bar of his jeep. Finally, enter Trish Fawkes. "Trish what?" Now Lang's temper is the size of a local 7-11 and he has transformed into a complete pushover (Homo Domesticatus) Remember: The 1st Summer Whites inspection, errant projectiles that hit the mark once (the chair), the window of 5-3, the door that wouldn't open, barely making it back from the O's game due to the technicolor yawn while driving a rental, political arguments with DKI and all the FUN with Disy (boy, that Cope tasted good both ways). Jeff arrived with a year of Texas A&M under his belt, and quickly learned that "No-Salutem-BOOW" and T-shirts tucked in underwear were the way to go. Plebe year blessed Jeff with an extra roommate, but she was not for him. Excursions to the dark side proved fruitless, but he found his future Texan wife on a blind date before 2/C summer. 2/C year brought a Yankee roommate, the Four Horsemen, dissertations on the wonders of Texas, and games with fire, knives, and explosives. It is a wonder no one was killed, or tried to kill him. 1/C year saw Jeff running a radio station, trying to resign from the Academy, fighting medical for pilot qualification (he won!), enduring Arctic room temperatures, and spending weekends either on the phone with Kim or chaperoning the guys on their girl hunts. We have had many laughs and good times, for which I am thankful. You've been an awesome friend. JEJ

A big place called Texas was where Les was found. Cistercian Prep and baseball, his resume was sound. A history major- fifteen hours a semester, worried about better things we found our loved Lester. He liked INXS and U2, and country- of course, plus giving refs hell, and riding a horse. Sleeping his youngster year away, what was on his mind? He had to stay up at night to make Kath Valentines. Second Class year was full of beer and girls. Remember your birthday when you had to hurl? "I promised I never called her, guys." But he still took out Belcher, what a surprise. The girls of the Brigade knew him well: C-M, J-B, and others I won't tell. Company Commander first and second class year. Being his roommate wasn't so dear. His service selection wasn't subs or FO, but U-S-M-C. Oh what and a devilish devil dog Les Pritchett will be. MMC

Following in her big brother's footsteps, Lil' One came to us as a naive Southern Belle right out of *Gone With The Wind*. Her talents and tenacity (stubbornness?), however, soon showed us who she really was. Whether it was the late nights of ticklin' the ivory in Mitcher, writing love songs, or perfecting her black belt form, she never stopped surprising us. 2/C summer brought two new "roommates," definitely more headaches, but the start of a lot of fun. Amaretto Sours, trips across the country, and the water polo fan club opened up a whole new world. A never-say-die runner, Sarah endured four three-season years of "Bertha," Halsey and Ingram Field always leading the pack and the spirit of her teams. John Sahlin has gone through many changes during his four years here. He has gone from a man stuck in the seventies era to an engaged grad student. In his years here, his changes are most prevalent in the places he could be found each year. Plebe year, John could be found writing suggestive letters to his former girlfriend, passing out at the Herndon ceremony, at Reb's post Herndon parting sipping beer in a dark corner of the garage and proposing to D.D.. Youngster year found John placing 7th Co. on restriction by forcing plebes into scandalous serenades, at 7-11 in cammies past taps, on a brigade phone dialing 1-900 numbers, and bumbling down the streets of UVA. Second class year John could be found as a member of the Four Horsemen flaming on Becker and getting engaged after knowing each other less than 93 days. And Senior year has found him in many places but none of them at USNA.

Let's get one thing straight, Wink isn't ordinary. He is unique in every sense of the word. Sure he wore the uniform and played the game, but from the start, the little polish fellow from Beerville, Pa. seemed to play with a different deck; a loaded deck. Yeah, he still had his follies. He never did learn to keep his hairs on his head, and if you bring the guy out partying in uniform he may show you how to decorate Denny's... or your uniform. He's also the only person you'll ever meet who had a b-ball net stuck to his head. His better qualities however, are what make him famous. You couldn't find a person more willing to let his roommate vent his frustrations or lend out a pair of tighty-whities. A true master at the art of arguing, his views and ideas (known as Devinism) will one day, I'm sure, be worshipped with those of Aristotle and Socrates. Don't give your morals away Dev. RTM

Mookie came to us with gills and fins and much more motivation than we could handle. Little did we know what trouble would aspire once he offered our personal time away in lieu of an S.I.P. Youngster year came along and Mookie ran into two old faithfuls, academics and the rack. After a majors change and many violations of other's racks, Mook decided to follow one ideal: Let's rack and eat our way to graduation! One good note though, he FINALLY met the love of his life. The only problem was that if he wasn't horizontal, he was a ghost. I guess Crofton isn't as far away as we thought. Mookie did have a few good traits though. He beat calculus and diff eq's away with a stick, along with many roommates. Shaving cream wars, 5 A.M. practices, an abundance of frontal assaults, and the first to become engaged, Mook was a leader. Good luck with J and have a good one. Semper Fi, mijo. MPW

"T" left the Hoosier state to come to USNA in the summer of '89. He spent plebe year trying to prove his company officer wrong: "Mr. Brown, you'll never get a 3.0, but I do think you're better than a 1.8." He never did quite make it to 3.0. After the deadline for his scholarship to Purdue came and went, he settled down to work, though he did see the insides of Purdue, thanks to his two new friends. Youngster year he made his mark as the only one in the company who DIDN'T decide to leave USNA. 2/C year, T decided to start studying. The mega program lasted...one week. Then he decided to lift. That lasted...one week. Then he decided to sleep, and he's been happy ever since. 1/C year, he entertained the entire town of Annapolis and most of the brigade in Griffin's and on 8-0 when he became legal. Through it all, he's been "my boy" and will make his mark wherever he goes. AYH

*Michael Angelo Cesta

Mike came to the academy sporting his 'flock of seagulls' doo and his O.G. fresh pimp getup attitude, enlightening us all with his intimidating gangster sign language. This short, hairy, captain caveman looking, italian stallion achieved fame throughout the brigade by not signing off correctly on NATS. After a short stint of slugging on the baseball team, he went on to use his head to beat up the brigade champ's fists. Finally, this athlete settled on the 150 pound football team. To lose the fifty pounds, he stopped going to three daily grab and goes, cut himself from the fat man's tables, and had fun jogging in the sauna. According to TG, he looked like a black-haired FLATS. When this tough-guy wasn't brutalizing defensive lineman, he was getting slapped up by fillies in Fells Point, or running in the halls in his b-day suit screaming "T!!!!". Best of luck in the Corps & with MM! TLM, MJS

doo dee doo...It all began plebe summer: "I guess I have to help her," short hair, honestly blond, halo in tact. Crew was a bonding experience, and how 'bout those ergs (couldn't have done it alone), mighty keeper of the bow light, and Dad Vail gold-sweet! (Good job-go tell your squad leader.) Blondie's halo made the jump to the mainstream 1/c summer-or was that a short trip to the dark side?? (hey quality, not quantity) She soon became addicted to coffee (and bagels)-Chick & Ruth's, 2 a.m. (uh-oh), next came the incense and candles. Before we knew it, she was hanging with the Johnnies. Did you ever get your bath in the footed bathtub? And then came the jeep... jeep - wait, where's my roof? Earl W. Checkley, a.k.a. "Brother Earl", "Chex" and just "Cool". Earl was a very "hard" worker. He spent countless hours roaming Bancroft. No wing was too far for him to reach, no deck was too high for him to climb. No late, past, outdated, old, or due assignments were too hard for him to bamboozle and hoodwink. Basically if you didn't have it, he did. He will always be known for grabbing the joint. He was always true to the game; Known for getting a good night, or if necessary, a good day's sleep. All in all he was a class act with a dope ride and some sweet gear. As Battalion Honor Chairman, he was a jokester. And when he wuzn't trying to run track, he was rolling with his boyz in the Beef Cake Crew.--JJ, WV, & MB

❖ "If you sleep 12 hours a day, you only spend 2 years here." Unable to make the cut on his first try, Cloud came to USNA after a year in the minor leagues at NMML. After a shaky Plebe Summer, this Viking of the Severn proved his doubters wrong with his impressive performances on the PCR and Chem Final. A card-carrying member of the 2% Club, he always kept us guessing where his lovelife was headed. But don't let this Romeo fool you, his 1st love will always be his laptop. USNA had Mike's incredible work ethic in mind when they designed the Comp Sci Major. After taking 3/C year off to get reacquainted with his rack, Clydes once again heard the call of the boathouse (and the Dark Side). We'll never forget MJ's bizarre sense of humor: thanks for all the laughs. Roommates the whole way through, we gave new meaning to "four years together by the Bay." You're in my prayers-CGH.

❖ Chuck was born in a log cabin on 20 August 1971. He applied to the Naval Academy because of its rigorous academic program and he had visions of being a Varsity Swimmer. His hopes were soon dashed by the Swimming coach, but Chuck was undaunted and continued on. Chuck survived by the skin of his teeth. Chuck "Surfed" through Plebe Summer and a certain second class who will remain nameless (J.K.-captain 150's) made Chuck's life into a walking nightmare. Which wasn't too hard, considering that Chuck had regular nightmares in which J.K. chased him through Bancroft. Through it all Chuck kept his chin up, (which provided a great target) Chuck finally made it (we hope), and now the real world can get to know the Charles Converse we know and yet fail to understand.

*Scott Edward Conway  
Catonsville, Maryland

Scott E Conway (adding the 'E' makes his signature look more dignified) known to you and me as 'Crank or Creskin' came to USNA from the Baltimore suburb of Catonsville, 'Hon.' His appearance in uniform is exemplary, especially highlighted by his stately dignified nose, also often being mistaken for a female midshipman due to his PRECIOUS, long, regulation hair. A member of the J.V. Lacrosse team, his large booty made him the prime candidate for two years of team captain. In fact they'll probably retire his jersey since he never got a varsity letter sweater. King of the Blue-light Specials, has made three years of rooming with him very exciting if not noisy. A math major, Scott has spent most of his four years in the rack, and he does snore. The 'Rooster' will be welcome in the Marines, where he's destined to be a poster Marine with that nose. Remember "If it's not Scottish, it's crrrrrrapp!"

After three years humping around as a Marine infantryman, Grumpy Smurf humped his way up to Newport to enter NAPS with the c/o '89. Always the philosopher, Crevier spent 4/C year pondering how chall-calls and Beat Army spirit would make him a better warrior. 1st semester, 3/C year, found Crevier quipping, "Yeah, well while you're reading history, I'll be making it in the Systems major." (The next semester found the Old Man in the History Dept. as well.) Whatever lack of motivation "BA" may have displayed in his former major, he was indomitable at the Ram's Head, where he could drink Guinness Extra Stout like water. An avid GQ reader, Crevier always stunned the ladies in town (and around the brigade) with his trusty Marine Corps Marathon T-shirt, hinge-knee (sort of like an ostrich's) and Joe Weider Strap-On lats. She set records for the most number of hours studying in a single year. Youngster year brought with it the mystery of the extra tooth brush!!! Soccer and an extended trip to Colorado Springs took up most of 2/C year, but nothing could prepare her for firstie year. Living on 4-1 for first semester, she was able to get a different view of mid life. Everybody wanted to interview her (including her "cousin" from the most backwards newspaper in the U.S.). She found out exactly how long it takes everyone in the Brigade to hear a version of a rumor about the BC (22 and 1/2 hours). The Dobber wandered into town from the great state of Kansas with a gleam in his eye and a lump of hayseed in his ear and took to Annapolis like a cat takes to water. Ever the scholar, Tom's dreams of being a Mech E. were squashed when plebe year academics hit him with a full frontal assault. In the four years that followed this future devil dog fought valiantly against the evil forces of Physics, EE, and the infamous Quattro Pro. His greatest realization came youngster year when, to his surprise, he discovered that a town actually existed on the other side of the wall. Armed with only his keen intellect, hard body, and dazzling good looks, our hero set out on a quest, determined to find those elusive "Godly Babes" or die trying. Lil' Linda came to us from the mountains of Tennessee "fixin'" to pound the ground with the best of the Marines. From the looks of her Plebe year grades she was well on her way. Like a true Marine her cadence calling was often a show-stopper, "This @#\$% has got to stop!" "They said they all would be so fine, but not compared to the dog of mine!" REMEMBER...Blue and Gold, bleaching your blanket and getting lost of 3-0. Third class year she hit the track and the books running, trying to make up for lost time. After Bulldog, Linda realized that Green was just not her color and decided to join the only corps...SUPPLY CORPS. 1/c year she began a life of lemon drops, dancing and men, in the true Navy tradition. This self-proclaimed "Viking of the Severn" spent four years pulling on his oar, but he will never have the prestige of his N' 150 pound classmates. Tom never wore a varsity letter, but often wore the same pair of crusty underwear until he washed them on leave. Tom thought he was a tough guy, but on many occasions the familiar cry of "ALL RIGHT, ALL RIGHT, ALL RIGHT I GIVE" was heard echoing in the hallway. We'll all have the memories of your first true love, Snaggle Tooth. After Snags, Tom fell in love with the Land Jet, which ended up being a copper slug next to the grocery getter. As a plebe he established his academic prowess by earning the coveted "CRC Handbook of Chem and Physics" with the highest class avg in chem. Unfortunately, that kept his fellow Physics goons around for ei the next three yrs. Keeping a 4.0 throughout left Chris lots of spare time for squirrel catching, 8th wing p-lot antics, losing in tennis, and nearly killing himself at Camden after the "Most Noble of Journeys (Who put those girders there?)," but only when not busy dealing punishment as an honor striper. It seems only yesterday we were talking trash at a free buffet, now we have four years of memories that will last a lifetime. After finally realizing that Naval Architecture had nothing to do with designing buildings our disheartened "attorney at sea" was destined to go Poli-Sci. So begins the perilous journey, but not without a few pitstops along the way. It all began with Notre Dame and the black eye jokes plebe year, it was down hill ever since. AY, here's to a couple seasons on the brink (one actually went all the way!), making G1 a reality, 0-dollar paychecks, the Swarthmore blues (thanks for staying), the 8th wing players (or should I say violators), and for winning the love of Mariah (ERCK ERCK ERCK), well, at least "it's a possibility." Jason H. Jack, was also known as "Cool J", "Nappy Jack", "Skillet", "Shorty", and the "Connoisseur of fine W.W." J was a dreamer. He dreamed of a 4.0. He got over half that. He dreamed of an 'A' in military performance, but instead he failed the PCR. He claimed to be a jock, but between the plebe year chits and failing the mile and a half every semester, he was a joke. He was the promoter for "fine" institutions. He set us up for Goucher and he hooked us on Guadala-Jacks. He was also the central figure of the Wack Daddy Crew and it was always "ooonn", once he learned how to dress. He was a man that always found a parallel between Cube and the rest of the world. And last but not least, he was often up, close in, & peepin' love in those the early morning hours. "Jay Logic"! All in all, he is a good friend. Best of Luck HOMIE 'cause Jack don't want you back'! -----WVS & EWC!

Hailing from the coast of North Carolina (Isn't that where Michael Jordan is from?), DJ brought his country boy attitude, soccer prowess, and the second longest hair in the brigade to us. While visions of green danced in his head, this young fool set out on his EE career. We didn't think he would make it, but thanks to youngster year with no sleep, design "support" from MJ, collective efforts in the basement of Michaelson, and 3 years of help from many years past, Magic came through. Halfway through, DJ decided his future lay with the hardest working Navy and the life with a schoolteacher wasn't for him. No seriously, next semester he'll be out 10x more than any of us. Lighting up the dance floors from B-more to NC to Key West, we're sure you'll bloom down in P-cola. Good luck with the wings, don't work too hard, and thanks for 4 years of memories. Saving a place for you in 15! -MPM

*Erin Andrea McAvoy*  
*Philadelphia, Pennsylvania*  
*General Unrestricted Line*

What can we say about Erin? Or better yet, what should we not say! She came to us bringing loads of laughs and words of wisdom. We had no idea she could get bored enough to read the dictionary during plebe summer. Erin's grace is worthy of mention. She has put on many a show in front of Chauvenet and Tecumseh. Beaker or Tecumseh? Erin blossomed over youngster summer but was soon replanted in Smoke Hall! We really missed Erin 2/C year. Was the library really where you went every night?! After three years by the Bay, Erin lost it all in Spain. Money! Booze! Love? She gained it all back 1/C year. Money-It's a good thing those gypsies never found that jar. Booze-St. Patti's Day! (Enough said). Love-Most important, her engagement to Chip. "Now that you're leaving, can we buy your overcoat?" Seriously, we love you and will miss you lots! TLL & LMG

*Todd Lawrence McCauley*  
*Brentwood, New York*  
*Marine Corps*

Todd McCauley came to the Academy via platoon 2-2 at NAPS. Despite his company officer's repeated insistence that Todd fill out a Univ. of RI application and resign, Todd persevered and earned his appointment to USNA. Plebe year brought a wealth of new experiences for McCauley, including high adventure with the B.A. Association during Army Week. 3/C year saw the departure of the 3rd amigo (MTL), and the timely arrival of a new woman (MC). From a chance meeting in a Manhattan dance club, Todd and MC never looked back. (How much did her ring cost, anyway?) For 2/C and firstie years Todd lived in 32nd Co., where "living large" and then "riding the night train" to catch up in school became a way of life. Although for five years (and longer, I suspect) you have been a loud-mouthed and opinionated-Long Island-Yankee, you have always been a true friend and dependable roommate. See Ya in Hell! TDG

*Scott David McClellan*

*Ironton, Ohio*

*Medical Corps*

McClellan, a name synonymous with warriors bred only in places such as Ironton, Ohio (dangerously close to West Virginia). Scott displayed his warrior spirit early by taking on King Hall with no more than a rain coat to defend him. Displaying his insatiable appetite for knowledge and his unequalled stamina, he proved that the wardroom can be a home away from home. In fact, his allegiance to not one, but many warrior athletes earned him the coveted title of "Bandwagon" among his admiring peers. Ironman's will is his strongest attribute of all as displayed in his denial of the strongest of female Marines who wish to conquer him. Dr. Scotty has worked diligently for four painful years here, toning his svelte body and sharpening his keen intellect to one day become the finest quack the Naval community has ever witnessed.

*Matthew Patrick Miller*

*Shelton, Connecticut*

*Surface Warfare*

Matty came to us from a small town in Connecticut (Husky land) determined to become a fighter pilot. With him he brought his academic genius, hardwork, and every hook prof. Although picked early as the weakest link, MP proved his stamina in the Conn jungles. I could always count on MP to have longer hair, neck adornments and stogies, and he could count on hot blind dates. He was always 1<sup>st</sup> in the rack, except after drinking rum when he preferred to be under the desk. Senior year found Matt a winner on our infamous log, although he denied any association with the Exxon oil spill. And we could never say that MP was not an athlete; he too has had his share of cold nights in Navy-Marine Corps Stadium just like any other jock. I wish you only the best in all you do -I'll be looking you up in a few years. Thanks for being a great roomie and for all the great memories. -DSJ

*Walter Vincent Smith  
Durham, North Carolina  
Naval Flight Officer*

Walter V. Smith, was also known as "Smoooooooooth", and "Vinny". He could easily be recognized by his many phrases and limited vocabulary. For example, if you were walking down the hall and you heard, "I see you babe". "Was there ever any doubt", "What you trying ta do", "Mutherfreaker", "I here you", "I ain't got time for that", "Jont", "Win or lose", or "What's up babe", "Talk to me tell me something". He was a man who was in bed early. No computer program, no test, no paper, and no final was enough to keep him up past 11:30. He was a man of many "my girls". He was a man who was friendly with everyone except the Clancy Brothers and their D.J. But last and not least he always found time to plan getting lit with his boys after Varsity Football, 150s Football, Indoor Track, Outdoor Track, Boxing, and "Swimming" Practice.

*David Rene Smullen  
Harrisburg, Pennsylvania  
Marine Corps Pilot*

Perhaps the best self proclaimed all around athlete that 32 co. has to offer, Dave came to USNA from Harrisburg like a three toed sloth at full speed (Did you know Poison is from Harrisburg?). Through the three years that I lived with Dave (and his ears), I have come to appreciate his uncanny ability to complain about anything, anytime, and more importantly, to anyone who was unfortunate enough to be within earshot. No woman could ever tie either one of us down (although few might have tried). Plebe Summer he led our platoon as the glorious guideon, Youngster year his Varsity Track exploits impressed us all (especially his use of the medicine ball during Dog Zebra). Second Class year his commitment to academic excellence showed until the wee hours of the morning, and Firstie year he shocked us all and chose Marine green. I'll miss you stud and so will the ski resorts. T.G. Creskin

*Eric William Siebert  
Lyndonville, New York  
Surface Warfare*

Eric was born, as he likes to say, "backwards, blue, and broken armed" and also spent time as a young child comatose and later paralysed by brain stem encephalitis. I am sure that somewhere in all of this there is an explanation for why he was always so full of energy and vigor. Not even multiple ping-pong all calls with four rifles got him down for more than a couple minutes, so we were forced to make him company spirit rep several times. Youngster year saw him change major to Mech. E. at the prompting of "Darth Vader," our company officer. Statics promptly ended that fiasco as his grade went from "A" to "F" between 6 and 12 weeks. He rejoined the ranks of the history majors, enjoying "everything but the damn papers." Second class loan released him on an unsuspecting world in his red Camero. A true Sworrior from the very beginning, he was a pillar in our Navtag team as I am sure he will be in the fleet.

*Michael James Sobkowski*  
*Poolsville, Maryland*  
*Marine Corps*

Mike came to the Academy straight from the sticks, Poolsville. As a matter of fact, he drove here in a sweet four door "VETTE". During plebe year he had the most difficult year of his life. Rover died and he lost his claim to a year supply of free "Burger". After overcoming this obstacle, he found his true love when a "Salisbury Steak" landed on his plate. How many miles did you put on the "VETTE" to get a taste of that A1 sauce? We'll never forget that Christmas shopping spree. How much was that bracelet anyway? Mike's luck continued into second class year when he won the "HEISMAN" at BWI after ringdance. Most guys get the "herps" from the opposite sex, but not Mike. He got it by wrestling big sweaty men at wrestling practice. Thanks for all the latest dance steps. Good luck in the Corps.--MAC & TLM

*Christopher Tobias Stilley*  
*Marion, Illinois*  
*Surface Warfare*

This only child was prematurely weaned from Mom and Dad when he came to us from the cultural mecca of Marion. Never at a loss for words, the "Senator" was quick to express his opinions and explain his agenda for fixing the country's problems. Whether running down the halls in his B'day suit on 100's night, or the wrestling matches with Doc and the Texan, Stills was always entertaining. Chris joined the powerlifting team youngster year to get huge, but later quit after unsuccessfully trying to squat and deadlift more than the women. The "Stills" love life never quite matured, moving from a stagnant high school fling to dates as a 1/c with Dog's 18-year-old daughter. Chris spent most of his time in front of the mirror, either checking out his awesome physique or admiring his vast wardrobe. Good luck, SWO-dog, you made...uh...the right decision. Check your six...I mean, stern. JRM & TMD

*Michael Paul Wentz*  
*Richardson, Texas*  
*Marine Corps*

A typical Texan, Mike has a lot of state pride--from the flag in his room to the pro-wrestler "nugget" ring he wore 3/C year. He and L.G. were the biggest attraction on Plebe Parent's Weekend--as if their picture in every newspaper in the world wasn't enough! The Judge, Tejas, Rose Giver, and Chicken Hawk are just a few names that describe his exploits. Mike tried his hand at everything--football, track, fieldball, wardroom bouncer, Norman Scott Memorial Lounge founding father, and company security force. Converting C.S. to a country music lover, partaking in the Pink Pet wars, and pre-E.E. exam shaving cream fights were not easy tasks for a math major. A slimmer and wiser Mike met the love of his life 1/C year, and got engaged a few months later. It will be a long time before 32nd Company forgets the Wentzian Syllabic Emphasis. Semper fi, mi amigo, and best of luck in all you do. B.R.B.

Always the silent leader, Yorkshire has never rocked the boat, or gotten on anyone's bad side, except Tejas. He's known as the true Romeo of the company. In an all girls dorm, with at least four girls there to meet him, Dork decides to take a little nap after only four beers, leaves em hangin'. One more, Chris, and you'd of had a binge. "Hey Sue it's Chris...Chris who?!" Second Class year, he was having a little trouble finding Juliet to attend the Ring Dance, so out of the kindness of my heart, I passed my date off to him. Weighing in at a massive 165, Chris is feared by all. For the benefit of others, Shire holds weightlifting lessons after class. He's also been seen thrashing the slopes of Liberty leaving his unmistakable faceprint in the snow. Your laid back style is perfect for the NFO community. You'll always be a member of the Triumverate (even if you didn't join the Corps). DRS

*Lodgerio Bandolon Alqueza II  
Madison, Mississippi

Smoothie Admiral Thrawn Hadji Lodge the gangster Chihuahua, came to us from NAPS. He began his Naval career with an urge to submerge. After battling academics, Reg was inspired to move on to the greener pastures of bulldog. Okasa rowed his way to A successful plebe year. Four years as an honor rep culminated in "the year of the investigation." After Plebe detail, our sandblower death commando and two of his second class traced a lesson on hazing for their squad. Alas, our huge hero's youngster year room missed batting 1000 with the conduct system. Regee had a way with the ladies - from psycho civilians to the ladies of 1994. Remember our 2/C Dining-Out? Happy and optimistic, Reg knew none of us can do it alone, and trusted God to carry him through. As one of the last truly good men, Reg was always there for each of us. Semper Fi, Reg! JWB

*Roberto Jose Atha

It was a long swim from Nicaragua but it was "something you gotta do man...gotta do it." Playing the lotto, Rob got lucky number 265 and a trip to P-cola. Destined to be the next George Lucas, the Atha-Cam will come back to haunt us all. Always on the happy pill with JD, Rob lived in the penthouse. His latin machismo and calls to T got him lucky time and again. Starting out in systems, the poly sci highway set him straight. Rob was never a mooch, always drove, and didn't qualify for the status he deserved. Rob's command of Spanish dialect helped many mids through troubled waters. His massive 150lb physique can be attributed to his dedication to cybergenics and rigorous rack routine. Although he never had cash, he did have Sega, the Atha-Cam, cybergenics, credit for Rocks, and his guitar. Thanks for the Herd's candid camera shots and being the Special Person In Company. Jam-Master Bartman warps to us from the Newtown Starsystem. I think Jay thought he was at StarFleet. So did everybody else, except me. *Eric Jason Brenden*

*Rapid City, South Dakota*

*Nuclear Power - Submarines*

Eric ran all the way out to USNA from SD, stopping every 100 or so miles to pump out a few push-ups. The infamous "What?!" was out of the ordinary for his normally quiet & anonymous demeanor, but set a tone for life in the LOD. 3/C year saw his first marathon & the birth of SGTPT/Capt.America/Super Mid. Debutante's were impressed by his gymspastic skills. Shakin' the tree, w/ your Hackey, Bike, ledgin' it, & skiing, made life livable throughout. Rollin' the die on ServSel showed you were just as confused as the rest of us. Eric (& his planner) defined discipline & dedication & showed all of us what hard work & determination could accomplish. Never satisfied w/ 2nd place (ask anyone who tried to pass him while he was running) Sarge took it to the top. In the time we spent together you taught us more about excellence than anything USNA could have ever hoped for. Take care & Gods speed (run fast & turn left). F/F RSP-TDS

Good ol' Cooter came to us straight out of Shepherd's where? Oh, you mean that town with no stop lights. After spending a year in college, he finally realized his true calling while watching "Top Gun." Jeffrey wanted to be a naval aviator. Never seeing a ship before he arrived, Jeff had an interesting plebe year, trying his hand with D&B, Amy and God. By 2nd class year, D&B and Amy dropped out of the picture, and God took both of their places. This doesn't mean that little Jeffrey lost all interest in females. Cooter's reputation was second to none, except maybe Lodgerio. Punctuality and neatness never did agree with Cooter. "Your only saving grace is that your a PEP super"-Dot. Jeff-you're an engineer-would you say that there was an inverse relationship between your time at the Academy and your grades? Nonetheless, after several prayers and a little help from above, Jeff finally made it-U.S. Navy Pilot. JFJ

BG came from the barrenness of Iowa..what a shame. From plebe summer roamer tables, BG progressed to 2nd sem. 1/C CC. Roadkill was his mission. One word to describe Boofy: enigma. With a doo rag over a high and tight, walking in Jesus cleats with a kapok on his back, the Green-Peace SEAL enters, writing poems on a 486. He arrived from Phillips Exeter (Smart<sup>®</sup>) & named his piece el Guapo. Jeff was misunderstood freshman year, or maybe it was a sleeping disorder. Later, Jeff's aspirations grew to pilot-diver-SWO-marine-SEAL & didn't change until mini-BUDS. Record spinning, picture taking, Labyrinth editing (Oops!), rock climbing, wind surfing, stripper mtgs, and of course, hockey playing (#17)... he even invented his own dance - the Christy Shuffle. Now he's off to Oxford to drink thick, stout beer and teach them about the hypotenuse. Event-ually, all things merge into one, and a river runs through it, & Jeff swims in it on his way to where the streets have no name. Thanks for writing my name in stars on the ceiling. - BTF & AGW

Dawg came to us from good ol' Wacko, Texas with dreams of becoming a U.S. Marine. Plebe year proved to be no difficulty for Eric nor did Youngster year despite an unpalatable message and a few rounds with the DepDant. Second semester Youngster year began the Hustle and lights out at ten. The following summer afforded Dawg with two notorious road trips to O.C., one with the margaritas and the other with the beach patrol. As Dawg matured, that is come of age, the statement "Let's go out for one beer," became popular and Bateman's and Kislings became like home. Dawg had us all fooled, going on hooya M.O.'s to Quantico, jump school, Bulldog, and Anglico only to hear the call of the sun and surf and select a frigate out of Pearl. It's been great and I hope to visit you at the Lazy Dawg Ranch soon. Aloha! By the way, what happened to your cummerbund? JPI

I have this friend/pal: senior year he jumped on the bandwagon of character builders, his Tuuk in place, the beard and cynicism in tact, and promptly scored a hat trick and demonstrated that what you get is what you get. He played fairly, but was dealt an unfair hand by the evil persecuting precomm people, yet ended up plucking the premier ship on the list. He took it in the chin (Navy Hockey #9 retire the shirt please...), and in the heart(get out the BBG stick) yet he still played his part with dignity and grace. Topsy nights on the ledge, chow call reveille, partying with CMR on 2-4, and singing 70's tunes for six hours on long road trips. Many have skeletons in their closets, but Ben only has a rack. Let's just say that things at USNA would have definitely been different without Tony. After four years of the beloved Gilllessisms, thirty-third company had a new language which was understood by all of us. Sayings that come to mind are: "Why do you hate me?", "Ice!", "Gotta do it.", and "Chicksssss." If he wasn't lifting, he was "snatching" every opportunity to meet women. Seeing Tony in action was inspirational. Yes he crashed and burned a number of times on Spring Break in Key West but overall he always ends up ahead. Joe gave up a four year, all-expenses paid vacation at the Air Force Resort in Colorado Springs so he could join us for four years of hell on the Severn. After four years of hard work, Joe attained his goal of becoming a Naval Aviator. I know that he won't mind the extra commitment, because he's going into a job where they pay him to be well-rested. He grew fins and almost outswam his teacher. John was definitely a wrangler. "He knows what he likes when he sees it." He took his first batl with his wife to be at the age of 2. Who's your daddy?! Hey Bob..wake up! Bob came to the Academy and quickly established his priorities: football, rack ops, eating, rack ops, and then maybe studying (NOT!). Preferring to follow the wisdom of our founding Father, Bob exemplified the "better rested, better tested" theory. Bob spent half his time in the elevator and the other half in white works. Dinners at JM's were excellent and probably added 10lbs to #90's already 280lb high-speed, low-drag frame. Bob's DT abilities were enhanced greatly by his academic prowess in physics, just ask him. Big, but not clumsy, Bob was likened to MC Hammer-leaving his boogies where he pleased, but LY still can't dance. The tailgaters were awesome, the allnighters fun with CM & JOBU, but JW will take care of you now. Scooby, Boober, Scoobinator, whatever your call sign is in the NFL, we will be even bigger fans than Momma K.--Long live the penthouse--PALS..LY & BG.

"Mostly Harmless" 'LEM' came to us from Costa Rica, or was it North Carolina? I'm sure you have the proper papers, if you can find them. Squad table cut? no, just hiding, booted off team tables don't ya know. Nice 4.0 can ya do it again? 3/C year our poor devil dog decided the corps wasn't for him and EE was. Nice stereo, talk about vacuum tube technology! 2/C year brought the banana-mobile, spin out lately? find your 5th gear? 1/C year other 1/C in co ask "are you in this company?" Who voted this guy XC team captain? 7th at Nationals saved face, good job. Duke's the greatest!, no wait, it's UNC, oh forget it, ACC baby! Still can't fix a burned out light bulb not to mention a mysterious short in his new car. Many wonder if he has more N\* then friends, even if that's true he's set for life. Nobody knows competition like you do! Just ask Al! Been on a sub yet? Nope? Enjoy! I'll miss ya, BLK

While passing through reality one day, Pete happened upon USNA with a grin on his face & a whistle around his neck. He began his Youngster JG Year in 2 w/ SGTPT and GRU as everyone's favorite screen. One finger can equal lots of trouble, huh. Service selection of the day is...MOs to BC & ND provided some adventure. 3/C year- acid, physics, & the right hand rule, shake the tree, back on D, visits from Drakester & Zepe, hack in the hall, & off to Bulldog. The move to 8-4 saw the birth of SUNSHINE, '91 rolled over in their graves. Pete's magnetism for fatal attraction made life interesting. Still gonna take that FO billet? The sun got brighter 1/C year. "Week w/ the fellas?" Walk the ledge much? Cool concerts. He laughed at it all & taught us to do the same, (esp. at him). Thanks for the memories and keeping the LOD clean (yeah right). Who sang tumbleweed anyway? SGTPT & GRU

*Justin Blair Richards*  
Bradford, Vermont  
Nuclear Power-Submarine

Justin hails from the land of Ben & Jerry's. After plebe Army-Navy, he continued his adult education on 42nd St. By returning from Christmas, he surprised everyone including himself. Youngster year saw a physics major emerge, although nobody mistook him for Einstein. Living in the war-zone with JD & Fire-Sweat was good preparation for his next roommate. After a bout with fencing plebe year, he tried to convince us that XC-skiing was a real sport. 2/C year he tried to prove that bag-pipes actually produced music. You really should have trained for that marathon! Ring Dance came and brought out the real party animal in Blair. With the arrival of 1/C year came a new Saturn and a hefty phone bill. Justin's academic struggle finally paid off as he received his coveted sub billet. Despite being labeled a part of the J-crew, you proved your social prowess. MF,LY,BK,LM

*Paul Martin Schimpf*  
Waterloo, Illinois  
Marine Corps

The Hammer came to the east coast as a quiet country boy who liked to run. Plebe year found him rooming with the J-crew, which did nothing to shake off his naivete. Youngster year had him living with TG and the man that would forever change his life at the academy: The Dooch. I taught him about the finer things in life: roommate rule, creative accounting, mucchi tactics, the sanctity of the rack, chics. By first class year professional Paul had been transformed into the Schimpfmate, Illinois topsoil. With JB and EW along for the ride, "Downstairs Dirt" was now complete. We came up with our own show, Late Night With YJ. Two years of corndogs for lunch made Hammer realize it's o.k. to be a Corps brother. Now that it is all over, he has earned the right to be called paisan. Always remember, "We may never get what we want, we may never get what we need, just as long as we don't get what we deserve." DOOCH

*Thomas David Schmidt*  
St. Paul, Minnesota  
Naval Pilot

Tom rode in to USNA from St.Paul on his rack & stayed there as much as possible, only a call from Beck could get him out. 4/C year in the LOD saw GRU as the plebe most watched in King Hall. You really wanted that dessert. 100's Night began your career as most feared. 2nd semester as damn XO started 1 & 1/2 years in the power core. 3/C year- sleep is for..., did the room have to be that cold? Always known for his sportsmanship (NOT!); love for the Irish, Vikes, Twins. 2/C year, they hooked us (especially you), rumour has it the NO MO was fun. Organized any parties lately? José & Jobu were always invited. Fatso's Fanatic in NJ, ring dance made things official w/Beck. 1/C year- CFZ, more calls from Beck, ski trips, and did anyone understand? Through it all, Tom was an infallible friend, always there with some straight-up advice, or a quick reality check. Back on D--SGTPT & SUNSHINE

*Frank Michael Verducci, Jr.*  
Colonia, New Jersey  
Navy Pilot

Frank arrived at the Academy from Colonia, New Jersey, haven of courtesy, tact, and morality. Plebe year found him surviving Ginsu and the knife, and acquiring his real name, Mucchi. As a youngster he met his polar opposite, giving rise to three years of Roommate Rule, Colonia Honor, MDC, and late night discussions about sharks and salmon. By this time, Mucchi had mastered the Conduct System, "I know the difference between right and wrong--wrong is more fun." With his quest for the pilot billet beginning in earnest 2/C year, Mucchi attained a brigade-wide reputation for gouge. Varsity lacrosse improved his athletic stature and provided a good aclog excuse. First class year saw the emergence of professional, sensitive Mucchi. Always remember the code of the Gladiator and, "We may never get what we want, we may never get what we need, Just as long as we don't get what we deserve." PMS

*Andrew Gregory Williams*  
Minneapolis, Minnesota

Zeel! It ain't easy to coast through the Academy. The Minnesota Kid made it look easy. We never figured out if he was actually a student or just a ringer for the co intramural teams. He came in brandishing Andy-logic with a childish grin and holding a Dr. Seuss book in one hand. He was the only man who could find a way to annoy anyone and list the faults in every woman we saw (but one). Cut-out pictures, Whiz man, the LEDGE, Crayola man, and long, complicated discussions where zero equals one, circles are straight lines, & impossibilities are possible. Drew had no money, no beard, & no worries. As Bundy leaves to go flying in his Scorpio, I'm sure we'll hear him laughing. Twenty-two with dreams of fatherdom and you're still not sure how to put on your shirt. Thank you Andy for the times you made us mad as hell and the times you made us smile. BTF, JWE

Let's get this off on the right foot. "I won't support you at an Ac Board!" I guess you could say what started our friendship was our deep heartwarming love for our CO. I guess that is why sports overran Pro. But, not to be outdone he always had time for a little shine on those leathers. Then the story turns to the pool. If he wasn't born in the water he should've been. ADCAP I hear from some of the water junkies, replaced four records on the Lejeune board. Rocky they're bad for your legs! No avail. The dark side is more powerful than an untrained Jedi roommate. Not one to give GOOD advice on that elusive opposite, we at least could spend a good many nights praising our respective...Not! If I taught you anything it was skate the CSORM wave while pretending to care. As we part, remember the good times we had. I wish you many ports where the women still smile and say "Wow...You're in the Navy" J.B.

*Laurence Martin Young*  
Silver Spring, Maryland  
Navy Pilot

Larry...huh? The old man from 33rd chose to be commissioned the hard way. 3 yrs in the fleet, a yr at Naps, and 4 yrs at USNA; the discus didn't affect your drive. Larry's accomplishments: hanging from the fence by his pants, chappy, his fave place--the Little Campus, betting--his record made his roomies happy on WE's, his strict adherence to "well, Trish thinks..", his meditating state of focus, profound statements at Griffin's concerning his adventures, Fort Meade, he's the last of 18, the brevity of his announcements, BK's couch, his intelligent questions, and his acquisition of TS. Larry was gone 2/C yr and missed out on the festivities. He worked hard to be a successful math major and was always there to help. There's no doubt that Larry's hard work and dedication will make him a fine naval officer. Good luck with aviation, TS, and your career--Long live the penthouse--BK,BG.

Jen (RED) came to USNA still hung-over from UF & it's never been the same. Wading through a plethora of hair-care in the shower..& the curling iron is STILL on! Navy softball's best lookin LF - through wind & rain, that NATURALLY beautiful strawberry-blond hair was always perfectly coiffed. Endless laughs, countless beers-n-men, chaziff, studyin to "So", the Ring Dance photo, NO DECENCY!, IT'S \$20 NOT \$5!, bible study, emotional meltdowns, velcro chokers, & the men - can't live with 'em, can't kill 'em, but there's always torture:) Couldn't have done it w/out ya - the funniest best friend a girl could have.KES...& we've done it all: laughed, cried, drank, danced, screamed, & (finally) took the stage - together. Jen, ya may look like a penny but you've a heart of 14K gold! My country-music-playin/trucker-talkin/dirty dancin/southern belle/co-conspirator & friend. I luv ya. Your roomie/sister/friend. MLG

*Gregory Philip Cameron  
Philadelphia, Pennsylvania  
Surface Warfare*

Greg came to us from the cultural home of cheese-steak sandwiches (besides King Hall, of course!) Plebe year was highlighted by his chance encounter with Miss Right at an Upper-class mixer. (Those ratey Plebes!) Early mornings and late nights strok'n' boats on the Severn took up much of "Ralph's" first five semesters ending in national championship. But, liberty leave, rack, and more free time made the last three semesters somehow passable. He could always be found with a meteorology chart or a Stephen King book in his hand. Leave, for Greg, generally involved long miles, large quantities of caffeine, and the world's most pampered Buick. Upon graduation, Greg is SWO-ward bound to the fair city of Charleston. The Navy is getting a good man. We wish him luck in life, happiness in marriage, and fair weather at sea. Take care, godspeed, and thanks Shipmate.... CLJ

*Aron Shea Carman

Air-ron. The man who knows everyone and whom everyone knows. That's my roommate. I've used that phrase more than once when feeling proud of his accomplishments, asserting my affiliation with him. I used it most often after watching his successes on the wrestling team; watching with Diana, Chris and Lisa, Sandy, or just by myself. We've been best of friends throughout the years, even during our yearlong separation as roommates. He's often looked at as the California kid: the surfing, skating, skiing, volleyball, and most importantly, the look to go with it. Aron could always find a good wave, whether at the beach or behind a boat. I only wish he'd learn when to let go of the rope. Aron wasn't always easy to convince. 360 degrees in a circle? Hmmm. One thing is for sure. I will always know where to find him. Surf's up. JPM

Eric (ED, E-Z, GE, Louis, etc...) left MO-bile quite the innocent, young redneck. Now, the decadent influence of his company-mates and roommate have corrupted him beyond all hope. Plebe year: wild-manning Hunt, SOFGE+PAT+inspection=C'ya Daniels! the original BARNEY punched, the Beam train, JOEY L.H. and the CHICKEN, late night recons, ring-side seats for the 3321 "fights", water balloons and Batt. Cdr's, General Science??! Youngster year: 2 great roommates, Randolph-Macon, SI210 (can U say UNSAT?), last year of ELK, Mack-truck, racking. 2/c year: the "CLUB", Nat, L-L-Laptop, and the infamous absence from the Army-Navy trip. "DANIELS!!!" "\_\_\_\_!!!" (fill in blanks) Firstie year: Supe's list, Bronco/guardrail, Winter Park/runaway boot, Gen.Sci. all-nighters?, squad daddy, aneurism, sister souljah at the Vouz. You've been a great roommate and friend! -BTF

*Jeffrey Scott Davis*  
Columbus, Ohio  
Surface Warfare

Jeff came to Canoe U. from exotic Columbus, OH, with black leather on his back, and a dream in his heart. Plebe year held many things for young Jeff: strip steak over goat court, Ultimate frisbee, and the decision to dedicate his next three years to the pursuit of Physics. Youngster year had spontaneous Jam sessions, Naked Scango's, and the emergence of Jeff's alter ego: Joey Lazerhead. Second class year brought Jeff to The Club, where his relations with a female of the witchy persuasion brought hordes of do-gooders down to 8-3 to show him the error of his ways. It also began his series of lectures on his energy theory, which he has been refining ever since. Then it was on to Batt Staff. No taps, Gwar, 6th Batt tailgaters and the infamous 1 Monticello. We're not sure that the Nuclear Navy's ready for Jeff, but we're sure he'll climb to the top in his own unique way, as he did here. JGS

*Brett Thomas Fullerton*  
Darien, Illinois  
Navy Pilot

At the end of Plebe Summer, Brett suddenly appeared after navigating his way through both sets without being noticed. Plebe year brought the CH-3321, Marine Squad, Larson's biological alarm clock, and the fruit launcher. Youngster cruise brought: Tracy! Youngster year was Sup's List, the VLF, the Sentra R/T Turbo and the four phases of Fullerton: Mech E, Tracy, meals, and the RACK! Second class year meant EE, unsatness, complaining, Tracy at Maryland, Chiquitas, piano man, and Plebe Summer company commander by default. Firstie year, his day went like this: Kinder Care classes, visit Barbie in the Barbie vette (with King Hall food and her laundry), copy somebody's homework, then rack. The future: Barbie and Ken's marriage, P-3's, blond kids, core values case study, flying the friendly skies. ERD

Dave came to us from Podunk Minnesota -- straight laced, innocent, and simply a great guy -- "Holy Buckets!" After four years of priming we think we have Dave ready for the real world -- Mystery Meat sandwich fights... X-mas presents (have you used them yet???)... the trip with Andy... youngster room boobytraps... Comp Sci lessons... sunbathing on I-4... side stepping the Jersey Turnpike... Heimleisch at J.D.'s... Sabz getting the torch from Fitz and passing it on to Dave... who knows how many girlfriends firstie year ("why don't they call??")... Air\_\_ borne at the C's... A/N '92 "Gallustosterone"... Well, not all was lost, Dave really knew how to excel in life here by the Bay; top 10% in the class, numerous boot runs, E-course runs, MC Marathons, and too many Ultimate games (blisters!), and accepted to USUHS Med School. Dave, you are a great guy no matter what they say. Best of luck. Friends... TAG

*Maria Louise Grauerholz

Maria Grauer-WHAT? (exactly!) came to us from "Long-I-land" determined to do everything & anything that could fit into 4 years by the sea. Four-year-roomies with PMS in synch, Needlepine, love or lust?, \$5 bet..no, \$10 & not \$20, and late night talks about the meaning of life & the purpose of men..."They too can be replaced by a kitchen appliance!" All-nighters & ten minute cat naps..."Could you wake ME up in 10 minutes?...water's fine." Gracing the stage & singing her heart out, she expressed your femininity...but then came GrauerHOOYA & GrauerPOWER; cracking that whip, barking down the halls, & lifting Halsey (SQUAT)! First year brought the best & worst; Broomhilda & Kost together at last, dancing dirtily, Marmadukes, & questions about the future. God blessed you (at the last minute) & gave you wings to be an angel. So whenever you're in doubt, check that ZIPPO & remember: your friend always, JLA.

The sensation of hunger awakened in him an indefinite feeling of discomfort which he could not comprehend or intelligently express and he certainly did not know how to appease it. Yes, Gremmi was known as the King of the Fatties who often fought with the Skinnies, and seldom lost. (J.D. - underwear -- 'nuff said.) Mech E. was his TAD, soon turning to G.E. for a full 2 year tour. Second class year showed the arrival of the Gremmi-mobile, his beloved '74 Vette. (Of course!) Sporting #54 for Navy Football, John proudly appeared on national TV during the '92 Army-Navy game for his fiancée, April, to see. First Year, he started on the O-line at Army-Navy then had to make all those late night runs to move down the scale. (A Skinny Gremmi-- it's the end of an era!) As the year winds down, John is Norfolk and Marriage bound. We wish him luck in both endeavours: Semper-SWO and Go-Gremmi!! CRL & CLJ

*Caleb Leonard Jones*  
*Shoshoni, Wyoming*  
*Marine Corps*

It is a little known fact that Caleb was born with a wrench in one hand and a history book in the other. He was a man who could get along with anybody, including strangers on the street. He had the most sponsors of any mid I knew (3). Caleb could befriend many but he also lived with many over his first two years (ten roommates). Caleb could answer anything about a car—even taught his car rock roommate a few things. Springbreak in Germany and England sleeping on park benches! UA on your birthday in Spain! Plebe year we could find Caleb balling out certain third class for sticking us with watches (who were the Plebes). Caleb played every sport on the yard from windsurfing to boxing. You've been a great friend. Good luck with your marriage and the marines. Click! Click! Click! the sound of a late night paper, Ahhhhh!!! The Italian ship! Hi-rise! Know what I could really go for? Hey Caleb! Cabar was there. GPC

*Seth Kovensky*  
*Columbia, Maryland*  
*Surface Warfare*

The war veteran came to us from the fleet and NAPS. The Balding One took on the intense major of Naval Architecture—and survived with some unsat weekends under his belt. His famous quote from Plebe Year—"I didn't know I couldn't drive on the yard—in civies!!!!!!" Seth engaged in raquetball, softball, skiing, ordering large numbers of taco pizzas on Sunday evenings, eating every flavor of Ben and Jerry's known to mankind, driving his mustang early on before opting for the four wheel power of his Explorer, and quoting both the Fletch movies. Then Seth met his downfall with women his Senior year—that Georgia Peach will take good care of you. She has the same daffy sense of humor you have. Good luck in the surface fleet. Hit hard, hit fast, hit often—but don't actually hit any ships. EAP

*Craig Robert Larson*  
*Fairfax, Virginia*  
*Navy Pilot*

Craig hitchhiked all the way from Fairfax to save the gas money. He managed to skate through Plebe Summer claiming that he had larengitis. Once Ac Year started Craig was at home, realizing that it was well worth the two years he spent in second grade. Craig made friends and sooner or later interfaced with everyone, in some way. He managed to tap into and launch the VLF with his ever so witty "camera lens" and with the "Crim Reaper" Craig almost saw the end of his automated life. Somewhere around second class year Craig learned about girls and how easy it was to impress them with his wit and vocabulary. He found himself as a firstie with his cool car and even cooler license plate, and managed to be cool as a future pilot. Kregg: never met a person he couldn't offend. See you on the beach! TDV

*Russell Marsh*  
*North Berwick, Maine*  
*Nuclear Power-Submarines*

Russ came to us from NAPS with the knack to combine very little effort, with bass playing to get awesome grades. Mastering video games (Budokan, Arkanoids, golf) during final exams helped the "Old Man" out too. His elderly age didn't stop him from his vices—Battalion Football, Softball, J.D., Seven-Card Stud concerts, telling people EXACTLY what he thinks, hanging with vagrants in Baltimore, driving that rocket of a car with a roommate in the trunk, and earning the names of: Magnet, Russell-X, Zero, Rush. Congrats on getting rid of that "old baggage" your senior year, it was only holding you down—Good Luck as a RICH, Nuke officer. EAP

*John Paul Millman  
St. Donatus, Iowa  
Naval Flight Officer*

Milkman, Milslop, White Man or Big Foot, John is a man of many aliases. Noted in more ways than one for his heritage, his blonde hair, blue eyes, and fair skin are distinct features. I am just not quite sure where he got so much hair. At times he's been a surfer, snowboarder, skier, tutor, occasional student and always a best friend...until he met Bianca. A blessing in disguise, I began to wonder what John was getting at with those late night talks laying in bed with the lights out. Then came the bed time stories and tucking me in at night. Thanks for the save Bianca. John is happiest with a beer in his hand. With glossy eyes and a smile on his face you are not quite sure what goes on in his mind, accept that whatever it is, it must be good. Congratulations Johnny, we finally did it! Here is to happy flying and clear skies. Just remember one thing, always do it with style. ASC

*David James Montgomery II  
Yukon, Oklahoma  
Navy Pilot*

Known by many names but never called by his first name, and rarely referred to as "James". He survived plebe year in the last of the five man rooms with two mammoths, and insanity. He witnessed Peanut Butter Toxic Shock, Mystery Meat Sandwich Fights and Goat Court Parties. Barely escaping plebe year, he changed roommates to two relatively calm roommates and got in return Rubber Band Fights, and The Unchained Melody. He finally decided to settle down with one roommate, actually it was a gentlemen's agreement to room together. You have to ask him about that roommate. Seriously, if you had to describe him he would be described as always working, and mature. Only takes classes because they are required. Summing up, Coming soon to an area near you is his newest inspiration in family entertainment. Remember, he almost went Marine Air and don't call him the B word. Cluck. Good Luck as a pilot. You too.WAP

*James Descallar  
Damascus, Maryland  
Marine Corps*

JD is the perfect example of the dedication it takes to make it through NAPS and the Academy as a Computer Scientist... I mean General Scientist. Though four years seemed to fly by, they were filled with a lifetime of memories. Plebe summer brought the bad memories of the departure of a roommate, SF, and about 20 lbs. in TB's hotseat. The worst times were yet to come at Bulldog with a bad knee, bad ankles, MRE Billy Joe's and an infected corn. The best times for this OCfer came during Plebe spring break with experiences right out of PLANES, TRAINS, and AUTOMOBILES. He also earned a letter sweater in sailing by winning the Newport Bermuda race. Though this honor rep may seem like a scientist on the outside (Particle Theory), he is a leader at heart - a leader of Marines. He never stops learning, "ICH VERSTEHE NICHTS!" Besides, when you know it all, life won't be any fun. -BEP

*Jung Yul Pak  
Baltimore, Maryland

You want to know a man with Seoul, Pakman is the man. Yellow Fever had a strike of good luck and found himself learning and later teaching the "Smoke Hall Shuffle". A true lady's man, he gave his freedom up for passion with not one but three women ("It's hard being the PAKMAN"). He always had a way with women ("Who's your daddy?"). Pak it up, pak it in! During his "X-mas leave", Sorriiness tried to be a "voo-doo" rapper ("huah, huah") Hey Pakman, did you get that new Top 40 song? Also during his Smoke Hall tour of duty, he perfected the rack entry method ("Don't peep the technique") Don't worry though, Pakman had his fan mail (from "Reader's Digest" to 800 numbers for Steak dinners -- COD, of course). He admired beauty-remember the bulletin boards. His dream came true, through eye training with the Ginzu Method and he won a trip to P-Cola. Good luck and fly high. *Bryan Eskew Patterson  
Indianapolis, Indiana  
Marine Corps*

This hard-charging Hoosier came here not really knowing what to expect or where he wanted to be when it was over. From the very first moment he walked on deck Plebe Summer and got evicted from the rack he had chosen by JDM, he knew he was in for the long haul. As a Plebe under the grueling scrutiny of his upperclass: TLK, SW, and MM he persevered, and after 2 Pre-Scubas, Pre-Mini BUDS, Airborne School, the Recon Indoc test, and the USMC Marathon, it was clear to this former Mamma's boy that he was built to fight. "A winner never quits, and a quitter never wins!" he would say. As a firstie he walked-on the 150s FB team, and after a 8 yd quarterback keeper and a victory over ARMY he earned his N-star. Although plagued by smelly feet, sprained ankles, and "absent ear attacks," it is obvious Patt is on a azimuth to greatness. But will he remember his pace count? -JDM

*Eric Allan Peck  
Storm Lake, Iowa  
Marine Corps*

Eric arrived from Iowa, which is somewhere in the middle of the country, with long hair and a desire to wear Full Dress Blues. He made it through plebe summer with out saying a word and remained locked and cocked until Herdon, or at least close. Before he could climb Herdon he was on a submarine in Hawaii underway for 70 days. Youngster year the grades were great and everything was going smoothly for this nuke wanna-be. Then came second class summer! He decided to take the challenge and go to Bulldog early. What happened? He liked it. His grades dropped accordingly (to meet marine corps requirements) and his hair grew less and less. Still confused a little, first class summer, he did a little of both, FMF and a sub-cruise. This settled it and a Marine he became. Good luck, roomie, in the Corps and with your lady! -REM

*William Andrew Peterson  
Colorado Springs, Colorado  
Naval Flight Officer*

"Mr. Positive" came to Crabtown from the home of the Bus Driver Academy by way of Pittsburgh. He learned many things plebe year but most importantly: Beware of Zoomies in Mid's clothing. "I'm not a Zoomie, I'm a plebe!" still echoes through Goat Court. Youngster year was uneventful, punctuated by occasional screaming contests with his roommate, Cable. Second class year saw Will becoming the plebe's favorite. Somehow he avoided getting busted for fraternization and he pulled off a most spectacular arm wrestling victory. This is also the year SustaWill kicked his SustaCal habit and I'm sure the people downstairs at Panama City enjoyed the technicolor calling card he dropped on them. His frequent trips to Bryn Mawr suddenly stopped after the Ring Dance but he found a new haunt in NYC. Why did you go to Bulldog anyway? (Inspection..Harms!) Have fun! Fly Navy Air! You Too! *Kimberley Ellen Scango*  
Columbia, South Carolina  
Supply Corps

I-Day 1989, Kim exchanged her red mini-skirt and southern charm for white works(usually mine) and skillful cadences: "wibbily wobbily, wibbily, woe". Her stress management skills(nervous breakdowns) and geographic knowledget(Alaska is a state?) helped her coast through plebe year. Youngster year, she was the only mid who had a drink officially named in her honor. NFO? SWO? Medical said...Supply. Best of luck. I will always think of you. -AET This Southern Belle, with her southern twang, learned many things plebe summer (you can't get pregnant through jeans?). You could hear her voice coming down the hall and know who it was ("Ya'll stop" or "Y'all Ah'm goin' to fail!"). Second class year Kim deflated some of the air from her head and inflated her beau's (Chad). Now they're both in the clouds. Thanks for the cover and the nice view. Kenneth (used to be Shrop or Ken) hails from Jacksonville, NC.. or is it Yokosuka..., Chattanooga..., how 'bout Yuma, Arizona? In trouble with the law? A Booster, even! We got "kicks" from Kissey during Plebe Summer because he was stubborn as a mule. We also got 'kicks' from his sorniness which led to his recent noteriety with Silly. During 2nd class year, you could always see the dust trail he left behind heading north to see Mrs. Kissey. Please Mrs. Hornfest, can he go to the Ritz alone tonight? He always had an answer for everything (Huh?) and couldn't hear anything (Huh?). Tried to displace your sorniness, but we all know who is the **KING of SORRY**. As Lockjaw, Shrop, or Kenneth, the world is his stage. No mics, please! Ohh, all-right. I see. Marines, right? Wrong? Grace your presence upon the USS O'Brien. Peace out to all the stray brothers out there!!! Huh? -BEW, JYP - THE FELLAS

Begin bio: Jack hit the deck plates running, but with dip in his mouth. Youngster year he left the bedpost spittoon carrying his library to the room of death and habitat of the wild Gremillion. His previous video career resurrected itself as Reporter Jack. Before the year was out he hosted the Academy (motel) ball and opened "X-week Theatre." Second class year found Frair Tuck in poetry readings, lavalamp meditations, Shakespeare, and a van kidnapping. In this Romantic tradition he stole his roommate's girlfriend. A picnic with wine and grapes in a DC park brought a love he could never deny and he proposed 1st class year. The rest of firstie year brought the 1 Monticello brewery, marinated chicken, naked slaw, deep snoring, chet, the knowledge that "the Gideon bibles were placed by baby pigeons with money from payphones" and the question "Why is Shrop so sorry?" End bio. JSD

Andi was definitely a new flavor of mid with her ostentatious yet nonchalant method of skating out of plebe hot spots. After a year in Cali before Crabtown, and twelve issues of *Vogue*, whiteworks were a fashion nightmare for this model. Youngster year brought her infinite parties, cups of cappacino, and that one guy (what a loser!). Andi won the Lotto for GURL to Italy. Good luck, babes. KWS Plebe year pushed us to aspire to new heights, sometimes desktops due to the presence of our furry grey friend. Uniform races...woops, wrong pants! An Army/Navy game BW, you, and I will never forget; loud metalhead music and lattes (what a nerve soother). Senior year brought a brief chit-chat with the Supe and the continuation of the longest kept widest known secret. Thanks for my half and good luck with all you do in the future KES

Snail managed to crawl all the way from Goose Creek at the young age of seventeen. His boyish face and dumb grin earned him friends as he became a wallflower. Surviving midnight brushes with death, his bunkmate, KY slinked into youngster year as company commander. But, he still wasn't afraid to spend the night in a cold car, skate to the golf course, or become more culturally aware. Second class year brought EE, twice, and a hole that even FOME couldn't dig him out of. Firstie year he skates to company commander, spends another semester underage, helps find the DSC, and starts to shave. But don't let his looks fool you, he's not afraid to dodge the Dant, slam with the Supe, or stop off in the mezzanine. Watch for the slime trail, leave the salt at home, listen for the "kaw", and take two big and one small handful. TDV

Vande.. came to us with a full head of hair, an innocent smile, and an incredible imagination. Academics came easy for this easy going, self-confident Hoosier. As a plebe he survived a louis squad leader, a semester of all calls and some unreported hazing. 3/C year he entertained us with his original lyrics and unselfishly piloted the youngstermobile on its many adventures. ...2/C Brigade 1st LT.. Who Cares\*\* Firstie year, Todd figured out the system and skated down to 8-0 as Batt Adj. to avoid duty and taps. He still found time for DSC, B-day parties, and even a weekend at Vande's. He completed Bulldog for fun and couldn't decide whether to be a rich nuke or a hard chargin' ground pounder like his distant relative. Luckily, he finally HEARD his call to flight. Good luck cellmate and I'll be your wingman anytime. KAW

Fresh from the Chesapeake, the Academy recieved the catch of the day on I-day. During Plebe Summer poor Walt Baby-Love woke up with the HIVS. (Ooops, left out the 'e'-hives!-"Your friend is what?") Riding home with him for Thanksgiving, the three passengers fell asleep, as well as the Dark Crusader-the originator of the *GRU*. The "Force" was with him as he skillfully guided the car to the shoulder of the road..on the other side!?! Thanx for letting me borrow your car. It only goes 84 mph?? *TopGun-a Pilot? Cow! Hog! BYRDMAN! From the beginning, Jim took USNA and all of us by storm. We were quite pleased with his willingness to absorb blows for us during plebe summer. He refused to let us forget that we had a sense of humor and a sense of resilience. He sure was chunky at first, but WOW, that kid can jump. Next thing you know, goodbye belly, hello Navy Vollyball. May Crazy Marty and his trusty sidekick Red Page haunt your visions. Two chipped chicklet teeth. One from me, one from Habey Baby. Battalion Football, fieldball, Softball - hit like a ton of bricks. Summers, ahhhh! Beaches, sports bars, vollyball, Cannella's. Hauling around an injured Bushpig. Just remember the ol' reach around slam. Marine Engineer? He must have been insane. How's the Navy Davy! Catman came to us from a lump of dirt in the desert. He quickly rose to greatness, becoming one of the Bohica Man's favorite students. Following an interesting semester with the resident psychopath, he moved in with the wicked cool Bootsie, TC's favorite stepchild. Together, the dynamic duo faced off against the evil of Lex Luthor, Stinky Boy (Excuse You?) and were always most triumphant. Just as things got really interesting, and Dave spent a whole leave period in Smoke Hall, we moved off campus, and Dave moved in with Bubby the Genius. Shocking the whole planet, Dave proved that the 3.0 barrier could be broken, and decided to give up philandering with blue collar labor and move in on a sweet lil'thang from L.I., Karen. Armed with his Gestapo mobile, racquet, and new love, he sailed into 1/c year, as Adjutant(?). Auf Wiedersehen, Mein Freund. AGM, MSK

"Mr. Ali-Baba, how do you say your name?" queries the jar-head three striper. "Excuse me, sir?" replies the worried Jordanian. That reply and a confused expression on his face got him out of more trouble during Plebe summer than a two-month SIR chit. Eventually Ammar realized not everybody at USNA was out to get him: those guys with strange names and hometowns he couldn't pronounce let alone remember were in the same boat. After the inconvenient fights with our other Plebe year roommate and the constant running around, I was the only one to ever see him as Ammar spent the next two years with his one true-love: the pursuit of knowledge. Come Firstie year early graduation would have suited him just fine, but instead, he led a clandestine civilian life at UM. Thanks for putting up with my warm hearted compassion for the weak, and good luck at the middle-east peace talks. MJR

Dried in the San Francisco sun, Dan turned out to be more than a typical Californian. Everyone who has roomed with him can say that it was an experience to recollect. He was a compulsive neat freak. He had no choice he was allergic to dust. During times of stress (plebe year) he would uncontrollably clear his throat and head. As for his love life, NO girl was ever good enough for Dan. Hey nothing wrong with waiting for Ms. Universe. Right?? SCREECHHH. KTHUNK. AHHH!!! OHHH SH!. KTHUUNK. AHHHHH!!!! CRASH, KTHUNK... That's right Dan. I don't think you will never forget that early morning on I-70 when my car was shoved off the road and started rolling and flipping over and over again into a ditch. Not only did we both live but without a scratch. He may not be remembered as the greatest scholar or leader while here at the Academy but wait till the fleet gets a load of his charm and friendly charisma.

KaFlynn arrived at USNA with a different view. Living with tweedlebugs gave different meaning to protests, letters from DAD, and b-day presents. AN, tell me about the Jews. Thanksgiving tradition never forgotten, including B-man. Plebe indoc, academics, bayonets, and five roommates we made it. Florida, hey, who is this? Wake up, can I use your nats, my roommate asleep? Do you have a paper? Can I borrow a disc? You wanna go running, I'll go slow? Anyone see my bag? Second Class year had a different twist, Thevenin (OSU fund). Another birthday present, marathon (and beer). We earned freedom in town (schmooze). Cornell, Goucher, D.C., and Baltimore. 2/C Spring rituals, Jimmy Buffet (my car remembers), Athens, Hilton Head, Myrtle, Ring dance (TRO's date). What about those cops in Italy? *Nuclear Power-Submarines*

Steve started his career at Navy with fiery intensity. Plebe year Steve showed us beaker, the brace, and the limp. Youngster year saw the Cisco kid and a UA in DC/Virginia... A bit of restriction and EE caused some grim weeks - and mild leprosy. With his extra time, Steve worked on other things. He developed a jumper, tough racquetball, and ran a marathon to boot (but is still tone deaf). 2/C year saw outings with the Geek squad, weekends at the company, and the acquisition of the diabolical Escort, which eventually went to CGW and ran fine from then on. Spring break brought stitches and a brand new ring. Firstie year began WF road trips and Sally, a stint at Company Commander, leadership forum, the racquetball run, too much Paul Mitchell, a great radar detector, Thanksgiving in D7, and a look down the wave guide (and more leprosy). A slave to idealism, we all look forward to seeing Steve in Forbes soon. ...The man who could destroy any component. From the EE majors

Made in Kentucky, Jason arrived at USNA "Hammond hungry" for a challenge. For a guy that failed every test, you sure had a high CQPR. Plebe year-- Gretchen. Youngster year--roller skate, ringside in Miami Beach. Steve's cousin, G-town, rat in room. Second class summer-- scooping fish and hot tub in MT. Second class year-- Jody, WFU connection, more failing grades, catlike landings on baseline drives, carrying the lummo. First class summer-- Miramar, Prof. B.J. Hammond. Firstie year-- Fading Jody, 240 SX, still failing with a 3.50, Cancun stud, Jody who? hello Baja, defending title in Longwood. Yes, it has been a fun four years. From standing in line on I-Day to roommates from day one, to Second Class summer, to First Class summer, I never could seem to get rid of your presence. The Garden Weasel, the Ferret, Tork, Kro, Krotonius, M.S., Salva(t/d)ore and the list continues. Mike was a front runner during plebe summer. He was so hot, his own mother praised him to the sky. Plebe civilian clothes privileges, Sampson Hall television time, and various room appliances all demonstrated Mike's budding professionalism. And then, Mike was reborn, going from screen to sweat in one year. Roommates caused homicidal urges; Youngster year passed quickly. Second class year, still locked on. Ring Dance saw little Mikey go from sweat to stud in one fell swoop. Summer brought him back to his only true love: submarines. Firstie year, Mike evolved again, and became a model slacker. Riding the goat, hanging with the plebes, and blowing the nuke bonus all became the norm. Next year, Mike will complete the cycle, becoming a screen, going home to Mommy. DMC

John came to Navy as a healthy young man. "Doing it all day" plebe summer made John about 40 lbs less healthy, but he soon rallied. A "shoe in" for a 3.3 plebe year, John had a close one academically, but pulled it out. Easter weekend was a road flight to Savannah with AP and a near crash. Youngster year - the Lum in medical to get some water one night, Ike won it all (which we still regret), and John was kicked out of several more IM games. Also John studied once youngster year, 2/C year brought WFU and the squirrly on (thanks alot J). Soon he started his run at the world beer club, which he finished with a 30 day miracle. In between was a San Diego summer and the loss of ALL inhibitions. Firstie year saw weekends at Baha with TH ("Don't spit that out"), Florida State, a Marlins draft pick, and his own platoon. A great, though vocal guy, John is destined to be the Dant one day. AP

Frank came to the Academy after a year of intense partying at Penn State. He joined a different party with four roommates in 3459. Get that out of Ad's soda. What if the lights were out? Why does Rucc have headache? Youngster year: Grimace, late nights, and Honduras. With second class year came new roommates and a new company. The room standards that followed would make any cockroach proud. Frank was never given a chance to study. Instead, he was berated with comparisons to hibachis, nats cables and linked with various large cans of red headed weight gain. A late night patron of the wardroom (the lamp is lit), Frank was never one to sleep at night. His raccoon-like personality kept him awake during the nocturnal hours, and allowed him to sleep in the classroom. Army-Navy, you left what? Where? You'll make a great seal, buddy. 'Rucci came from the toxic waste dump, NJ. He always shivered during Plebe summer, earning the nickname Jitterbug from M.P. Plebe year, he had an interesting set of roommates, prompting his battle cry, "You ain't got no MORALS!" Another neat freak! Tony, dodge the lacrosse stick next time. He went 2 Bulldog early, shaved his head, ran the Marathon, put up Corps posters, and got his lobotomy. This made it hard 4 him 2 B sat, but somehow, he always pulled it off. Tony was a paragon of professionalism, never 1 2 complain (NOT!, WAAAA) about bizarre regulations, or sympathize w/a classmate's whine. Good thing he found a woman because he had too many girls going after him. He's completely changed because of her. He's completely Corps-brainwashed, but he could see the lighter side of things. Bootsie came to us at a tender young age with eyes like Bambi. Plebe year met all of his expectations, and he was soon on the fast-track to Brigade Commander. Bizarre romantic interludes, willing and unwilling, were typical fare for our young stud. He continuously showed his potential, striving for excellence in everything. Always a favorite of T.C., his MOOM broke into triple digits when the company found a new home. He always used his maturity and wisdom to its fullest, and lived dangerously. Ring Dance with the caterpillar woman will always be remembered. Bulldog proved to all that he was a Marine somewhere DEEP inside, but made his choice for him. Firstie year, and finally a command position, proving everyone's worst fears. Made Dean's list, grew up (kinda), and had a dangerous liaison with MSK's first love/kiss. Touches mon singe! From the start, we respected Jon for his age and wisdom, just like Yoda. After taking a massive paycut, he relished the opportunity to excel as a plebe, and excel he did. Jon's love for math and science enabled him to complete a minor in both areas. His quest for knowledge drove him to give up all three summer leave periods to better himself. Jon's choice of major, English, helped him limp through hard times over in the non-Sampson Hall arena. His professional excellence, above average junior-senior relationships ('92), and accepting stance on equal opportunity were all hallmarks of his Academy career. Firstie year saw him as a Form-2 machine, and a highly dedicated squad leader. From midshipman to confidant to co-conspirator, Jon proved himself a trusting, reliable friend. The gimp. Plebe summer did some trick on your leg. Still can't understand why you kept the top bunk. At least plebe year was O.K. Boy, the sweat was pouring your first day at squad tables (late October). We survived RJR + operetta, or should I say he survived us? Our only solace was listening to L.A. Woman, then youngster year came and we got a CD player! Midstore gold really made it easy to buy discs. Spr break in Florida- SB's sis, pitchers and pitchers of margaritas. Back to school- and the cutting board. Didn't know if you would play soccer (or be PQed). Through an amazing recovery managed 2 great yrs of V.Soccer (+1 fieldball). Your strength in the face of adversity (your leg, academics, Oneonta, Longwood, etc.) and your ability to overcome has been truly inspirational. Innate ability to find, or create, a good time- Philly. College town. Baja. How about some Rum and Whiskey in Cancun? **JRS**

Scott came to USNA as a recruited football player, with a girlfriend already in mind. He survived plebe year with a weasel and an eagle. A swift foot always cured the weasel of his flap. His youngster summer ladyfriend gave him a warm sendoff to the Gulf. Ac year he realized once is a mistake and twice is stupid with the football team. **T.R.'s** spoon. Spring Break, where is the car? Has anyone seen Scott? Take me home. One psycho is enough! Can anyone spare a vertebrae? Second Class summer-He saw the light. School brought him to Rugby. Doesn't anyone have a spare disc? Who's idea was the butter sculpture? You don't think I'm 21? The light of his life brought AT&T a valued customer. A third roommate? The South did rise again. Firstie year, EE revisited. Is that phone stuck there? AT&T stocks rise. Athens' (and her) gain is our loss. Good luck and fare thee well ST! TRO, CDM

"Big Daddy" spent as much time in front of the mirror as he did studying 4/c year (did great none the less). Our Sun. mornings spent seeing who could rack longer & still make formation. Running back in civies to make taps-we almost had to carry TO & ST. 3/c year-trips to AC(stop at the Library), hot-tubbing till dawn w/AG.WG-"Jeff, I think we should take them back now," "Not now!" Cadet Stimpy exploring the cosmos after taps. With Jeff as a roommate there was never a dull moment. From 1001 canadian geese traipsing through our room in the middle of the night to those three lovelies who worked for quarters. I'll sleep through my morning classes if you'll sleep through your's. "Hey Frank you know what you are?" Jeff's 1/c summer turned out to be a little shaky shaky, but he managed to hit the academic year hard, and the bars even harder."Jeff you should learn to chew your food more." It's been a great 4 years. JW AFU FJL

Toole, the Toole-ster,miester,box,shed. In a word, in a phrase, COMPUTER. Power Toole graced us with his presence after a short (3 year) stint with the Can do Force. Plebe year taught us many things, including how to break a leg 8 or 9 times and avoid the following combinations: Kev, tennis balls and bayonets; Chad and stairwells; and of course Tony and doors (I was really only holding him there). Youngster year brought new challenges, grades (what grades), Franny's (how much tequila?), dartboards, and running out of whiteworks (Mr. D. with the bottomless chit). Flame-on for second class year. Sweatpants. Did you get wildmanned during Army Week? Keep that tequila flowing at Guadala-Harry's. Firstie year continued, you were there for us anytime, anyplace, anyhow. Best of luck, we're going to miss you, and if you have any questions, PLEASE ASK! FJL,CDM,JRS.

Andy came to the Academy from the fine state of Delaware. All smiles, he soon adopted the nickname of "happy plebe." Sunday mornings were spent at church...in Delaware. The only frown on happy plebe's face came after a day of the bottle at Sandy Point. His chow call fell from 3-4 and splattered on Goat Court. A clock still goes DING. With youngster year came the discovery of Cisco and a love of the rack. Sailing regatta's were a blast. Nothing like free drinks. No one can forget the time in New Orleans over second class summer. With second class year came the responsibility of finding ingenious hiding places for dirty laundry, continuous advise from big brother Byrd, an honorary new roommate, LN, and Jen, a whole year of Jen. First class year brought a plunge in the tow tank, no more Jen, and new found friends at St. John's. Follow your nose, it always knows. JW JT

Four years by the bay = "Whose bags are these? And the tennis racket?", baking powder, room rumbles, RTM, "She chewed tobacco", plebe quarters quarters and no belt, "Why do we do this?", G'town and Sally, Duke, Plump the fag, Sunrise Swords, the morning mess to clean up, "You're lucky Lum", and late night recordings. 3/C year and a room with Red, piled clothes, Bullets game, "all those swwweaty peeeecople", flapping, "Yeah right!", the Friday shows, the walk toward darkness on 3-3, and an impressive new invention, the mirror. Tough business ventures and cars - the jeep, MG, t-shirts and dirtbag softball. 2/C year - Road trip to Houghton, the train bridge and a rope course, tough times, but squawk. 1/C year - better days, a triple on 8-0, more late night stories, and long weight room hours. A true friend and a great time. All the best. Keep the faith and don't ruffle too many feathers. AP, CP

Weed is the most talented man in the brigade. Just ask him. With all his talents, he is most likely to win a talent contest with his imitations with acts like the dead squirrel, the fruit basket and the brain. He is the Commander-in-Chief of our room. Don't let his baby face fool you! He is the oldest man in the Brigade. With age comes wisdom, and his opinions and advice flow constantly (even if you don't ask). Without a doubt, of course, the only major at the Academy is English. He marched the company on the drill field in place of the Co Cdr as the first semester XO and did an outstanding job. He truly is musically gifted. He can play the guitar, piano, and sing (at the same time). He is the king stud in 7 Card Stud. As a member of the glee club for four years, he joined the Skiv's in 91 as "Schmooze." Sorry ladies, your too late he's off the market. Please, wash your shirt! **Ramrod and O.B.**

Joe's a guy who's sensitive about his body. He loves going thru phases: working out, not working out, buying, selling, etc. I saw Joe at NAPS and said "That dude hella looks Korean." R.J.F., A.P.B., & B.J.B., remember the prir out of Joe's names. Plebe year he was stealthy w/some help from m blunders. Complaining about his legs being 2 big, he ran everyday, but hi legs didn't change. His T.C. got smaller. 3/c year, T.M. coined "Yuuuuuuuu" which was used to call Joe. T.M. also made up "Smilin' Joe" because of hi hardness. 2/c year Joe had 2 experiences he'll never 4get; the Prelude 2 g skiing, and the I-Ball, thanks 2 me. 1/c year we were roomies again. Than to J.Y.P., he worried about his typical T.C. and tried 2 get it bigger by doin, squats. Joe's a true friend that can be trusted and depended on. Jason came out of the woods with the hope of returning to them. (Yaarch) "Does that include trail mix?" Where are your classmates -- would it bother you if I said P.T.? So tell me, do you salute a naked man? And he changed his name to Mohammed... 3/c Year--the spring episode with Jack and that rugby playerette (you really shouldn't mix drinks and large women). Second-class year saw Detail, then EE. Study, study, study...Dog-zebra. That's okay, your car was in North Carolina anyway. Dark Ages with Lisa -- "we have so much in common." Against better advice, off you went to the Dance with her -- "Are you okay?" I didn't know that New Carrollton was so close to the Academy. Firsties -- finally. The dream of the woods was replaced by the call of the sea -- it's about time. Off to Coronado, I mean Newport (unlucky). See you in Cali, for a while at least. GAE,SJM,WRW

Sky, Sea, and Skiing - need I say more? Got Minibuds, Got your double-whammy ParaScuba chest candy quals pretty early, especially after all those practice rack-jumps, at the expense of your foot. You and racks didn't mix too well, especially when you went down in round 1 of the Famous vs. Z-man bout. Distinguished 2% club member, faithful to the Rox through thick and thin from day one of plebe summer. Ah, the life of a monk! You went skiing so often, you probably had tabs on every ski area within 4 hours. Couldn't believe you could fit those 195's into your monster vette, could you? Risk and frequent lifting breaks (with the 'Motivator') helped keep you sane through Physics, French and AC duty. Have fun playing house with Roxy in PAX, JAX, and PCOLA, and dominating Flight S. Of course tennis seemed to keep him out of company area most of the time. S1 180 was a trip (...and you should have seen the women). Youngster summer was great. "Hey Kev... lets go for a run...Gimme that...Uh...Give me a heart attack why don't ya." Youngster year saw the three amigos making their first (although regrettably not there last) trip to smoke hall. Second class summer is better left forgotten. How are those jellyfish scars? A long, strange trip its been! On the rocks in Newport to compiling an evergrowing list, more than imagined in 5 short, yet eternal, years on the water. "Formation flying" in Bermuda to the BVI twice; disaster on the Turnpike to Medalla on Gilligan's Island, PR; singin' with Foxy to smokin' with Capt. Tony; exploring the shores of Watagua to diving Painted Caverns; 1-1 sunsets to 21 hours in a single "puff"; my first spin on an FJ learning halyards and jibs to knocking around buoys in 48 footers; Matt's diving to chartering; Frick to Frack; start to finish the most memorable times have been Matt's. Good times and riches and son-of-a-bitches, we've seen more than we can recall! Yet diving Belize and Saba to riding Harley's to Key West; hiking the Appalachian to Cape Horn under sail; now until we finish that damn list; Matt, there's still so much to be done! "Eedge" was a local boy who came to USNA to compliment his alternative lifestyle. (Skate for life, dude!) He made it through plebe summer almost completely unnoticed. He had a great plebe year despite a near brush with expulsion. What was her name? After spending youngster cruise as water boy for the Midway fire, "Pigpen" spent youngster year trying to rekindle fires with old acquaintances. One gave him "bore" than he bargained for. Spring Break brought prairie fires and PAO with MLA. Second class summer was spent shooting pistols and jumping fences at USNA. Academic year brought a brief stint in a 3 man that became 2, with a little help from the honor concept. Firstie cruise was the Bandit's experimental time, but he found out what he wanted in the end. After a semester as battalion janitor, he met the love of his life and took up photography. P-Cola is in for it. Best of Luck - BUB.

J.B. came to Land of Oz from an incredible hot spot: Indianapolis, Indiana. Not one to be impolite, he fearlessly displayed his enthusiasm to immediately become acquainted with his upperclass. "Permission to shove off, sir?" Poof! Immediately, J.B. set the Systems world on fire, while embarking on the great quest to become an NFO. Youngster year was occupied with academics and the woman that he would never marry?! "Sure, John." Then came the big switch to 36 after 2/C summer. Wooosh!! From this point on, J.B. was destined to spend long hours working toward his goal of being the kinder, gentler, more understanding, and, definitely, more professional naval officer. Where to begin? Plebe year! You had that cute, innocent face, and that big brother to protect you from danger. Who would have ever guessed that sweet boy would mature to the sensitive stud you are today. Many of women cried themselves to sleep at night because you so diligently turned them down, or should I say off. One, however, stands among the rest-- 1/c year, Green Turtle. Of course, that had nothing to do with your intoxication level, which I might add repeated itself quite often: (broken thumb, sleeping on the floor so the room wouldn't spin, praying on 8th wing grass with G.C., etc.). We had some pretty good times though. How about those waitresses at BAHHA, and our lazy afternoons at the golf course, or more commonly, our racks. Who would have ever guessed you would go Air Force. Coop came to us from Toledo, a second-generation Annapolis man. As a plebe, he joined the sailing team (BOOM!) and set chow call records for RJ. He spent youngster cruise constantly in port living the good life. During the academic year he spent most of his time fighting CALLME and DIFFEQs, but it was not until we were second class that Coop knew what he really wanted - to race the Iditarod. For the magnificent post dining-in party at Harry Brown's, the Coopman demonstrated to all that a strong will could overcome a strong urge. But, who could ever forget the visit of the premier Russian at the time? Coop won't. Coop's Infiniti won't either. You just have to watch out where you park nowadays, even though it may be a perfectly legal space. But, Alaska is waiting, and Coop is waiting, and the dogs are just watering at the mouth!!! Big Al came to us via Tulane and Nuke School. After a summer of holding hands with his roommates, he accelerated into the world of academia. He showed an addiction for DiffeQs, taking it for two bonus semesters before kicking the habit. Most of his summers and after school were spent sailing the Seven Seas (going so far as to steal a boat in order to win the Frostbite Series, and a lifesaving effort during first-class summer) or mysteriously going out in Eastport donning his black leather jacket and driving his 'blue bomber' automobile. As always, he struck out on his own, choosing to go to Japan to the DD-991 Fife on what surely will be a successful career. Just remember, "It's better to beg forgiveness, than ask permission." Pete arrived at USNA after 2 yrs of long-haired hippie life at ST. A's. Plebe summer found 'Dufe' up before the sun, razor in hand. His good nature, and easy temperament breezed him through Plebe year, earning him friends Brigade-wide. Crew came and went but gave PD a work-out ethic that rivals Arnold's. PD spent all 4 yrs with RS as a cell-mate and they quickly ridded USNA of a Cali geek. 3/c year PD took a bold MAC flight to Bourbon street for a weekend of revelry w/ JH & RS. PD's patience showed as he was able to carry RS back to the car & track down a missing JH. Trips to Boston became more frequent and we all knew that PD was up to something. We were all pleased to meet 'Jule' whose great personality easily matches Pete's. PD's skills soon awarded him command of 36, at which he excelled. He looks forward to marriage with Jule and life in Charleston. It's been great-GL-RS-JH.

Doug came to USNA after a hitch in the real Navy, minus one real tooth. The transition from country to city was a bit rapid. "No one wears boxers, no one parts their hair on the side." Little did he know, there was life outside the basketball capital of Ohio. Plebe year saw him with a high and tight, a few girlfriends, a scare from the fictitious HMI Rodriguez (and more tricks from his jerk roommates), and the start of academic frustration ("Factor, STUDY"). He was the company officer's pet. 3/c year he let his hair grow some and racked very little. 2/c year brought the portly, prior, psycho fiancée. At Army-Navy he was almost shot and then had a run in with Air Jordan. 1/c year came DJ Doug, a free ride in a paddywagon, dumpage of psycho, and getting his new girlfriend all choked up in Griffins. He spent free time in the blue skies over Penn and in the spring, began the relationship with his Z which would keep us entertained every Sunday night. As we turned into the home stretch of first-class year, Captain Tim switched to auto-pilot. He spent Christmas in Key West proudly earning call-sign Chummy and as the dark-ages finally came to a close, Duke could only be found where they do the El Paso. That summer, LHA love came to the forefront, but we know he is "a cold heartbreaker fit to burn and he'll rip your heart in two, and he'll leave you lying on the bed..." First class year brought the end of the engagement (told you so) and the beginning of the He-man attitude. It also brought the weekly pilgrimages to the place of Pete. "The Stein" came to us from the north proving that his eyes were bigger than his stomach, which couldn't quite fill a water pitcher. Plebe year gave him a claim to fame when Captain America caught him with his pants down. Youngster cruise found Jamie hanging off the back of the "Dandy" all the way to Nantucket. "The Shacker" returned from youngster cruise to Captain McHappy who knew his alpha, but not his name. "933234 - your stuff is all over the basement." After an uneventful summer, "Shacker" used USNA as a base of operations for his assaults on Trinity College. Spring Break '92 brought "Shacker's" reign to an end, as he entered into a torrid romance that would drive him to Hawaii. "The Stein" returned first class summer from a "shakey-shakey" good time in Sri Lanka. Firstie year brought a debut to the Supt's list with no work and all play. Hawaii will be an adventure. Bill arrived at USNA a highly recruited master of debate. He had the genes to succeed—his father a Harvard grad and former NFL scab player and mom a former pro cheerleader. (C.S. will tell ya) Bill had the looks that could break hearts, or stop them—literally. The good ol' days of leanness, jv lax, and plebe rate competitions soon melted into the days of Griffin's, 400 oz. weekends, and ultra-tightpants (size 40!). We're not fat we're husky! Bill put his talents to good use though in humiliating some salty lymies in his favorite pastime. He's decided to abandon his musical career after his philly nightclub debut for a life at sea. Academics were a roller coaster but Santa Campbell came through, and Jon survived plebe year. Youngster year saw a Scuba bubble, polo, and another ride on the roller coaster. Kalme for an 'A' changed to call me for an 'F' and Jon got to see the Admiral up close for the first time. Not to be discouraged, he even ventured back a second time. After a slight scare, which was resolved the next morning, Jon was back for good. Second class year brought heated debates with the fascist from Missouri, and the equally rabid company officer. After having previously served in a "small" unit in the USMC, Air Wing made a little mark on each of our lives plebe summer - especially O-man's. "Mom, this is the boy who's trying to kill me." Plebe year brought fame and fortune as he harpooned three beauties and got into a pie-throwing contest with JR. Football season brought cadences and anchor-man with Notre Dame's best. Spring break with Ductus was a first-class time with third class transportation. "That thumb really does work." During this year, he learned the skills (formation dodging, class dodging, white works, no shave) that would carry him through his next four years. Stevie Ray came to us from the city of "da Bears" and had a relatively quiet plebe year, except a shaving problem, sleeping through plebe quarters, and the infamous Beat Army split. Youngster year -- two-man room (with much excess steam) and a woman in Indiana. Second-class year saw the quotation list and its late-night entries, Thursday night study marathons, Dog-zebra on Friday, LOTS of coffee, and the arrival of the little Megger. Second semester brought the "Mathews Weekend" with Debbie. How much was that class ring? That summer claimed the acrobatic Corvette (but at least the Sox cap was okay), and quality time with the future Mrs., minus Sage. Firstie year - second Vette experience with an immovable object, second Mathews weekend, the big commitment -- study frog says punt! Squeezed through medical and all clear to dive -- good luck and good hunting. GAE,JYA,WRW

Polack came to USNA from Buffalo, via NAPS, on a full lax scholarship."It's great when you can take a kid out of Buffalo so he can play lacrosse in Maryland." Plebe year brought the start of his success in lax. He rewarded himself with a trip to Steerage and one to McGarvey's. Upperclass years brought an academic scare ("It's so scary it's fun"), endless practices, 3 Bills Super Bowl losses, a minor in summer school, blurred nights at Griffins, a receding hairline ("I get it cut this way"), stories only C.S. would believe, and a fiancée ("just for the summer"). He survived it all, though, with a lot of class. Now, as the eyes and ears of the GIUK Gap, Matt will be propelled into a position of national importance, as he prepares for the next rise of the Great Polish Empire. Good luck in everything and when in doubt, emulate me...WWJ

"Bub" came to us from backwoods Michigan via Big Blue. His plebe summer claim to fame was spending too much time in the Hotel until rescued by CAPT America. Ac year was the start of Bub's battles with hi-rise trou and a receding hairline, not to mention a Floridian roommate. A certifiable sponsor didn't help him much and that must be why he let the VA Techie slip away. Oops! Youngster year saw him persecuted by two lax-type roommates and transform into a country boy. Second class summer brought some Texas oil (almost) and fun in the sun. The ac year opened with two roommates that dwindled to one after some Ac log follies. First class summer saw the awesome responsibility of a YP in his care. The final year witnessed the expansion of his country collection as well as his trou seams. Parking the Saturn wasn't bad except when EJ helped. Sponsor's kids and sisters. To Newport. Fish on! -EJB

Air Schrodaire came to us from the heart of the deep South with an open mind and his eyes full of idealism. During Plebe Summer, Rob learned quickly how to win friends and influence people. Singing in the shower was his specialty and as Plebe Year progressed, it soon became apparent that it was Rob's way or no way. Disco Shea loved him anyway... even when Rob convinced him to go home. Youngster year brought a 2-man room and new freedom but no relief from his long-term nemesis...the PCR! Being squared away finally paid off as Rob's excellent attitude earned him the world's greatest fall from grace, going from Batt. Cdr. to Asst. Drill Officer in one semester. Always the Man with the Plan, Rob's greatest success has to be youngster year's debacle in New Orleans and his example of slow drinking! The Marine Corps will never be the same again. You've been a great friend Rob! Good Luck!-PRD

He's a legend. A man lured by the call of the sea, dedicated to celebrate each day with a party, a tailgater, or a buddy with a bottle of Nassau Royale. Women and water are his specialty. Like the Mako shark; strong, fast, and smooth (No hair either) he feeds effortlessly on any beautiful prey that swims within his reach. Smart enough to be a NARC and talented enough to play every position in Div I football. He's the Jolly Mon, known for his pig roasts and his relentless friendship. Franny's is to him what Cheers is to Norm. From the bars in Newport to the shooters with Larry, from the slopes of Maryland to the deck of the Fire Eagle in Nassau Harbor, from South Street in Philly to the banks of Snake Creek, from diving in Bimini to passing out at College Park, he's a legend, pure and simple.. a legend. Give us a call Kev when you're ready to start up that bar in the KEYS! RTM & EJA

Ches (as in the Game) arrived via NAPS under the assumption that all girls were as playful as the 260 pound mama's boy. Eventually, he was placed on probation for his hands on approach. His lines were just as smooth. After a setback 2/c year, he nearly killed his roommates before springing a leak in his rack. At Army-Navy he made his bid for the Heisman with a key fumble recovery but lacked the pose needed for publicity. He always took hard to academics, always seen with his bookbag and on the run ("Gotta quiz, gotta go!"). This big teddy bear could sweat more than he could drink. Always one to take in constructive criticism (barber shop). 1/c year brought the crash diet. He went from weightlifter to weightwatcher. ("That's unnecessary fat!"). Once a free, roaming hound, he's now on the porch with a short leash. Get ready for the Annapolis/Athens Express. Eat something. MJP, BMR, WWJ

Well, Chunky, What can I say? I've seen you grow as a person over the last four years-- pound by pound. I'll always reminisce over lost afternoons spent in the rack, dreaming of the pin-up girls scattered throughout our room, drooling over God knows what, maybe that eternal question, "What does a penny taste like?" Tomorrow we'll meet as old men and discuss bygone days. Did you ever marry that girl? and, how's that old guy doing with the broken ribs? But today, we can live...and drive fast in our bitchin' red Camaro, just turn-off that noise. What about your homework? Don't worry, just enjoy the ride. O.K., if you drive and babysit. DSB & GHC, put those away. We gotta go. GHC-- Let's get outta here! Don't look. George! He's got a gun! Police officer, help! Before goodbyes, some words of wisdom: Chew Your Food. Punch that clock and don't look back. Enjoy Mayport, or is it Jaifa? Friends - DSB

After a year of fattening up at NAPS, this local boy came ready to make his mark on the institution. He ate his way through plebe summer while helping his roommate with his nametags only to help him leave two years later. Ed always had a soft spot for roommate loyalty - right Wags? After crashing and burning in football and H2O polo, "Injin' Joe" found his place on the Ltwt crew team - Tag, you're it...come by and see my rulebook...flutter kicks on g.c.. the Red Man...back of the bus rides...how much was that deadlift?. Notre Dame found him holding up a wall and filling up holes while handily whipping 4 guys in anchor-man. Ed survived youngster year with only a couple of brushes with his O-Rep. 2/c year, Ed kept the flame alive (TTB) in 25, while trying a new major. Firstie year meant a transfer back into our lives. Wags arrived from the heart of the Midwest with his bugle and a talent for Taps. Billy-Bob also supplied us a great a capella tune for the trip to the rack. There was the spring trip to the real coast, which rounded out a quiet first year. Youngster year - the emergence of the x-week clam (ummp!), which still couldn't save him from SP 422. Second-class year brought the x-week hermit and the continued gungy cut (yeah Corps). But, Bulldog took care of all of that. Does Rob really s#\$\* in the woods? First-class year was where all the action started -- sliding in under the tag before taps, staying out all night on the weekends (must be a woman). Maura (with the help of SJ) got Rob's attention by picking him up at the B-ball game. We're sure the roads in Penn were blocked -- at least something was blocked. Best of luck with the Ferry, see you in SanDog. JYA,GAE,SJM.

Snake came to us from backhills R-Kansas; God, it was good to meet a fellow good-ole boy! Plebe year brought a heart (bottle?) stopping time with Hendu at St. John's. Jake got his feet wet in the plebe harassment program youngster year; 2/C year put him in the driver's seat, where he stayed even through 1/C year with his leper care society. Dumb move boxing Ambulance Care Karl, especially with a 22-lb advantage, the wrong way. You won our admiration by sticking faithfully to the Aviation Eyesight Conservation sleep schedule, then waking your roomie at 5:20 in the mornings to P.T. and then play C.S. Nazi. Ring resale didn't turn out to be your calling, did it? How about Bubbette and your favorite forklift driver? Is everyone still outta your league? Glad I never sold you that \$10 quarter before service selection. Catch up to you at PCOLA. Best of luck in the Corps! - MMH, DWS

*Jay Karl Zollmann*

*Marine Corps*

Jay was born and bred from some backwoods tract of land near St. Louis, deciding at an early age that he wanted a career that would allow him to kill things- he shot his first squirrel at the ripe age of five. The Marines seemed the next logical step. Jay (a.k.a. Soul-man, Riggerhead, or just plain Hick) is the only country music fan I know of who liked it before Garth Brooks hit it big, but the real surprise was that he used to be a Metalhead (the only kind of music) his first two years "by the Bay," AxI Rose being his hero at that time. In all my fights with him, we always seemed to come to the agreement that he was a Southerner. All in all, the Corps will like him, and they'll probably be dumb enough to send him to D.C. where he can do some real damage. Semper Fi, J.K.; stay Republican, and don't punish any more of your roommates. Always, Haagen-Dazs

The Class of 1993 wishes to express its deepest sympathy to the family of Jeffrey Warren Mascunana who tragically passed away before Graduation. He was deeply appreciated and greatly admired by all those who had the pleasure of knowing him. His memory will live in our hearts and minds forever. We will miss him always.
